Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 4424, dated the 16th November 1912, from the Revenue Commissioner in Mysore, forwarding the following letter from the Deputy Commissioner, Mysore District, reporting on the Cattle Show held at Chunchinkatte, Yedatore Taluk, in January 1912.

I have the honor to submit herewith correspondence ending with Mysore Division Assistant Commissioner's Memo No. 257—2054, dated 5th September 1912, regarding the cattle show held at Chunchinkatte in January last. It will be seen from the above that there was large concourse of people, that satisfactory sanitary arrangements were made, that there was no outbreak of cattle disease, that 280 cattle were exhibited at the show, that 27 prizes amounting to Rs. 200 were awarded, that the total income from all sources aggregated to Rs. 4,545-2-0 against Rs. 4,728-13-11 in the previous year and that the total expenditure was Rs. 200.

The system of levying fees on cattle and of ground rent on shops by Government agency was found to be working not very satisfactorily and consequently the right of collecting the above fees was sold by public auction and it fetched a sum of Rs. 4,042.

REPORT OF THE CHUNCHINKATTE JATRA AND THE CATTLE SHOW FOR THE YEAR 1911-12.

I. The jatra for the year began on the 10th January and continued till about the end of the month. The people gathered for the jatra were estimated to be about 20,000. Public health was good and the jatra passed off quietly and happily without any trouble either to the people or cattle. No cattle disease of any kind appeared in the *Horimala* and it gave great consolation both to buyers and sellers of the cattle.

The Sub-Division Officer, Mr. N. Madhava Rao, Police Superintendent Mr. Ranoji Rao and District Health Officer Mr. B. Krishna Rao were present and attended the cattle show.

The Cattle Disease Inspector was unable to attend the jatra this year, though a reference was made. Perhaps he had more urgent calls elsewhere, one Veterinary Inspector was however present.

Professional men were not able to attend the jatra and deliver lectures this year on agriculture and other allied subjects for the benefit of the raiyats that assembled in the jatra, but Mr. Ranoji Rao, Police Superintendent, in a brief and instructive speech very kindly dealt upon the several advantages that are derivable from the jatras and the cattle show of the kind.

There was a large number of selected cattle brought to show this year. The judges appointed for the purpose examined and tested the cattle with regard to their good qualities, march, etc., and the prizes were awarded by the President, (Sub-Division Officer).

From the list enclosed it will be seen that so many as 27 prizes amounting to Rs. 200 were awarded. The cattle that won the prizes were of various breeds as detailed in the list.

Necessary arrangements were made to picket the cattle and to leave the carts in the *Horimala* which was divided into blocks. Sufficient space was also left for the cattle to pass freely. The roads leading to various blocks together with the blocks were kept clean.

The work of levying fees on cattle and ground rent on shops was hitherto managed by Government agency.

The system was a laborious one and involved much difficulty. All the officials of the Taluk office, the patels, kulvadis, were employed to levy fees and the work of supervision, however strict it might be, was not wholly satisfactory.

The matter was simplified this year by the adoption of the system of giving out on contract the right of collecting fees both on cattle and shops.

The system which was kindly approved of by the Deputy Commissioner resulted not only in diminishing the trouble and unnecessary work in managing the affair, but resulted in bringing increased revenue to the temple.

The total revenue collected was Rs. 4,525-2-0 in all against Rs. 4,728-13-11 in the last year, but the last year's income included the expenditure of granting commission to the officials, *viz.*, Rs. 335. So, there was slight increase this year in the net income to the temple.

The revenue for the year consists of the items shewn below :—

Items	1910-11	1911-12	Remarks
	Rs. a. p.	Rs. a. p.	
(*a*) Fees on cattle	2,676 14 0	} 4,042 0 0	Deducting the expenditure Rs. 392-14-0 in the year 1910-11, the net income is Rs. 4,335-15-11.
(*b*) Ground rent on shops	1,505 10 8		
(*c*) Realization from golaka	130 1 3	98 2 0	
(*d*) Sale of manure	410 0 0	405 0 0	
(*e*) Sale of unserviceable articles	6 4 0	.....	
Total ...	4,728 13 11	4,545 2 0	

As regards the collection of ground rent by the contractors, there were some complaints from the petty traders to the effect that ground rent was indiscriminately levied. The complaints were however enquired into on the spot and the matter settled. No doubt some difficulty will be experienced in this matter but the method of fixing definite rates of fees for different kinds of shops will, I think, settle the question satisfactorily. Necessary efforts will be made this year to fix ground rent with reference to the space given and to the kind of trade carried on. Necessary arrangements should also be made to locate each kind of shop in a particular locality.

Sanitation.—The arrangements about sanitation were satisfactory but as the congregation of the people increases year after year, the amount sanctioned by the District Funds, *viz.*, Rs. 100, would scarcely suffice to adopt improved and effective methods of sanitation.

A reference has already been made with a view to utilize a portion of the jatra revenue for the improvement of the sanitation.

Police arrangements were satisfactory. Eight Reserve Police men were kindly deputed by the Police Superintendent as usual in addition to the Local Police. No crimes of any importance occurred during the jatra.

I cannot conclude this report without specially expressing my indebtedness to the Sub-Division Officer Mr. N. Madhava Rao, Police Superintendent Mr. Ranoji Rao, and the District Health Officer Mr. B. Krishna Rao, for the keen interest they evinced in not only guiding me but in taking active part both in connection with the cattle show, police, sanitary and other arrangements.

It is not out of place for me to mention here that my work of managing the whole affair without any trouble was due to the ready co-operation of the taluk subordinates.

No. 4446-9—L. B. 148-12-2, DATED BANGALORE, 21ST DECEMBER 1912.

ORDER THEREON.—Recorded, with the observation that the report was not submitted before the expiry of three months after the holding of the show as required by the standing order of Government on the subject. It is also observed that the report has not been drawn up in proper form. The Deputy Commissioner's attention is invited to para 8 of the Government Order No. 7007-24—L. B. 189-09-3, dated 22nd February 1911, laying down instructions for drawing up reports on Cattle Shows.

2. It is noted that the show was a success, the number of cattle exhibited this year being slightly larger in number than in the previous year.

M. SRINIVASA RAO, M.D., D.P.H.,
For *Offg. Sanitary Commissioner,*
Government of Mysore.

ABSTRACT OF REPORTS ABOUT INDUSTRIES IN MYSORE.

In connection with the industrial survey of the State a set of questions had been printed and sent to Amildars of all taluks for the purpose of collecting information about the different industries carried on in the State. A Special Officer has been since appointed to carry out the industrial survey under the Industries and Commerce Committee of the Mysore Economic Conference. In the meanwhile an abstract of the reports received from some of the taluks is published as it supplies useful and interesting information.

NOTE I.

CHIKBALLAPUR TALUK.

The information collected deals with nine villages of the taluk, *viz.*, Manchanabele Halgurki, Agalgurki, Mailappanahalli, Tippanahalli, Nandi, Kandawara, Sultanpet and Nayanahalli and also of Chikballapur Town.

Weaving.—Twenty-two families in Chikballapur Town, thirteen in Manchanabele, three in Agalgurki, two each in Mailappanahalli and Tippanahalli, one in Nandi and eighteen in Kandawara are engaged in weaving cotton cloths, while five families in Chikballapur Town and five in Halgurki village work with wool. Except the weaving classes of Chikballapur Town, Manchanabele and Tippanahalli, the weavers of other places follow agricultural pursuits also. Holeyas weave "duppatis" in Halgurki, while the Kurubas of this place and Chikballapur Town make kamblis.

ಹಲಿಗೆವುರ, ಅಚ್ಚು ಕಟ್ಟು, ಉಳಿ, ಕೊಂಬು ರಾಟಿ, ಕುಂಚಿ, ನಿಲುವುಲಾಳಿ ಕೋಲು, etc.

The marginally noted weaving implements are used. In Chikballapur Town each weaver weaves 4 to 6 cubits of cloth and 4 cubits of kambli in a day, while in Halgurki a weaver makes one bed sheet in two days and one kambli in four days. In Kandawara a workman turns out one rupee worth of work in a day, weaving 2 to 5 cubits of cloth.

The price in the taluk in general of a sari of 16 cubits length varies from Rs. 2 to 10, of a bodice cloth from 4 to 8 annas, and of a "duppati" from Re. 1 to Rs. 2 per bit of 12 cubits. The saris of Manchanabele in particular are valued at rates ranging from Rs. 3 to 10, and 15 to 50. The time taken to learn the art of weaving varies from three months to three years, no cost being incurred therefor as it is learnt from infancy from the elders of the family.

2. *Sericulture.*—About two hundred and fifty families in Chikballapur Town, twenty in Manchanabele and three in Sultanpet are engaged in sericulture in addition to agriculture. The necessary appliances are (1) a bamboo plate (ತಟ್ಟೆ), (2) a ಚಂದ್ರಾಕಿ (of split bamboo) and (3) a ಧಿಕಿ, the whole set costing about Rs. 30. The mulberry required for rearing silk worms is either grown locally or purchased from adjoining villages or brought from Magadi. The cost of raw material is said to be Rs. 30. In Chikballapur Town four male coolies rear 25 measures of cocoons of 13 seers per measure in one month, while at Manchanabele only 10 measures are reared in that time. Each measure is sold at Rs. 4. Sericulture can be learnt within three months and nothing has to be paid for tuition in it. Four persons engaged in the work, get Rs. 60 a month clear of expenses in Chikballapur Town, while Rs. 8 or 10 is the income of a similar workman in Manchanabele village.

3. *Silk reeling.*—Thirty families in Chikballapur Town and three in Sultanpet work in drawing silk thread out of cocoons. The raw materials are purchased either locally or from adjacent villages at a cost of about Rs. 20. The implements required are a bamboo wheel with some other articles made locally of the same material. The whole set costs about Rs. 10. One male and two female coolies draw about 2 to 4 seers of thread a day. Reeling silk thread can be learnt within a month, no cost being incurred therefor. Reeled silk is exported to Hubli or Dharwar and sold at Rs. 5 or 6 per seer. Each workman earns Rs. 6 to 10 at Sultanpet while his fellow worker earns Rs. 7 to 20 at Chikballapur Town.

4. *Carpentry.*—Two families in Chikballapur Town, two in Manchanabele, four in Tippanahalli and two in Nandi are engaged in carpentry. In Tippanahalli a Madiga, a Jangama, a Wodda and a Vokkaliga have adopted carpentry as their profession. Fifty rupees are required for raw materials. The usual implements* are required for their work. They are bought either at Chikballapur Town or in Bangalore and nearly all the tools are of English manufacture. The wood required is also got from Bangalore. The wages vary from annas 4 to Re. 1 and carpenters make an average monthly income of Rs. 15. Youngsters are taught the calling by their elders free of cost in the course of 2 or 3 years. There are also three families of sawyers in Manchanabele who earn about the same wages as the carpenters.

5. *Smithcraft.*—(1) *Goldsmith.*—There are thirteen families of goldsmiths (ಅಕ್ಕಸಾಲೆ) in Chikballapur Town following the profession of their caste. These earn from Rs. 15 to 30 with an average of 12 annas a day. There are three families at Manchanabele following the goldsmith trade of which one is a Jangama and the other a Satani. In Nandi also there is a goldsmith's family. All these are agriculturists in addition and do not live solely by the gains of the smith's trade. These people earn one rupee a day. A goldsmith (who is also a silversmith) gets about Rs. 1 to 3 for making a silver belt (ಡಾಬು) and Rs. 10 or 12 for an "Addike ಅಡ್ಡಿಕೆ." Very near two years is necessary to learn the art for which no cost is incurred.

(2) *Blacksmiths.*—There are seven families of this class in Chikballapur Town who live solely by smithcraft, while two in Kandawara and one in Nandi are agriculturists in addition. The blacksmith of Nagenahalli is also a goldsmith and has no other calling to depend upon for his maintenance. An ironsmith in Nandi and Nagenahalli earns about Rs. 15 a month, while at Kandawara he turns out Rs. 4 worth of work a day and makes an average income of Rs. 15 to 20 a month. Blacksmiths of Chikballapur Town build common carts which are sold at Rs. 40 per cart.

6. *Basket-making.*—There are thirty families of Korachas in Chikballapur who are engaged in trade in addition to basket-making. There are also eight families of Myadas in Chikballapur Town who work in bamboos, while there are two families of Korachas in Tippenahalli following basket-making in addition to agriculture. The special scythe ಮುಚ್ಚು and bottom block ಅಡಿತುಂಡು are the implements used by these men. The scythe which is locally manufactured can be had for a rupee and the bamboo required for the work is got from Bangalore or purchased in surrounding villages. Mats, sieves, baskets, winnows and cart baskets ಭಂಡಿಮುಕ್ಕುರಿ are manufactured and sold at prices ranging from 6 pies upwards, the last being priced at Re. 1 per basket. No cost is involved in learning the trade for which about six months' probation is enough. Each workman in Chikballapur earns from Rs. 7 to Rs. 15 a month.

7. *Oil-mills.*—There are seven families of oilmongers in Chikballapur Town who live solely by the profits of the profession and adopt the trade of their caste, while one family of Bedas and three of Bestas, both non-caste professionals, extract oil in Halgurki and Mailappanahalli villages respectively. These people are agriculturists in addition. All these workmen have stone-mills in which wooden poles revolve pressing oil from the seeds. The implements used are (1) revolving pole ಕೊಂತ, (2) a cross pole ಕೊಂತದಮರ (3) a cross beam, (4) crowbars and (5) chains. A pair of bulls is also necessary for work. The whole set costs about Rs. 200. Oil-seeds are bought in local fairs. Honge (ಹೊಂಗೆ) seeds are sold at Rs. 10 per candi. Two coolies and one oilmonger extract 3½ maunds of oil in a day. Honge oil is sold at prices ranging from Rs. 3 to 5 per maund, the price of all oils depending on the kind of seeds from which the oil is extracted. Each oilmonger earns about 8 annas a day.

8. *Shoe-making.*—There are three families of shoe-makers in Chikballapur Town who are traders in addition. Leather for shoes, etc., is bought either locally or in Bangalore in depôts. The cost of raw materials required is about Rs. 3. The implements used are of English manufacture and are also purchased for just about the same amount in Bangalore. A workman turns out a pair of boots or a pair of slippers ಚಡಾವು in a day and sells the same for prices varying from Rs. 3

to Rs. 5. The trade can be learnt in about three months, the youngsters learning the art from their elders without paying anything therefor.

9. *Pottery.*—In addition to agriculture two families of potters ಕುಂಬಾರರು of Halgurki, five of Tippanahalli and fifteen of Sultanpet are engaged in making pots and such other earthenware as ಹರವಿ, ಮುಚ್ಚಳ, ಚಟ್ಟಿ, ಗಡಿಗೆ, and pot rings for wells, out of the clay got from the beds of the tanks near their villages. These are sold both in the villages and in Chikballapur Town, at prices ranging from 2 pies to 4 annas. Pots for storing grain ಮಾಡೆ are sold at 8 annas per pot. The implements used are ಸಾರೆ, ಚಕ್ಕೆ ದಬ್ಬೆ, ದಬ್ಬಳ, ಕುಂಬುಸಾರೆ and ಚಕ್ರ. Each potter earns about from annas 4 to 8 a day. No cost is incurred in learning pottery as it is learnt from infancy from the elderly members of the family.

10. *Manufacture of sugar-cane mills.*—There is one factory in Chikballapur Town where sugar-cane mills are manufactured out of old cannon and waste metal bought from Government Stores. The machinery costs about Rs. 10,000 and 60 mill-hands work to prepare 100 mills in a month. Provided the engine works well, the income from the factory is about Rs. 1,000 a month.

11. *Rice hulling.*—There is also a rice hulling and refining machine in Chikballapur Town. In this factory six coolies can clean thirty candis of paddy in a day on payment of one rupee a candi. An oil-gas engine is being worked for the purpose. This machine cost Rs. 4,000.

DODBALLAPUR TALUK.

The information relates to twenty-six villages of the taluk in five of which no industries are practised.

1. *Weaving.*—There are two hundred and ninety-five families of Devanga people in the town of Dodballapur who live solely by weaving. There are also seven families of Patwegars, four of Padmasales and four of Kunchatigars in the town who have adopted weaving as their caste profession. There are also three Musalman families in this town who live solely by the gains of weaving. There are two families of caste weavers in Sivapura village, while four at Chikbelimangala, six in Kolagere, four in Tubagere, four in Dodbelimangala, twenty in Hanabe and three in Madhure villages are all of the Holeya caste weaving thick rough bed sheets. (ಹೆಚ್ಚಡಗಳು).

The weavers of Dodballapur town buy yarn in Bangalore, while those of the villages of the taluk buy in Dodballapur Town.

The marginally noted implements are used in weaving cloths.

Except the weavers of Dodballapur Town, the others in the taluk pursue agriculture as the main calling attending to weaving as a supplementary profession.

One weaver turns out 2 yards of sari in Dodballapur Town, while 2 or 3 Holeyas weave one bed sheet "ದುಪ್ಪಟಿ, ಹಚ್ಚಡ" in a day at Chikbelimangala and other villages, while in Tubagere a yellow (ಸಂಬಾವಳಿ) sari or kirige (yellow colored sari of cotton with red or crimson borders), is woven in 2 or 3 days whereas only 5 saries of the best sort of the value of Rs. 10 to 12 are manufactured in a month.

More than half the number of saries prepared in the taluk is locally sold in the town, the other half being exported to Tumkur, Arsikere, Harihar, Dharwar, Shapur, Belgaum and other places.

A cotton-bordered sari is sold for Rs. 2, and a silk-borderd one from Rs. 3 to 6 or even Rs. 12. A kirige or a child's sari is valued from Rs. 1-8-0 to Rs. 5, while a kana or bodice cloth is sold from annas 2 to 10, a bed sheet or hatchada being sold at Rs. 1-8-0 to Rs. 3.

Three families of Kurubas at Honnavara, two at Ramadevanahalli and five at Kodihalli weave kamblis or blankets of yarn twisted from wool collected from sheep in the adjacent villages, by means of a crude loom prepared locally at a cost of Rs. 5.

These people are agriculturists in addition and take to kambli-weaving only during their leisure hours, selling their goods at prices ranging from Rs. 2 to Rs. 4. Blankets or jadi (ಜಾಡಿ) as opposed to kamblis are made in Honnavara.

No cost is incurred in learning weaving cloth or kambli, as the trade or industry is taught by the parents to their youngsters. The average earning of a weaver in Dodballapur Town is from 2 to 4 annas a day, while in the villages 8 annas per diem is being earned.

2. *Dyeing.*—There are four families of Devangas in Dodballapur Town who dye cloth or yarn in addition to weaving cotton stuffs.

3. *Sericulture.*—This is practised by fifteen families at Gantiganahalli in addition to ordinary agriculture. The raiyats grow mulberry in their gardens and fields and rear silk worms at home in plates and labyrinths (or ತಟ್ಟೆ and ಚಂದ್ರಕೆ) of bamboo. A special knife is necessary for cutting mulberry leaves to be used as food for silkworms. Myadas or professional basket-makers make these articles at a total cost of 4 rupees odd. In 25 days, two people can rear 4 plates of worms of the first quality, the same being priced at Rs. 4 per plate, while the inferior lot is sold at Rs. 2 per plate. The cocoons are either sold locally or taken to markets. Rearing worms can be learnt in a week for which no charges have to be paid.

4. *Carpentry.*—There is one family of Kammarru at Sasalu, two at Melekote and one at Ramadevanahalli who are both smiths and carpenters. There is one Vokkaliga carpenter at Kadanuru. All these take to agriculture in addition.

A carpenter at Kadanuru makes common carts with materials worth Rs. 30 selling them at Rs. 35 per cart. A village carpenter earns from Rs. 5 to 10 a month.

No cost is incurred in learning carpentry for which a training of, from 6 months to 2 years is said to be necessary.

5. *Smiths' work.*—There are fourteen families of gold and silversmiths in Dodballapur Town. In Ramadevanhalli there are four families of gold and silver smiths, three each in Dodtumkur and Kadanuru, two in Syakaladevanapura and one in Honnavara, who follow agriculture also as a profession. Two of the families at Ramadevanahalli and Kodihalli are Kammars, while those of the other places are Akkasales by caste and profession, there being a Mahomedan goldsmith in addition to an Akkasale at Kodihalli.

Two families in each of the villages of Sivapura, Heggadahalli and Melekote and one in each of the villages Arode and Sasalu are of the Kammar caste doing blacksmith's work. There are five Mahomedan families and one Mahratta family, in Dobballapur Town and one Madiga and one Mahomedan family in Kadanuru who are doing blacksmiths' work. The other blacksmiths are of the Kammar caste and follow their caste profession in addition to agriculture.

The ordinary implements of the anvil, hammer, tongs, bellows, wedge, crowbar, and the brace are used for "kammar work." These are bought in Bangalore at a cost ranging from Rs. 50 to 100. Those of the gold and silversmiths cost from Rs. 15 to 30.

Customers supply gold or silver to smiths and get jewels made. A goldsmith earns 8 annas a day. The blacksmiths of Dodballapur Town and Sasulu earn 8 rupees each a month, while his fellow craftsman of the Madiga caste at Kadanuru gets only about Rs. 3 a month. The wages for making a plough-share is 3 pies and for tyring a wheel is one rupee. His implements are said to cost from Rs. 50 to 100.

No cost is incurred in learning the craft, as it is generally learnt from the elders of the family, in 1 to 3 years.

6. *Basket-making.*—Six families of Korachas in Rameswaram village and one Korama family in each of the villages of Marasandra and Kodihalli (caste not given) work in bamboo and prepare baskets, cradles, winnows, sieves and cart-baskets or (ಬಂಡಿಮುಕ್ಕರಿ). There is also one family in Madhure which practises basket-making. These people get bamboos either from the surrounding jungles obtaining a license therefor or from Bangalore. With the special scythe (ಮಚ್ಚು) and the wooden bottom piece (ಅಳತಮಂಜು) they prepare bamboos for work turning out 10 pairs of winnows or 4 pairs of baskets in a day, which they sell at 3 to 4 annas per pair in the surrounding villages. A ಬಂಡಿಮುಕ್ಕಿ or cart-basket is priced at Rs. 2 per basket.

No cost is incurred in learning basket-making, the youngsters learning the trade from infancy from their parents.

7. *Shoe-making.*—This is practised by one family in Ramadevanahalli, which follows agriculture as well. The leather is got from Bangalore. The necessary raw materials cost about 2 rupees. The art can be learnt within four months and a shoe-maker earns Rs. 4 a month.

8. *Tailoring.*—There are two families of Darjies (or tailors by caste) in Kodihalli and one in each of the Kadanuru and Madhure villages, plying their trade with scissors, needle and thread, etc., which cost not more than a rupee, the necessary raw materials being got from Bangalore. These people earn 4 annas a day, the wages for making a coat being annas 4, a bodice 1 anna and a cap 6 pies. The average income of a tailor is Rs. 5 a month. This is supplemented by their income from agricultural work.

9. *Tinning.*—There is one family of Mahomedans in Syakaladevanapura engaged in tinning vessels, which is done in addition to agriculture. The anvil, hammer, crowbar, tongs and bellows, etc., are the implements used in tinning vessels. The necessary implements are brought from Bangalore at a cost of about Rs. 6. The art of tinning is learnt from elders, without charge, in the course of 2 or 3 months. The income from this trade is said to be about Rs. 6 a month.

CHIKNAYAKANHALLI TALUK.

(*b*) *Cotton.*—Fifty families of Devangas at Chiknayakanhalli Town, three at Huliyar, one at Kenkere, two at Timmadahalli, eight at Yelanadu and ten at Handanakere manufacture cotton cloths, *viz.*, dhotis, chaddars and colored sadis with the help of the usual instruments.

The raw materials are procured from Bangalore, Huliyar, Budihal and Kanakatte. At Kenkere one workman weaves one sadi a week, at Yelanadu he turns out one pair of panches a day and at Handanakere a single workman turns out 3 cubits of sadi or 1 kerchief or 2 bodice cloths per day, earning thereby Rs. 3 to 6 per month. The finished articles are sold in fairs for prices ranging from Rs. 5 to 15 for saris, Rs. 1 to 1-8-0 for dhotis, Rs. 2 to 2-8-0, for chaddars, annas 2 to 4 for bodice cloth, from annas 12 to 14 per bit of kerchiefs. The price of yarn per packet is Rs. 5 to Rs. 5-4-0.

The art of weaving is learnt from the elders of the family in the course of one or two years for which no cost is incurred.

(*c*) *Woollen.*—Kamblis are manufactured at Yelanadu of wool got from the sheep of the villages in the neighbourhood at Rs. 4 for wool of 50 sheep. Some of the instruments used are those mentioned in the *margin. These are said to cost about Rs. 20. Each workman unhelped turns out one kambli per week which he disposes of in the Budihal and Huliyar fairs for Rs. 1 to 3 and earns about Rs. 10 a month.

3. *Carpentry.*—There are about ten families of carpenters in Chiknayakanhalli town, three in Huliyar, one in Yelanadu, two in Timmadahalli and six at Kandikere. All these are caste carpenters, with the exception of one family at Yelanadu and another at Timmadahalli and adopt agriculture also in addition to carpentry. They use the usual tools as the chisel, saw, hammer, adze, file, etc., which are said to cost from about Rs. 20 to 30 per set. Some of these men are house-building carpenters and earn from Rs. 100 to Rs. 200 per year, while others make up about Rs. 15 a month. The trade is learnt free of cost from the elders of the family or trained men in the profession or from the local Industrial School.

4. *Smiths' craft.*—There are three families of Kammars at Chiknayakanhalli, four at Huliyar and two at Kandikere following the profession of their caste along with agriculture and deal with the usual smiths' tools as the anvil, hammer, tongs, chisel and bellows, etc., prepared locally. They earn about Rs. 20 a month. A smith tyres 2 or 3 wheels a day. The craft is learnt from their elders free of cost within 2 years.

5. *Basket-making.*—Ten families of Myadas in the Kasba town, work in basket weaving as a caste profession, while six families of Koramas make plate-like baskets of toddy twigs in the Sorlamavu village in addition to agriculture. Myadas get bamboos from Bangalore or Tumkur and also from private gardens. These are worked upon by a special "ಮಚ್ಚು" or scythe valued at about a rupee. The "ಗಣಿಗೆ" or plate-like baskets are sold at 1 or 2 annas to the mining coolies of the neighbourhood.

This industry is learnt within 3 or 4 months without paying any charge therefor.

The toddy twigs necessary are got from toddy groves at a license fee of Rs. 2 for 6 months.

6. *Shoe-making.*—There are two "Mochi" families, *i.e.*, shoe-makers at Chiknayakanhalli following the trade of their caste. The shoes prepared are sold in the adjoining fairs and each workman earns Rs. 6 a month.

7. *Rubber stamp making.*—There is one family at Huliyar manufacturing rubber seals. Rubber, oil and other necessaries are got from Bangalore or Madras at a cost of Rs. 5 or 6. Rubber stamps are sold locally at rates varying from annas 2 to annas 8. Nothing is paid for learning the art. Learners generally attach themselves to rubber stamp manufactories on small pay or wages and come out of the firm able to do independent work in the line.

8. *Earth-salt Industry.*—There are three families in Hoysalakatte working in earth-salt manufacture in addition to being engaged in agriculture. For their trade they require the saline earth and water. The *marginally noted implements are used. These are got from Sira and cost about Rs. 100. The spade and pickaxe are the implements used. They turn out 2 pallas of salt in 4 days which is sold in the surrounding villages at Rs. 5 a palla. The trade is learnt in 2 years from the elders free of cost.

The parts of the loom and their prices are noted in the margin.* Only the ಹಲಗೆ is got from Hubli or Timmankatte. Others are locally made.

One man weaves 5 panches or towels or 2 ಜಬಣದ ಕಾಟಿಪಂಚೆ. If others join and help for (1) ಪಟ್ಟೆಹುಯ್ಯುವುದು (2) ಪೂಕೆಮಾಡುವುದು (3) ಹಣಿ ಕೆಚ್ಚುವುದು and (4) ಕಾಟಿಕೆ ಸುತ್ತುವುದು, one can work his loom. The weaver of Muguru carries on his work with only a ಹಣಿಗೆ and a shuttle which he buys at Hubli for Rs 8. Each workman is said to do 8 annas worth of work per day selling his tape in fairs at 2 annas per yard. The weaver of Moody sells his towels and panches at Banavasi and Sirsi for 4 annas and 10 annas a bit, respectively.

The trade is handed down from father to son. It is said that from 1 month to 1 year is wanted to learn weaving. A work man is reported to earn Rs. 8 a month at Muguru and Rs. 6 per loom at Moody.

2. *Carpentry.*—Carpentry is practised by five families in Kerehalli, two in Anavatti and one in Yelave village. These families follow the industry as a caste profession, handed down from father to son. Three families of Kerehalli village live solely by carpentry, while the rest are also agriculturists in addition. All these people are mainly employed in making agricultural implements. New common

carts are built old ones being also repaired. These people buy the necessary wood either from private owners or from the Government paying seigniorage, while in many cases the raiyat supplies his own wood for his ploughs, harrows, clod-crusher, etc.

The usual axe, adze, chisel, bellows, anvil, hammer, tongs, saw, etc., are availed of in their work. A few of these are locally made, while several others are bought at shops in more important places. The cost of a whole set is estimated at from Rs. 6 to 40.

One workman can make a plough or a harrow or a clod-crusher in a day. Common carts are sold at Rs. 40 a cart. For making agricultural implements the workmen get 600 to 800 seers of paddy a year at Kerehalli (at 30 seers of paddy per about 9 seers beriz), while in Anavatti a carpenter earns Rs. 60 a year on an average and 10 ಸಿದ್ದ or $\frac{10}{32}$ of a seer of paddy per ಗಳೆ. The wages for a seed distributor is Rs. 4. At Yelave village a workman is said to get Rs. 40 a year.

No charge is paid by a learner for tuition. About 5 or 6 years are said to be necessary for learning carpentry.

3. *Smith-craft*—There are four families of smiths in Sorab Town, two at Channapatna, a majara village of Nyamti, and one in Ulave village. The smiths of the latter village were once iron-smelters. They have now left off this work. Both the Smiths of Sorab, Ulavegrama and Channapatna are of the Kammar caste and follow smith-craft in addition to agriculture. The necessary iron or steel required for their trade, is purchased from shops at Rs. 2-8-0 a maund. The usual chisels, hammers, anvils, tongs and such other articles are prepared out of "Sikada" ಕಿಕ್ಕಡ iron, the whole set costing about Rs. 8 to 11. These people prepare also the scythe, the axe and other agricultural implements.

About nine people are said to be necessary for working at a smithy in Nyamti, Channapatna, and that the work is generally carried on only during 8 months of the year. All the articles prepared are sold locally to raiyats. The charges for making some of them are noted in the margin.

No cost is incurred for learning the trade or craft for which one or two years are said to be necessary. Each workman is said to earn about Rs. 3 a month, while at Ulave he is said to get Rs. 15 a month.

4. *Carving in sandalwood and ivory.*—There are eight families employed at this work in Sorab Town. These live solely by the gains of this art and belong to the "Gudigar" caste or sect. The requisite sandalwood is brought from the Government depôt, while the necessary ivory is got from the local merchant or sowcar. No family has kept accounts showing the actual value of the sandalwood consumed for this work or that of the ivory used for this purpose. The general estimate is said to be about Rs. 50 or 60 per year for both. The instruments used are (1) Chandrayudha (ಚಂದ್ರಾಯುಧ) (2) saw, (3) chisels, (4) plane, (5) squares, (6) augers (7) ಬೆಂಬ (8) ನವಕೊರೆಲು and (9) ಚಿಕ್ಕಗಳು. These are bought at shops and the chisels are locally made by kammars. About Rs. 25 are said to be necessary for these instruments. The work turned out by each workman per day cannot be ascertained. During exhibitions, shows, etc., work is done under pressure and orders are executed. The articles prepared are sold both to Government and to outsiders. The following articles are generally manufactured—(1) cabinets, (2) letter-boxes, (3) jewel-boxes, (4) writing-desk, (5) glove-boxes, (6) card-cases, (7) paper-cover, (8) pen-rack, (9) book-cases, (10) album-covers (11) picture-frames, (12) images of saints and gods, (13) figures of animals, (14) combs, (15) cradles, (16) bureaus, (17) mantaps (ಮಂಟಪಗಳು) and such other articles. The articles are valued according to their size and quality from 3 pies to Rs. 300.

The art is learnt from infancy, parents giving lessons to their sons, and the time taken to learn it cannot be stated with any definiteness.

Out of the eight families, four get Rs. 400 a year each, the others getting about Rs. 100 per family.

5. *Basket-weaving.*—There are ten families of Myadas at Hire Idogodu, five at Jadi and three at Nyamti-Channapatna, in the last of which the basket-makers are called "Gouri-makkalu" (ಗೌರಿಮಕ್ಕಳು.) These people are agriculturists in addition and obtain the necessary bamboo from Government forests or private holdings at Rs. 3 to 7 per hundred. The straight scythe or ಕತ್ತಿ is used in preparing the bamboo for making baskets, sieves, winnows, mats, for storing grain, cradles, etc. The scythe is made locally by kammars at Rs. 1-3-0. "Ambu" is also used at Hire Idogodu village. The baskets, etc., are sold in santes or fairs at prices varying from 6 pies to 4 annas and also Re. 1 per article. No charge is incurred in learning the trade as it is handed down from father to son and the time necessary to learn it is said to be one year. Each workman is said to get 4 annas a day.

6. *Shoe-making.*—There are three families of shoe-makers in Sorab Town who live solely by the profession. The necessary leather costing about Rs. 12 a month is purchased from local shops where also the necessary implements, such as the awl, the chisel, hammer, tongs, anvil, etc., are bought, the whole set costing about Rs. 10. One man prepares a pair of shoes in two days with some help. The shoes are sold in santes at Rs. 1-4-0, slipers Rs. at 1-8-0, and sandals Rs. at 1-4-0 per pair.

The trade is handed down from father to son. About two years' time is required for learning the trade.

Each workman is said to earn Rs. 7 a month.

The implements generally used are.—ಸಲಿಗೆ, ಕುಂಚ, ಕುಂಚಿಗೆ (brush) ಹಗ್ಗ (rope) ಲಾಳಿ (shuttle) ಜೊತೆತ್ತಿ, ತಿಪೆನುಳ್ಳು, ಪಣಿಗೆ, ಸಲಿಗೆ (wires) ಅಚ್ಚಿಗೆ, ಬೆವ, ಚಿಕ್ಕು, ಕಾಕ್ಕಾಜ್ಜಿ, ದಾಳ. The implements that the families have already in stock, *i.e.*, those which have been used by their ancestors are availed of, the worn out parts of the loom being substituted when necessary. The price of the whole set ranges from Rs. 10 to 12.

One workman weaves 4 yards of cloth and 2 of kambli making a profit of 4 annas a day. The prepared articles are disposed of locally. A panche is priced from 8 annas to 3 rupees and a kambli from 2 to 6 rupees.

No cost is incurred in acquiring the art, the younger members of the family being taught by the elders.

A weaver earns from Rs. 7 to 8 a month.

2. *Carpentry.*—Carpentry is practised by eight families in the town of Tarikere, while in the hoblies of Sivani, Lingadahalli and Lakkavalli there are one, four and one carpenter families, respectively. These are also agriculturists in addition

The wood required for carpentry is either bought from private contractors or from the Government depot. In Tarikere Town, timber can be had at Rs. 1-4-0 per cubic foot. The implements used for the profession in Lingadahalli and Lakkavalli are the chisel, hammer, sharpening-block, file, auger, saw, screw-driver and such others. These are generally bought in shops at a cost of about Rs. 30. Several articles of furniture are manufactured in the Lakkavalli hobli. Each workman makes one or two articles per day. Carpentry is learnt by youngsters in 2 or 3 years, from their parents without any cost being incurred. The earnings of a carpenter in Tarikere Town are Rs. 180 a year, Rs. 250 in Lingadahalli and Rs. 300 to 600 in Lakkavalli.

3. *Smiths' craft.*—(1) Gold and silversmiths.

There are forty-five families of these smiths, twelve living in Tarikere Town, thirty in Sivani hobli and three in Lakkavalli hobli. All these are Akkasales. The gold required for the work is obtained in Tarikere Town at Rs. 22-4-0 per tola. The usual implements, *viz.*, the stove, anvil, hammer, tongs, bellows, prints, types, chisels, compasses, are used in making jewels, the whole set costing about Rs. 35 to 50. Each workman turns out 3 to 4 simple articles in a day while those with artistic designs require more time to finish. It will take 2 to 5 years to learn this work for which no cost is incurred. A workman earns about Rs. 40 a month.

(2) *Blacksmiths.*—There are ten families of blacksmiths in Tarikere Town, eight in Sivani hobli and a few in Lakkavalli hobli. These are of the Kammar caste and live solely by the gains of their profession. The usual instruments as the bellows, tongs, hammer, anvil, chisel, file, etc., are used in their work and they are bought at a cost of about Rs. 40. These people manufacture agricultural implements which are disposed of locally. It takes one or two years to learn the trade for which no cost is incurred.

4. *Basket-making.*—There are ten families of Myadas both in Tarikere Town and Ajjampur village, while there are only a few in Lakkavalli hobli.

Bamboo required for basket-making is bought from Government forests or private holdings at Rs. 2 per 100 bamboos at Ajjampur and Rs. 4-4-0 in Tarikere Town.

The special scythe (ಕತ್ತಿ) and ambu (ಅಂಬು) costing about Rs. 1-4-0, are used for preparing bamboo for work. Each workman turns out four articles a day earning about 4 annas per diem. Sieves, baskets, winnows, cradles and boxes are prepared and sold at rates varying from pies 6 to annas 4.

No cost is incurred for learning basket-making by which the workman earns Rs. 8 per month.

5. *Shoe-making.*—There are six families of shoe-makers in Tarikere Town. Shoes are sold at prices varying from 1 to 3 rupees. No cost is incurred in learning the profession and a workman earns about rupees 15 a month.

6. *Pottery.*—There are six families of Kumbars in Baggadahalli who manufacture earthernware articles, at the same time attending to agriculture. The instruments used are "ತಿಗರಿ, ಕೊಲವು, ಕಲ್ಲು, ನೊಳೆ," the whole set costing about a rupee. Pots* of sizes, grain-rings (ನಾಡಗಳು) cover-plates (ನಂಬಕ್ಕೆಳ್) which are sold at prices from 3 pies to 8 annas and tiles, a thousand of which are sold for Rs. 4, are manufactured.

*ಗಡಿಗೆ.
ಪುಡಿಕೆ.
ಪುಂಗೆ.
ಗುಡಾಣ.

No cost is incurred in learning pottery for which about six months' time is required. A potter of this taluk makes Rs. 100 a year.

7. *Rope-making.*—Rope-making is practised by twenty families of Nagavangala and eight families of Kortikere villages in addition to attending to agricultural work. These people are Madigas by caste and are also Kulavadies of villages.

The outer "coir" or fibre of the tender cocoanut is purchased from garden-owners, made to rot in stagnant pools, removed after a time and hammered by wooden hammers and then twisted by hand into ropes. The wooden hammers cost about annas 2.

Two persons work together to make ropes. The ropes are sold in weekly fairs for prices ranging from 1 to 12 annas. Each workman earns about Rs. 6 a

month. No cost is incurred in learning the trade for which about 6 months' training is required.

8. *Gun-repairing.*—There is one family engaged in this work. Rs. 2 to 10 is charged for the repair of a gun.

9. *Horn-work.*—There are two families in Lakkavalli hobli who work in horns in addition to doing other work. The chisel, hammer and saw are required for this work. These are bought at shops and a few are locally made, at a cost of about Rs. 5 for the whole set. One workman turns out 2 articles in 3 days. Generally two people combine and do the work. These articles are prepared for wages and as such they are not generally exposed for sale. A man can learn the work in a year, no cost being incurred therefor.

As there is no demand for such work all the year round, but only for 5 or 6 months, the average income of a person engaged in this work is 5 or 6 rupees a month.

(4) Muttegere.
(5) Kambadahalli.
(6) Hanaganahalli.
(7) Satnur.
(8) Wommadahalli.
(9) Keragodu.

The information received relates to the marginally noted nine villages.

1. *Weaving.*—There are three hundred and twelve, families engaged in weaving in the villages, as per details in the margin. Kamblies are manufactured chiefly in Satnur and Wommadahalli. A set of weavers' instruments costs from Rs. 4 to 9. The following instruments are used in weaving kamblies, pulley ರಾಟೆ, brush ಕದರು, ಹಾಸುಮಣೆ, ಬೀಪು, ಕುಂಟೆ, ಕಾವತಟ್ಟೆ, ವತ್ತರಿಸುವ ಹಲಿಗೆ, ಕುಂಚಿಕೆ ಎಕ್ಕೆ (carding machine) and ಸಲಿಗ. Many of the parts of the loom are locally manufactured by smiths or carpenters. Wool is generally collected from sheep farmed by raiyats in adjoining villages. One kambli costing Rs. 2 or 2½ is returned as the value for the wool of 30 sheep. A long bit of kambli ಪಟ್ಟಿ is woven in a day, three such making one whole. The requisite woollen thread is reeled by a woman in 2 days. The finer kind of white kamblies ಧಾನಳಿ (dhavali) is also made. Two strips of dhavali are made in a day. Kamblies are sold in santes, while dhavalies are made to the order of local merchants, generally on advances received from them. Kambli is generally sold from Rs. 1¼ to 2¼; a dhavali from Re. 1 to Rs. 5 and jhadi ಜಾಡಿ or blanket from Rs. 2 to 5. Saris, dhotras and duppaties are manufactured in Halasagere, Chikkahalli, Muttegere, Hanaganahalli and Keragodu villages. All these are of the rough sort and are made by the help of the usual instruments as ನೆಯಿಗೆ ಹಲಿಗ, ಹಲಿಗೆ ಕುಂಟೆ, ಮುರ, ಅಚ್ಚು, ಲಾಳಿ, ಕುಂಚಿಗೆ, etc., most of which are made by the local carpenters. A workman is said to weave one sari in two days, one panche in two days and one duppatti in four days. One duppatti is sold from Rs. 2 to 3, one panche from annas 5 to 10 and one sari from Rs. 2 to 2¼. No cost is incurred in learning the art for which about 1 to 3 months' time is necessary. A woman weaver earns 4 annas a day, a male getting about Rs. 8 a month. The majority of the weavers take to agriculture also in addition. Two families in Halasagere, twenty-two in Chikkahalli, twenty in Satnur, twenty-six in Wommadahalli and forty in Keragodu, live solely by weaving.

2. *Sericulture.*—Fifty families at Mandya, twenty families at Halasagere, twenty-five in Chikkahalli and one hundred and twelve at Keragodu take to sericulture in addition to agriculture. This profession is not ordained by any caste

rules or restrictions. The people that take to this culture, buy silkworms from Channapatna and surrounding parts and raise mulberry crop locally, and rear worms using a bamoo plate and chandrike (bamboo labyrinth). The cost of these plates is about Rs. 1-4-0. It takes 48 days for a full crop of cocoons to become fit for the boiling pot. A maund of cocoons is sold for Rs. 12. It takes about a month to learn the several processes of rearing silk-worms. A workman earns from Rs. 8 to 12 a month. No cost is incurred in learning the profession.

3. *Carpentry.*—Carpentry is being followed in the first six villages noted above, there being no carpenters in the last three. There are eight families at Muttegere and six at Hanaganahalli who are both smiths and carpenters. There are about nine more carpenters in the other villages. Some of these are engaged in preparing agricultural implements and some others make house-building materials. Agriculture is also pursued by them. The usual tools are used in their work, the whole set costing about Rs. 25. The raw materials for their work are generally supplied by raiyats. A workman turns out one rupee worth of work in a day. If there are sufficient men, five ploughs can be prepared and the wooden frame-work for one ankanam of a house can be fitted in a day. Agricultural implements are made in return for the *mirase* given. Wages are paid for making building materials, etc. A common cart is charged at from Rs. 40 to 50. If the materials are supplied by the raiyats Rs. 10 is charged for making the cart. No cost is incurred in learning the trade and about a year is required for learning carpentry. A carpenter earns from Rs. 12 to 15 a month, or 3 to 5 candies of grain and Rs. 15 to 25 a year. The instruments used are bought at shops.

4. *Smiths' work.*—There are seventeen families of carpenters who are also smiths, and they are generally engaged in making agricultural implements such as spades, plough-shares, axes, scythes, etc. The usual instruments bought at shops are used in making the above articles. About 20 plough-shares are sharpened in a day in addition to other implements. In return the raiyats give "*mirases*" of about 2½ to 3 khandies of grain. As usual no cost is incurred for learning the craft, for which the time required cannot be fixed as it is learnt from early age.

Gold and Silver Smith's work.—There are five families of Akkasaligas at Basaralu, one at Chikkahalli and three at Mandya. These convert the gold or silver supplied by customers into jewels or other articles. The wage amounts to Re. 1 per pagoda of gold wrought upon. An Akkasale can make one "Kadaga or Muru" in three days. The usual instruments cost about Rs. 10 per set. No cost is incurred in learning the trade.

5. *Shoe-making.*—There is one Madiga family of shoe-makers in Basaralu village carrying on his trade in addition to agriculture. The necessary leather is got from the dead animals of the village. The awl, boot-tree scissors, etc., are utilized in making shoes. This set costs Rs. 4 and a shoe-maker turns out half a rupee worth of work each day. A pair of shoes sells at Re. 1. The workman earns about Rs. 10 a month. No cost is incurred for learning the trade and three months' time is sufficient to learn the art.

6. *Extracting oil from oil seeds.*—Two families of oilmongers ಗಾಣಿಗರು of Halasagere are engaged in pressing oil from gingelly or sesamum seeds with the help of the crude mill or ಗಾಣ, which costs about Rs. 15. With this mill 10 seers of oil are extracted daily. Annas 9 to 11 is the price of a viss of oil. As this is a caste profession, no cost is incurred in learning the trade and three months' training would be enough to learn it. An oilmonger is said to earn Rs. 10 a month.

HOLE-NARSIPUR TALUK.

1. *Weaving.*—This is practised by one hundred and thirty-six families in the town of Hole-Narsipur and also in a weaving school of the same place. About five families are engaged in towel-making, one hundred and thirty in making "Dhotras and panches" and one in weaving silk saris of the "Dharmavaram" pattern. Nearly all the weavers are of the Devanga caste, some of whom are of the "Bilimagga" sub-classification. There are also a few Mahomedans who are engaged in weaving

dhotras. These people get cotton yarn from Bombay, Hubli and Madras and work in counts ranging from 20 to 100. The price per packet of yarn of counts ranges from Rs. 5 to Rs. 8-8-0. Raw silk is cleaned and worked locally, reeled and worsted. Worsted silk is valued from Rs. 6 to Rs. 8-8-0 per seer of 24 tolas, while raw silk is priced at Rs. 3-8-0 to Rs. 4-4-0 per seer of 27 or 28 tolas. The fly-shuttle loom is largely in use the loom costing from Rs. 25 to Rs. 50. All the parts of the loom are prepared locally in the carpentry school, the ಕುಂಟೆ alone being got from Salem. A pair of towels is valued from annas 10 to Rs. 1-8-0, while dhotras of the 20 to 100 counts are valued from Rs. 4 to 15 respectively. The silk sari of the Dhamavaram pattern is valued from Rs. 35 to 40, while the silk moguta and silk kerchief are priced at 6 annas 9 pies to 7 annas 6 pies per tola.

Weaving is learnt, without any charge being incurred therefor, either in the weaving school or from elders, in the course of 3 to 5 years. One knowing the trade can easily learn weaving saris of the Dharmavaram fashion within six months.

A towel maker earns Rs. 8 to 10 a month, a dhotra weaver Rs. 6 to 10 and the sari man Rs. 10 to 12 in the same time.

2. *Carpentry.*—There are ten families of carpenters in Hole-Narsipur Town, who buy timber either in Mysore or Fraserpet teakwood being priced at Rs. 1-6-0 to 1-14-0 per cubic foot, honne wood at Rs. 1-2-0 to 1-6-0 and mathi wood at 14 annas to Rs. 1-2-0. The implements in use are the chisel, adze, plane, saw, etc., the set costing about Rs. 15 to 20. Each man turns out 1 to 3 rupees worth of work in a day.

The trade may be learnt free of cost in the local industrial school in about 5 to 7 years. A carpenter earns Rs. 10 to 30 a month. A chair is said to be valued at Rs. 5, an almyra Rs. 30 to 50, a table Rs. 6 to 15, a bench Rs. 4 to 6, a stool Re. 1 to Rs. 1-8-0 and a box Rs. 5 to 15.

3. *Basket-making.*—There are four families of basket-makers in the town of Hole-Narsipur who ply their trade in addition to agriculture. They buy bamboos at Rs. 8 per 100 which they work with the special scythe or (ಮಂಚಲ್ಲಿ) and the knife (ಚಾಕು). These implements can be made locally and are had for 5 annas 6 pies a set. To make baskets, etc., one man slits the bamboo and prepares it for work, while another knits the same into a basket. A basket is sold from 1 to 4 annas. This trade is learnt from elders of the family free of cost within a month's time. The average earning of a basket-maker is Re. 1-0-0 a month.

4. *Rope-making.*—In Kadabinakote village four families of Madigas are engaged in rope-making industry in addition to agriculture. Flax is bought at Rs. 2 a maund and is made into ropes by means of two sticks about a foot long. One workman within three days makes a rope of 15 yards which he sells at 1 rupee, smaller ones being sold down to 2 annas. This work is learnt from elders free of cost within one month. A rope maker earns about Rs. 10 a year.

DAVANGERE TALUK.

The information relates to the industries practised in 19 villages of the taluk.

1. *Weaving.*—In Davangere town "Dhotras" and "Saris" are being woven.

There are one hundred and thirty-three families engaged in kambli weaving in the suburbs and seven families engaged in weaving cottons also.

The raw materials such as yarn, etc., are said to be got from Hubli, Bombay, and other places for the weavers of Davangere Town.

In Halvarti village there are twelve families of Kurubas who are engaged in weaving kamblies, seven of them living solely by it. These people buy wool from Gollas rearing sheep in the adjoining villages at Rs. 10-8-0 per maund and make into 30 seers of yarn paying a cooly of 4 annas a seer. In Hadadi and Lokikere undressed wool is bought at Rs. 4 per maund. It is reported that in Halavarti if eight people join together, one loom can be worked and half a yard of kambli woven in a day. The instruments used are Shears, ಕವರು, ಬಿಲ್ಲು, ರಾಟೆ, ಹರಗುಣಿ ದಾಣಿ, ಬಿಡುಗೋಲು, ಅಣಕೆಕೋಲು, ಕುಂಟೆ, ಜಂತ್ರ and ಚೀಪು. Many of these are prepared locally,

the set costing from Rs. 10 to 30. No cost is incurred in learning the trade. From 2 to 3 years are required for the same. In Mayikonda, one ordinary kambli is woven, in a day, while a superior one takes 4 days. An ordinary kambli is priced from Rs. 4 to 5, that of the first sort fetching Rs. 20 to 30.

Weaving hatchadas (bed sheets) is followed by three families of Cheluvadis or Holeyas in Kodaganuru, while one family in Nalkunda and two in Mayikonda also weave hatchadas using the rough instruments of ಉಣ್ಣೆ shuttle, etc., costing about Rs. 8 a set. It takes 3 days to weave one hatchada.

A kambli weaver is said to earn Rs. 2 a month in Halavarti, while he is said to earn Rs. 100 a year at Lokikere and Rs. 80 in Hadadigrama.

There are 102 cloth looms in the town worked by Jadas. They import their yarn. Inferior coloured fibre and silk called "ಉಂಡೆರೇಷ್ಮೆ" used for borders of cloths are also imported. The looms are all of the indigenous pattern and no fly-shuttle looms have yet been introduced. The cost of each loom varies from Rs. 8 to 15.

Thirty-six looms weave sadis, 20 weave small panches, 4 make bodices (ಕುಪ್ಪಸಗಳು), and 42 are engaged in making ordinary panches. Sadis woven in the 36 looms are valued at from Rs. 14 to 32. More costly sadis are also sometimes woven. The average outturn of a loom per month is Rs. 46. Each of the 46 looms weaving ordinary panches, turn out Rs. 30 worth of work every month, while each of the looms for bodices (ಕುಪ್ಪಸಗಳು) yield Rs. 20 a month and small looms weaving panches yield Rs. 15 a month.

There are also 8 looms in the town weaving kamblies. The average outturn of each of these looms is 12 kamblies of Rs. 6 each or Rs. 72 per month. Costlier kamblies are also sometimes woven and the time occupied in making them is proportionately longer.

The bulk of the wool is local. But coloured wool employed in weaving coloured lines in the body of the kambli is imported. The local weavers are not able to dye the wool to the required tint. The art is generally learnt by apprenticeship and some Mahomedans and boys of other castes have also learnt weaving.

The finished products are readily sold in the local market and no difficulty is experienced for selling any large stock. The weavers are all generally poor and in the hands of sowcars and take large advances in addition to yarn from the sowcars.

Cotton ginning.—There are 5 cotton ginning factories all worked by steam power. There are also 2 cotton presses. Besides these there are about 500 hand gins at work during the season each of which cleans half a maund of cotton per day. The quantity of cotton ginned in each factory and other particulars are given below :—

	Name of Factory	Nominal H. P.	Number of saw gins	Number of small gins	Outturn per day in maunds

COTTON PRESSES.

1. The Tadpatri Press.
2. The South Indian Co., by Nadirshah.

} Both are full presses and press 400 to 430 lbs.

2. *Carpentry.*—In all the villages of the taluk about which information has been supplied, except Halavarti, carpentry is being practised, mostly as a caste profession, sometimes along with smiths' work and in the majority of cases with agriculture as the main calling. About fifty-three families are engaged in this work, most of them being of the Badagi or Vajaru caste. Two Mahomedan families at Davangere and one each at Anagodu and Mayikonda villages follow carpentry. Also a Naik and a Lingayet of Mayikonda are carpenters.

The usual instruments of the small and big adzes, chisels, saws, augers, braces, squares, files and sharpening wood* are availed of. The cost of a set of instruments is said to vary from Rs. 10 to 25.

* ಮಸಗಲ್ಲು.

Some carpenters make only agricultural implements out of materials supplied by raiyats. A few are engaged in providing woodwork for houses. The amount of work turned out in a day depends mostly on the help the workman gets from the villagers. If helped he is said to turn out 4 ploughs. In some villages he is said to earn wages varying from 6 to 8 annas a day, in Lokikere a carpenter is said to build a common cart in four weeks.

No cost is incurred in learning the profession as generally the elders of the family teach their youngsters. The time required to learn carpentry cannot be fixed. It is said to take 1 to 5 years. Each craftsman is said to earn Rs. 10 to 20 a month in Davangere Town, while the workman in the suburban village Rs. 5 to 15 a month, or Rs. 100 a year, or both grain and money from agriculturists, as in Kodaganuru, Anagodu, etc.

3. *Smiths' work.*—There are nine families of smiths at Davangere kasaba, five in Mayikonda, four in Kodaganuru, three in each of the Belavanuru, Huchchappanahalli, Anagodu and Lokikere villages, two in each of the Nalkunda, Badadagrama, Hadadi and Avaragolla villages and one in the remaining villages except Halvarti. These people follow their caste profession in addition to agriculture and are mainly employed in making agricultural implements out of materials supplied by raiyats, getting in most cases, *mirases* in return. The usual implements of the bellows, anvil, the heavy and small hammers, the tongs, chisels, braces and a few* others are used in their work. The cost of a set of instruments is said to vary from Rs. 8 to 70, depending probably on the nature of the articles the smith is expected to manufacture. In Davangere town the estimate is Rs. 70, while in Kandagallu village it is only Rs. 8. Each workman is said to turn out 8 annas worth of work. On an average he is said to earn Rs. 15 to 20 in Davangere Town, Rs. 5 to 8 in several villages, and grain worth Rs. 40 a year in Balavanuru, while in some others the earning is said to be not ascertainable. For sharpening a plough-share he is paid 6 pies, for making a scythe 4 annas, etc.

* ಬಕ್ಕಸ ಗೊಲು ಜಿಗ್ಗು ಮಣೆ ಕುಂಬಾರಕೊಲು.

No cost is incurred in learning the trade or calling and 1 or 2 years is said to be the time taken in learning the same.

Goldsmiths' work.—There are forty-eight families of gold and silver smiths in the taluk, of whom about twenty-four live in the kasaba town. Nearly all of them belong to the Akkasale caste. The usual instruments of the anvil, hammer, tongs, bellows, blowpipe, pincers, files, wire-drawers, prints, wooden plates, etc., are used in making the required articles. The cost of a set of instruments is set to range from Rs. 10 to 25. The nature of the articles prepared by the Smith at Davangere town is not given, while the silversmith of Ayragere, Aiguru, Shiramgondlahalli and of some other villages prepares 2 patties or silver belts in a day. In no village or town is any cost incurred for learning the craft, for which about three years is said to be necessary. Each workman is said to earn from about Rs. 5 to 20 a month. In some cases articles are repaired and in some they are prepared either for sale or for wages.

4. *Basket-making.*—There are twenty-eight families of Koramas in Davangere Town, who make baskets with the help of the straight scythe (ಕುಡಗೊಲು). There are also two families of the same caste in Mayakonda village, who make baskets and also brooms. These people can make 10 baskets or 20 brooms in a day selling the same in adjoining villages at 6 pies a basket and 3 pies a broom. The straight scythe is said to cost half a rupee, the raw materials are bought. The trade is learnt from elders from infancy without any charge therefor.

5. *Weaving date mats.*—There are eight families in Nalkunda who, in addition to agriculture, work with baskets of date reeds and mats of date leaves.

6. *Shoe-making.*—There are five families of Mochis in Davangere town, eight of Begars in Ayragere, six and eight of Madigas in Aiguru and Shiramagondlahalli, respectively, and also four Begars in Mayakonda.

These people use the awl, hammer, horn or ಕೊಂಬು anvil, whetstone, and ಪುಳಿ ರಂಪಗೆ, the whole set costing from Rs. 2 to 5.

A workman is said to make one pair of shoes a day at 9 annas a pair at Mayikonda. At Avargolla he is said to earn Rs. 50 a year.

As usual no cost is incurred for learning the trade which is learnt from the elders of the family.

7. *Tailoring.*—There are twenty-six families of tailors in Davangere Town carrying on their trade and are said to earn from Rs. 15 to 20 a month. They are all of the Darji caste.

8. *Pottery.*—In Mayikonda a Telgu man, a Lingayet and a Kumbar family are engaged in pottery, while there are five families of potters at Anaberu. These people use the rotator or ತಿರುಗಣಿ and the ತಟ್ಟುವಣಿ or "shaping wood" as their instruments for turning the clay into vessels, etc.

About 4,000 pot-tiles are said to be baked in a day and 4 pots are prepared by one workman in the same period. A thousand tiles cost Rs. 5. As usual no cost is incurred for learning the profession, it being got at by youngsters by working with their elders.

The earnings of a potter per month are said to be Rs. 8 or 10 in Anaberu village. A potter generally follows his profession in addition to agriculture.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Dated Bangalore, the 14th April 1913.

N. MADHAVA RAO,
For *Assistant Commissioner in charge.*

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ:—

Letter No. 7595, dated 14th March 1913, from the Revenue Commissioner in Mysore, forwarding the following report of the Deputy Commissioner, Shimoga District, on the Industrial and Agricultural Exhibition and Cattle Show held at Tirthahalli on the 7th January 1913 during the car festival of Sri Rameswaradevaru and the Yellamavasya jatra:—

Letter No. 519, dated 14th February 1913, from the Deputy Commissioner, Shimoga District, to the Revenue Commissioner in Mysore.

I have the honor to submit the following report of the Industrial and Agricultural Exhibition and the Cattle show held at Tirthahalli on the 7th January 1913, during the Rathotsavam of the Local God Sri Rameswaradevaru and the Yellamavasya jatra.

2. *Nature of exhibition and the circumstances under which it was held.*—It had been usual to hold on a small scale local exhibitions on the occasion, during the last three years. As these were found to afford entertainment as well as instruction to the gathered people, the District Board, when it met at Channagiri last year (3rd February 1912) during the exhibition there, had resolved that the 1913 exhibition should be held at Thirthahalli. This resolution was communicated to the taluk and the leading raiyats and Sahukars of the taluk then present (at the meeting on 20th November 1912), received the idea enthusiastically and resolved that an exhibition on a large scale should be held in 1913, and that no pains should be spared to make it a success. A cattle show was also to be held along with it as usually done in the case of all exhibitions.

3. *Constitution of committee and membership.*—A Committee of Management was elected with the following gentlemen as members:—

1. Mr. Agumbi Rama Rao, (President).
2. ,, K. Ramakrishna Bhat and
3. ,, H. S. Rama Rao } Joint Secretaries.
4. ,, K. Thimmanna Bhat.
5. ,, B. Venkatasubbannachar.
6. ,, Devangi Ramanna Gowda.
7. ,, V. Subramanya Bhat.
8. ,, Ranganna Gowda.
9. ,, Tammaiya Bhat.
10. ,, Y. Sheshappa.
11. ,, A. Venkataramanaiya.
12. ,, Sivappa Gowda.

4. *Financial help.*—The exhibition was to be financed by the Municipal and District Boards and by voluntary subscription.

5. *Co-operation and encouragement of Amildar.*—The Amildar took much interest in the work and helped the members by active co-operation and sound advice.

6. *Prospectus and prize lists.*—A prospectus and prize lists were prepared and widely circulated all over the taluk and also published in the Gazette. The District Forest Officer and Amildars of other taluks helped to make the exhibition a success by procuring exhibits, etc.

7. *Exhibition building and grounds.*—The Anglo-Vernacular School was used as the exhibition building by the courtesy of the Educational Department. A big green pendal was erected in front of it for staging the agricultural exhibits (such as machinery, etc). The building hall and pendal were both tastefully decorated with plantains, leaves and other sylvan materials.

8. *Ground for cattle show.*—The open plain near the Kushavati bridge (about 2 furlongs from the exhibition grounds) was selected for the cattle show, as it was conveniently situated near water. A row of pendals were put up for sheltering cattle from the sun.

9. *Lighting, sanitary and police arrangements.*—The proper arrangements were made for lighting and conservancy at the exhibition grounds and the police kept watch over the grounds. There were no thefts or any untoward incidents.

10. *Receipt and staging of exhibits.*—Exhibits were received from all the taluks, but as a large number of them were received within a few hours of the opening of the exhibition, they had to be classified and staged rather hurriedly. The exhibits were arranged classwar, with labels showing the name of exhibitor, the value of the exhibit and the place of production.

11. *Description of the important exhibits.*—The detailed list of exhibits is found in Appendix A. The more important of them are mentioned hereunder:—

(*a*) Sandal wood articles of Sorab Taluk, showing great skill and finish in execution, consisting mostly of cabinets, models of temples, idols, watch stands, boxes, combs and sticks. These were regarded as superior works of art and the highest prize, *viz.*, a gold medal was awarded for these exhibits.

(*b*) The arecanut exhibits for which this taluk is specially noted, came next in rank and carried off 3 medal prizes and 2 money prizes.

(*c*) Soap stone articles such as tiffin carriers, lotas and Hujas by the artizans of Kowledurga formed an interesting feature.

(*d*) Articles made of cane; but there was not an extensive display. This is a promising industry as cane is to be had in abundance in this taluk.

(*e*) Furniture polish prepared by Mr. Manjappa of Tirthahalli from purely local materials was an object of much interest.

(*f*) Three oil paintings by the neice of the Local Police Inspector showed signs of artistic talent.

(*g*) Various kinds of forest produce exhibited by the Forest Department were much in evidence.

(*h*) Nibs, fountain-pen stylo-pens and a fiddle, all prepared out of silver by a local goldsmith were appreciated.

(*i*) A Veena prepared and exhibited by Mr. Shama Udupa of Nagar (A District Board and Representative member) was greatly admired.

12. *Practical "Demonstrations".*—Amongst agricultural exhibits, may be noted a thrashing machine exhibited by the Agricultural Department, a winnower and various kinds of improved ploughs. Two full grown arecanut trees had been planted in the compound. Practical demonstrations were given in the acts of climbing the trees, jerking from tree to tree, protecting the bunches of arecanut from heavy rains, the flucking of arecanut, etc.

13. *Opening of the exhibition.*—The exhibition was opened by the Deputy Commissioner at 5 P.M. on 7th January 1913. Besides, the local officers and other leading men of the locality, the Deputy Sanitary Commissioner, the Assistant Mycologist, the Members of the District Board and a large number of merchants and raiyats both from this and other taluks were present.

14. *Visitors.*—The exhibition was kept open for five days from the 7th to the 11th January, the afternoons of the 10th and 11th being specially reserved for ladies. There were in all about 10,000 visitors.

15. *Explanatory speeches.*—After the opening speech by the Deputy Commissioner, there was a recitation by boys and girls and some music. Pandit Maniyachar lectured in Sanskrit on the advantages of the exhibition, the Joint Secretaries read a report in English and Kanarese respectively, explaining the object of the exhibition.

16. *Cattle show.*—The cattle show was the first of its kind held in this taluk and is expected to do much good, there being only *an insufficient supply of inferior cattle at present.*

17. *Lectures.*—The following gentlemen gave very useful and instructive lectures in the exhibition pendal. The lectures were delivered in Kanarese so that all might understand them.

(1) *Cattle disease.*—"On Cattle Diseases." Mr. Narasimha Iyengar, Superintendent, Civil and Veterinary Department.

(2) *Sanitation.*—"On Sanitation" Mr. Karve, District Sanitary Officer, Shimoga.

(3) *Koleroga.*—"Agricultural and Koleroga," Mr. Ramaiya, Agricultural Inspector.

(4) "On Co-operative Societies by Amildar Mr. S. Narasimha Sastri"

18. *Prizes.*—The prizes awarded came up to Rs. 389-8-0, consisting of 19 medals and 156 money prizes.

Appendix B gives particulars of these.

Appendix C shows the distribution of prizes among the various taluks of the district.

19. *Financial.*—As stated above, the exhibition and the cattle show were financed by funds allotted by the District and Municipal Boards plus a small amount raised by private subscription.

Appendix D gives the details of receipts and expenditure.

20. *Judging of exhibits.*—The names of the Judges appointed for each section of the exhibits are given in Appendix E.

21. *General: the value of the exhibition and the hearty co-operation of the members.*—The exhibition was of great educative value and my thanks are due to the Members of the Committee and the various officers of Government who constituted to make the show an unqualified success.

No. R. 8032-4—L. B. 154-12-5, DATED 9TH APRIL 1913.

ORDER THEREON.—This was the first show and exhibition of the kind held at Tirthahalli and Government note with pleasure that the exhibition was a success and of great educative value.

The articles exhibited numbered 1,789, the cattle collected 104 and the receipts and expenditure were both equal, *viz.*, Rs. 389-8-0. The exhibition was opened on 7th January 1913 and lasted five days, the number of visitors being about 10,000.

Government greatly appreciate the efforts of the Members of the Managing Committee and the various officers of Government who co-operated to make the show a success.

K. R. SRINIVASIENGAR,
Officiating Secretary to Government,
General and Revenue Departments.

Goods referred to above under A and B are to be cleared in subject to the conditions stipulated in the following regulation of the Director of Finance.

Batavia, 22nd March 1913.

The Director of Finance has decided:

To declare, Article 23 of the Ordinance 10th October 1882 (Official Gazette No. 240) as it reads in the Ordinance of 6th September 1902 (Official Gazette No. 337) and 19th March

1909 (Official Gazette No. 205), applicable to goods from outside the Customs and Excise jurisdiction and destined for the Exhibition at Semarang under the following conditions:—

(1) That the Senior Customs House official is satisfied that the goods are destined for the above mentioned purpose.

(2) That the goods are declared before importation in accordance with Articles 27-31 inclusive of the Customs regulation A of the Ordinance of 1st October 1882 (Official Gazette No. 240).

(3) That the declarant holds himself responsible for the payment of the eventual import duty.

(4) That the Collector of Customs and Excise at Semarang is empowered to demand a personal guarantee.

(5) That within one month after the official closing of the Exhibition satisfactory proof be delivered to the Custom House official in charge that above mentioned goods have been exported beyond the jurisdiction of the Customs and Excise after having served for the Exhibition only.

(6) That the responsibility referred to in sub 3 ceases and that the guarantee mentioned in sub 4, if given, lapses immediately the condition stipulated in the preceding paragraph has been complied with.

(7) That, in the event of non-compliance with the regulation in sub 5, the declarant must pay the import duty at the office according to the calculation of the Collector of Customs and Excise at Semarang as soon as the term of one* month has elapsed.

The Association undertakes to receive and clear in goods on the following condition:—

(*a*) A complete list of each package and a price list of the sundry articles should be sent with the bills of lading.

(*b*) The packages, after being cleared in, will not be unpacked except in the presence of those persons appointed by the Association for this work. These persons make a list of the unpacked articles and this list serves between the exhibitor and the Association as the absolute proof of the contents of the packages.

(*c*) If among the goods mentioned in sub B there are goods, which the exhibitor has declared to be specially destined for sale and thus may be taken away from the exhibition at any time, the exhibitor is obliged either to pay the import duty when clearing in the goods or deposit a sufficient sum for that purpose with the Association, failing which those goods are to be taken as goods sent in for exhibition.

The Association will in no case advance cash for the payment of import duty.

Tariff for Space in the Buildings.

The calculation of the rates is based on the following :—

(*a*) Spaces with one front *f* 20 per square metre.
(*b*) ,, ,, two fronts ,, 30 ,, ,, ,,
(*c*) ,, ,, three ,, ,, 40 ,, ,, ,,
(*d*) ,, ,, four ,, ,, 50 ,, ,, ,,

The ground space of the building is divided in separate stands of between 6 and 25 square metres. The rates for these stands are calculated on above bases. Exhibitors who require more space may hire adjoining stands against payment of the proportionate rent.

The following reductions are granted in connection with increased requirements of space :—

For space of 25 square metres to 50 square metres 10 %
,, ,, 50 square metres to 100 square metres 20%
,, ,, over 100 square metres 30%

} with a minimum of *f* 20. —per M².

The rent of space outside the buildings will be arranged later. The minimum rate being *f* 10.—per M².

The rent of wall space, not belonging to a stand, is *f* 10.—per M².

The Exhibitors must pay for the spaces as follows :—

Half the amount of the rent when signing the contract and the other half before 1st April 1914, failing which the right to the space is cancelled, the Exhibitor forfeiting the rent already paid.

The choice of the stands for the exhibits as well as the designs of the stalls are subject to approval of the Director General.

It is forbidden to stick bills, advertising materials, etc., or to fasten exhibits or parts thereof to the inlet spaces on pillars, walls, partitions, etc.

During the hours when the Exhibition is open to the public exhibits may not be withdrawn from sight.

Price lists, circulars, advertising materials, etc., may only be distributed at their respective stalls by, or in the name of the Exhibitors.

ORDERED that the information be published in the Supplement to the *Gazette of India* for general information, and that copies of the Resolution be forwarded to all Local Governments and Administrations, and to the Foreign and Revenue and Agriculture Departments for information.

Ordered, also, that a copy be forwarded to all Chambers of Commerce for information.

8. Market well supplied.

9. *Standing crops* such as paddy, sugar cane, cotton, and sanna hatti, are reported to be in good condition.

Crops harvested.—Cotton in the Chitaldrug and Jagalur Taluks, yield 8 to 12 annas; Sugar cane in the Chitaldrug Taluk, yield 8 annas and paddy in the Challakere, Hiriyur, Molakalmuru, Jagalur and Hosdurga Taluks, yield 8 to 12 annas.

10. Prospects of the season are good. Food stocks are available. The few showers of Mungar rain that fell in the last week have enabled the raiyats to commence tilling operations to a certain extent; but more rain is urgently wanted.

11. Except for some cases of small-pox in the Chitaldrug Taluk, and ague in the Jagalur Taluk, public health is generally good.

12. Except for "Naradi roga" in the Turuvanur village in the Chitaldrug Taluk, cattle are healthy. Water and fodder are available.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* produce of, or have been raised by the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists' cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the cup will be his property for good.

7. Out of the money prizes won with the cups, a sum of rupees 10, 15 and 15 respectively will be deducted to defray cost of a miniature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze Medals will be available for all classes and will be awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION OF 1913.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore the Committee issue the following Prospectus in connection with the Exhibition of 1913.

2. *Opening of the Exhibition.*—This year the Exhibition opens on or about the 3rd of October and will continue till the 17th of October, both days inclusive. The Cattle (local) and Poultry Shows and Weaving competition will begin on Monday the 13th of October and close on Wednesday the 15th.

The Wood Carving and Metal Work competitions will begin on the 3rd of October 1913 and continue till the 17th. The Potters and Ploughing Competitions commence on the 14th and 15th October 1913 respectively.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale, will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale, will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass, which will be issued by the Cash Accountant on production of a cash bill or sale memo as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The Horticultural Show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 13th of October 1913 and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with Agricultural Industry and Commerce will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand bills and notices, unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets

will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will also admit the holder to the Exhibition for the whole period, will be arranged for.

11. Classification of exhibits in the Women's Section formerly published under class II of the Industrial Section has now been compactly arranged in a syllabus under the Ladies Committee on page embodied herein.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Application from Exhibitors.*—Applications should reach the Secretary not later than 1st of September 1913. Each individual application either from outside or inside the State should contain a post card with the full address of the exhibitor and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of taluks, are requested to convene as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee Meetings, to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits.

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all Taluk and District *exhibits should be sent through the Deputy Commissioners of Districts so as to reach the Exhibition by the 20th of September 1913.* A consolidated list of District Exhibits and Exhibitors in duplicate should accompany the consignment one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To Pay."

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture,

name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits, which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 5th of September 1913, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1913.*

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but they shall not find an entry in the official hand-book if the exhibitors fail to furnish at least the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M., on the 12th of October 1913.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits other than those mentioned in the above rule, may make special arrangements with the Committee for the exhibition of their goods on payment of the estimated expense, but in the meanwhile a minimum sum of Rs. 5 be sent in advance for meeting the expenses connected therewith.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of spacious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no responsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special Facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery.

The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitors' expense. The expenses for any special facilities sought for demonstrating machinery and implements, should be borne by the exhibitor except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants, or other attendants as they may require for service in their stalls, shall enter the Exhibition Grounds through such entrance or entrances as the committee may direct; they must wear badges, discs or hold passes issued to them before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of supervising staff appointed by them.

23. *Free admission to bonâfide Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free.

24. *Space for Articles on Sale.*—Accommodation for articles to be sold by owners will be provided in the sale rooms erected within the Exhibition grounds, as far as possible, and the following rent will be charged for special accommodation. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

1. Full stall 21′ by 10½′	Rs.	15
2. Half stall	,,	8
3. Quarter stall	,,	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

26. *Commission Sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by Exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the Exhibitor.

28. *Removal of Exhibits*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on Loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysore Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money

prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools and institution aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-Stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore District) cattle irrespective of breeds and classes.

32. *Accommodation for Cattle.*—Accommodation will be provided free of cost.

33. *Practical Test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bonâ fide* property of the exhibitor.

34. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

35. *Poultry Show.*—The Poultry must be in charge of the owners or an attendant who will be admitted on the Show days with a free pass. Every endeavour will be made for sale accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the Exhibition. This year it is proposed to hold a distribution of prizes in the Exhibition grounds on or about the 17th of October 1913.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot complete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of Articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's Decision Final.*—The Committee have full power to make rules for the conduct of the Exhibition under these regulations, and their decision is final in all cases.

41. *Acceptance of Rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official Hand-Book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the Exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the Exhibition and that many of them will probably purchase the official hand-book which will be sold at two annas a copy. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates.—

	Ordinary paper.	*Coloured paper.*
	Rs. a. p.	Rs. a. p.
Full page	20 0 0	25 0 0
Half page	12 0 0	15 0 0
Quarter page	7 8 0	10 0 0

(Special rates of Rs. 30, 16 and 12 will be charged for advertisements on the page, of the cover for full, half and quarter page, respectively.)

Applications for these advertisements will be received not latter than 10th September 1913 and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the Exhibition without written permission of the Committee.

44. *Committee's Right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the Exhibition building, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day subject to a minimum charge of Rs. 3 for stays less than 8 days, will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the Exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 1st September to 30th November and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

48. *Railway Concession.*—Concession for the carriage of exhibits over the following Railways to the Mysore Dasara Industrial and Agricultural Exhibition on production of necessary certificates which may be had by applying to the Secretary to the Exhibition, has been granted by the respective Railway authorities:—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The East Indian Railway.
4. The Bombay-Baroda and Central Indian Railway.
5. The Bengal-Nagapur Railway.
6. The Great Indian Peninsular Railway.
7. The Madras and Southern Mahratta Railway.
8. The Barsi Light Railway.

Besides, the following have also extended the concession to the exhibitors. The period will commence in case of exhibits from 20th August and end on 15th November 1913 and in case of exhibitors from 20th September to 31st October 1913:—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The Bengal-Nagapur Railway.
4. The Great Indian Peninsular Railway.
5. The Madras and Southern Mahratta Railway.

49. *Steamer Concession.*—The Manager of the Irrawadi Flotilla Co., Ltd., Rangoon, has allowed the following concession for exhibits over his steamer:—

All exhibits (goods, parcels, cattles, etc.,) will be carried:—On the outward journey at full tariff rates. On the return journey free, provided that (1) they have not been sold, (2) they are consigned to the station of original despatch, (3) they will be carried at owner's risk, and (4) the usual form of certificate is obtained at the time of original despatch and is tendered duly filled up and signed, on application being made for concession on return journey.

50. *Communication regarding the Exhibition.*—All communications regarding the Exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

WOMEN'S SECTION.

This being the second year in which the Women's Section of the Mysore Dasara Industrial Exhibition has been at work, it is felt that its aims should be more widely recognised and appreciated so that a few words of explanation as a preface to this syllabus will not be out of place.

The first aim of this section is to bring into touch with each other women, who, having themselves learnt the value of new occupations and interests, are anxious to hand on this knowledge to others. Plain or fancy needle-work, lace-making, basket-making, knitting, all these are occupations enjoyed by a large number of women and girls in India, but there remain a still larger number who have neither seen nor heard about them. To interest these it is important to collect for Exhibition, the best that is done in all branches of women's work, and it is only the best in each section of the work that can be encouraged by the award of medals and prizes.

This is one of the most difficult things to impress upon intending exhibitors. It is not any kind of work that can be accepted. Certain groups are selected in the syllabus and only the really good work sent in under each group is likely to be admitted. To understand the importance of sending in only the best work, the following rules should be carefully studied and conscientiously carried out.

1. In needle-work the best materials that can be procured should alone be used: it is waste of time to put good work on to poor material which will neither wear nor wash.

2. One neatly stiched, well finished off exhibit is more likely to win a prize than a large bundle of carelessly done work; no amount of trimming will improve a badly made article.

3. Moth-eaten, faded, torn or dirty work cannot be accepted.

4. Exhibits which have already won prizes in previous Exhibitions cannot compete. They will be accepted as "Loan Exhibits" or exhibited for sale if space permits.

5. No work will be accepted that does not come under one or other groups in the syllabus. *Space in the exhibition being limited, there can be no exception to this rule.*

6. *None but genuine women or children's work will be allowed to compete for prizes in this section.*

In conclusion, attention must be drawn to the Government Order No. Fl. 223—G. F. 348-10-7 of 19th July 1911, dealing with the award of medals at Public Exhibitions. It is as follows:—The parties who exhibit articles may be divided into two classes, *viz.*, (1) rich and well-known firms who want distinction and praise rather than any pecuniary help, and (2) indigenous workers of modest means to whom even a small money prize would be useful. In the opinion of Government it will be sufficient to grant to exhibitors of the first class, a certificate stating that their exhibits have been awarded a gold or silver medal or some other kind of distinction. For the second class of exhibitors the award should take the form of a money prize.

PLOUGHING COMPETITION.

In the prize list published with the Prospectus, a sum of rupees fifty has been allotted for the ploughing competition. The following particulars regarding the award of prizes are published for information :—

Indigenous and imported implements of all kinds will be admitted, the different classes of implements being allowed to compete separately.

1. *Ploughing.*—Each competitor will be required to plough completely one plot of red loamy soil measuring four guntas in an hour and a half.
2. *Riging.*—To ridge up completely a three-gunta plot in an hour and a half.
3. *Harrowing.*—A four-gunta plot will have to be harrowed in twenty minutes.
4. *Sowing.*—A four-gunta plot to be sown in twenty minutes with a seed-drill.
5. *(a) Thrashing.*—A given quantity of a given kind of crop to be thrashed by cattle, stone mills, or power machines.
   (b) Winnowing.—By machines of different kinds.

The number and value of prizes to be awarded will be fixed after applications for the entries are received and the various kinds of implements and machinery competing are known, and the present provision of rupees fifty will be increased if necessary. The competition will be held on the 15th October 1913.

Those who wish to enter for these competitions are requested to submit their applications in the accompanying form through the $\frac{\text{Amildar}}{\text{Tahsildar}}$ of their taluk so as to reach the undersigned not later than the 30th of September 1913, at Mysore.

APPLICATION FORM.

Name and address of the competitor	Name, kind and value of the agricultural implements which the competitor proposes to enter for the competition.	Events for which the applicant wishes to compete	Remarks of the Amildar or Tahsildar of the Taluk

N. B.—All the agricultural implements should be produced for the inspection of the Secretary to the Exhibition Committee at Mysore.

SECTION F.—MISCELLANEOUS.

Rules.

The competition will commence at 8 A.M. on Tuesday the 14th of October 1913 and will be continued for three days.

2. Any kind of wheels indigenous or improved or foreign may be entered for the competition.

3. Competitors will be allowed to fix their own apparatus beforehand.

4. Competitors will bring their own clay; but gypsum powdered or cement will be supplied by the Committee.

5. Competitors will be allowed to compete under one or more of the undermentioned tests :—

(i) To make plain flowers pots, 8 inches high, with half inch thick without lip.

(ii) (*a*) To make a tea pot of a given size.

(*b*) To make a jug of a given size with a single or double sheaths.

(iii) (*a*) To make a pedestal, 4 feet high, with the two ends ornamental with beadings.

(*b*) To make an ornamental balustrade as per sample approved.

(*c*) To make a mould of an ornamental flower pot in gypsum or in cement and to show the process of taking out copies.

Note.—Competitors under tests (*b*) and (*c*) of class (iii) should get the sketches or sample objects approved by the judges.

6. In awarding prizes, the judges will note the following points :—

(*a*) The state of finished articles while drying, with special reference to cracks, etc.

(*b*) Throwing and finishing.

(*c*) Adaptability of the wheel.

1. Whether the wheel is suited for throwing different kinds of objects.
2. Whether the wheel can be worked profitably by potters in their houses or is only useful for factory work.

(*d*) Mechanism of the wheel.

1. Soundness and simplicity of the wheels.
2. Position in which the potter has to hold his body and the ease with which he works.

(*e*) The different kinds of clay and materials used.

(*f*) Methods of preparing the clay.

THE WEAVING COMPETITION.

In connection with the Exhibition of 1913 a competition in Weaving and its preparatory process will be held in the Exhibition premises, Mysore. The following rules regulating the competition are published for the information of the intending competitors :—

SECTION I.

The competition will commence on Monday the 13th of October 1913 and will be continued for three days.

2. Weavers will be required to work for 7 hours a day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

This rule does not effect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class, when the number is less than 3. But all *bona-fide* weavers with a piron driver for helping each competitor, will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a* to *d*) :—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year.—

(*a*) To weave a cloth 54 inches wide (having half-an-inch silk border) with 30's warp, 52 ends per inch and 30's weft, of 48 picks per inch. Prize.—Rs. 10 and Rs. 8 for each set of competitors.

(*b*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 40's warp, 60 ends per inch and 40's weft, of 52 picks per inch. Prize.—Rs. 12 and Rs. 9 for each set of competitors.

(*c*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 60's warp, 72 ends per inch and 60's weft, 72 picks per inch. Prize.—Rs. 14 and Rs. 10.

(*d*) To weave a cloth, 45 inches wide with 100's warp, 80 ends per inch and 120's weft, 80 picks per inch. The border is to be of lace and silk of any pattern (specially rudrakshi, peacock, weaving, etc.) left to the option of the competitor. Prize.—Rs. 15 and Rs. 12.

(*e*) To weave a magutum, 54 inches wide, with red, yellow or bleached country twisted silk of about 80 counts. The border must be of lace of about one-fourth of an inch. It is sufficient if the competitors use reeds of about 40 dents and weave about 80 picks to an inch. Prize Rs. 15 and Rs. 12.

In (*a*), (*b*) and (*c*) the cross borders must be of silk and in (*d*) and (*e*) they must be of lace.

The authorities may allow any other tests provided there are sufficient number of competitors.

9. The competitors will purchase warps except silk from the Exhibition authorities and use them alone for competition and the competitors must bring in their own wefts.

Intending competitors should inform the Secretary at least 15 days before the competition commences. The local weavers will get their daily allowances only. All competitors must bring their own pirons.

10. In awarding prizes to the weavers the Judges will note the following points :—

The work done—

(1) The length of the cloth woven during the whole period.
(2) Uniformity of picking and adhesion to specification.
(3) Freedom from broken ends.
(4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the Judges will consider in addition —

(*a*) Adaptability of the loom :—

(1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.

(2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.

(*b*) Mechanism of the loom :—

(1) Soundness and proper proportion of its parts.

(2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.

(3) The position in which the weaver has to hold his body while working and the ease with which he can work the loom.

A loom that was once awarded a medal will not get it a second time.

SECTION II.

WEAVING AND PREPARATORY PROCESS.

Tests in the following four classes are opened to boys under 18 years and women of any age. Of the two prizes one will be among boys and the other among women.

1. Simple processes of making long warps and sizing them economically and usefully.

2. Simple adoptation of English Dobby for hand-loom work.

3. Of any new machanism likely to improve or increase the quality of the outturn such as new patterns of automatic take-up motion, etc.

4. *Spinning.*—Any kind of spinning appliance may be used. Wool to be spun will be supplied at the time of the competition at the cost of the competitors. The thickness of the yarn and the quantity to be spun and the time to be taken will be decided by the judges. Prize Rs. 10 and Rs. 7.

5. *Warping and sizing*—

(*a*) Open only for females.
To make 40's warp, 10 yards long and to size it. Prize Rs. 10 and Rs. 7.

(*b*) Open for males and females.
To make 60's warps, 40 yards long and to size them. Prize Rs. 15 and Rs. 10.

The prizes will be awarded for the best-sized warps. The time to be allowed for work, the quantity of yarn to be warped and the test to be adopted for judging the work will be decided by the judges. Yarn for warping and sizing will be supplied at the cost of the competitors, at the time of the competition.

6. Competitors will fit up their own looms in the ground allotted and get everything ready for competition.

7. Intending competitors must send their application in the prescribed form, so as to reach the Secretary at Mysore on or before the 15th of September 1913 at the latest.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* produce of, or have been raised by the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists' cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the cup will be his property for good.

7. Out of the money prizes won with the cups, a sum of rupees 10, 15 and 15 respectively will be deducted to defray cost of a miniature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze Medals will be available for all classes and will be awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the Prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 2nd August 1913 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 31st May 1913.

K. DORASWAMI IYER,
Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 2434, dated the 14th May 1913, from the Director of Agriculture in Mysore, submitting for approval the appended Prospectus of the Agricultural School to be opened at Bangalore.

No. R. 7403-47—AGRI. 62-12-22, DATED BANGALORE, 7TH JUNE 1913.

ORDER THEREON.—Government consider the curriculum of studies to be practical and satisfactory, and are pleased to approve the Prospectus.

C. S. BALASUNDARAM IYER,
Secy. to Govt., Agricultural Dept.

To—The Director of Agriculture in Mysore.
The other Heads of Departments.
The Deputy Commissioners of Districts.

APPENDIX.

PROSPECTUS OF THE AGRICULTURAL SCHOOL, BANGALORE.

In accordance with Government Order No. R. 6368-409—Agri. 128-11-1, dated 6th May 1912, an Agricultural School will be opened at Bangalore during the 1st week of July 1913. During the first year, accommodation for about 15 students will be available.

2. The purpose of the school is to train, not specialists in the various agricultural sciences, but efficient and intelligent agriculturists. The course is, therefore, made as practical as possible and only so much scientific instruction will be given as is necessary for an intelligent understanding of the various agricultural processes.

3. As the purpose of the school is to give training to those who intend following agriculture as a profession, preference will be given to those whose parents own land in Mysore and are engaged in supervising its cultivation. Tuition and lodging will be free and board will be charged at cost price.

4. The course will, for the present, extend over two years. Should particular students show special aptitude for scientific work and should they desire further scientific training in any of the branches of agricultural science, arrangements will be made later for their further training.

5. The following is the course of study which, however, may undergo slight modifications if experience shows such to be desirable.

FIRST YEAR.

I. *Agriculture.*—(*a*) Practical work involving all the operations carried out on the farm, including wet and dry cultivation and the use of local and improved farm implements.

(*b*) Theoretical.—Lectures on Elementary Physiography including formation of soils, Meteorology, etc., leading up to the principles of soil treatment.

II. *Elementary Physics.*—(*a*) Mechanics.—Units of measurement, velocity, acceleration, force, energy, work, horse power, friction; draft, practical study of simple machines, such as lever, pulley, etc.

(*b*) *Soil Physics.*—Elementary hydrostatics, soil moisture, heat, air, principles of pumps, etc., lectures and laboratory work.

III. *Chemistry.*—Elementary Chemistry taking up especially the elements important in crop production.—Lectures and demonstrations with a few simple experiments.

IV. *Biology.*—(*a*) Morphology and Physiology of root, stem, leaf and flower, taking as objects common economic plants.

(*b*) Study of type animal forms as far as possible from living specimens.—Demonstrations of the main facts of Anatomy and Physiology.

V. *Farm mechanics.*—Practical work in the workshop together with the construction of simple farm implements.

SECOND YEAR.

I. *Agriculture.*—Theoretical.—(*a*) Study of the cultivation of the chief agricultural crops, crop rotations, experimental methods.

(*b*) Farm accounts, estate management, systems of land tenure.

(*c*) Animal breeding and management of live-stock, dairying.

Practical.—(*a*) Cultivation by students of individual plots for which accurate accounts are to be kept.

(*b*) General estate management; tours to study conditions throughout the State.

(*c*) Short course in dairying.

II. *Economic Botany.*—Study of the chief economic plants of the State, plant breeding, elements of gardening and horticulture.

III. *Mycology.*—The common plant diseases of the State with methods of prevention and control.

IV. *Agricultural Engineering.*—Mensuration, plan-drawing, estimating, elementary surveying, practical management of oil engines and pumps.

V. *Veterinary Science.*—Anatomy and Physiology, elements of Materia Medica and Pharmacy, Surgery, Obstetrics, Hygiene, with practical work.

VI. *Entomology.*—Study of type insects with life histories, collection of insects, preventive and remedial measures.

6. Those desiring to enter should address the Director of Agriculture, Bangalore, when application forms will be sent to them. While no definite entrance requirements have been formulated, candidates must show a knowledge of English, Arithmetic and other subjects sufficient to ensure that they will be able to follow the prescribed studies intelligently.

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION OF 1913.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore the Committee issue the following Prospectus in connection with the Exhibition of 1913.

2. *Opening of the Exhibition.*—This year the Exhibition opens on or about the 3rd of October and will continue till the 17th of October, both days inclusive. The Cattle (local) and Poultry Shows and Weaving competition will begin on Monday the 13th of October and close on Wednesday the 15th.

The Wood Carving and Metal Work competitions will begin on the 3rd of October 1913 and continue till the 17th. The Potters and Ploughing Competitions commence on the 14th and 15th October 1913 respectively.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale, will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale, will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass, which will be issued by the Cash Accountant on production of a cash bill or sale memo as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The Horticultural Show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 13th of October 1913 and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with Agricultural Industry and Commerce will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand bills and notices, unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets

will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will also admit the holder to the Exhibition for the whole period, will be arranged for.

11. Classification of exhibits in the Women's Section formerly published under class II of the Industrial Section has now been compactly arranged in a syllabus under the Ladies Committee on page embodied herein.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Application from Exhibitors.*—Applications should reach the Secretary not later than 1st of September 1913. Each individual application either from outside or inside the State should contain a post card with the full address of the exhibitor and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of taluks, are requested to convene as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee Meetings, to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits.

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all Taluk and District *exhibits should be sent through the Deputy Commissioners of Districts so as to reach the Exhibition by the 20th of September 1913.* A consolidated list of District Exhibits and Exhibitors in duplicate should accompany the consignment one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To Pay."

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture,

name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits, which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 5th of September 1913, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1913.*

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but they shall not find an entry in the official hand-book if the exhibitors fail to furnish at least the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M., on the 12th of October 1913.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits other than those mentioned in the above rule, may make special arrangements with the Committee for the exhibition of their goods on payment of the estimated expense, but in the meanwhile a minimum sum of Rs. 5 be sent in advance for meeting the expenses connected therewith.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of spacious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no responsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special Facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery.

The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitors' expense. The expenses for any special facilities sought for demonstrating machinery and implements, should be borne by the exhibitor except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants, or other attendants as they may require for service in their stalls, shall enter the Exhibition Grounds through such entrance or entrances as the committee may direct; they must wear badges, discs or hold passes issued to them before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of supervising staff appointed by them.

23. *Free admission to bonâfide Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free.

24. *Space for Articles on Sale.*—Accommodation for articles to be sold by owners will be provided in the sale rooms erected within the Exhibition grounds, as far as possible, and the following rent will be charged for special accommodation. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

1. Full stall 21′ by 10½′	Rs.	15
2. Half stall	,,	8
3. Quarter stall	,,	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer, sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

26. *Commission Sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by Exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the Exhibitor.

28. *Removal of Exhibits*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on Loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysore Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money

prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools and institution aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-Stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore District) cattle irrespective of breeds and classes.

32. *Accommodation for Cattle.*—Accommodation will be provided free of cost.

33. *Practical Test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bona fide* property of the exhibitor.

34. *Care-taker.*- Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

35. *Poultry Show.*—The Poultry must be in charge of the owners or an attendant who will be admitted on the Show days with a free pass. Every endeavour will be made for sale accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the Exhibition. This year it is proposed to hold a distribution of prizes in the Exhibition grounds on or about the 17th of October 1913.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot complete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of Articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's Decision Final.*—The Committee have full power to make rules for the conduct of the Exhibition under these regulations, and their decision is final in all cases.

41. *Acceptance of Rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official Hand-Book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the Exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the Exhibition and that many of them will probably purchase the official hand-book which will be sold at two annas a copy. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates.—

	Ordinary paper.	*Coloured paper.*
	Rs. a. p.	Rs. a. p.
Full page	20 0 0	25 0 0
Half page	12 0 0	15 0 0
Quarter page	7 8 0	10 0 0

(Special rates of Rs. 30, 16 and 12 will be charged for advertisements on the page, of the cover for full, half and quarter page, respectively.)

Applications for these advertisements will be received not latter than 10th September 1913 and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the Exhibition without written permission of the Committee.

44. *Committee's Right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the Exhibition building, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day subject to a minimum charge of Rs. 3 for stays less than 8 days, will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the Exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 1st September to 30th November and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

48. *Railway Concession.*—Concession for the carriage of exhibits over the following Railways to the Mysore Dasara Industrial and Agricultural Exhibition on production of necessary certificates which may be had by applying to the Secretary to the Exhibition, has been granted by the respective Railway authorities:—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The East Indian Railway.
4. The Bombay-Baroda and Central Indian Railway.
5. The Bengal-Nagapur Railway.
6. The Great Indian Peninsular Railway.
7. The Madras and Southern Mahratta Railway.
8. The Barsi Light Railway.

Besides, the following have also extended the concession to the exhibitors. The period will commence in case of exhibits from 20th August and end on 15th November 1913 and in case of exhibitors from 20th September to 31st October 1913:—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The Bengal-Nagapur Railway.
4. The Great Indian Peninsular Railway.
5. The Madras and Southern Mahratta Railway.

49. *Steamer Concession.*—The Manager of the Irrawadi Flotilla Co., Ltd., Rangoon, has allowed the following concession for exhibits over his steamer:—

All exhibits (goods, parcels, cattles, etc.,) will be carried:—On the outward journey at full tariff rates. On the return journey free, provided that (1) they have not been sold, (2) they are consigned to the station of original despatch, (3) they will be carried at owner's risk, and (4) the usual form of certificate is obtained at the time of original despatch and is tendered duly filled up and signed, on application being made for concession on return journey.

50. *Communication regarding the Exhibition.*—All communications regarding the Exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

59. There was a fall of 6 in the actuals due chiefly to the absence of any purchase of plain paper for stamps as in 1910-11. The budget grant under *Stamp Manufactory* for plain paper for stamps and the lump sum grant for improved dies and plates, aggregating in all 15, lapsed during the year, and these lapses were partly counterbalanced by an excess of 3 over the grant for discount on sale of stamp papers and labels. This excess has not been sanctioned by Government.

Total ...	215	216	208

61. The decrease from the actuals of 1910-11 and the budget was, in the main, due to savings in establishment.

62. The budget grants were exceeded under *Miscellaneous* and *Refunds* by 5. The excess under *Miscellaneous* was in the loss by exchange on remittances from London due to fluctuations in the rate of exchange, and that under *refunds* was due to some repayments of deposits by mining lease and license-holders, which, under the classification of years back, were credited to revenue, and for the refunds of which no provision was made in the budget. These excesses require the sanction of Government.

11. Interest on Ordinary Debt.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12
	Rs.	Rs.	Rs.
On 5 Per Cent Mysore Railway Loan of 1882	...	5	...
On 4 Per Cent Mysore State Loan of 1906-07	71	80	66
Total ...	71	85	66

63. The accounts for the year fell short of both the previous actuals and the budget estimate. The difference in the latter case is explained by the fact that, during 1911-12, there was no claim for the interest due on the 5% loan of 1882 and the demand for that due on the 4% loan of 1906-07 was not full.

assistants of the department, and in the lumpsum grant of 100 for establishment of which only 86 was utilized.

3. Forest.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12
	Rs.	Rs.	Rs.
A.—Conservancy and Works	3,82	3,65	4,08
B.—Establishments	3,11	3,18	3,06
Total ...	6,93	6,83	7,14

55. As compared with the previous year's expenditure, there was an increase of 26 under *Conservancy and Works* and a decrease of 5 under *Establishments*. A rise in the quantity of timber extracted by departmental agency caused an increase of 32 under Timber and other produce removed from the forests by Government agency against other increases amounting to 8 which were chiefly under live and dead stock due to increased expenditure on tools and plant and instruments. There was a decrease under Communications and Buildings (11), and Demarcation, Improvement and Extension of Forests (3). The decrease under *Establishment* was principally under salaries due to the retirement of officers on higher rates of salary.

56. The sanctioned budget grant was exceeded on the whole by 31 and the excess was under *Conservancy and Works* (43) which was to a certain extent (12) counterbalanced by savings under *Establishment*. The increase under *Conservancy and Works* was the result of larger outlay in the removal of timber, bamboo, and sandalwood and also in the construction of roads, bridges and buildings. The savings under *establishment* was under the subordinate forest and depot staff.

57. The excess over grant was anticipated previously, and the Conservator obtained an extra grant of 41 during the year chiefly for additional works under roads, buildings, fire protection and sandalwood extraction. A further grant of 3 was also sanctioned at the close of the year from surrenders on account of the extra expenditure relating to Kumri cultivation.

4. Excise.

Loss by dryage and wastage of majum ...	...	...	...
Lump addition by F. D.	...	2	...
Total ...	3,37	3,43	3,35

58. The expenditure of the Excise Department in 1911-12 fell short of the actuals of 1910-11 by (2) and of the budget by (8). The decrease in the actuals was partly under travelling allowances and contingencies of the Excise Commissioner's office and partly due to the absence of any charge on account of loss by dryage and wastage of Ganja as in 1910-11. The savings in the budget occurred in the remuneration paid to contractors for carrying liquor from distillery to bonded depots.

for stoppages of power supply having proved less than anticipated in the budget, while the increase in Bangalore City and Civil and Military Station sections was consequent on additional power and lighting installations.

EXPENDITURE HEADS.

1. Refunds and Drawbacks.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12
	Rs.	Rs.	Rs.

Salt	...	...	...
Stamps	28	25	31
Registration	1	1	1
Total ...	2,11	2,17	3,22

51. There was an increase of 1,11 over the actuals of 1910-11, and this was due almost entirely to the heavy refund of Excise revenue to inamdars during the year on account of the settlement by Government of arrear claims—the more important of which were those relating to the Yelandur Jahgir (61) and to the Sringeri Jahgir (15). The same reason explains also the excess over the budget grant. The small excess of 6 over the budget under refund of *stamps* was counterbalanced by a lapse of 6 under *land revenue* refunds.

52. The excess over grant of 1,04 under *Excise* and of 6 under *Stamps* requires sanction of Government.

2. Land Revenue.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12
	Rs.	Rs.	Rs.
Revenue Commissioner	55	56	39
Charges of District Administration ...	8,53	8,87	8,73
Remuneration to shanbhogs and patels ...	8,59	8,18	8,15
Revenue Survey and Settlement Department	1,56	1,71	1,49
Inam Department	4	5	4
District Survey Establishment ...	10	10	10
Assignments	12	15	13
Lump addition by F. D.	...	1	...
Total ...	19,49	19,63	19,03

53. The decrease of 46 from the actuals of 1910-11 was the net result of increase amounting to 21 and decrease of 67. The increase was entirely under *Charges of District Administration* and was due to the charges relating to salaries and establishment being more and to the entertainment of Shekdars under the new scale. The decrease appeared under *Revenue Commissioner* (16), *remuneration to Shanbhogs and Patels* (44), and *Revenue Survey and Settlement* (7). The fact that the appointment of the Revenue Commissioner was vacant for over half of the financial year explains the variation under the first head, the absence of large adjustments of arrears of *potgi* as in 1910-11 accounts for the second, and the decrease of 7 under *Revenue Survey and Settlement* was in consequence of transfer of Gazetted assistants on smaller salaries to the Revenue Survey Department.

54. As compared with the budget there was a lapse of 60. This occurred under all the heads referred to above in comparing actuals, but noticeably under *Revenue Commissioner* (17), *Charges of District Administration* (14), and *Revenue Survey and Settlement* (22). The saving under *Revenue Commissioner* has already been explained; that under *District Administration* was on account of savings in the Taluk Cutcherry establishment and the new scale of shekdars provided for in the budget and in the grants for supplies and services. The saving under *Revenue Survey and Settlement* was in the salaries of the Gazetted

XXI. State Railways—Revenue Account.

	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Gross Receipts	28,31	30,00	32,53

2. Surplus profit paid to the Madras and Southern Mahratta Railway Company ...	*58*	*55*	*61*
Total Net Revenue ...	10,59	10,51	13,43

46. The improvement in the net revenue over budget was due to a marked rise in the gross earnings and to a moderate saving in working expenses. The increase in the gross earnings was both under coaching and goods. The improvement over the previous actuals was in the metre gauge section and was mainly due to better coaching and goods traffic receipts and to a comparatively smaller percentage of working expenses which amounted to 57·20 per cent of the gross earnings in 1911-1912 as against 61·13 in 1910-1911.

XXII. Public Works.

	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Sale of water to Kolar Gold mines ...	2,50	2,28	1,54
Receipts from Bangalore and Mysore Municipalities on account of water-supply	51	68	32
Other Public Works Receipts	1,41	40	1,87
Military Works Receipts	2	...	...
Total ...	4,44	3,36	3,73

47. The receipts under this head fell short of previous actuals by 71 as the latter included the sale proceeds of the marginally noted buildings sold to the Palace in 1910-1911. There was also an improvement of 37 over budget estimate.

1. The Upper Residency Bungalow and the adjoining Telegraph lines at Mysore.
2. Binny's Coffee Works building at Bangalore.

48. The large difference between the budget and actuals under other public works receipts was due to two causes: first, a sum of about three-quarters of a lakh which should have been credited under the other two minor heads was wrongly classified under this head; and secondly the budget did not take the building contribution on account of Local Fund dispensaries into account and this has also led to the actuals exceeding the estimate.

XXIII. Cauvery Power Scheme.

	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Sivasamudram-Kolar Section	14,14	13,07	14,25
Bangalore City Section	99	1,10	1,17
Bangalore Civil and Military Station Section ...	61	65	69
Mysore City Section	25	68	54
Total ...	15,99	15,50	16,65

49. Compared with the accounts of 1910-1911, the receipts were more by 66 due mainly to the additional power and lighting installations in Bangalore. The write-back made in 1910-1911 of a sum of 22 in consequence of the reduction of rate from one anna to half-anna per unit for power supplied to the Belagola pumping station accounts for the large difference in the Mysore City section.

50. The receipts also proved better than the budget estimate by 1,15, and the improvement was under all the heads except Mysore City Section. The large improvement in the Sivasamudram-Kolar section was due chiefly to the need for rebates to mining companies

28 under *Ganja*, 5 under *Opium*, and 1 under *Miscellaneous* receipts. The increase under *Arrack* was chiefly due to an increase in consumption and occurred partly under still head duty and partly under rent of farms, that under *Toddy* was due to greater receipts from tax on date-toddy trees, against which however there was a large fall from tree tax for tapping toddy trees in the Madras Presidency. The growing popularity of the country beer and the enhanced duty on ganja from Rs. 5 to Rs. 7½ per seer account for the increase under *Beer* and *Ganja*.

V. Assessed Taxes.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Mohatarfa in rural tracts	1,99	1,93	1,84
Assessment on vacant building sites	87	95	94
Total ...	2,86	2,88	2,78

28. The fall in the revenue, as compared with previous year's realizations and the budget estimate, was due to the formation of unions to which the Mohatarfa revenue was transferred and also to the fact that some persons paying house tax took to agriculture and therefore got exemption from the tax.

VI. Salt.

	Rs.
Accounts, 1910-11	9
Budget, 1911-12	...
Accounts, 1911-12	...

29. As the revenue derived from this source is insignificant, it has been removed from the principal heads of revenue and shown under a new minor head under XIX Miscellaneous with effect from 1911-12, as suggested in para 29 of the appropriation report for 1908-09.

VII. Stamps.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Sale of general stamps	3,48	3,30	3,79
Sale of court-fee stamps	4,48	4,47	5,05
Sale of plain paper for court purposes ...	7	7	7
Duty on impressing unstamped and insufficiently stamped documents	10	14	10
Fines and penalties	12	11	13
Miscellaneous	1	1	1
Total ...	8,26	8,10	9,15

30. The revenue from Stamps, which was taken for the budget at the usual standard, proved better than the estimate by 1,05, and greater than the previous actuals by 89. The rise is remarkable, and the figure for 1911-12 represents the highest amount yet realized in any year. The increase was both under general and court-fee stamps and has been attributed to an increase in the number of civil suits and to increased activity in monetary transactions.

VIII. Registration.

	Rs.
Accounts, 1910-11	1,62
Budget, 1911-12	1,50
Accounts, 1911-12	1,85

31. The excess over previous year's accounts and the budget was due to a rise in the number of documents registered, which is attributed to the satisfactory condition of public health due to absence of plague, a rise in the price of food stuffs and a better appreciation by the general public of the advantages of registration.

REVENUE HEADS.

I. Land Revenue.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Assessment on lands	97,28	93,37	96,89
Quit-rent of minor inam villages including kayamgutta	5,42	5,10	5,71
Miscellaneous	4,06	3,50	3,86
Rent on toddy trees	3	3	2
Total ...	1,06,79	1,02,00	1,06,48

24. In the budget the land revenue collections were estimated at 1,02,00 which was at the time taken to represent the demand realizable in a normal year. The collections of the year amounted to 1,06,48, *i.e.*, to 4,48 more than what was anticipated, and this was due to the recovery of arrears, the agricultural conditions of the year having been favourable.

II. Forest.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Timber and other produce removed by Government agency	15,05	14,27	16,51
Do by consumers or purchasers...	5,46	3,85	5,27
Confiscated drift and waif wood	...	1	1
Miscellaneous	44	18	27
Total ...	20,95	18,31	22,06

25. There was an improvement of 3,75 under Forest, and the increase was chiefly under the head *timber and other produce removed by Government agency*. The marked rise in the price of sandalwood accounts for an increase of about 2¼ lakhs under this head. The increase in the demand for timber and the substitution to some extent of private agency for departmental operations caused an increase of 1,42 in the receipts from *timber and other produce removed by consumers or purchasers* over the budget anticipation. The *miscellaneous* receipts were also better than the budget by 9.

26. As compared with the previous year, the exceptional realisations from sandalwood and the increase from timber collected departmentally account for about a lakh and a half; and this was to a certain extent counterbalanced by small decreases under *timber and other produce removed by consumers and purchasers* (19) and *miscellaneous* receipts (17).

III. Excise.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Arrack	20,69	20,67	21,23
Toddy	19,23	19,58	19,92
Beer	8	9	20
Akki Bhoja—License Fees	2	...	...
Ganja	1,25	68	96
Opium	50	35	40
Miscellaneous	15	9	10
Proportionate share of the cost of Central Distillery Establishment charges recovered from the Civil and Military Station ...	7	4	...
Total ...	41,99	41,50	42,81

27. The improvement over the budget under this head was due to increases under all the minor heads, *viz.*, an improvement of 56 under *Arrack*, 34 under *Toddy*, 11 under *Beer*,

Appropriation Audit.

23. The budget grants have been exceeded under several heads. The excesses have been noticed under each head of expenditure, and the detailed reasons for the excess have been stated there. The following table brings together the excesses under each head still requiring sanction.

20. The purpose of countersignature is to ensure that this audit has been done. But from the examples given in paragraph 18, I am afraid, that this important aspect is sometimes lost sight of and the countersigning is done mechanically and as a matter of course. Disallowance by countersigning officers is practically unknown in the detailed contingent bills of almost all the departments and the travelling allowance bills of most of the departments. There is little doubt that as a result of imperfect administrative audit, some public money is irregularly or improperly expended. I would therefore request all departmental officers to make their audit real and more effective.

Public Works Objection Items.

21. The following is an abstract of items of objectionable outlay under Irrigation Major and Minor and Civil Works in the Public Works Department which remained unremedied at the end of the year. The irregularities have all been brought to the notice of Government:—

Fund	Major head	No estimate		Excess over estimate		No appropriation		Excess over appropriation		Miscellaneous
		Number of works	Amount expended	Number of works	Excess expenditure	Number of works	Amount expended	Number of works	Excess expenditure

	Total ...	20	44,656	7	6,601	36	58,143	33	34,007	...

22. In the Electrical Department the amount under objection remaining unadjusted on 30th June 1912 amounted to Rs. 3,75,371 as against Rs. 3,73,760 on the 30th June of the previous year. This is made up as follows:—

	1911-12	1910-11
	Rs.	Rs.
No estimate	3,236	...
Excess over estimate	3,1590	...
No appropriation	...	...
Excess over appropriation	...	44,947
Miscellaneous irregularities	3,40,545	3,28,813
Total Rs. ...	3,75,371	3,73,760

The large amount under objection on account of miscellaneous irregularities and the increase in it as compared with the previous year are chiefly due to debits to the stock account in the absence of sanction for raising the limit of reserve stock, and to completion reports for 1910-11 not having been received in some cases.

WOMEN'S SECTION.

This being the second year in which the Women's Section of the Mysore Dasara Industrial Exhibition has been at work, it is felt that its aims should be more widely recognised and appreciated so that a few words of explanation as a preface to this syllabus will not be out of place.

The first aim of this section is to bring into touch with each other women, who, having themselves learnt the value of new occupations and interests, are anxious to hand on this knowledge to others. Plain or fancy needle-work, lace-making, basket-making, knitting, all these are occupations enjoyed by a large number of women and girls in India, but there remain a still larger number who have neither seen nor heard about them. To interest these it is important to collect for Exhibition, the best that is done in all branches of women's work, and it is only the best in each section of the work that can be encouraged by the award of medals and prizes.

This is one of the most difficult things to impress upon intending exhibitors. It is not any kind of work that can be accepted. Certain groups are selected in the syllabus and only the really good work sent in under each group is likely to be admitted. To understand the importance of sending in only the best work, the following rules should be carefully studied and conscientiously carried out.

1. In needle-work the best materials that can be procured should alone be used: it is waste of time to put good work on to poor material which will neither wear nor wash.

2. One neatly stiched, well finished off exhibit is more likely to win a prize than a large bundle of carelessly done work; no amount of trimming will improve a badly made article.

3. Moth-eaten, faded, torn or dirty work cannot be accepted.

4. Exhibits which have already won prizes in previous Exhibitions cannot compete. They will be accepted as "Loan Exhibits" or exhibited for sale if space permits.

5. No work will be accepted that does not come under one or other groups in the syllabus. *Space in the exhibition being limited, there can be no exception to this rule.*

6. *None but genuine women or children's work will be allowed to compete for prizes in this section.*

In conclusion, attention must be drawn to the Government Order No. Fl. 223—G. F. 348-10-7 of 19th July 1911, dealing with the award of medals at Public Exhibitions. It is as follows:—The parties who exhibit articles may be divided into two classes, *viz.*, (1) rich and well-known firms who want distinction and praise rather than any pecuniary help, and (2) indigenous workers of modest means to whom even a small money prize would be useful. In the opinion of Government it will be sufficient to grant to exhibitors of the first class, a certificate stating that their exhibits have been awarded a gold or silver medal or some other kind of distinction. For the second class of exhibitors the award should take the form of a money prize.

PLOUGHING COMPETITION.

In the prize list published with the Prospectus, a sum of rupees fifty has been allotted for the ploughing competition. The following particulars regarding the award of prizes are published for information :—

Indigenous and imported implements of all kinds will be admitted, the different classes of implements being allowed to compete separately.

1. *Ploughing.*—Each competitor will be required to plough completely one plot of red loamy soil measuring four guntas in an hour and a half.
2. *Riging.*—To ridge up completely a three-gunta plot in an hour and a half.
3. *Harrowing.*—A four-gunta plot will have to be harrowed in twenty minutes.
4. *Sowing.*—A four-gunta plot to be sown in twenty minutes with a seed-drill.
5. *(a) Thrashing.*—A given quantity of a given kind of crop to be thrashed by cattle, stone mills, or power machines.
   (b) Winnowing.—By machines of different kinds.

The number and value of prizes to be awarded will be fixed after applications for the entries are received and the various kinds of implements and machinery competing are known, and the present provision of rupees fifty will be increased if necessary. The competition will be held on the 15th October 1913.

Those who wish to enter for these competitions are requested to submit their applications in the accompanying form through the $\frac{\text{Amildar}}{\text{Tahsildar}}$ of their taluk so as to reach the undersigned not later than the 30th of September 1913, at Mysore.

APPLICATION FORM.

Name and address of the competitor	Name, kind and value of the agricultural implements which the competitor proposes to enter for the competition.	Events for which the applicant wishes to compete	Remarks of the Amildar or Tahsildar of the Taluk

N. B.—All the agricultural implements should be produced for the inspection of the Secretary to the Exhibition Committee at Mysore.

SECTION F.—MISCELLANEOUS.

3. POTTERS COMPETITION.

Rules.

The competition will commence at 8 A.M. on Tuesday the 14th of October 1913 and will be continued for three days.

2. Any kind of wheels indigenous or improved or foreign may be entered for the competition.

3. Competitors will be allowed to fix their own apparatus beforehand.

4. Competitors will bring their own clay; but gypsum powdered or cement will be supplied by the Committee.

5. Competitors will be allowed to compete under one or more of the undermentioned tests :—

(i) To make plain flowers pots, 8 inches high, with half inch thick without lip.

(ii) (*a*) To make a tea pot of a given size.

(*b*) To make a jug of a given size with a single or double sheaths.

(iii) (*a*) To make a pedestal, 4 feet high, with the two ends ornamental with beadings.

(*b*) To make an ornamental balustrade as per sample approved.

(*c*) To make a mould of an ornamental flower pot in gypsum or in cement and to show the process of taking out copies.

Note.—Competitors under tests (*b*) and (*c*) of class (iii) should get the sketches or sample objects approved by the judges.

6. In awarding prizes, the judges will note the following points :—

(*a*) The state of finished articles while drying, with special reference to cracks, etc.

(*b*) Throwing and finishing.

(*c*) Adaptability of the wheel.

1. Whether the wheel is suited for throwing different kinds of objects.
2. Whether the wheel can be worked profitably by potters in their houses or is only useful for factory work.

(*d*) Mechanism of the wheel.

1. Soundness and simplicity of the wheels.
2. Position in which the potter has to hold his body and the ease with which he works.

(*e*) The different kinds of clay and materials used.

(*f*) Methods of preparing the clay.

THE WEAVING COMPETITION.

In connection with the Exhibition of 1913 a competition in Weaving and its preparatory process will be held in the Exhibition premises, Mysore. The following rules regulating the competition are published for the information of the intending competitors :—

SECTION I.

The competition will commence on Monday the 13th of October 1913 and will be continued for three days.

2. Weavers will be required to work for 7 hours a day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

This rule does not effect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class, when the number is less than 3. But all *bona-fide* weavers with a piron driver for helping each competitor, will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a* to *d*) :—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year.—

(*a*) To weave a cloth 54 inches wide (having half-an-inch silk border) with 30's warp, 52 ends per inch and 30's weft, of 48 picks per inch. Prize.—Rs. 10 and Rs. 8 for each set of competitors.

(*b*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 40's warp, 60 ends per inch and 40's weft, of 52 picks per inch. Prize.—Rs. 12 and Rs. 9 for each set of competitors.

(*c*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 60's warp, 72 ends per inch and 60's weft, 72 picks per inch. Prize.—Rs. 14 and Rs. 10.

(*d*) To weave a cloth, 45 inches wide with 100's warp, 80 ends per inch and 120's weft, 80 picks per inch. The border is to be of lace and silk of any pattern (specially rudrakshi, peacock, weaving, etc.) left to the option of the competitor. Prize.—Rs. 15 and Rs. 12.

(*e*) To weave a magutum, 54 inches wide, with red, yellow or bleached country twisted silk of about 80 counts. The border must be of lace of about one-fourth of an inch. It is sufficient if the competitors use reeds of about 40 dents and weave about 80 picks to an inch. Prize Rs. 15 and Rs. 12.

In (*a*), (*b*) and (*c*) the cross borders must be of silk and in (*d*) and (*e*) they must be of lace.

The authorities may allow any other tests provided there are sufficient number of competitors.

9. The competitors will purchase warps except silk from the Exhibition authorities and use them alone for competition and the competitors must bring in their own wefts.

Intending competitors should inform the Secretary at least 15 days before the competition commences. The local weavers will get their daily allowances only. All competitors must bring their own pirons.

10. In awarding prizes to the weavers the Judges will note the following points :—

The work done—

(1) The length of the cloth woven during the whole period.

(2) Uniformity of picking and adhesion to specification.

(3) Freedom from broken ends.

(4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the Judges will consider in addition—

(*a*) Adaptability of the loom :—

(1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.

(2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.

(*b*) Mechanism of the loom :—

(1) Soundness and proper proportion of its parts.

(2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.

(3) The position in which the weaver has to hold his body while working and the ease with which he can work the loom.

A loom that was once awarded a medal will not get it a second time.

SECTION II.

WEAVING AND PREPARATORY PROCESS.

Tests in the following four classes are opened to boys under 18 years and women of any age. Of the two prizes one will be among boys and the other among women.

1. Simple processes of making long warps and sizing them economically and usefully.

2. Simple adoptation of English Dobby for hand-loom work.

3. Of any new machanism likely to improve or increase the quality of the outturn such as new patterns of automatic take-up motion, etc.

4. *Spinning.*—Any kind of spinning appliance may be used. Wool to be spun will be supplied at the time of the competition at the cost of the competitors. The thickness of the yarn and the quantity to be spun and the time to be taken will be decided by the judges. Prize Rs. 10 and Rs. 7.

5. *Warping and sizing*—

(*a*) Open only for females.
To make 40's warp, 10 yards long and to size it. Prize Rs. 10 and Rs. 7.

(*b*) Open for males and females.
To make 60's warps, 40 yards long and to size them. Prize Rs. 15 and Rs. 10.

The prizes will be awarded for the best-sized warps. The time to be allowed for work, the quantity of yarn to be warped and the test to be adopted for judging the work will be decided by the judges. Yarn for warping and sizing will be supplied at the cost of the competitors, at the time of the competition.

6. Competitors will fit up their own looms in the ground allotted and get everything ready for competition.

7. Intending competitors must send their application in the prescribed form, so as to reach the Secretary at Mysore on or before the 15th of September 1913 at the latest.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition **should** be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, and artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be *bonâ fide* produce of, or have been raised by the exhibitors; and unless otherwise specified, must have been grown in Bangalore.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor acting contrary after being asked to retire will have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists' cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the cup will be his property for good.

7. Out of the money prizes won with the cups, a sum of rupees 10, 15 and 15 respectively will be deducted to defray cost of a miniature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze Medals will be available for all classes and will be awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the Prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 2nd August 1913 at 3-30 P.M.

The Floral Parade takes place at 5-30 P.M.

School children will be admitted free on Sunday between 7 A.M. and 11 noon.

OFFICIAL MEMORANDUM.

Camp No. G., 1-54—*G. M.* 55-12-208, *dated* 14*th June* 1913.

The progress of the work of the Economic Conference in the past two years, the adoption of an expansive educational programme, the creation of a separate Department of Industries and Commerce and the contemplated development of the Agricultural Department, all render an amplification of the rules of the Conference necessary.

2. It is desirable to foster in the people a spirit of self-reliance as well as an attitude of sympathy and active co-operation in the work that is being done for them by the different Departments of the State. Further efforts are also needed to co-ordinate the activities of the Central Committees and the Heads of Departments to enable them to work together in harmony with the people for the promotion of progressive measures.

With these objects in view and to facilitate the work of the Conference and of the several Committees, Government are pleased to issue the following subsidiary instructions.

FUNCTIONS OF THE CONFERENCE AND ITS COMMITTEES.

3. The functions of the Conference and its Committees are the investigation of questions of economic interest, carrying on experiments, formulating improvement schemes, spreading information and enlightenment among the people by bulletins and other means, and advising them in respect of measures needed for their material prosperity. In special cases, the Committees may also undertake the execution of schemes prepared by them and duly approved by Government, with the aid of experts or executive officers.

4. When schemes prepared by the Committees or recommendations made by them are formally sanctioned by Government, the responsibility for giving effect to them will ordinarily rest with the executive Departments of Government.

5. The Committees should encourage the formation of local associations, Chambers of Commerce, local committees, etc., for the investigation and development of individual or minor questions and for stimulating co-operative effort and private initiative so that, as far as possible, the services of every person in the State who has capacity or enthusiasm for work or for spreading information, or who has capital for investment in productive enterprises, may be enlisted in the work of the people.

6. The Central Committees may also recommend to Government financial aid to deserving private bodies, committees or individuals, where necessary.

CO-ORDINATION OF WORK BETWEEN CENTRAL COMMITTEES AND DEPARTMENTS OF GOVERNMENT.

7. Government Order No. G. 1679-729—G. M. 36-11-38, dated the 15th September 1911, requires all officers of Government to co-operate with the Conference. At present the officers intimately connected with the three Committees are the Inspector-General of Education, the Director of Agriculture and the Director of Industries and Commerce. Other officers such as the Conservator of Forests, the State Geologist, the Revenue Commissioner, the Chief Engineer, the Chief Electrical Engineer, the Economic Botanist and the Registrar of Co-operative Societies are also engaged in the work of utilising the natural resources and improving the economic condition of the State. The Central Committees may also need their co-operation.

8. It will be the duty of such of the Heads of Departments as are already members of the Central Committees to attend the meetings of their respective Committees (unless unavoidably prevented) and to give the Committees any departmental or other information they may need and the benefit of their experience and assistance in connection with questions under investigation and generally to take an active part in the work of the Committees. The Heads of Departments who are not members of the Committees will also make it convenient to attend meetings of the Committees if specially requested to do so by the respective Chairmen.

9. The Central Committees of the Conference have their own programmes of work and their own budgets, and in regard to matters included in them, the Committees will have a free hand in carrying on experiments and enquiries or carrying out any special schemes sanctioned by Government, provided Government is not committed to any expenditure in excess of the budget provision for the year.

10. The Committees may ask and obtain from Heads of Departments of Government information in regard to the working of any schemes in which they may be interested.

The Committees may also request the Heads of Departments to collect information and frame practical schemes for them, wherever necessary with the previous sanction of Government, funds being provided for the purpose out of the Committee's Budget.

11. The Government may associate with the Head of a Department or the latter may associate with himself one or more members deputed by the Committees to help in the working of any specific scheme, etc., in which they may be interested and to co-operate with them in making the scheme popular.

12. The Heads of Departments are requested to show all reasonable consideration to the recommendations made by the Committees on behalf of private individuals in the matter of providing them with expert advice and assistance.

THE STANDING COMMITTEE.

13. For the purpose of considering important questions as they arise in the interval between any two sessions of the Conference and particularly questions which fall within the scope of more than one Committee, there shall be a Standing Committee of the Conference composed of the President, the Vice-Presidents, the Chairmen of the three Central Committees, the Comptroller to Government and three non-official gentlemen, one nominated by each Central Committee.

Enlarged Standing Committee.

14. The President may, at the request of the Standing Committee or at his discretion, convene an enlarged Standing Committee consisting of the members of the Standing Committee as well as of the members of any one, two or all the three Central Committees.

15. The Secretary to the Conference shall also be Secretary to the Standing Committee.

The Standing Committee shall meet once in three months or oftener if necessary.

The President may, if necessary, invite to the meetings of the Standing Committee, any of the members of the Conference or of the Central or District Committees, or any of the Heads of Departments, or any experts or other individuals not connected with the Conference for the purpose of eliciting views on any particular subject or on general schemes connected with the work of the Conference.

DISTRICT COMMITTEES.

Their work.

16. The work of the District Committees includes all the subjects allotted to the three Central Committees with special reference to the needs and local conditions of the district.

The Committees will be expected to study local deficiencies and local wants and endeavour to supply them largely by the efforts of the people of the locality assisted by Government.

The scope being so wide, it behoves each Committee to choose its subjects for the year according to its capacity, opportunities and local requirements, and submit before 15th July every year a definite programme of the specific work it proposes to accomplish or of the subjects which will engage its attention during the ensuing official year. The report of work done during the year should be submitted not later than the 1st May.

The District Committees should collect and furnish from time to time such information and statistics as may be required by the Central Committees.

They should disseminate information received from the Central Committees, popularise schemes framed by the Committees or departments of Government and co-operate generally in the development of the programmes of both.

17. The Committee will consist generally of not more than 20 members chosen from among—

Composition.

(1) Representatives from the taluks,

(2) Local officers representing the Departments of Revenue, Education, Agriculture and Industries and Commerce, and

(3) Experts or persons who have distinguished themselves or who have shown capacity or enthusiasm for improving education, agriculture and industries and commerce in the district.

18. The District Committee will form three working Sub-Committees, each Sub-Committee consisting of 3 to 5 members for considering subjects relating to—

(1) Education,
(2) Agriculture, and
(3) Industries and Commerce,

respectively, corresponding to the three Central Committees at Bangalore, so that each Sub-Committee may gradually develop special interest and knowledge in the subjects under its consideration. The members of the Sub-Committees should be so selected that they may be able to meet at short notice and oftener than once a month.

19. The District Committees may also—

Other functions.

(1) collect funds from public institutions, charities, municipalities, local boards, village unions, fairs, jatras and other public gatherings, or by levying voluntary cesses and raising subscriptions or donations to supplement the Government grant, for prosecuting the work of the Conference; and apply the funds so obtained in the district itself for demonstration work, for spreading information, for engaging itinerant lecturers and workers, for collecting information, and for any other object that may be found necessary from time to time, the general sanction of Government being obtained in each case;

(2) start a reading room and library and a museum of economic products, industrial machinery, etc., at the District Headquarters;

(3) collect and maintain accurate statistics for the district under the three branches of the Conference work, *viz.*, Education, Agriculture, and Industries and Commerce;

(4) organise Agricultural and Industrial Conferences and shows both at headquarters and at important fairs, jatras, festivals, etc., in the district;

(5) encourage the formation of agricultural, industrial and other associations, societies, committees, etc., for the investigation and working up of special questions of economic interest and for aiding the people in starting industries, joint-stock or other business concerns;

(6) develop local working schemes on economic questions and submit the same for the sanction of Government through the Central Committees and in urgent cases through the Head of the district;

(7) act as a medium between the Government and the people by studying the requirements of the district;

(8) investigate applications for financial aid in the shape of loans or subsidies or concessions and recommend them to the Central Committees for submission to Government;

(9) maintain a list of persons in the district who may be willing and able to do active work to help in the programmes of the Conference and its Committees;

(10) maintain a list of persons who are prepared to follow improved methods of agriculture or develop industries and commerce or who are ready to invest capital, and indicate the nature of expert advice and help they may need from the Central Committees or the Heads of Departments; and

(11) do everything possible to bring together all people interested in any particular subject of economic interest and to keep them thinking and working on it.

The District Committees may also, whenever necessary, request the Secretaries of the Central Committees to attend the meetings of the District Committees and help them in the elaboration of schemes.

Funds.

20. A sum of Rs. 2,000 will be provided for each District Committee in the Budget for 1913-14. If the District Committees collect funds locally, further grants will be made by Government, which will depend on the amount so collected and on the definite purpose or purposes to which it is intended to apply the same.

Agency.

21. The selection of a Secretary or Secretaries to do the work of the District Committees efficiently is a very important matter. One of the Secretaries should, if possible, be an Assistant Commissioner. With him may be associated one other non-official gentleman selected from among the public-spirited gentlemen of the locality. The appointment of a Secretary or Secretaries for each District Committee should form the subject of a separate reference to Government from each district.

22. It is very essential for the proper development of work that the District Committees should keep themselves in touch with the Central Committees. The mere exchange of proceedings of meetings serves the object only to a limited extent. It will be an advantage if the Secretary to the Conference and the Secretaries to the Central Committees can meet the District Committees and their Sub-Committees or the Deputy Commissioners at frequent intervals and talk over subjects which may be engaging the attention of the District Committees and the Central Committees.

TALUK, CITY OR TOWN PROGRESS COMMITTEES.

Object.

23. The work of the Progress Committee of a taluk, city or town is primarily to develop the material progress of the area concerned and to maintain correct statistics of its economic condition. But the formation of each Committee will be optional and will be authorised only if voluntary offers come from the representative people of the area concerned.

Whenever a Committee is to be formed, a sum of not less than Rs. 100 should be collected by voluntary subscription and an application submitted by the representatives of the locality through the Deputy Commissioner and the Central Committee to Government.

Funds.

24. If the Committee is able to raise by voluntary collection a sum of not less than Rs. 100 per annum, a grant of Rs. 100 will be made by Government. Special grants will be made in the case of Bangalore and Mysore if people come forward to form City Committees there.

As the work to be done, the necessary agency to be employed and the magnitude of the operations to be undertaken will depend chiefly on the funds collected and on the number of workers available, every endeavour should be made to collect as large a sum of money annually as possible by subscriptions, donations and contributions from local institutions and public bodies.

The whole of the amount collected will be available for expenditure by the Committees on local objects approved by the Central Committees or by Government.

Composition.

25. The Committee should consist of three to five leading men trusted by the people and if possible elected by them. The Amildar will be the Chairman of the Taluk Committee. The members may be selected from among the leading ryots and merchants, sub-registrars, schoolmasters and others who may take an active interest in, and be willing to work earnestly for, the improvement of the economic condition of the people and for the regular study and dissemination of useful information.

26. These Progress Committees will once a year report upon the following among other points:—

(*a*) increase or decrease in the literate population;
(*b*) increase or decrease in the average mortality:
(*c*) whether new schools are required;

(*d*) extent of industrial and food crops as compared with the previous year;
(*e*) whether any new industries or machinery can be introduced;
(*f*) whether existing industries or trade can be developed;
(*g*) whether trade is increasing and whether there are any local banking facilities;
(*h*) to what extent people themselves are prepared to invest their own capital in industrial enterprises; and
(*i*) what aid they require from Government.

These Progress Committees will devote their attention to the special needs of the locality and prepare, from time to time, brief schemes relating to the economic development of the area and submit them to the District Committees.

These Committees will be supplied free of cost with all pamphlets issued by the three Committees of the Conference.

27. Each Committee should submit its report by the 30th April to the District Committee concerned, copies being sent simultaneously to the three Central Committees.

SUB-COMMITTEES.

28. When three or more persons possessing a representative character come forward to help any Committee by constituting themselves into a Sub-Committee for the investigation of specific economic questions or the development of schemes, their services should be availed of as far as possible. Each Committee may have several Sub-Committees at work formed from its own body or outsiders or both.

The main object to be aimed at is to keep as many people in the State as possible thinking and working for the furtherance of the objects of the Economic Conference.

29. Government trust that Heads of Departments, the Deputy Commissioners of Districts in particular, and other officers of Government connected with the Central and District Committees will do all in their power to foster the usefulness of these bodies and to encourage a spirit of harmonious co-operation between the officers of Government and the public.

K. R. KRISHNASWAMI IYENGAR,
For *Sanitary Commissioner with the Government of Mysore.*

APPROPRIATION REPORT

ON

THE ACCOUNTS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

FOR

1911-12

(Ended June 1912.)

(NOTE.—Throughout this report the figures given are, unless otherwise indicated, in thousands of Rupees omitting 000.)

General Review.

In framing the budget estimate for 1911-12, it was assumed that conditions of average prosperity would prevail during the year regarding agriculture and trade. The estimates under the "Principal heads of revenue" *viz.*, Land Revenue, Forest, Excise, Assessed Taxes, Stamps and Registration were accordingly placed at figures representing the standard of demand that should be realized in a normal year. Of these heads, the realizations under Land Revenue, Excise and Assessed Taxes may be said to depend chiefly on agricultural conditions, that under Forest depends mainly on the circumstances of trade, while the receipts under Stamps and Registration are regulated partly by the circumstances of agriculture and partly by trade conditions. The Railway revenue also depends on the activity of trade, and it was anticipated that during 1911-12, the revenue from Railways would regain the level which it maintained prior to the temporary set-back in 1910-11. The Cauvery Power revenue, which is to a great extent independent of agricultural and trade conditions, was taken at the normal standard. On this basis, the aggregate revenue was estimated at 235,80.

2. On the expenditure side the outstanding feature of the budget was a number of special grants for various objects under many of the important heads. The most important of these grants were those made in connection with the Coronation Durbar celebration, and those relating to the work of the Economic Conference and its committees. The provincial Public Works grant was fixed at 30 lakhs. As a consequence of these liberal grants, the expenditure of the year was estimated at 239,09. The budget therefore resulted in a deficit of 3,29.

3. Actually, however, the transactions of the year have proved more favourable than the budget. The anticipated deficit of 3,29 has been converted into a surplus of 18,89. The change for the better thus amounted to 22,18 and was the combined effect of the revenue being higher than the budget forecast by 15,10 and the expenditure lower by 7,08. The improvement in revenue was contributed by all the heads of revenue except interest, and the deviations from the budget on the expenditure side which resulted in a lapse of 7,08 were chiefly in the salaries and expenses of civil departments, miscellaneous civil charges and under Construction of Railways, counter-balanced in part by increased expenditure under Public Works.

4. The following summary of budget and account figures shows important variations between the budget and the actuals of 1911-1912 and also between the actuals of 1910-11 and 1911-12. These variations are discussed below in a general way, and in greater detail in the review of each head of account.

Changes in Classification.

5. Several important changes in classification were introduced during the year under review. The revenue derived from salt being very insignificant, the head VI. Salt was removed from the principal heads of revenue, and the receipts were shown under a separate minor head subordinate to XIX. Miscellaneous. The receipts and expenditure relating to Military Works which were hitherto included in the receipts and expenditure of the Public Works Department were separated and shown under a distinct major head opened on both sides of the account under the group head Army and Defence. This ensures the whole Military expenditure of the State being shown in one place.

6. The expenditure connected with the Economic Conference, the grant for which was included under 21 Scientific and other Minor Departments in the budget, was actually booked under General Administration as the more appropriate head for the purpose. A new major head 27A Subsidy to British Government was opened under the group head "Army and Defence" to show this item of expenditure separately from political pensions with which it was hitherto lumped up. To record the expenditure incurred in connection with the Coronation Durbar of His Imperial Majesty the King-Emperor George V. at Delhi in December 1911 both on the Civil and Military sides, new minor heads were opened under 26. Miscellaneous and 27. Military.

7. The charges relating to guests were hitherto shown partly under the minor head Government Houses, etc., subordinate to the major head General Administration and partly under the minor head Reception of important personages included in the major head Miscellaneous. Moreover under Government Houses some charges which did not appertain to guests were shown. As the result of this defective classification, the exact expenditure on guests in any year could not be found out. During the year under review a revised classification was introduced so as to show separately in one place all charges incurred on account of guests. For the minor head "Government Houses, etc.," under general administration a head entitled "Reception and entertainment of guests" was substituted and the expenditure on account of guests hitherto shown under 26. Miscellaneous was also transferred to this new head. The charges appertaining to Government parks and gardens which used to be included under General Administration along with Government House expenditure and mixed up with guest charges were transferred to the minor head Botanical and other gardens under 21. Scientific and other Minor Departments.

8. The Railway expenditure of the State was hitherto shown under two major heads, namely, one major head under the Railway Revenue account against which only the interest payments on the sterling railway loan were shown, and another major head Construction of Railways intended for showing all capital outlay whether on open lines or on lines under construction. This system provided for no appropriate head to show the Railway expenditure of the State other than interest payment or capital expenditure, such as, expenditure on the Government's own administrative and account offices in connection with Railways. To remove this defect, a second major head Miscellaneous Railway expenditure has been opened under the group "Railway Revenue Account."

Comparison of Actuals 1910-11 and 1911-12.

9. The aggregate revenue realised in 1911-12 was 4,17 in excess of that in 1910-1911 and the aggregate expenditure 9,30 more than that in 1910-1911. The improvement in the revenue was chiefly under Forest, Stamps, Mining Revenue and Railways. The rise under Forest was due to higher price of sandalwood realised and to a better demand for timber and other forest produce. The improvement in the revenue from stamps is attributed to increased activity in monetary transactions and to an increase in the number of suits; and the royalty on dividends declared by mining companies and the larger output of gold from Kolar mines explain the increase under Mining Revenue. The expansion of coaching and goods traffic on the railways of the State resulting from the recovery of trade from the depression of the previous year combined with some reduction in the working expenses contributed to the appreciable increase noticeable in Railway Revenue. On the expenditure side, the excess over previous actuals was chiefly due to expenditure on account of the Coronation Durbar and to the outlay on the Kannambadi Reservoir.

Comparison of Actuals of 1911-1912 with Budget.

REVENUE.

10. Compared with the budget the actual revenue realised in 1911-1912 was 15,10 in excess of the forecast. The improvement occurred under all the important revenue heads. The largest item of increase was under Land Revenue. As a result of the favourable character of the season there was a material reduction in the arrear outstandings, and the aggregate amount of revenue collected was higher than the budget figure. Under Forest, the demand for sandalwood and other forest produce during the year increased the revenue by 3,75 over the budget. Excise revenue was better in consequence of the increase in the consumption of arrack, and the enhanced rate of tree tax introduced from 1911-1912. The increase under stamps and registration is attributed to increased activity in monetary transactions. A larger output of gold in the Kolar mines accounted for an increase of over 1½ lakhs under Mining Royalty. Lapsed deposits and the receipts from sale of building sites in the Bangalore City extensions contributed to an excess of over half a lakh in the miscellaneous receipts. There was a rise of 2,92 in the gross earnings from railways as a result of increased passenger and goods traffic. Extension of power and lighting installations in Bangalore and the fact that there were very few interruptions in the supply of power to the Kolar mines raised the revenue from the Cauvery Power Scheme to 1,16 over the budget

figure. The only falling off of importance was in the realisations from interest, and even this decrease of 2,74 was only nominal, as interest on some of the investments which fell due on 30th June 1912 which was a Sunday could not be realised and credited in the year under report but had to be taken into the accounts of the next year.

EXPENDITURE.

11. The lapse of 7,08 in the grants provided for in the budget was the net result of savings under some heads and some excesses under others. The excesses were under Refunds and Drawbacks (1,05) due to settlement by Government of arrear claims of certain inamdars to excise revenue ; under Forest (31) for additional works under buildings, roads, fire protection and sandalwood extraction, for which an extra grant was sanctioned during the year ; under Police (20) owing to the payment of some arrear furlough allowances due to a former Inspector-General of Police ; and under Stationery and Printing (21) on account of increased expenditure on stationery, type and other materials and on piecework establishment chiefly due to Census requirements. There was a small excess of 26 under railways due chiefly to payments on account of two new dining saloons ordered for the use of His Highness the Maharaja. The expenditure under Public Works was considerably in excess of the budget, and the excess amounted to 4,48. This was in consequence of an additional grant of 10 lakhs sanctioned during the year on account of the Kannambadi Reservoir, which was, however, not utilised fully.

12. Against the excesses noted in the foregoing paragraph over the budget figures, there were savings under most of the other heads. The saving of 60 under Land Revenue, 22 under Excise, Stamps and Registration, and 8 under charges against Mining Revenue were made up of small items under salaries and establishment and supplies and services. A part of the interest payable on the State loan pro-notes was not claimed during the year, and the balance of savings banks deposits on which interest was payable was also lower than anticipated ; and these were the principal causes of a lapse of about 31 under Interest. The lapse of 18 under Palace is explained by the pension provided for one of the deceased children of the late second Maharaja Kumari not having been drawn. There were lapses in the grants for salaries and expenses of Civil Departments under all the heads except Police, but chiefly under General Administration, Education, Medical, and Scientific and other Minor Departments. The reduction under General Administration was owing partly to savings in Tour Charges and Civil Secretariats and partly to the adjustment during the year by reduction of expenditure of certain charges on account of reception and entertainment of guests. These charges were incurred on the occasion of the marriage of His Highness the Yuvaraja and debited provisionally to this head in the first instance, but were subsequently directed to be transferred to the Palace.

13. The considerable lapse under Education was due to the place of the Inspector-General of Education having remained vacant for over ten months and to the special grants for (i) furniture and apparatus in Government colleges, (ii) the equipment of laboratories in Government Schools and (iii) the opening of the English training class in the Mysore Normal School having been wholly or in part allowed to lapse. The saving under Medical is explained by the change of incumbents in the appointment of Senior Surgeon, by some places of sub-assistant surgeons and the post of Deputy Sanitary Commissioner being vacant, and by lapses in the grant for sanitary and plague charges. The difference between the actuals and budget under Scientific and Minor Departments and Miscellaneous respectively, on account of the Economic Conference and Delhi Durbar charges, is explained by the change in classification referred to in paras 6 and 7 *supra*. As explained there, the expenditure in connection with the Economic Conference was booked under a separate minor head under General Administration though the budget provision was made under Scientific and Minor Departments. Also, though the whole provision for the Delhi Coronation Durbar was shown in the budget under Miscellaneous, the expenditure was booked partly under Miscellaneous and partly under Military. Owing to a decrease of 2,67 in the State's share of the railway stores owned jointly by the State and the Madras and Southern Mahratta Railway Company, the actual expenditure of 4,16 under Railways was reduced to 1,49 and led to a difference of 2,48 between the budget and actuals. The Cauvery Power Scheme account also showed a lapse of 86, the major portion of which was in the revenue account, due to savings under salaries and to non-adjustment of proportional charges on account of direction and accounts and of leave and pension charges.

14. The following statement shows the revenue proper as distinguished from the other

receipts and exhibits the net demand for expenditure on the revenues. The budget and account figures for the year are shown together in parallel columns for purposes of comparison :—

Amount under Objection.

15. The amount of expenditure brought under objection prior to 1st July 1912 and remaining unadjusted in the Civil Books on 31st October 1912 is noted below :—

Treasuries	Land Revenue	Excise	Police	Education	Medical	Scientific, etc., Departments	Miscellaneous	Village School Fund	Total	Total at the end of October 1911
State Huzur Treasury	...	...	...	...	...	..	2	...	2	6

Hassan do	2	...	...	...	...	...	...	...	2	3
Total ...	88	5	2	4	2	...	3	...	1,04	1,62

As compared with the outstandings in the previous year, there has been on the whole a substantial improvement. The most noticeable reduction is in Bangalore, the figure of which has gone down from 91 to 47. In Tumkur, however, the outstandings have gone up from 2 to 8, while those in Kolar have remained stationary at 26. The balances are still high and are susceptible of further reduction.

The following is a statement showing the nature of objections under the several heads of accounts :—

Heads of Classification	Want of bills from districts	Want of sub-vouchers	Want of Government sanction	Want of detailed contingent bills	Want of completion bills	Total
2. Land Revenue	84	2	...	2	...	88
15. General Administration	...	...	...	5	...	5
17. Police	1	...	...	1	...	2
18. Education	...	...	2	2	...	4
20. Medical	...	...	2	...	...	2
26. Miscellaneous	...	...	...	2	1	3
Total ...	85	2	4	12	1	1,04

16. It will be seen that the bulk of objections refer to the head *Land Revenue* and that the nature of objections is want of bills from districts. These objections generally arise in the following way. For *potgi* payments and Malnad inam payments, statements are prepared and sent to this office long after the list of payments are despatched. If only the officers concerned will see to their prompt preparation and despatch, the amount under such objection can be materially reduced. The Treasury officers also can do much in the way of reducing the amount under objection in such cases by insisting on prompt submission of the papers.

17. Another point which requires to be specially mentioned is the long delay which is not infrequently allowed to occur in the submission of detailed bills and vouchers, and it is attributable to the following causes :—

(i) Money is sometimes drawn from the Treasury in excess of actual requirements or when not actually required for payment, especially in the month of June to avoid a lapse of the budget grant. This practice is irregular. The strict adherence to the rule on this subject is of very great importance and should be enforced. The attention of all spending

and controlling officers is invited to this important matter. Some cases involving a violation of the rule under consideration are noted below and these show the misapprehension that seems to exist as to when money may be drawn from the Treasury, for meeting claims on Government:

(*a*) The Superintendent, Government Gardens, ordered for some glass-ware and apparatus from Germany. He received an invoice for 874 *marks* from the firm for the things shipped. Anticipating that the things would not be delivered and paid for in ordinary course before the financial year, he drew a sum of Rs. 710-14-0 inclusive of clearing charges, etc., in June 1912 to prevent the amount from lapsing and remitted it to the agents of the German firm in Bombay. Government, when countersigning the detailed contingent bill of the Government Gardens for June 1912, observed in their Order No. G. 1149-50—G. M. 131-11-12, dated 24th August 1912, that "the procedure adopted by the Superintendent was objectionable under Article 84 A of the Civil Account Code which especially prohibits the drawing of money in advance from the treasury before the need for payment has arisen, in order to avoid a lapse."

(*b*) The Revenue Commissioner in Mysore drew a sum of Rs. 201-14-0 in excess in June 1912 and refunded the same by shortdrawal from the abstract contingent bill of his office for August 1912. On objection being taken, he gave the following reasons:—

"The amount was drawn in advance to meet the following expenditure:—

(1)	Rs.	18	12 · 0	for purchasing a copy of Pollock's Law of Torts.
(2)	,,	53	2 0	do	certain seeds.
(3)	,,	130	0 0	do	Japanese ginning machine for the Chitaldrug District.

"Amounts drawn for (1) and (2) were not shortdrawn in the bill for July 1912 as the book and seeds were expected early and the amount was expected to be spent for the purpose.

"At the request of the Deputy Commissioner, Chitaldrug District, it was proposed to purchase and supply him with a Japanese ginning machine for agricultural experiments. As the question of the purchase of the machine was under correspondence with the firm which sells such machines and the Deputy Commissioner till 7th August 1912 when the latter intimated that the purchase may be put off, the amount could not be short-drawn in the abstract contingent bill for July 1912."

(*c*) The Inspector-General of Education in Mysore drew in June 1912 a sum of Rs. 2,604-8-0 being the value of reversible desks required for the Local Examinations. The purchase of these desks was sanctioned in Government Order No. 696-7—Edn. 8-10-5, dated 24th July 1912. Detailed contingent bills were received with the Inspector-General's letter No. 9192—560, dated 15th February 1913. One of the receipts for Rs. 1,642 was dated 3rd August 1912. The Inspector-General's attention has been invited to Article 84 A, Volume I, Civil Account Code, and he has been asked to state where such a large amount was kept after being drawn from the Treasury. The reply of the officer is awaited.

(ii) Delay in the offices of countersigning officers.

This is a very common incident and seriously interferes with audit and has the effect of swelling the number of objection items unnecessarily. A case of this kind is noted below. It is hoped that delays in offices of countersigning officers will not be allowed to occur in future. Detailed contingent bills for amounts drawn on abstract bills by the Assistant Commissioners of Saklespur and Channarayapatna Sub-Divisions in the Hassan District were not received for several months after the due dates during the year 1911-12. Repeated requests for submission of detailed contingent bills not having proved effective, the District Treasury was asked in May 1912 to stop encashment of subsequent abstract bills of the officers concerned. After this step was taken the detailed contingent bills were received in this office from the Deputy Commissioner and it was found from the dates of the bills that they had been received in the Deputy Commissioner's office in time, and the delay that had occurred was in the latter office. The Deputy Commissioner has promised to make arrangements to obviate such delays in future.

(iii) Prompt attention not being paid to the instructions from the audit office:—

Cases are not uncommon in which repeated calls from the Audit office for information or for submission of vouchers, etc., fail to receive compliance or ever elicit a reply within a reasonable time. If the requisitions of the Audit office are treated as mere routine, which can be attended to leisurely, prompt audit of public expenditure will not be possible and irregularities will remain undetected for long periods.

18. Some items of objection of more than ordinary interest noticed in the course of audit are given below :—

(i) A last pay certificate dated 30th March 1912 was granted by the Amildar of Tiptur Taluk to a sub-assistant surgeon in which the date up to which payment had been made was wrongly entered, and this was also countersigned by the District Treasury Officer, Tumkur. The error resulted in pay for February 1912 being drawn twice. The District Treasury Officer stated that he relied upon the Taluk Treasury Officer's certificate and did not verify the certificate with the lists of payments. The sub-assistant surgeon who drew pay for the second time pleaded that he was unable to contradict from memory the last pay certificate given by the Treasury, and was thus led to submit a second bill for the same claim. The Senior Surgeon in forwarding this explanation stated that the sub-assistant surgeon's conduct had been duly noticed. The amount was recovered in full from the sub-assistant surgeon's salary bill for June 1912.

(ii) A refund bill was cashed in the Chikballapur Taluk Treasury in January 1912 without being pre-audited by this office as required by the rules. The matter was brought to the notice of the Revenue Commissioner who stated in his No. 796, dated 19th July 1912, that the Deputy Commissioner had been requested to recommend a suitable punishment for the Taluk Sheristadar and to punish the other officials at fault.

(iii) During the year under review eight travelling allowance claims were preferred for a second time by officers of different departments. Of these two were in the Revenue Department, one in each of the following Departments, *viz.*, Military, Education, Forest, and Medical, one in the Economic Conference, and one was preferred by the Huzur Secretary.

In the Revenue Department the cases referred to the Amildars of Tirthahalli and Hassan, and in both cases the reply of the Deputy Commissioner was the same, *viz.*, that the Amildars did not keep copies of bills submitted by them and that the Deputy Commissioner's office had not maintained a register of bills countersigned by the Deputy Commissioner. The case of the Amildar of Tirthahalli was reported to Government, and they have in their Order No. Fl. 6414-59—S. A. 4-11-18, dated 3rd May 1913, observed that the second claim was preferred by a mistake made in good faith which was due to the failure of the officers concerned to maintain the prescribed registers. Government have also directed that the rules laid down in Articles 69 and 70 of Civil Account Code, Volume I, prescribing the maintenance in every office of registers showing correct office copies of every travelling allowance bill that passes through it, should be strictly followed in future.

In the Military Department the mistake arose by not following one uniform system in preparing travelling allowance claims on behalf of the Barr sepoys accompanying remittance of treasures. The Chief Commandant has been requested to follow strictly the system of including the claims of all the sepoys, on whatever duty, in one consolidated bill so that such mistakes may not occur in future.

The Inspector-General of Education, the Conservator of Forests and the Senior Surgeon have all stated that the mistakes in their departments arose through the oversight and carelessness of the accountants concerned and that these latter have been warned or punished.

The second claim preferred by the Huzur Secretary was on behalf of his establishment, and it must have also been due to the absence in his office of a record of travelling allowance bills already sent up for audit.

In the Shimoga District, a member of the District Committee of the Economic Conference preferred a claim for the second time, and the bill was received in this office duly countersigned by the President of the Committee. The bill was returned to the President, and his final report as to how the mistake arose is awaited.

Administrative Audit.

19. It is, I am afraid, not as well known as it ought to be, that the audit of Government expenditure is not conducted entirely in the audit office but that an important part of it is to be done by the departmental officers. This portion of the audit called administrative audit, as distinguished from the technical audit, may be said to embrace generally the following points :—

1. Expenditure being not more than the occasion demands.
2. Money being spent on and in the true interests of the public service.

IX. Mining Royalty and Leases.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Royalty	18,06	17,50	19,08
Rent on prospecting lands	8	6	11
Fines on assignments	...	...	...
Total ...	18,14	17,56	19,19

32. The budget estimate under this head took into account the royalty payable on declared dividends under the fresh leases granted on the Kolar Gold Fields and also the general improvement in this item of revenue. The actuals proved better than the estimate and the actuals for 1910-11, as the out-put of gold and the amount of dividends declared by the companies were both higher.

X. Interest.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Interest on Loans	1,12	1,87	84
Interest on arrears of Revenue	39	31	36
Total ...	1,51	2,18	1,20

33. In the budget, a revision of terms with some of the debtors including the Mysore Spinning and Manufacturing Company, Ltd., Bangalore, was expected to improve the receipts to a considerable extent. But actually, except in the case of interest on land improvement loans which yielded 25 more than the estimate, the receipts from all the other loans fell short of the estimated amount. The interest expected to be realised from the Mysore Spinning and Manufacturing Company, *viz.*, 88, was not received during the year, as the negotiations with the Company in regard to the new agreement were completed only after the end of the year. The recoveries of interest on loans to encumbered jahgirdars were less than half the demand, and against 55 due from agricultural banks only 9 was realised. The realisation of interest on arrears of revenue was about the same as the estimate and the previous year's actuals.

XI. Profit or Loss.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Profit on investments ...	5,91	5,84	4,04
Interest on current deposits in Madras Bank	57	33	37
Total ...	6,48	6,17	4,41

34. The decline, as compared with the budget and the previous year's actuals, occurred under the head *profit on investments*. This was due to the last day of the year being a Sunday and the interest on some of the investments not being realised in consequence till after the end of the year.

XII A. Law and Justice—Courts of Law.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Sale proceeds of unclaimed and escheated property ...	2	2	2
Recoveries on account of pauper suits	5	2	4
Fees, fines and forfeitures	35	36	38
Savings and refunds	...	...	...
Miscellaneous	2	4	3
Total ...	44	44	47

35. The actuals of the year followed the budget estimate and the previous accounts pretty closely and exceeded both by only 3.

XII B. Law and Justice—Jails.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Proceeds of Jail labor and manufactures	16	15	14
Proceeds of Jail gardens	1	1	1
Hire of convicts	2	3	1
Guarding charges of out-door gangs	...	...	...
Cost of maintenance of Civil and Military Station prisoners	6	5	5
Miscellaneous	...	...	...
Total ...	25	24	21

36. The receipts under this head fell short of budget expectations by 3, and of previous actuals by 4. The decrease was under *Proceeds of Jail labour* and *Hire of Convicts*.

XIII. Police.

	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Fines and Forfeitures	...	...	...
Police supplied to private persons	...	2	...
Seven-tenth share of Railway Police recovered from Companies	8	6	7
Contribution by Mining Companies for the Detective Police at Kolar Gold Fields	12	13	13
Miscellaneous and other items	5	2	1
Total ...	25	23	21

37. The receipts of the year were close to the estimate, and the fall as compared with the previous accounts was under the fluctuating *miscellaneous* items.

XIV. Education.

	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
School fees	82	82	91
Sale proceeds of school books, maps and other publications	29	28	32
Contributions from Municipal Funds ...	14	15	15
Do Muzrai Funds	3	4	3
Do people towards Anglo-Vernacular and Sanskrit Schools	4	3	4
Miscellaneous	1	1	1
Total ...	1,33	1,33	1,46

38. There was an increase of 13 over the budget and the accounts of 1910-11. The increase was in the receipts from *school fees* (9) and in *sale proceeds of school books, maps and other publications* (4). There was no substantial change in the figures under the other minor heads.

XV. Medical.

	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Hospital receipts	...	...	1
Value of medicines sold	1	1	1
Sale of lanoline vaccination lymph ...	3	3	4

39. The receipts under this head are practically steady but for variations in the contribution from Municipal and Local Funds on account of Local Fund dispensaries, which vary according to the progress of the adjustments of the charges relating to these dispensaries. There was a decrease of 8 under this item as compared with the budget estimate and another of 9 as compared with the estimate, on account of the contribution from the municipalities of Bangalore and Mysore on account of the pay of Health Officers. The decrease in the latter case was due to the non-adjustment of the contribution before the close of the financial year.

XVI. Scientific and other Minor Departments.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Botanical and other gardens	8	7	8
Veterinary and Stallion Receipts	36	51	61
Agricultural Department Mis. Receipts ...	1	1	4
Geological Department	7	3	4
Miscellaneous	6	6	6
Receipts on account of public exhibitions and fairs	1	2	3
Total ...	59	70	86

40. Except under *Veterinary and Stallion Receipts*, the figures are normal, and the slight variations in the accounts as compared with the budget do not call for any remarks. The increase under *Veterinary and Stallion Receipts* was due principally to the fact that the sales of Amrut Mahal bulls in connection with the conversion of the pony Transport Corps into a bullock train were somewhat larger than anticipated in the budget.

XVII. Receipts in Aid of Superannuation Allowances and Pensions.

	Rs.
Accounts, 1910-11	3
Budget, 1911-12	3
Accounts, 1911-12	6

41. There was an increase of 3 over the previous actuals and the budget, and this was under contribution recovered from the employees of municipalities.

XVIII. Stationery and Printing.

	Rs.	Rs.	Rs.
Stationery Receipts	9	3	3
Sale of Gazette, etc.	4	4	4
Other Press Receipts	4	1	3
Total ...	17	8	10

42. The variations from the budget and previous actuals are small except under *Stationery Receipts* where there was a decrease of 6 as compared with previous actuals. As pointed out in the last report, the actuals for 1910-11 included an adjustment of the cost of stationery and printed forms supplied to the Electric Department since 1900.

XIX. Miscellaneous.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Unclaimed Deposits	77	25	44
Dividends and Duties ...	21	15	20

Miscellaneous Fees, Fines and Forfeitures	16	14	18
Miscellaneous Sale-proceeds ...	31	24	39
Miscellaneous	39	19	36
Salt	...	7	5
Total ...	2,08	1,26	1,87

43. All the important minor heads in this section show some advances over the budget and the aggregate of the difference between the budget and the actuals amounts to 61. *Unclaimed deposits* which were estimated at 25 actually went up to 44 in the accounts. Duty on cotton goods brought in 5 more than the usual estimate of 15, *Tolls* 2, more than the estimate and *Miscellaneous Fees, Fines and Forfeitures* 4 more due to an increase of 1 from fees for Revenue Survey records and 3 from premium on currency notes. The receipts under *Miscellaneous sale proceeds* are 15 higher than the budget, the increase being chiefly due to larger sale proceeds from sale of sites in villages and taluks and in the Bangalore City, principally in the Mallesvaram Extension. Acreage contributions and other items also added 17 to the increases mentioned above.

44. The principal fluctuation from the actuals of 1910-11 was under *lapsed deposits*. The receipts from *salt* classified under this head from 1911-12 was not included under this head in 1910-11 but formed a distinct major head under the principal heads of revenue.

XX. Army.

Minor Heads	Accounts 1910-11	Budget 1911-12	Accounts 1911-12
	Rs.	Rs.	Rs.
Army Proper	17	26	27

Kunigal Farm	32	17	13
Hessarghatta and Nadamavinapura Farms	19	10	27
Military Works Receipts ...	...	10	12
Total ...	70	65	81

45. The receipts from *Hesserghatta and Nadamavinapura Farms* exceeded budget anticipations by 17, and this excess accounts chiefly for the improvement under this major head. The excess of 11 over the previous year's account is due to a change, in the classification adopted from 1911-12 by which the receipts from the Barr and Sawar lines which were credited to Public Works Department in 1910-11 were classified as Military Works receipts from 1911-12.

12. Interest on other Obligations.

2. Endowment Funds	19	25	23
3. On Mysore State Life Insurance Fund ...	65	71	71
4. Refunds	22	...	4
Total ...	3,08	3,16	3,06

64. This expenditure was on the whole about the same as in 1910-11, but there was a saving of 10 on the budget figure due chiefly to the balance of savings bank deposits at the close of the year having fallen short of the expectations made at budget time. The expenditure of 4 under *Refunds*, which was not provided for in the budget, was on account of the adjustments in 1911-12 of erroneous credits taken to interest instead of the principal of some loans in the accounts of the previous year, and requires the sanction of Government.

13. Profit or Loss.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12
	Rs.	Rs.	Rs.
A.—Loss on Investments	7	5	3
B.—Interest on overdrafts and temporary loans from Madras Bank	...	...	...
Total ...	7	5	3

65. The decrease, as compared with the previous actuals and also the budget estimate, was the result of the steps taken to convert the major portion of the Government of India securities held by the Government from the ordinary into special form of notes for Native States. The interest on the notes in the special form are not subject to income tax. It may be mentioned that this change introduced during the last few years now results in an annual saving of over 18 (Rupees eighteen thousand) to the State.

14. Palace.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12
	Rs.	Rs.	Rs.

Pensions to the Ruling Family	3,40	3,40	3,22
Total ...	23,40	23,40	23,22

66. There was a saving of 18 both from the previous actuals and the budget on account of the lapse in the provision made for the pension of one of the children of the late Maharaja Kumari Krishnajammanni Avaru.

15. General Administration.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12
	Rs.	Rs.	Rs.
Dewan to His Highness the Maharaja	44	48	52

State Huzur Treasury	11	7	7
Reception and Entertainment of Guests	2,34	1,66	37
Durbar presents	...	5	5
Total ...	7,86	7,56	6,44

67. The expenditure during the year was less than the account for 1910-11 by 1,42, and the variation was chiefly under the head *Reception and Entertainment of Guests.* This was the result of two causes working to the same effect. In 1910-11 a special expenditure of about 87 was incurred on account of the entertainment of Indian and European guests in connection with the marriage of His Highness the Yuvarāja; in 1911-12 not only was this special expenditure absent, but the major portion of the special expenditure of the preceding year (78) was transferred to Palace during the year by reduction of charges under the head *Reception and Entertainment of Guests.*

68. There were other smaller variations as under, the net result of which was an excess of 56 over previous actuals.

Dewan to His Highness the Maharaja	+ 8
Tour Charges	— 4
Economic Conference	+42
Civil Secretariats	— 6
Staff and household of His Highness the Maharaja	— 1
Comptroller's Office	+14
State Huzur Treasury	— 4
Durbar Presents	+ 5
	+ 56

69. The excess of 8 under the first item was due to the salary of the Dewan for May 1911 having been drawn in 1911-12. The Economic Conference was newly formed in 1911-12 and there was no expenditure under *Durbar Presents* in 1910-11. The increase of 14 under *Comptroller's Office* was due to the absence of the Comptroller on privilege leave and an officiating officer being appointed in his place, and also to the fact that on account of the retention of the permanent Financial Assistant Secretary in the Comptroller's Office, the higher salary of this officer was debited to this head. There were also small increases under establishment due to progressive salaries, and under travelling allowance and contingencies due to the formation of the Local Audit Department.

70. The decrease of 4 under *Tour Charges* is explained by their fluctuating nature and that under *Civil Secretariats* by savings in establishment and contingencies, while that under *State Huzur Treasury* was in consequence of its conversion into a reserve treasury with an officer on less pay and a smaller establishment.

71. There were excesses over the budget under *Dewan to His Highness the Maharaja* (4), *Economic Conference* (42) and *Comptroller's Office* but these were counterbalanced by large lapses under *Tour Charges* (12), *Civil Secretariats* (15), *Staff and Household of His Highness the Maharaja* (6) and *Reception and Entertainment of Guests* (129).

72. The excess under *Dewan* has been explained above; and that under *Economic Conference* is only nominal, for while provision was made for Economic Conference under the head Scientific and Minor Departments, the expenditure incurred was charged to General Administration for the reason that the Conference is more of the nature of an advisory board than a regular department of the State. The increase of expenditure over the budget in the Comptroller's Office was due to the reason already explained in reference to the variation compared with previous actuals.

73. The causes for the variation in the actuals also account for lapses from the budget under *Tour Charges, Civil Secretariats,* and *Reception and Entertainment of Guests.* The saving under *Staff and Household of His Highness the Maharaja* occurred on account of the death of the Assistant to the Military Secretary, whose appointment was kept vacant.

74. The excess over grant amounting to 5 in the Comptroller's Office requires the sanction of Government.

16A. Law and Justice—Courts of Law.

	4,06	4,29	4,16
Share of Land Revenue Charges	3,47	3,45	3,56
Total ...	7,53	7,74	7,72

75. As compared with previous actuals, there was an increase of 19, the important variations being under *Chief Court* (7), *Civil and Sessions Courts* (9) and *Share of Land Revenue Charges* (9) which were counterbalanced to a certain extent by small and unimportant decreases under other heads. The increase in the first item was in consequence of the leave allowances of the Chief Judge who was on privilege leave in 1910-11 having been drawn in July 1911 instead of in the previous year, and that in the second to the re-establishment in 1911-12 of the Bangalore Sessions Court. The share of Land Revenue charges is of a fluctuating character, depending as it does on the expenditure incurred under Land Revenue.

76. The aggregate expenditure under this head closely follows the budget, but excluding the share of Land Revenue charges, the accounts show a lapse of 13 from the budget. The important variations contributing to this result were under *Civil and Sessions Court* (5) due to the fact that only 10 out of the lump sum grant of 15 for the new District and Sessions Court of Bangalore opened in 1911-12, was utilised, and to small savings in salaries and establishment respectively under *Process Serving Establishment* and *City Magistrates' Courts* and under *Refunds*.

77. There was a small excess of 4 over the budget under the *Chief Court* for the reason noticed above, and of 11 under *Share of Land Revenue Charges* which, as explained above, is of a fluctuating nature. The excess of 1 under *Munsiffs' Courts* was not the result of any excess over grant but to the deduction on account of the Kolar Gold Fields Munsiff's Court charges transferred to the head Charges against Mining Revenue having fallen short of the budget by 1. The excess under *Chief Court* requires the sanction of Government.

78. There was a saving of 7 and 16 respectively from the previous actuals and the budget, which occurred under establishment and dietary charges of Jails, owing to a decrease in the average number of prisoners confined.

17. Police.

Share of Land Revenue Charges	27	26	27

Total ...	9,44	9,31	9,51

79. Actuals as compared with previous year were (17) higher under *Superintendence* and (10) less under *District Police*. The excess was due to the adjustment during 1911-12 of the State's share of the English furlough allowances for two years of Mr. Carr, a former Inspector-General of Police. The decrease under *District Police* was the combined result of some excess in the pay of the executive rural Police and a large decrease in their travelling allowance charges.

80. The budget was exceeded on the whole by 20, which was chiefly under *Superintendence* due to the adjustment of furlough allowances referred to above. Under the other heads, the actuals were close to the estimate. There was also an excess of 1 under *Railway Police* due apparently to men on higher salaries than the scale provided for in the budget having been told off for work in the Railway Police sections. This increase and that under *Superintendence* require the sanction of Government.

18. Education.

Minor Heads	Accounts 1910-11 Rs.	Budget 1911-12 Rs.	Actuals 1911-12 Rs.

Total ...	10,53	11,79	10,72

81. The expenditure for the year was 19 more than in 1910-11. The difference was the result of a large increase of 31 under *Government Colleges General*, partly counterbalanced by decreases under certain heads, principally under *Direction*, due to the Inspector-General of Education's place having remained vacant during the greater part of the year. The increase was in the main caused by the special expenditure on furniture and books for the Maharaja's College and an additional lecturer in English being appointed in that institution and also by a special outlay for improvement in connection with the library and the laboratories of the Central College.

82. The budget estimate was exceeded under the head *Inspection*, though, on the whole there was a lapse of 1,07 from the total grant. The grant for travelling allowances in the Education Department which used to be classified under the head Miscellaneous was, for the first time in 1911-12, provided for under the respective minor heads, and in distributing the provision the requirements of the Inspectorate were not correctly estimated. The result was that there was an excess of 15 over the budget under travelling allowance alone. This excess has not been sanctioned by Government.

83. The lapses under the other heads are due to reasons explained below:—

Direction (20).—The appointment of the Inspector-General was vacant for over 10 months.

Government Colleges (28).—A portion of the special grant for furniture and apparatus in Government Colleges was surrendered and there was some saving in contingencies.

Government Schools General (31).—The funds provided for the equipment of laboratories in Government High Schools to meet the requirements of science teaching for the Matriculation Examination under the new University Regulations were not utilized to the full extent. Large savings also occurred in the grants for establishment and travelling allowance.

Government Schools, Special (6).—The grant for opening an English training class in the Normal School at Mysore was not utilized; and so also a portion of the grant for kindergarten instruction.

Book Department (8).—Surrendered by the Inspector-General.

Grants-in-aid (26).—The special grants-in-aid sanctioned for the year, of which the largest item (19) was the building grant for Janopakari Doddanna Chetty's Industrial School, were not drawn fully during the year.

Supplies and Services	13	10	4
Ayurvedic College, Mysore	4	4	4
Total ...	3,55	3,54	3,45

84. The actuals of the year fell short of the accounts for 1910-11 by 10 and of the budget by 9, and the difference in both the cases was under *Supplies and Services*. This was due to the write-back to Palace of the expenditure paid out of the State treasury in connection with His Highness the Yuvaraja's marriage in 1910-11.

20. Medical.

Minor Heads	Accounts 1910-11	Budget 1911-12	Actuals 1911-12

Medical Scholarships	6	7	6
Refunds	1	...	1
Lump addition by F. D.	...	23	...
Total ...	7,21	7,89	6,84

85. There was a saving in expenditure both as compared with the previous accounts (37) and the budget (1,05). The savings as compared with the previous year's expenditure were chiefly under *Medical Establishment* (7) *Durbar Physician* (6) *Medical Stores* (15) and *Sanitation and Vaccination* (23). The fact that the appointment of the Senior Surgeon during the year was held by a local officer on smaller emoluments explains the variation in the first item; and the reversion to the general line of the Civil Surgeon attached to the Palace accounts for the decrease under *Durbar Physician*. Heavy arrear payments on account of Europe medicines were made in 1910-11 and the absence of such large payments in 1911-12 caused the variation under *Medical Stores*. The decrease under *Sanitation and Vaccination* occurred on account of the appointment of Deputy Sanitary Commissioner being vacant in 1911-12 and on account of plague charges being less.

86. Considerable lapses in the budget grants under all the principal minor heads occurred, and the aggregate of these lapses amounted to 1,05. The change of incumbents of the post of Senior Surgeon mentioned above and the fact that the sanctioned number of sub-assistant surgeons for whom provision was included in the budget were not employed in 1911-12, are the principal reasons for the savings under *Medical Establishment*. The saving under *Hospitals and Dispensaries* was mainly owing to the actual expenditure on account of Local Fund dispensaries having been considerably less than anticipated. There were also small savings under *Medical Stores* (5) and *Chemical Examiner and Bacteriologist* (3). But the largest amount of savings appeared under *Sanitation and Vaccination* and this was due to the appointment of the Deputy Sanitary Commissioner being vacant and to some lapses in the grants for supplies and services and for the Public Health Laboratory and in the allotment for plague charges.

21. Scientific and other Minor Departments.

Total ...	2,92	4,39	3,39

87. The expenditure in 1911-12 exceeded the previous actuals by 47, the excess being under *Experimental Cultivation* (20) *Botanical and other Public Gardens* (7) and *Census* (13). There were also other small increases under *Public Exhibitions and Fairs, Veterinary and Stallion Charges* and *Registrar of Co-operative Societies*. The excess of 20 under *Experimental Cultivation* was due to the extension of the Hebbal Farm and to an advance of 6 months' pay drawn by Dr. Coleman when going on privilege leave and deputation out of India. The small excesses under *Public Exhibitions and Fairs, Veterinary and Stallion Charges, Local and Civil Service Examinations* and *Registrar of Co-operative Societies*, are due to some developments in the working of those departments. The increase of 7 under *Botanical and other gardens* was in consequence of the transfer from 1911-12 of the charges relating to the Gordon Park, Mysore, Daria Dowlat Bagh and Experimental Gardens, Nandi Hills, from the head General Administration to this head. The increase of 13 under *Census* was due to the fact that it was in 1911-12 that the work of the Census Department was in full swing and consequently the department was fully equipped in all its branches in that year. Against these increases there was a small decrease of 3 in the *Geological Department* and of 1 in the *Ethnographical Survey* Department.

88. The expenditure of the year fell short, however, of the budget by 1,00. There were some excesses over the budget under some heads amounting in the aggregate to 9, and these excesses were exactly counterbalanced by savings aggregating 9 under other heads. The lapse of 1,00 the entire grant for the Economic Conference is explained by the treatment in the accounts of charges relating to the Economic Conference. Against the grant of 1,00 made in the budget for the work of the Conference and included under this head, the actual expenditure was 42, and this amount was recorded in the accounts under the head General Administration.

89. The Budget grants were exceeded in the following items:—

Experimental Cultivation (3).—The excess was under Mycologist and Entomologist chiefly in the salary of that officer owing to the advance taken by Dr. Coleman prior to his departure on privilege leave and deputation. There was also an excess of 1 over the grant for Experimental Farms. This excess has yet to be sanctioned by Government.

Public Exhibitions and Fairs (3).—The excess was on account of the bonus for services rendered in connection with the exhibition by the Industrial School staff which was not provided for in the budget and to the lighting charges having amounted to Rs. 3,483 against a grant of only Rs. 250. To meet these excesses additional grants aggregating Rs. 6,074 were sanctioned from surrenders in G. O. Nos. 5618—G. F. 655-11-1 and F. L. 5599—G. F. 484-11-48 dated 29th June 1912.

Census (1).—Under this head the excess was due to the Abstraction Office expenditure for which only a provision of Rs. 30,001 was made under Piecework

Establishment having been much larger (Rs. 48,553). The excess was covered by additional grant, but there were large savings both in this additional grant and in the original grant for superintendence.

Registrar of Co-operative Societies (2).—The excess was due to the grant for travelling allowances having exceeded the sanctioned limits. The excess was ordered in G. O. Nos. F. L. 4115-6—G. F. 428-11-2 and F. L. 5628—G. F. 484-11-1, dated 29th March and 29th June 1912 respectively to be met out of additional grants aggregating Rs. 4,690 sanctioned from surrenders.

Subsidy to the British Government ...	35,00	...	...
Political Pensions	69	72	72
Miscellaneous	12	13	13
Total ...	35,81	85	85

90. Under the new system of classification adopted from 1911-12, the Subsidy to the British Government is shewn as a separate major head under the group Army and Defence. This accounts for the large difference between the actuals of 1910-11 and of 1911-12.

24. Superannuation Allowances and Pensions.

Superannuation and Retired Allowances	7,01	7,26	7,24
Compassionate Allowances ...	4	3	6
Gratuities	7	9	5
Total ...	7,12	7,38	7,35

91. The expenditure has increased considerably over the previous year's actuals, and the excess was under *Superannuation and Retired Allowances*. This excess was due to new pensions and retired allowances granted since the previous year, but the increase was to a great extent counterbalanced by the lapse of some of the pensions paid in the previous year. The fluctuations under the other heads are small and call for no remarks.

92. As compared with the budget, there was an excess of 3 under *Compassionate allowances*, which was on account of the pension sanctioned to Mrs. Weir for four years from October 1911 at £50 per quarter after the demise of Mr. J. Weir, the late Inspector-General of Education, and this excess requires the sanction of Government. The actuals under the other heads were within the sanctioned grants.

The accounts for 1910-11 and 1911-12 are about the same level, the difference of 2 being due to an excess of 3 under *Stationery Depot* chiefly on account of larger outlay on printing

paper and stationery for public departments and a fall of 5 under *Printing and Gazette Office* owing to the charges on account of purchase of materials and types being less in 1911-12.

94. The budget grant of 2,00 was exceeded on the whole by 21, and the excess was both under *Stationery Depot* (2) and *Printing and Gazette Office* (19). The excess under *Stationery Depot* was the result of expenditure being allowed in excess of the sanctioned grants for cost of printing paper and stationery for public departments and charges for packing and carriage of stationery. The large excess of 19 under *Printing and Gazette Office* was the result of allowing the budget grants under almost all the heads being exceeded, the most noticeable deviations being under piecework establishment and purchase of materials and types. Under piecework establishment the expenditure was 38 against the grant of 29, and under purchase of materials and types 27 against the grant of 18. Reappropriation of grants from the allotments for the Census Department amounting to 4 and of 15 from surrenders were sanctioned by Government to meet the excess under *Printing and Gazette Office*. The increase of 2 under *Stationery Depot* requires the sanction of Government.

Total ...	4,73	10,74	6,90

95. The excess over the previous actuals (2,17) was the result of the charges on account of the Coronation Durbar at Delhi of His Majesty the King-Emperor in December 1911 which amounted, on the Civil side, to 3,30 as against only 20 in 1910-11. The increase under this item was to a certain extent minimised by decreases under—

(i) *Miscellaneous (General)* (19) due to a comparatively smaller amount of irrecoverable loans written off during 1911-12,

(ii) *Reception of important personages* (46) which is only nominal as the expenditu under this head was transferred to Guest Charges under 15. General Adr nistration which was considered to be its proper place, and

(iii) *Contributions* (27) the amount drawn on account of the Mysore City Impr ment Fund being less to this extent.

96. There was a lapse of 3,84 from the budget grant which was chiefly contribute a lapse of 3,70 in the grant for the Delhi Durbar during the year. This was due to a gr part of the charges not having been adjusted before the close of the financial year. grant of 7 lakhs for the Delhi Durbar which appeared in the budget under *Miscella (General)* included the grant for the Military Department also, but the actual charges re to the Military Department have been recorded under the head Army, and the portion of the charges under a separate minor head subordinate to this major head. fact also accounts partly for the difference between the budget and the actuals in res this major head and under the minor head *Miscellaneous (General)*.

97. The other fluctuations in the details of minor heads are small except under *butions*. Some savings in establishment and the grant for furniture and crockery acco the lapse of 2 under *Travellers' bungalows*. Leaving out of consideration the grant Durbar, the actuals under *Miscellaneous (General)* amounted to 67 against the grant The net excess of 14 was the combined result of a lapse of 19 in the grant for compe for acquiring the Woddarpalya site for the Mysore Local Service Lancers, and of

under irrecoverable temporary loans written off for which there was only a nominal provision of 1. The net excess under *Miscellaneous (General)* was also contributed to by the excess under other items on account of the expenditure incurred in constructing frontages in the Pleasure Palace and Sayaji Rao roads in the Mysore City. This amount was for some time held under objection book advances, but was charged off finally during the year under review. This, however, was not anticipated in the budget. The lapse of 22 under *Contributions* was in the grant to the Mysore City Improvement Fund as a portion of the allotment in the Fund budget for constructing works could not be spent during the year owing to a comprehensive programme of works for a complete system of underground sewage and outfall works for the Mysore City having been sanctioned by the Government in the latter part of the year. The saving under *Charities and Donations* was in the grant of 20 for bust and additional statue of His Highness the late Maharaja Sri Chamarajendra Wadyar Bahadur.

98. The charge of 3 under *Special and unforeseen charges* was on account of the pay and allowances of an officer on special duty in connection with the demarcation of boundary between Mysore and South Canara and was not budgetted. This excess requires Government sanction.

Total ...	13,32	14,38	14,04

99. As compared with previous year's actuals there was an increase of 72 in the expenditure in 1911-12. This increase was the result of fluctuations under the several minor heads but was in the main the result of the charges relating to the Delhi Durbar which did not exist in 1910-11. These charges amounted to 1,04 but this excess was to a certain extent diminished by the fluctuations in the other heads.

100. Except under *Government Stud Farm, Kunigal, Barr or Native Infantry and Military Stores* which show excesses of 14, 6 and 2 respectively, all the other items fell short of the previous year's actuals. The increase of 14 under *Government Stud Farm, Kunigal,* was due to the appointment of an Assistant Veterinarian at the Farm and to larger outlay on the Farm; that of 6 under *Barr or Native Infantry* to purchase of some new tents and to the charges on account of marching order equipment; and that of 2 under *Military Stores* to larger outlay in purchase and repair of arms, accoutrements and tents. The decreases from previous actuals were as under :—

Headquarters (7).—Owing to the vacancy caused by the retirement of the separate Assistant Secretary, Military Branch of the General and Revenue Secretariat remaining unfilled.

Imperial Service Regiment (18).—Due to small savings in the pay of non-commissioned officers and good conduct pay and to a considerably smaller payment of compensation for dearness of gram and ragi and for veterinary medicines.

Local Service Regiment (16).—Compensation paid for dearness of gram and ragi was less in 1911-12.

Hessarghatta and Nadamavinapura Farms (5).—Due to less outlay on the farms.

Miscellaneous Charges (2).—Owing to the absence of any charge in 1911-12 on account of purchase of veterinary books.

Imperial Service Transport Corps (5).—Savings in establishment.

101. Compared with the budget there was a lapse of 34 from the sanctioned grants for the Military Department. This was the net result of some excesses over grant and savings under almost all the important minor heads. The provision made for the Assistant Secretary, Military Branch of the General and Revenue Secretariat was saved under *Headquarters* by the vacancy caused by the retirement of Mr. Donne not being filled up. Under establishment and in the grants for supplies and services, a sum of 37 was saved under *Imperial Service* and *Local Service Regiments*. The expenditure for collection of farm produce under *Hessarghatta and Nadamavinapura Farms* was considerably less. Under *Barr or Native Infantry* there were large savings in the pay of non-commissioned officers, and the entire grant of 6 for purchase of rifles lapsed, as the purchase was not effected before the close of the year.

102. The large lapse of 59 under *Imperial Service Transport Corps* was caused by small savings under establishment, and the major portion of the sanctioned grants for feed of ponies and for converting pony carts into bullock carts not having been utilized.

103. There was an excess of 1 over grant under *Miscellaneous Charges* due to the items classified as "Other Charges," having exceeded budget anticipations. This excess has not been sanctioned by Government. The Military charges relating the Delhi Durbar amounted to 1,04 ; and though there existed no provision for it under the major head, Army, the item was duly budgetted for and a grant of 3,00, considered necessary for these charges, was included in the lump sum grant under the head 26. Miscellaneous.

104. This item of expenditure was separated in 1911-12 from the head 23. Allowances and Assignments under Treaties and Engagements in which it was previously included and brought under the group head Army and Defence as a distinct major head. This fac accounts for the difference between the actuals of the year and the year previous.

105. As it was thought necessary to bring together all charges relating to the Military service und the group head Army and Defence, this item was separated from the charges relating to the Public Works Department. The expenditure under this head in 1910-11 amounted to 30 and was classified in the accounts as Public Works expenditure.

106. Compared with previous actuals, there was an increase of 15 in 1911-12 due to a greater number of works undertaken during the year, but as compared with the budget, the actuals were less by 10. This lapse occurred chiefly in the grant for reconstruction of the old Silledar Lines at Bangalore and for improvements to the Military Cottage at Kunigal. A portion of the amount placed at the disposal of the Chief Commandant, Mysore State Troops, for repairs to Military buildings was not also utilized.

Under the rules of classification, advances given to people in years of distress for relief are charged off finally in the accounts of the year, and are adjusted, when recovered, by deduction of expenditure already recorded in previous year's accounts. The actuals of each year vary according to the progress and adjustment of such recoveries.

110. These charges were previously included in the accounts under the head 34. Construction of Railways and were separated from 1911-12 under a distinct major head in the revenue account to which they properly appertain.

111. There was an excess of 30 over the budget grant, and the excess was under all the minor heads. The outlay incurred on the construction of two dining saloons caused the excess under *Saloon carriages*. An additional grant of 41 was sanctioned in

Government Order No. Fl. 4455-7—G. F. 535-11-2 dated 19th April 1912 for two dining saloons for the use of His Highness the Maharaja, one on the metre gauge, and the other on the standard gauge. But out of this grant only 21 was utilized, and the balance lapsed owing to the 2nd instalment of 20 on account of the cars not having been claimed before the close of the year but only in September 1912. The increase under *Direction and Accounts* was due to the addition of an assistant engineer, a clerk and a typist to the establishment of the Railway Secretariat. The budget did not anticipate any new surveys being undertaken during the year, but the surveys of the Bowringpet-Kolar and Chikjajur-Chitaldrug lines ordered by Government were undertaken during the year and cost a little over Rs. 6,000. But under the Government Order sanctioning these surveys, the cost is to be transferred to the District Boards to which these lines appertain after construction works commence.

112. The accounts for 1911-12 exceeded those of the previous year by 8,72. The excess was chiefly under 31. Irrigation Major and was in consequence of the operations in respect of the Cauvery Reservoir project at Kannambadi, the outlay on which amounted in 1911-12 to 7,02. The increase under Irrigation Minor Works was both under original works and repairs and was mainly due to some outlay on some breached anikats in the Mysore Division and to works on a larger scale having been undertaken in connection with the minor tanks restoration scheme. The increase of 1,07 under Civil Works was the result of more works executed during the year.

113. The budget was exceeded under the heads Irrigarion Major and Civil Works by 4,36 and 30 respectively, but there was a lapse of 18 under Irrigation Minor. The lapse under Irrigation Minor is attributable to late sanctions to estimates, non-payment of land compensation by the Revenue Department and to savings effected on completed works.

114. The excess over grant under Irrigation Major was covered by an additional grant of 10,00 sanctioned in Government Order No. F. 1994-6—G. F. 184-11-5 dated, 8th November 1911, towards the construction of the Cauvery Reservoir works at Kannambadi. A portion of this grant was, however, reappropriated at the close of the year to Irrigation Minor and Civil Works, and the excess of 30 under the latter head is within the additional grant made available for this class of works by reappropriation.

115. The charges relating to State Saloons, Direction and Accounts, and Surveys were removed from this head from 1911-12, and formed into a distinct major head 30. Miscellaneous Railway Expenditure under the Railway Revenue Account.

116. The decrease in expenditure as compared with that in 1910-11 is in a measure due to this cause, but chiefly to the credit of about 2,67 on account of the decrease in the Government's share of general stores balance of the Mysore-Harihar line at the end of June 1912.

117. The budget estimate of the year provided for a grant of 3,97 on account of Railway Capital Expenditure. The actual expenditure on works amounted to 4,16 which was, however, reduced in the final accounts of the year to 1,49 on account of the credit relating to stores mentioned in the foregoing paragraph.

Total	6,62	7,68	6,81

Revenue Account.

118. The actuals under the Revenue Account were close to the actuals of the previous year, but fell short of the budget by 81. The decrease as compared with the budget was due to savings in the grants for working expenses. The causes of this decrease were (1) the post of the Chief Operator of Sivasamudram remained vacant for some months, and (2) the "Direction and Accounts" and leave and pension charges were not adjusted in the accounts during the year.

Capital Account.

119. The account of 1911-12 exceeded the previous year's account by 17, and the excess was in all the sections except the Sivasamudram-Kolar Section. The chief causes which led to this result were the construction of a combined office and stores at Mysore, the equipment of the transmission lines to Bangalore and Mysore with modern cell aluminium lightning arresters and the installation of two 150 Kilo Watt motor generator sets in A and B Stations of Bangalore in place of the 75 Kilo Watt sets transferred to Mysore.

120. There were excesses over grant in the Bangalore City and Civil and Military Station, and Mysore City sections. Such excess amounted to 16 and has not been sanctioned by Government. The reasons for the excess are the same as those noticed in explaining the variation from previous actuals.

Debt Heads.

Section M.—ADJUSTMENTS.

121. The actuals did not much vary from the estimate, and were only 53 in excess. The excess was due to the increase in the revenues on which local cess is levied.

122. The total amount adjusted on account of cess aggregated to 9,83, and the allotment to the several funds was as under:—

Local funds general	1,71
District funds	5,53
Village school fund	2,59

Section O.—PERMANENT DEBT.

123. No remarks.

Section P.—UNFUNDED DEBT.

124. The budget estimate was for a net credit of only 3,20, but the actuals resulted in a higher figure, *viz.*; 7,95. The improvement was chiefly under savings bank transactions which form the bulk of the transactions under this head. Savings bank deposits brought in about 4,60 more than what was anticipated in the budget.

Section Q.—DEPOSITS AND ADVANCES.

125. The various transactions under this head resulted in a net debit of 17,46 as against 26,55 estimated in the budget. The decrease in the net outgoings was partly due to an increase in the net receipts from Local funds general, District and Municipal funds. The receipts and expenditure are taken for the estimate in accordance with the individual budgets sanctioned by Government, but the actual transactions relating to those funds show considerable variations from the budget. The net credit of 6 lakhs anticipated in the budget from Palace deposits on account of the overdraft in 1910-11 actually amounted to only 2,60, and there were small excesses in net debits over the estimate under Civil Deposits, Account Current with the Accountant-General, Madras, and other minor variations. The credit of 3,53 under Surplus Investment Account on account of securities transferred to the personal estate and trust account, which was not foreseen at the budget time also contributes to the fluctuation.

Section R.—LOANS AND ADVANCES.

126. Against a net credit of 66 anticipated in the budget under this head, the actuals resulted in a net credit of 1,99. The recoveries on account of loans to agricultural banks was estimated at the standard at which they were realisable according to the loan registers, but some of the outstanding loans were ordered in the course of the year to be written off the accounts. The amount of such writes-off has been credited in the accounts to the loan and debited to the service head 26. Miscellaneous. Combined with this there were also small increases over the estimate in the other items under this head.

Section T.—REMITTANCES.

127. The net result of the numerous transactions under this head was a debit of 76. The excess of outgoings over the receipts was chiefly under miscellaneous remittances.

Section U.—HIS MAJESTY'S TREASURY.

128. No remarks.

Section V.—CASH BALANCES.

129. The net transactions of the year were better than anticipated in the budget by 36,69. The variations which brought about this result are summarised below :—

	Better.	Worse.
Revenue Surplus	22,18	...

PROSPECTUS OF THE DASARA INDUSTRIAL AND AGRICULTURAL EXHIBITION OF 1913.

Introductory.—With the sanction of the Government of His Highness the Maharaja of Mysore the Committee issue the following Prospectus in connection with the Exhibition of 1913.

2. *Opening of the Exhibition.*—This year the Exhibition opens on or about the 3rd of October and will continue till the 17th of October, both days inclusive. The Cattle (local) and Poultry Shows and Weaving competition will begin on Monday the 13th of October and close on Wednesday the 15th.

The Wood Carving and Metal Work competitions will begin on the 3rd of October 1913 and continue till the 17th. The Potters and Ploughing Competitions commence on the 14th and 15th October 1913 respectively.

3. *Object of the Exhibition.*—The primary aim of the Committee is to impart to the Exhibition an educative character and to bring together articles, machinery and processes, the use of which it is desirable to bring to the notice of the raiyat, artizan and the manufacturer by actual demonstration. But as the exhibition of a single specimen may not afford full information and may not be sufficiently attractive to the visiting public, articles intended for sale, will also be admitted.

Sale rooms and sale of exhibits.—Articles on a larger scale sent merely for sale, will have to be kept in separate stalls and in charge of the exhibitors or their agents. There is no objection to the sale of actual exhibits; but they will not be allowed to be removed from the Exhibition grounds till the termination of the Show. Articles admitted for purposes of sale alone may be removed after purchase. No article will be allowed to leave the Exhibition grounds without a gate pass, which will be issued by the Cash Accountant on production of a cash bill or sale memo as the case may be.

Those who desire special facilities for the sale of articles or demonstration of processes, are requested to place themselves in communication with the Secretary to the Exhibition Committee at least two weeks before the opening of the Exhibition.

4. *Horticultural Show.*—The Horticultural Show comprising Class II, Group 2, items 1 to 7, mentioned in the first section of the Prospectus, will be held on the 13th of October 1913 and kept open till the following day.

5. *Lectures.*—Written notes on subjects connected with Agricultural Industry and Commerce will be thankfully received and printed in book forms for distribution at the Exhibition.

Demonstrations.—Arrangements will be made for holding a competition on the Exhibition grounds in Ploughing, Weaving and Pottery work, Carving and Metal work. The exact time of demonstrations will be announced later on by hand bills and notices, unless there be at least three competitors for each event, the Committee have full power to withhold such competitions.

6. *Donations.*—The Committee will thankfully accept donations for awarding prizes or medals from individuals or associations desiring to give an impetus to any special branch of agriculture or industry.

7. *Classification of exhibits.*—The classification of exhibits will be according to the prize list subjoined to the Prospectus and entries in several sections should be made in the application forms prescribed.

8. *Open to all India.*—The Committee invite exhibits from all the districts of the State as well as from outside. They also appeal to the various agricultural departments and associations in other parts of India, Burma and Ceylon to help them with exhibits and suggestions.

9. *Judges.*—Leading raiyats and non-official gentlemen will be invited to assist the Committee in judging the exhibits.

10. *Admission fees for visitors.*—An admission fee of annas two per head will be levied each time a person enters the Exhibition buildings. Season tickets

will be issued at Re. 1 per head. These are not transferable, but books of eight single tickets may be had also at Re. 1 per book. Return railway season tickets between Bangalore and Mysore at a reduced rate which will also admit the holder to the Exhibition for the whole period, will be arranged for.

11. Classification of exhibits in the Women's Section formerly published under class II of the Industrial Section has now been compactly arranged in a syllabus under the Ladies Committee on page embodied herein.

RULES AND REGULATIONS.

Noxious Articles.—Explosives or any substance noxious or dangerous will not be admitted by the Committee.

2. *Particulars regarding the Exhibits.*—Intending exhibitors are requested to send to the Secretary to the Exhibition Committee, particulars of exhibits they intend to forward and the amount of space which their exhibits may take up, in the necessary entry form appended to this Prospectus. Forms may also be obtained from the District, Divisional and Taluk Offices or from the Secretary to the Committee; plain paper of foolscap size, may also be used provided all the headings in the form are properly copied and filled up and separate sheets should be used for each section.

3. *Application from Exhibitors.*—Applications should reach the Secretary not later than 1st of September 1913. Each individual application either from outside or inside the State should contain a post card with the full address of the exhibitor and the receipt of the application will be communicated by returning the card duly signed.

4. *Lists from taluks.*—Deputy Commissioners of Districts with the District Committee, Sub-Divisional Officers and Amildars of taluks, are requested to convene as early as possible, a meeting of the leading artizans, raiyats and merchants residing within their respective charges, to explain to them fully the object and the scope of the Exhibition, to carefully acquaint them with the rules and regulations, drawing particular attention to such paras as 2, 3, 10, etc., to send to this office for information copies of proceedings of District and Taluk Committee Meetings, to distribute to them forms of applications, to have them filled up by intending exhibitors and to compile and forward them to the Secretary.

5. *Articles not enumerated.*—The prospectus will show the nature of articles which can compete at the Exhibition. Articles not specially enumerated in this Prospectus may, however, be admitted by the Committee at their discretion.

6. *No fees to be charged for Exhibits.*—No fees will be charged for the admission or for space given to display exhibits.

7. *Acceptance of Exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

8. *Delivery of Exhibits.*—Articles intended for the Exhibition may be brought by the exhibitor or his agent or servant and delivered at the Exhibition grounds or sent by post or railway and all Taluk and District *exhibits should be sent through the Deputy Commissioners of Districts so as to reach the Exhibition by the 20th of September 1913.* A consolidated list of District Exhibits and Exhibitors in duplicate should accompany the consignment one of which will be checked, receipted and returned by the Secretary.

9. *Payment of Freight and Transport charges.*—No exhibits in respect of which the necessary freight or transport charges have not been paid by the exhibitor, will be accepted by the Committee, nor can the money be received from the exhibitors for payment towards clearance of goods booked "To Pay."

10. *List of particulars.*—All packages received or delivered and all implements and machinery intended for the Exhibition must bear a label specifying name and number of exhibits and the registered number of the exhibitor and must be addressed to the Secretary. They must contain a list in duplicate showing the name or description of the article, its price, the place of production or manufacture,

name of the manufacturer or exhibitor; in the case of exhibits in the agricultural section, essential particulars should be given, such as—

1. The season of sowing.
2. The soil on which they are grown.
3. The quantity of seed per acre.
4. The manure used.
5. Whether any irrigation is required.
6. The time required for the maturing of the crop.
7. The average yield per acre.
8. Any other interesting details regarding cultivation.

11. *Exhibits which have already won Prizes.*—Exhibits, which have won prizes in the previous Mysore Exhibitions shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

12. *Date of delivery of the Exhibits.*—Intending exhibitors are requested to send the exhibits so as to reach Mysore on the 5th of September 1913, from which date the Committee will arrange to take charge of exhibits, *and no exhibits should arrive later than the 20th of September 1913.*

13. *Belated Exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed, may be admitted at the discretion of the Committee subsequent to the date in para 12; but they shall not find an entry in the official hand-book if the exhibitors fail to furnish at least the accurate lists of exhibits within the prescribed time.

14. *Perishable Articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition hall till 7 P.M., on the 12th of October 1913.

15. *Valuable Exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

16. *Exhibits unaccompanied by men in charge.*—Exhibitors who are unable to attend personally or send their agents in charge of exhibits other than those mentioned in the above rule, may make special arrangements with the Committee for the exhibition of their goods on payment of the estimated expense, but in the meanwhile a minimum sum of Rs. 5 be sent in advance for meeting the expenses connected therewith.

17. *Responsibility of Exhibitors.*—The reception, fitting and removal of spacious and heavy exhibits must be personally supervised in the Exhibition either by the exhibitors or their agents. In default the exhibitor will be bound by the action the Committee may take in respect of such articles.

18. *Committee accept no responsibility.*—No responsibility for damages or loss howsoever occurring will be accepted by the Committee in respect of any exhibits.

19. *Special Facilities.*—Exhibitors are requested to mention in their applications whether they wish to illustrate practically any process of manufacture or the working of any implement or machinery and if so, to state briefly the nature of the demonstration and any special facilities they require for mounting their machinery.

The Committee will be glad to give such aid as may be possible in the shape of getting skilled or unskilled manual labour at the exhibitors' expense. The expenses for any special facilities sought for demonstrating machinery and implements, should be borne by the exhibitor except where special arrangements have been made by the Committee.

20. *Weighing of Exhibits.*—The Committee entrust the work of receiving the exhibits to responsible officials. But as the goods are landed near the Exhibition grounds by special arrangements, it is not possible to weigh every consignment before taking delivery of it. So the exhibitors are requested to take every precaution in packing their exhibits and to send to the Committee in time, *an accurate list* of exhibits sent by them. Exhibitors who wish that their consignment should be weighed at the Railway Station before delivery, should intimate their wish to the Secretary in time and remit in advance a special fee of one rupee on each consignment to be thus weighed.

21. *Acknowledgment of Exhibits.*—Receipt of exhibits will be acknowledged by return of the duplicate list mentioned in para 10 to the exhibitors, duly signed by the Secretary. No other kind of receipt or acknowledgment shall be sent.

22. *Free Pass to Exhibitors.*—In cases in which the owners themselves are in charge of exhibits, the necessary free pass will be given. Exhibitors and such assistants, servants, or other attendants as they may require for service in their stalls, shall enter the Exhibition Grounds through such entrance or entrances as the committee may direct; they must wear badges, discs or hold passes issued to them before the opening of the Exhibition. All such assistants, servants or other attendants must obey the orders of the Committee and of supervising staff appointed by them.

23. *Free admission to bonâfide Raiyats and Artizans.*—Raiyats and artizans unable to pay fees, belonging to the Mysore State or from outside, who produce certificates of identification signed by their respective Taluk Officers in Form B appended to this Prospectus, will be admitted free.

24. *Space for Articles on Sale.*—Accommodation for articles to be sold by owners will be provided in the sale rooms erected within the Exhibition grounds, as far as possible, and the following rent will be charged for special accommodation. Sellers may have temporary booths put up at their own cost in the Exhibition grounds by previous arrangements with the Committee.

1. Full stall 21′ by 10½′	Rs.	15
2. Half stall	,,	8
3. Quarter stall	,,	5

No refund will be given to an exhibitor who occupies less space than that allotted and paid for and the unoccupied space will be disposed of by the Committee in the way it deems best.

No exhibitor shall assign, transfer sublet or part with the possession of any site or building or portion thereof allotted to him or dispose of any part or interest therein or place therein any other than his own duly approved exhibits. Any breach of this rule renders the exhibitor liable to have his exhibits removed summarily from the Exhibition and he shall not be entitled to any compensation.

Commission.—A commission of six pies in the rupee will be charged on the sales conducted in the sale rooms by the exhibitors themselves or by their agents.

25. *Exhibits for sale.*—Exhibits labelled "for sale" will be sold during the time the Exhibition lasts; but no article will be removed till the close of the Exhibition.

26. *Commission Sales.*—A commission of half an anna in the rupee will be levied on all articles sold in the Exhibition stalls and grounds through the salesmen appointed by the Exhibition authorities. In this case the money will be received and remitted to the exhibitor by the Exhibition office.

27. *Opening of Stalls.*—All buildings erected by Exhibitors and all sites, stalls, etc., occupied by them shall be properly cleaned and open for the public before the hour of opening each day and shall remain so during the hours of Exhibition and if this is not done to the satisfaction of the Committee, it shall arrange to have everything done at the sole risk and expense of the Exhibitor.

28. *Removal of Exhibits*—All exhibits must be removed within a fortnight after the close of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit. Perishable articles will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

29. *Exhibits on Loan.*—Works of art and articles of special merit including those of antiquarian interest will be thankfully received. Gentlemen willing to lend them are requested to place themselves in communication with the Secretary or the members of the Committee who will inform them of the acceptance of the offer and will make necessary arrangements in connection with the exhibition of articles.

30. *Exhibits belonging to Departments of Mysore Government.*—Articles or cattle exhibited by any Department of Government will not be eligible for money

prizes or medals; but may be awarded certificates of merit. Certificates of merit will also be given to such of the exhibits from private gentlemen as have not been provided for in the Prospectus, if they are considered by the judges worthy of the same. (This rule does not preclude Government servants or pupils of Industrial Schools and institution aided by Government from competing for prizes, if the exhibits are manufactured by themselves.)

31. *Admission of Live-Stock.*—The time of the year when the owners of cattle are fully engaged in the fields, having been found very unsuitable for a regular Cattle Show, it has been decided to restrict the show to the fine specimens of local (Mysore District) cattle irrespective of breeds and classes.

32. *Accommodation for Cattle.*—Accommodation will be provided free of cost.

33. *Practical Test.*—Working cattle may, at the owners' option, be subjected to a practical test as to their powers of draught. They must be the *bonâ fide* property of the exhibitor.

34. *Care-taker.*—Each animal or lot competing separately must be in charge of a care-taker who will remain in charge of the exhibit and must be ready to lead it out at any time as required by the Committee.

35. *Poultry Show.*—The Poultry must be in charge of the owners or an attendant who will be admitted on the Show days with a free pass. Every endeavour will be made for sale accommodation. The number of each breed that a competitor may bring must be intimated to the Secretary at least four days before the opening day.

36. *Poultry Appliances.*—Prizes will also be awarded for incubators and other poultry appliances.

37. *Distribution of Awards.*—Prizes and medals will be distributed at the close of the Exhibition. This year it is proposed to hold a distribution of prizes in the Exhibition grounds on or about the 17th of October 1913.

38. *Number of Judges.*—The judges in each class or group will not be less than three, but no prizes will be awarded unless, in the opinion of the judges, the exhibits merit the reward. Judges cannot complete for prizes in classes or section in which they are judges, and the decision of the judges is final.

39. *Photograph of Articles exhibited.*—No articles exhibited may be copied, photographed, drawn or reproduced in any manner without the special permission of the Committee. General photographs of stalls may, however, be taken with the permission of the Committee.

40. *Committee's Decision Final.*—The Committee have full power to make rules for the conduct of the Exhibition under these regulations, and their decision is final in all cases.

41. *Acceptance of Rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules as the Committee may hereafter issue not inconsistent with these regulations.

42. *Official Hand-Book.*—An official hand-book of all exhibits with the names and the addresses of the exhibitors and their agent or agents, if any, will be published about the opening day of the Exhibition without any further cost to the exhibitors. It is expected that a large number of people will visit the Exhibition and that many of them will probably purchase the official hand-book which will be sold at two annas a copy. It will be a capital opportunity for advertisers to advertise through the medium of this hand-book. Advertisements will be received for publication in the official hand-book at the following rates.—

	Ordinary paper.	*Coloured paper.*
	Rs. a. p.	Rs. a. p.
Full page	20 0 0	25 0 0
Half page	12 0 0	15 0 0
Quarter page	7 8 0	10 0 0

(Special rates of Rs. 30, 16 and 12 will be charged for advertisements on the page, of the cover for full, half and quarter page, respectively.)

Applications for these advertisements will be received not latter than 10th September 1913 and must be accompanied by a remittance in full payment of the amount due for space applied for.

43. *Refreshments.*—No articles of refreshment, food, drink or tobacco shall be sold in or on any site, buildings or part thereof in the Exhibition without written permission of the Committee.

44. *Committee's Right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

45. *Accommodation.*—Accommodation for visitors will be arranged in the sheds put up outside the Exhibition building, provided intending visitors apply to the Secretary at least a fortnight before the opening of the Exhibition. A rent of annas six per day subject to a minimum charge of Rs. 3 for stays less than 8 days, will be charged.

46. *Entertainments.*—The Committee will receive applications for entertainments in the Exhibition grounds. No charges will be levied for space allotted therefor.

47. *Post and Telegraph Office.*—The "Mysore Exhibition Camp" Post and Telegraph Office will be open at the Exhibition from 1st September to 30th November and all letters, etc., addressed to the Exhibition Camp Office will be delivered earlier than those addressed to Mysore Town.

48. *Railway Concession.*—Concession for the carriage of exhibits over the following Railways to the Mysore Dasara Industrial and Agricultural Exhibition on production of necessary certificates which may be had by applying to the Secretary to the Exhibition, has been granted by the respective Railway authorities:—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The East Indian Railway.
4. The Bombay-Baroda and Central Indian Railway.
5. The Bengal-Nagapur Railway.
6. The Great Indian Peninsular Railway.
7. The Madras and Southern Mahratta Railway.
8. The Barsi Light Railway.

Besides, the following have also extended the concession to the exhibitors. The period will commence in case of exhibits from 20th August and end on 15th November 1913 and in case of exhibitors from 20th September to 31st October 1913:—

1. The South Indian Railway.
2. The Bhavanagar State Railway.
3. The Bengal-Nagapur Railway.
4. The Great Indian Peninsular Railway.
5. The Madras and Southern Mahratta Railway.

49. *Steamer Concession.*—The Manager of the Irrawadi Flotilla Co., Ltd., Rangoon, has allowed the following concession for exhibits over his steamer:—

All exhibits (goods, parcels, cattles, etc.,) will be carried:—On the outward journey at full tariff rates. On the return journey free, provided that (1) they have not been sold, (2) they are consigned to the station of original despatch, (3) they will be carried at owner's risk, and (4) the usual form of certificate is obtained at the time of original despatch and is tendered duly filled up and signed, on application being made for concession on return journey.

50. *Communication regarding the Exhibition.*—All communications regarding the Exhibition should be addressed to the Secretary to the Mysore Dasara Industrial and Agricultural Exhibition Committee, Mysore.

WOMEN'S SECTION.

This being the second year in which the Women's Section of the Mysore Dasara Industrial Exhibition has been at work, it is felt that its aims should be more widely recognised and appreciated so that a few words of explanation as a preface to this syllabus will not be out of place.

The first aim of this section is to bring into touch with each other women, who, having themselves learnt the value of new occupations and interests, are anxious to hand on this knowledge to others. Plain or fancy needle-work, lace-making, basket-making, knitting, all these are occupations enjoyed by a large number of women and girls in India, but there remain a still larger number who have neither seen nor heard about them. To interest these it is important to collect for Exhibition, the best that is done in all branches of women's work, and it is only the best in each section of the work that can be encouraged by the award of medals and prizes.

This is one of the most difficult things to impress upon intending exhibitors. It is not any kind of work that can be accepted. Certain groups are selected in the syllabus and only the really good work sent in under each group is likely to be admitted. To understand the importance of sending in only the best work, the following rules should be carefully studied and conscientiously carried out.

1. In needle-work the best materials that can be procured should alone be used: it is waste of time to put good work on to poor material which will neither wear nor wash.

2. One neatly stiched, well finished off exhibit is more likely to win a prize than a large bundle of carelessly done work; no amount of trimming will improve a badly made article.

3. Moth-eaten, faded, torn or dirty work cannot be accepted.

4. Exhibits which have already won prizes in previous Exhibitions cannot compete. They will be accepted as "Loan Exhibits" or exhibited for sale if space permits.

5. No work will be accepted that does not come under one or other groups in the syllabus. *Space in the exhibition being limited, there can be no exception to this rule.*

6. *None but genuine women or children's work will be allowed to compete for prizes in this section.*

In conclusion, attention must be drawn to the Government Order No. Fl. 223—G. F. 348-10-7 of 19th July 1911, dealing with the award of medals at Public Exhibitions. It is as follows:—The parties who exhibit articles may be divided into two classes, *viz.*, (1) rich and well-known firms who want distinction and praise rather than any pecuniary help, and (2) indigenous workers of modest means to whom even a small money prize would be useful. In the opinion of Government it will be sufficient to grant to exhibitors of the first class, a certificate stating that their exhibits have been awarded a gold or silver medal or some other kind of distinction. For the second class of exhibitors the award should take the form of a money prize.

PLOUGHING COMPETITION.

In the prize list published with the Prospectus, a sum of rupees fifty has been allotted for the ploughing competition. The following particulars regarding the award of prizes are published for information :—

Indigenous and imported implements of all kinds will be admitted, the different classes of implements being allowed to compete separately.

1. *Ploughing.*—Each competitor will be required to plough completely one plot of red loamy soil measuring four guntas in an hour and a half.
2. *Riging.*—To ridge up completely a three-gunta plot in an hour and a half.
3. *Harrowing.*—A four-gunta plot will have to be harrowed in twenty minutes.
4. *Sowing.*—A four-gunta plot to be sown in twenty minutes with a seed-drill.
5. *(a) Thrashing.*—A given quantity of a given kind of crop to be thrashed by cattle, stone mills, or power machines.

   (b) Winnowing.—By machines of different kinds.

The number and value of prizes to be awarded will be fixed after applications for the entries are received and the various kinds of implements and machinery competing are known, and the present provision of rupees fifty will be increased if necessary. The competition will be held on the 15th October 1913.

Those who wish to enter for these competitions are requested to submit their applications in the accompanying form through the $\frac{\text{Amildar}}{\text{Tahsildar}}$ of their taluk so as to reach the undersigned not later than the 30th of September 1913, at Mysore.

APPLICATION FORM.

Name and address of the competitor	Name, kind and value of the agricultural implements which the competitor proposes to enter for the competition.	Events for which the applicant wishes to compete	Remarks of the Amildar or Tahsildar of the Taluk

N. B.—All the agricultural implements should be produced for the inspection of the Secretary to the Exhibition Committee at Mysore.

SECTION F.—MISCELLANEOUS.

3. POTTERS' COMPETITION.

Rules.

The competition will commence at 8 A.M. on Tuesday the 14th of October 1913 and will be continued for three days.

2. Any kind of wheels indigenous or improved or foreign may be entered for the competition.

3. Competitors will be allowed to fix their own apparatus beforehand.

4. Competitors will bring their own clay; but gypsum powdered or cement will be supplied by the Committee.

5. Competitors will be allowed to compete under one or more of the undermentioned tests :—

(i) To make plain flowers pots, 8 inches high, with half inch thick without lip.

(ii) (*a*) To make a tea pot of a given size.

(*b*) To make a jug of a given size with a single or double sheaths.

(iii) (*a*) To make a pedestal, 4 feet high, with the two ends ornamental with beadings.

(*b*) To make an ornamental balustrade as per sample approved.

(*c*) To make a mould of an ornamental flower pot in gypsum or in cement and to show the process of taking out copies.

Note.—Competitors under tests (*b*) and (*c*) of class (iii) should get the sketches or sample objects approved by the judges.

6. In awarding prizes, the judges will note the following points :—

(*a*) The state of finished articles while drying, with special reference to cracks, etc.

(*b*) Throwing and finishing.

(*c*) Adaptability of the wheel.

1. Whether the wheel is suited for throwing different kinds of objects.
2. Whether the wheel can be worked profitably by potters in their houses or is only useful for factory work.

(*d*) Mechanism of the wheel.

1. Soundness and simplicity of the wheels.
2. Position in which the potter has to hold his body and the ease with which he works.

(*e*) The different kinds of clay and materials used.

(*f*) Methods of preparing the clay.

THE WEAVING COMPETITION.

In connection with the Exhibition of 1913 a competition in Weaving and its preparatory process will be held in the Exhibition premises, Mysore. The following rules regulating the competition are published for the information of the intending competitors :—

SECTION I.

The competition will commence on Monday the 13th of October 1913 and will be continued for three days.

2. Weavers will be required to work for 7 hours a day, from 8 to 11-30 A.M. and from 2 to 5-30 P.M.

3. Any kind of hand-loom may be entered for the competition; but competition among weavers in each class will be among weavers working on the same kind of loom.

This rule does not effect giving loom prizes to any kind of loom that enter into any kind of competition.

4. No prizes or medals will be given to competitors in a certain class, when the number is less than 3. But all *bona-fide* weavers with a piron driver for helping each competitor, will be given their third class fare to and fro at concession rates or reasonable cart hire and an allowance of five annas per day for five days only, if they come and demonstrate any of the operations that are mentioned in the items for competition. Those that desire to utilize this opportunity for weaving extraordinary patterns will have to intimate to the Secretary at least 15 days before the Exhibition commences when the necessary arrangements will be made for the same. Weavers in Mysore City will get only their daily allowance.

5. A man that has once competed in weaving one kind of cloth and won a prize will not be allowed to compete in the same kind of cloth for three years to come, but such competitors may be allowed and given a special prize by the judges if they think that the competitor serves as a model to local weavers. This rule equally holds good in the case of awarding medals and prizes to the looms.

6. Competitors will be allowed to fix the warps on the looms beforehand and to weave a length not exceeding two yards before the competition commences.

7. Under Sub-Committees with the Chief Revenue Officer of the locality as President, competitions in any of the undermentioned tests will be held in the month of August in all the most important weaving centres of the Province. There must be at least three competitors in each of the tests. Two prizes of Rs. 10 and 7 will be awarded in each centre. The first of the competitor in each of the tests will be required to compete in Mysore at the time of Dasara.

8. A competitor can compete in any one of the following tests (*a* to *d*) :—

The Manager of a factory or a school may send one or more weavers to compete for one or more tests.

The following are the tests for the competition of this year.—

(*a*) To weave a cloth 54 inches wide (having half-an-inch silk border) with 30's warp, 52 ends per inch and 30's weft, of 48 picks per inch. Prize.—Rs. 10 and Rs. 8 for each set of competitors.

(*b*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 40's warp, 60 ends per inch and 40's weft, of 52 picks per inch. Prize.—Rs. 12 and Rs. 9 for each set of competitors.

(*c*) To weave a cloth 54 inches wide (having one-fourth of an inch silk border) with 60's warp, 72 ends per inch and 60's weft, 72 picks per inch. Prize.—Rs. 14 and Rs. 10.

(*d*) To weave a cloth, 45 inches wide with 100's warp, 80 ends per inch and 120's weft, 80 picks per inch. The border is to be of lace and silk of any pattern (specially rudrakshi, peacock, weaving, etc.) left to the option of the competitor. Prize.—Rs. 15 and Rs. 12.

(*e*) To weave a magutum, 54 inches wide, with red, yellow or bleached country twisted silk of about 80 counts. The border must be of lace of about one-fourth of an inch. It is sufficient if the competitors use reeds of about 40 dents and weave about 80 picks to an inch. Prize Rs. 15 and Rs. 12.

In (*a*), (*b*) and (*c*) the cross borders must be of silk and in (*d*) and (*e*) they must be of lace.

The authorities may allow any other tests provided there are sufficient number of competitors.

9. The competitors will purchase warps except silk from the Exhibition authorities and use them alone for competition and the competitors must bring in their own wefts.

Intending competitors should inform the Secretary at least 15 days before the competition commences. The local weavers will get their daily allowances only. All competitors must bring their own pirons.

10. In awarding prizes to the weavers the Judges will note the following points :—

The work done—

(1) The length of the cloth woven during the whole period.

(2) Uniformity of picking and adhesion to specification.

(3) Freedom from broken ends.

(4) Clean edges, etc.

11. A gold and silver medal will be awarded to the best looms as first and second prizes.

In judging the looms the Judges will consider in addition—

(*a*) Adaptability of the loom :—

(1) Whether the loom is suited for weaving different kinds of cloth using different kinds of yarn.

(2) Whether the loom can be worked profitably by weavers in their houses or is only useful for factory work.

(*b*) Mechanism of the loom :—

(1) Soundness and proper proportion of its parts.

(2) Simplicity in mechanism so as to be capable of being easily repaired when out of order.

(3) The position in which the weaver has to hold his body while working and the ease with which he can work the loom.

A loom that was once awarded a medal will not get it a second time.

SECTION II.

WEAVING AND PREPARATORY PROCESS.

Tests in the following four classes are opened to boys under 18 years and women of any age. Of the two prizes one will be among boys and the other among women.

1. Simple processes of making long warps and sizing them economically and usefully.

2. Simple adoptation of English Dobby for hand-loom work.

3. Of any new machanism likely to improve or increase the quality of the outturn such as new patterns of automatic take-up motion, etc.

4. *Spinning.*—Any kind of spinning appliance may be used. Wool to be spun will be supplied at the time of the competition at the cost of the competitors. The thickness of the yarn and the quantity to be spun and the time to be taken will be decided by the judges. Prize Rs. 10 and Rs. 7.

5. *Warping and sizing—*

(*a*) Open only for females.

To make 40's warp, 10 yards long and to size it. Prize Rs. 10 and Rs. 7.

(*b*) Open for males and females.

To make 60's warps, 40 yards long and to size them. Prize Rs. 15 and Rs. 10.

The prizes will be awarded for the best-sized warps. The time to be allowed for work, the quantity of yarn to be warped and the test to be adopted for judging the work will be decided by the judges. Yarn for warping and sizing will be supplied at the cost of the competitors, at the time of the competition.

6. Competitors will fit up their own looms in the ground allotted and get everything ready for competition.

7. Intending competitors must send their application in the prescribed form, so as to reach the Secretary at Mysore on or before the 15th of September 1913 at the latest.

N. VENKATESA IYENGAR,
Chief Observer in charge.

Dated 5th July 1913.

DEPARTMENT OF AGRICULTURE, MYSORE STATE.

Circular No. 9.

CAMBODIA COTTON SEED DISTRIBUTION, 1913.

Part of the work of the Department of Agriculture in the direction of the improvement of cotton in the State consisted during the past year in the introduction in the cotton districts of the cultivation of Cambodia cotton. This variety though very similar to the local Doddahatti or Dharwar American which is grown at present on a fairly large scale in the Chitaldrug and Shimoga Districts is still a much more paying variety in as much as it yields a higher percentage of lint, *viz.*, 36% as against 30% of the Doddahatti. A somewhat extended trial was therefore given to the cultivation of this crop during the past year with a view to testing its suitability in our cotton tracts.

But Cambodia cotton has several other advantageous features to which I should like to draw attention in this circular. Firstly it is a crop well suited to localities where a large supply of irrigation water may not be available; secondly its cultivation involves very little cost; and thirdly a yield of about 30 maunds of seed cotton may be expected which at present price will amount to over 100 rupees per acre; this however is a moderate estimate of the yield, as yields as high as 80 maunds have been reported.

Under these circumstances it will be a great advantage if the cultivation of this crop should be extended in the State. All enterprising ryots and the members of the various District and Taluk Agricultural Associations in particular will be undertaking a very profitable line of work if they should grow this crop on small trial areas with a view to extending its cultivation later on, if the crop is found to thrive under the conditions of their different localities.

The Department has laid in a stock of 5,000 lbs. of Cambodia cotton seed and can supply the seed at cost price, *viz.*, at Rs. 1-8-0 a maund. Arrangements are also being made to send out Agricultural Inspectors to instruct growers at sowing time and later on to inspect the crops.

The following instructions may prove of use in the meantime:—

The crop can be grown on all well drained loams where facilities for irrigation exist.

After the land is got ready in the usual way the seeds are sown at the rate of about 7 lbs. an acre in furrows about 3 feet apart. As regards the time for sowing, the results of the past year indicate that it will be better to sow the crop somewhat later in the season that is in the months of September and October.

The space between the rows must be kept clean and well stirred by repeated intertilling. The crop should be irrigated once or twice during the season according to the condition of the crop. The cotton should be picked as the boll become ready (which will be in five months from the time of planting) but should not be left on the plants until the whole crop is ready; otherwise the cotton may easily be blown down to the ground and become stained.

LESLIE C. COLEMAN,
Director of Agriculture.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Dated Bangalore, the 11th July 1913.

N. MADHAVA RAO,
For *Revenue Commissioner.*

DEPARTMENT OF AGRICULTURE, MYSORE STATE.

Circular No. 10.

SMUT ON JOLA.

This disease known as the Kadige roga in the vernacular belongs to a group of diseases known as bunts, smuts or burnt ears which occur all over the world. Wheat, jola and a number of other cereals besides grasses and various other plants are subject to this disease and in some parts, treatment of seed against the smut is as regularly practised as any other farm operation such as ploughing or digging. The losses are fairly heavy and as the total yield of grain is considerably lowered in case the disease appears on the field, a general knowledge of its life history should be a valuable aid in combating it.

This disease on jola has been found to occur practically all over the northern part of the State and every year there can be seen a number of smutted heads in any field where jola is grown on a large scale. The disease appears only when the heads begin to form and as such it is practically impossible to detect it in the early stages and take steps for its destruction. When the jola heads begin to come out and mature, one will find a number of elongated white bodies here and there in the head along with sound grains or the whole head consists of these bodies only. If one of these is opened, it will be found to contain nothing but black powder and looks as if the whole grain was burnt or charred giving rise to the common name of burnt ear.

Life history of the fungus.—This black powder is nothing but the seeds or spores of a fungus which causes the disease. These get mixed up with the jola seed and germinating in water produce a short tube on which are borne the infectious seeds of the fungus. These bodies known as Sporidia germinate in moist soil containing rich decayed organic matter and infect the seedling by penetrating the delicate outer wall and grow inside the plant as the seedling grows in size. When the young seeds are about to form, the fungus produces its own seed instead, using up all the rich reserve material meant for use in the building of the jola seed. These spores or seeds black in colour are enclosed in a white membrane which occurs on the seed head. They form the starting point for infecting the next crop.

Varieties.—There are three distinct varieties of smut attacking the jola crop. In the first of these the whole head is attacked and converted into a black powdery mass. In the remaining two cases the head is formed but some or all of the grains get smutted and are replaced by the whitish elongated bodies noted above. These are known as the long smut and the short smut respectively. In the first of these cases the smutted grain is more than half an inch long and appears well over the sound grain. In the second case it is less than half an inch and projects very little above the ordinary sound grain.

Method of infection.—A few days before the harvest the whitish membrane of the smutted grains gets split across and the black spores are wafted along by the wind getting lodged in the neighbouring ears as well. Those that remain intact are burst open during the threshing operations and the whole seed gets thus contaminated. Each individual spore is microscopically small and cannot be detected on the grain. If such seed is sown in the field, the spores get the favourable conditions necessary for their germinating and infecting the young plant.

Remedial measures.—As the disease reaches the plant from the seed the most satisfactory method or combating the disease is by killing the fungus spores before the jola seed is sown. This is best done in India by steeping the seed in a solution of copper sulphate. Experiments have been carried out by the Agricultural Department and the following two methods of steeping the seed have been found very effective in preventing the disease.

1. One tola of copper sulphate is dissolved in ten seers of water (or 2½ gallons). The seeds are soaked in the solution for 16 hours and are dried in the sun before sowing.

2. Ten tolas of copper sulphate are dissolved in ten seers of water (or 2½ gallons). The seeds are soaked for 15 minutes and are afterwards dried before sowing.

The first treatment is much cheaper but takes a longer time. The copper sulphate should be dissolved in a wooden or earthen vessel and not in a metal one.

Conclusions.—Smut is a serious disease of jola causing at times very heavy losses.

2. The spores or seeds of the fungus become attached to the jola seed sprout along with the latter and so infect the jola plant.

3. The disease does not show itself until the heads are formed but is growing all the time within the diseased plant. It cannot therefore be detected till late in the season when nothing can be done to remedy it.

4. The best way of combating the disease is to steep the seed as directed above before it is sown.

If copper sulphate is not locally available it will be supplied by the Agricultural Department to those who wish to try the treatment, and who send a letter to that effect. If necessary an officer of the department will be sent to any locality where desired to demonstrate the method of treatment.

During the past year seed sufficient to sow about 90 acres was treated in this way by the department in various parts of Chitaldrug District and with uniformly good results.

Director of Agriculture.

PROSPECTUS OF THE FIFTH AGRICULTURAL AND INDUSTRIAL EXHIBITION AND CATTLE SHOW OF THE COCHIN STATE.

1089
1913.

Introductory.—With the sanction of the Government of His Highness the Rajah it is proposed to hold an Exhibition of Agricultural and Industrial products and a Cattle and poultry show in the Darbar Hall compound at Ernakulam.

2. *Opening of the Exhibition.*—The Exhibition will commence on Wednesday 24th September 1913, (8th Kanni 1089) and will be kept open till Saturday 4th October 1913 (18th Kanni 1089).

3. *Object of the Exhibition.*—The primary object of the Exhibition is to bring together agricultural and industrial products, machinery and processes, the use of which it is desirable to bring to the notice of the ryot, artisan and the manufacturer by actual demonstration. The Cattle Show is intended to give to the ryots an idea of the several species of cattle in and out of the State and thus to promote improved methods of breeding, etc.

4. *Sale rooms and sale of exhibits.*—As far as possible, accommodation will be provided for articles intended for sale. The Committee will allow those who wish to send articles on a large scale to have temporary booths at their own cost; but the articles will not be allowed to be removed from the Exhibition ground till the termination of the Show.

5. *Lectures and demonstrations.*—Lectures will be delivered by competent persons in English and Malayalam on subjects connected with Industry, Agriculture, Improved Implements, Cattle Breeding, etc. Demonstration will also be arranged. There will also be competitions on the Exhibition grounds in weaving, etc.

6. *Donations.*—The Committee will thankfully accept donations for awarding special prizes or medals from individual ryots or associations desiring to give an impetus to any special branch of Agriculture or Industry.

7. *Classification of Exhibits.*—Exhibits are generally divided into (1) samples and (2) exhibits for sale and will be according to the prize list appended hereto and the entries in the several sections should be made in the application forms prescribed.

8. *Admission of exhibits.*—The Committee invite exhibits from all parts of the State as well as from outside. They hope that the Agricultural and Industrial Associations and other public bodies will help them with exhibits and suggestions.

9. *Judging of exhibits.*—The number and the value of the prizes to be awarded for each class of exhibits are shewn in the appendix which will be decided by a Committee of Judges with reference to the quality, etc., of the exhibits received. Leading ryots and non-official gentlemen, if found necessary, will be invited to assist the Committee in judging the exhibits.

10. *Admission fee for visitors.*—An admission fee of one anna per head will be levied, each time a person enters the exhibition ground. Children under 10 years of age and *bona fide* students bearing passes will be exempted.

11. *General.*—The power to alter the prospectus as convenience may require is vested in the Committee, of whom five shall form a quorum, subject to approval by the Diwan of Cochin.

RULES.

Noxious articles.—Noxious or dangerous exhibits will not be admitted by the Committee.

2. *Applications from Exhibitors.*—Intending exhibitors should apply to the Secretary to the Exhibition Committee, Ernakulam, before the 15th August 1913, corresponding to 31st Karkidagom 1088. Applications will be registered by the Secretary. In the application the exhibitors must give full particulars of their exhibits and the group, etc., under which they fall. Information whether covered or open space is required should also be given. The applications must be superscribed "*Application for admission of exhibits to the Cochin Agricultural and Industrial Exhibition, 1089*". As the accommodation for the exhibits will be limited, applications received after the prescribed date may not be considered. Forms of application will be available in the Taluk Offices and with the Secretary.

3. *Articles not enumerated.*—Any exhibits not falling under the groups and classes as given in the appendix will also be admitted at the discretion of the Committee.

4. *No fees to be charged for exhibits.*—No fee will be charged on exhibits of any kind or for the space allotted for exhibits. Those who desire to have special facilities for sales of articles or demonstrations are requested to address the Secretary to the Exhibition Committee, Ernakulam.

5. *Acceptance of exhibits.*—The Committee reserve to themselves absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space covered or uncovered.

6. *Date and delivery of exhibits.*—Registered applicants should send their exhibits so as to reach the Exhibition grounds at least five days before the Exhibition with a list in duplicate giving the description of the exhibits according to the appendix.

7. *Payment of freight and transport charges.*—Ordinarily, the exhibitors or their authorised agents should accompany their exhibits. Exhibits which could be sent in railway goods or parcels should be sent in packages, the freight and transport charges being always borne by the exhibitors.

8. *List of exhibits.*—All packages containing the exhibits must bear labels specifying the name and number of exhibits. They must contain a list in duplicate showing the name or description of the articles, price, place of production or manufacture, name of exhibitor, etc. In respect of agricultural exhibits, the following information should be furnished :—

(1) Local name of grain.
(2) The season of sowing.
(3) Quantity of seed per acre.
(4) Manured used.
(5) Time required for the maturing of the crops.
(6) Yield per acre.
(7) Other interesting details.

Printed lables will be distributed by the Tahsildars and the Secretary to the Exhibition Committee. Exhibits for sale only should be marked "For sale".

9. *Exhibits which have already won prizes.*—Exhibits which have won prizes in the previous exhibitions of this State shall be precluded from competing for prizes, though there is no objection to their being accepted for purposes of show or sale.

10. *Belated exhibits.*—Articles that are not delivered at the Exhibition Hall in the time fixed may be admitted at the discretion of the Committee.

11. *Perishable articles.*—Vegetables, fruits and other perishable articles may, however, be delivered at the Exhibition Hall at 7 A.M. on the opening day. They will be allowed to be removed at the option of the owners or purchasers within 24 hours after the opening of the Exhibition.

12. *Valuable exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an attender.

13. The Committee will not be responsible for any risk or damage in cases where exhibits are not accompanied by owner.

14. *Acknowledgment of exhibits.*—The receipt of exhibits will be acknowledged by the duplicate list being signed by the Secretary to the Exhibition Committee and returned to the exhibitor.

15. *Passes for admission.*—No exhibits, exhibitors or visitors will be admitted to the Exhibition grounds without passes signed by the President, which will be issued outside the Exhibition grounds. Free passes will be given to exhibitors who accompany their exhibits.

16. *Exhibits for sale.*—Exhibits may be sold on Exhibition grounds but shall not be removed till after the exhibition is over. Sales will be notified by a card affixed to the exhibit.

17. *Fixing and removal of exhibits.*—The exhibitors should affix or remove their exhibits on their responsibility and should bear the expenses of the same. The Committee will not be responsible for any loss or damage caused to the exhibits in the Exhibition grounds. But the Committee will be ever ready to help the exhibitors whenever necessary and responsible officials will be deputed to superintend the receipt into and removal from the Exhibition grounds, of the exhibits.

18. *Cattle show.*—Separate arrangements will be made to accommodate different kinds of cattle.

19. *Accommodation for cattle.*—Cattle admitted to the show yards will be provided with fodder free by the Committee for the days of the show and for one day previous and only cattle considered suitable, will be allowed to compete in the Cattle Show for prizes.

20. *Care-taker.*—Each animal or lot competing separately must be accompanied to the show yards by a sufficient number of men to keep it or them under proper control.

21. *Practical test.*—Working cattle may, at the owner's option, be subjected to a practical test as to their powers of draught. They must be the *bona fide* property of the exhibitor.

22. No animal which has won one prize will be allowed to compete in the Cattle Show for other prizes.

23. *Poultry Show.*—The Poultry must be in charge of the owners or an attendant who will be admitted with a free pass. Every endeavour will be made for safe accommodation.

24. *Poultry appliances.*—Incubators and other poultry appliances may also be exhibited.

25. *Distribution of awards.*—Prizes and medals will be distributed at the close of the Exhibition if the exhibits satisfy the quality required by the Judges to be appointed by the Committee. Prize winners will be furnished with certificates also in addition to prizes.

26. *Committee's decision final.*— The Committee have power to make rules for the conduct of the Exhibition and their decision is final.

27. *Acceptance of Rules.*—All persons who become exhibitors shall be held to signify their assent to and acceptance of the foregoing rules and regulations and also such other rules, as the Committee may hereafter prescribe.

28. *Committee's right.*—The Committee or any person or persons that they may appoint shall at all times have free access and right of entry to all or any part of the space, site or buildings allotted to exhibitors.

29. All communications regarding the Exhibition should be addressed to the Secretary to the Exhibition Committee.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITIONS.

Simla, the 30th June 1913.

RESOLUTION.

In continuation of Resolution No. 1161-1185-1, dated the 17th February 1913, the following information relative to the Fourth International Rubber and Allied Industries Exhibition and the First International Cotton, Fibres, and other Tropical Agricultural Products and Allied Industries Exhibition which will be held in London in the year 1914 is published for general information.

The Government of India have decided not to participate in the exhibitions.

Extract from preliminary prospectus.

INTRODUCTION.—These Exhibitions will be held at the Royal Agricultural Hall, London, from the 24th June to the 9th July, 1914, in connection with, and during the sitting of the International Congress of Tropical Agriculture, which will be attended by Delegates from all parts of the world.

Already a large number of British and Foreign Governments as well as many commercial firms of Europe and America have intimated their intention to exhibit, and it will be at the option of the Governments, Associations, Companies and Firms to show their rubber separately from the Cotton, Fibres and other tropical agricultural products that may be grown in their respective countries, or to combine them, as one exhibit of all products.

Arrangements will be made for the International Congress to hold meetings of certain Sections at the Exhibition during the Fourth International Rubber Conference, and Delegates will have the opportunity of attending both.

The coming Exhibitions should very materially benefit Agricultural Industries of the tropical and sub-tropical countries, as their scope will be widely extended and they are being organised for the purpose of displaying to the visitors from all parts of the world, not only rubber, but all commercial products grown in the soil. The various products that are grown in tropical or sub-tropical countries and exported to different places are seldom brought together so that manufacturers, dealers, etc., from all parts of the world can meet and examine them, and discuss supplies with the representatives of Governments, producers, etc. London is the convenient centre, and June is the time of the year most convenient for representatives from producing countries to visit England; it is also a season when manufacturers and dealers can find it convenient to visit this country and converse with producers from far distant parts. London is without a doubt the proper meeting ground for the Congress of Tropical Agriculturists, Manufacturers, and others interested in these great and increasing industries.

AREA OF THE EXHIBITION.—The available space for the Exhibition covers an area of over 200,000 square feet.

The book will contain 800 pages and 8,000 copies will be issued.

THE RATE FOR SPACE FOR EXHIBITS in all sections, departments and positions (the management consider one position as good as another) IS 4/-PER SQ. FOOT. Minimum size is 12 by 12 but very few spaces are arranged for this size. The management do not fix upon any maximum. A Government or Association can have whatever amount of space they wish beyond 12 by 12. Many exhibitors consider certain positions as especially good, and if they wish to secure them they should apply for them at once. Plans and applications for space may be obtained on application to the management.

Exhibits may be sent in on or after 6 A.M., 15th June 1914. An earlier date may be arranged if necessary.

The exhibition will open at 3 P.M., on Wednesday, 24th June, and thence daily till Thursday, 9th July 1914.

Fare by electric car, from the City and parts of the West End to the Hall, One Penny.

PRESS VIEW.—Arrangements will be made for a special Press view on the evening of the 23rd June, in order that exhibitors may be enabled to furnish particulars of their several exhibits to the representatives of the Press of England and other parts of the world.

RUBBER CLUB.—A special Club Room will again be opened and placed at the disposal of Commissioners, Delegates, Committee, and Exhibitors (Principals only) of both Exhibitions.

SEASON TICKETS.—Season tickets entitling holders to membership of the EXHIBITION CLUB and available at all times the Exhibition is open to the public, will be issued at 7/6 each, including admission to the Opening Ceremony.

MOVING PICTURES.—The management will place at the disposal of exhibiting countries, free of charge, a suitable Lecture Hall in which, at intervals, moving pictures may be shown to demonstrate the resources and attractions of their respective countries, and short lectures may be given.

Ordered that the information be published in the Supplement to the *Gazette of India* for general information and that copies of the Resolution be forwarded to all Local Governments and Administrations and to the Foreign and Revenue and Agricultural Departments for information.

Ordered, also, that a copy be forwarded to all Chambers of Commerce for information.

J. F. GRUNING,
Offg. Secretary to the Government of India.

Agricultural operations.—Weeds are being removed from ragi fields.

State of standing crops.—Want of rain is keenly felt. Cattle are in good condition. Water and fodder are sufficiently available.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operations.*—Horse gram in parts of the Bangalore Taluk; ragi, avare, togari and navane in parts of the Hoskote and Kankanhalli Taluks, and Karthika paddy in parts of the Devanhalli and Channapatna Taluks are sown during the week. Harrowing operations are being carried on in parts of the Bangalore, Kankanhalli, Magadi and Anekal Taluks.

State of standing crops.—In some parts of the Magadi Taluk crops sown early have not sprouted for want of rain. In the Channapatna Taluk standing crops are suffering badly for want of rain and several of the later sown ragi fields will have to be sown again. In parts of the Kundana and Vadigenahalli hoblis of the Devanhalli Taluk crops are withering for want of rain. In other parts ragi, avare, togari, yellu, potatoes and sugar cane are reported to be in good condition.

Harvest and outturn.—Vaisakhi paddy is being harvested in parts of the Hoskote Taluk, its yield being 8 to 12 annas.

10. Prospects of the season are generally good. But rain is reported to be needed for the standing crops in the Magadi, Channapatna and Devanhalli Taluks. Food stocks are available. Labour is available to the cooly classes.

11. Except for cholera in Kudur and Banavadi villages of the Magadi Taluk and plague in Munnekolal and Yamalur villages of the Bangalore Taluk, public health is generally good.

12. "Chappe roga" among cattle in the Bannimangala and Sunnaghatta villages of the Devanhalli Taluk, is reported to be subsiding. In other parts cattle are healthy. Water and fodder are available.

KOLAR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing operations are being carried on in the Bowringpet and Chintamani Taluks and Gudibanda Sub-Taluk, and sowing operations in the Bowringpet and Malur Taluks.

Crops sown.—Paddy in the Mulbagal, Bagepalli and Malur Taluks and in the Gudibanda Sub-Taluk; and ragi in the Chikballapur, Bagepalli and Malur Taluks and Gudibanda Sub-Taluk.

Crops harvested and their probable outturn.—Paddy in the Goribidnur Taluk, yield 8 to 10 annas.

Standing crops.—Sugar cane in the Kolar, Bowringpet and Goribidnur Taluks is in good condition. Rain is anxiously awaited for paddy and other crops which are withering.

10. Prospects of the season are fair. Rain is badly wanted all over the district. Food stuffs are available. Labour is available to the cooly classes.

11. There were a few cases of plague in the Bowringpet Town; but the disease has not spread. A few cases of cholera have been reported from the Goribidnur and Chintamani Taluks. Public health is otherwise generally good.

12. "Chappe roga" is prevaling in parts of the Bagepalli Taluk. Cattle are reported to be healthy in other parts of the district. Pasture and fodder are available.

TUMKUR.

8. Market well supplied.

9. *Crops sown.*—Ragi in all the taluks excepting Kunigal and in the Koratagere Sub-Taluk; paddy in the Maddagiri, Chiknayakanhalli, Sira and Pavagada Taluks and in the Koratagere Sub-Taluk; jola in the Tumkur and Chiknayakanhalli Taluks; and cotton in the Pavagada Taluk.

Crops harvested.—Paddy in the Tumkur, Chiknayakanhalli and Gubbi Taluks, yield 8 to 12 annas; and sugar cane in the Koratagere and Turuvekere Sub-Taluk.

Standing crops.—Ragi, paddy, jola, sugar cane and ground nuts are reported generally to be in good condition; but rain is however much needed.

10. Prospects of the season are fair. Food stuffs are available.

11. Except for cholera in a few villages of the Kodigenahalli and Ittikedibbanahalli hoblis in the Maddagiri Taluk, public health is good.

12. Cattle are reported to be healthy except in a few villages of the Koratagere Sub-Taluk, where "Chappe roga" is said to prevail. Water and fodder are available.

MYSORE.

8. Market well supplied.

9. *Crops sown.*—Paddy in parts of the Seringapatam, Hunsur, Yedatore, Heggaddevankote, Nanjangud, T.-Narsipur and Mandya Taluks; and ragi in parts of the Malvalli Taluk.

Standing crops are reported to be in good condition but want of rain is felt in parts of the Chamrajnagar, Seringapatam, Nanjangud and Mandya Taluks.

10. Prospects of the season are good. Food stuffs are available.

11. Except for plague in parts of the Chamrajnagar, Seringapatam, Nanjangud and Malvalli Taluks, cholera in parts of the Chamrajnagar Taluk and small-pox in parts of the Krishnarajpete Taluk, public health is generally good.

12. Cattle are reported to be healthy. Water and fodder are available.

HASSAN.

8. Market well supplied.

9. *Standing crops.*—Ragi, paddy, togari, avare and chillies in the Hassan Taluk; barawadi and transplanted paddy in the Manjarabad Taluk; sugar cane, til, paddy, ragi, avare, togari and castor in the Arkalgud and Belur Taluks; paddy, sugar cane, ragi, green gram, til and jola in the Channarayapatna Taluk; paddy, sugar cane, ragi, avare, castor, gingelly, black and green grams, coriander and cotton in the Arsikere Taluk; paddy, sugar cane, ragi, castor, avare, gingelly, jola and tadagani in the Hole-Narsipur Taluk; and paddy, ragi and sugar cane in the Alur Sub-Taluk, are reported to be in good condition.

Crops harvested.—Kar paddy in the Hole-Narsipur Taluk and sugar cane in the Channarayapatna Taluk are being harvested.

10. Prospects of the season are generally good. More rain is reported to be required in parts of the Arsikere Taluk.

11. Except for cholera in parts of the Hassan, Arkalgud, Channarayapatna and Arsikere Taluks and in the Alur Sub-Taluk, and plague in parts of the Hassan Taluk and in the Alur Sub-Taluk, public health is generally good.

12. Cattle are generally healthy. Water and fodder are available.

SHIMOGA.

8. Market well supplied.

9. *Crops sown.*—Transplanting of paddy is being carried on in the Sagar, Nagar and Tirthahalli Taluks.

Standing crops.—Paddy and sugar cane are reported to be in good condition throughout the district, except in a few villages of the Jade and Anavatti hoblis in the Sorab Taluk, where the paddy crop is being destroyed by grasshoppers and in the Santebennur hobli of the Channagiri Taluk, where locusts and caterpillars are said to be destroying the crops. Koleroga prevails in the Sagar, Nagar and Tirthahalli Taluks.

10. Prospects of the season are good. Food stuffs are available.

11. Public health is generally good except for plague in Shimoga Town, small-pox in the Channagiri and Thirthahalli Taluks and measles in the Channagiri Taluk.

12. Cattle are healthy. The "mouth and throat diseases" in the Nagar Taluk and the "foot disease" in the Tirthahalli Taluk, are reported to be subsiding. Water and fodder are available.

KADUR.

8. Market well supplied.

9. *Crops sown.*—Transplanting of paddy is being carried on in parts of the Chikmagalur, Koppa, Mudgere, and Sringeri Taluks and Yedahalli Sub-Taluk; and ragi, avare, samé and navane in the Kadur Taluk; ragi, jola, wheat, sugar cane, paddy and chillies in the Tarikere Taluk, are being sown.

Standing crops.—Sugar cane, paddy, ragi, avare, togari, gingelly, jola, coriander, potatoes, garlic, onions, black gram and thingalavare in the Chikmagalur Taluk; ragi and avare in the Kadur Taluk; paddy, sugar cane, jola and ragi in the Tarikere Taluk; sugar cane and paddy in the Koppa Taluk; paddy, sugar cane, cardamom, coffee and areca in the Mudgere Taluk; areca, coffee sugar cane and paddy in the Yedahalli Sub-Taluk; and paddy and areca in the Sringeri Taluk, are reported to be in good condition. But ragi crops are reported to be fading for want of rain in parts of the Kadur Taluk; and areca crops are affected by koleroga in parts of Koppa and Sringeri.

Crops harvested.—Sugar cane in the Kadur Taluk.

10. Prospects of the season are good. Rain is wanted in the Kadur Taluk. Supply of food stuffs is sufficient.

11. Cholera prevails in a few villages of the Chikmagalur Taluk and Yedahalli Sub-Taluk, plague in some villages of the Chikmagalur and Tarikere Taluks, and small-pox in the town of Chikmagalur and in a few villages of the Chikmagalur and Kadur Taluks. Otherwise public health is generally good.

12. "Foot and mouth disease" is prevailing among cattle in some villages of the Koppa Taluk. Water and fodder are available.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*, such as sugar cane, ragi, til, paddy, avare, jola, green gram, togari, horse gram and cotton are reported to be in good condition except in the taluks of Challakere, Hosdurga and Molakalmuru, where it is reported that crops previously sown are withering away for want of rain. Rains are also urgently wanted in the Jagalur Taluk and Harihar Sub-Taluk.

Seeds sown.—Navane, cotton, sajje, avare, horse gram and togari in the Chitaldrug Taluk; paddy in the Challakere Taluk; castor, til and horse gram in the Hiriyur Taluk; cotton in the Holalkere Taluk; sugar cane, cotton, jola, ragi, navane, togari and avare in the Jagalur Taluk; and ragi, avare, chillies, samé and castor in the Hosadurga Taluk.

Crops harvested.—Sugar cane in the Jagalur Taluk, yield 8 to 12 annas.

10. Prospects of the season are good. Food stocks are available.

11. Public health is generally good except for the prevalence of cholera in some of the villages of the Jagalur Taluk and in a village in the Davangere Taluk.

12. Cattle are reported to be suffering from "Chappe roga" in some of the villages of the Challakere Taluk. In other parts they are healthy. Water and fodder are available.

READ:—

The accompanying report on the cattle show and the Industrial and Agricultural Exhibition held at Maddagiri on the occasion of Dandina Maramma's Jatra, during March 1913, received from the Deputy Commissioner, Tumkur District, through the Revenue Commissioner in Mysore.

No. 1675-9—L. B. 34-13-5, DATED 7TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Government note with satisfaction that the idea of organising the cattle show and exhibition emanated from the leading non-official gentlemen of the town and that the show, the first of its kind held at Maddagiri was a great success.

3. It is gratifying to observe that the lectures and the demonstrations relating to agricultural subjects and to the diseases of cattle and plants were much appreciated by the assembled ryot population.

4. The thanks of Government are due to the officers and non-official gentlemen whose assistance contributed to the above satisfactory results.

READ:—

The accompanying reports of the marginally noted officers on the cattle show held at Hemagiri in the Krishnarajpete Taluk on the occasion of the jatra of Sri Venkataramanaswami in February 1913, received with Revenue Commissioner's letter No. 785, dated the 23rd July 1913.

The Deputy Commissioner, Mysore District.
The Sub-Divisional Officer, French Rocks Sub-Division.
The Amildar, Krishnarajpete Taluk.

No. 1680-5—L. B. 34-13-6, DATED 7TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. It is satisfactory to note that the number of cattle collected at the show was nearly 25,000 being one and a half times the number for the previous year and that all the best Mysore breeds were represented.

3. A novel feature this year was the inauguration of a Pony Show which is reported to have evoked much interest.

4. Government are pleased to record their appreciation of the good work done by the non-official and official gentlemen who helped to make the fair a thorough success.

5. Government hope that the needful action regarding the improvement of the road from Krishnarajpete to Hemagiri and the extension of the musafirkhana at the latter place will be taken sufficiently early to be of use to the people attending the next jatra and trust that it would be desirable to give wide publicity of the holding of such shows in time to attract the best cattle in the adjoining British Districts also for competing with the Mysore cattle.

6. The photographs of the prize winners are awaited.

READ:—

Letter No. 904, dated the 25th July 1913, from the Revenue Commissioner in Mysore, forwarding a copy of the Mysore Deputy Commissioner's letter No. 1022, dated the 16th June 1913, transmitting the accompanying report on the cattle show held at Chunchinkatte, Yedatore Taluk, in January 1913.

No. 1686-91—L. B. 34-13-7, DATED 7TH AUGUST 1913.

ORDER THEREON.—Recorded, with the observation that the congregation of people and the collection of cattle at this show were less than in the previous year and that the decrease was partly due to the prevalence of plague and cholera in the neighbourhood and partly due to the holding of similar shows in the surrounding places.

2. The Deputy Commissioner is requested to submit definite proposals on the matters referred to in para 10 of the Amildar's report.

3. The long delay in the submission of the report should have been avoided.

N. VENKATESA IYENGAR,
Chief Observer in charge.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 12, dated the 2nd July 1913, from the Secretary, Economic Conference, stating that the Conference at the Session held in June 1913, has recommended the nomination of 25, 30 and 24 gentlemen as members of the District Committees of Bangalore, Mysore and Shimoga, respectively, on the representation of the Presidents of the said Committees, that such increase was absolutely necessary to represent all interests in the respective districts, and requesting that Government may be moved to sanction the above nomination and to modify the existing rules so as to permit the nomination of more than 20 members to District Committees whenever necessity for the same arises.

No. G. 1294-342—G. M. 69-13-3, DATED BANGALORE, 12TH AUGUST 1913.

ORDER THEREON.—Government are pleased to approve of the nomination of the additional members made by the Conference and to amend Rule 7 of the Revised Rules for the constitution of the Economic Conference, published under Government Order No. G. 4058-109—G. M. 55-12-109, dated 25th January 1913, so as to admit of a larger number of members than at present, but not more than 30 members being selected for each of the District Committees.

The rule, as amended, will read as follows :—

"A Committee for each district composed of officials, members of the Representative Assembly and non-officials, not exceeding 30 in number, may also be appointed by the President in consultation with the Chairmen of the Central Committees, and the Deputy Commissioner of the District will be the President of the Committee * * *."

C. S. BALASUNDARAM IYER,
Secretary to Government, Departments of Education, Agriculture and Industries and Commerce.

To—All Heads of Departments.
The Deputy Commissioners of Districts.
The Secretary, Economic Conference.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Dated Bangalore, the 25th August 1913.

N. MADHAVA RAU,
For *Revenue Commissioner.*

READ—

The accompanying report on the Cattle Show and the Industrial and Agricultural Exhibition held at Maddagiri on the occasion of Dandina Maramma's Jatra during March 1913, received from the Deputy Commissioner, Tumkur District, through the Revenue Commissioner in Mysore.

No. 1675-9—L. B. 34-13-5, DATED BANGALORE, 7TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Government note with satisfaction that the idea of organising the Cattle Show and Exhibition emanated from the leading non-official gentlemen of the town and that the Show, the first of its kind held at Maddagiri, was a great success.

3. It is gratifying to observe that the lectures and the demonstrations relating to agricultural subjects and to the diseases of cattle and plants were much appreciated by the assembled raiyat population.

4. The thanks of Government are due to the Officers and non-official gentlemen whose assistance contributed to the above satisfactory results.

K. R. SRINIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore, with reference to his letter No. 833, dated the 24th July 1913.

The Deputy Commissioner, Tumkur District, with the observation that the directions contained in para 4 of Government Order No. 7007-24—L. B. 189-09-3, dated the 22nd February 1911, should have been complied with.

The Comptroller to Government.

The Director of Agriculture in Mysore.

The Compiler, *Mysore Gazette*, for publication in the Gazette.

REPORT ON THE CATTLE SHOW AND THE INDUSTRIAL AND AGRICULTURAL EXHIBITION HELD AT MADDAGIRI, DURING MARCH 1913, ON THE OCCASION OF DANDINA MARAMMA'S JATRA.

I. At a meeting held in the Taluk Office, Maddagiri, on 27th November 1912, Mr. Ramaswamiyer, Pleader, was elected as the President of the Committee and a list of the gentlemen elected as the members of this Committee is appended to this report and most of these members form the members of the Taluk Agricultural Association.

II. About 4,000 cattle were exhibited and 10 kinds of industrial and 25 kinds of agricultural products with their several varieties were exhibited.

III. About 630 cattle as per particulars shown in the annexed statement were selected and out of these 14 pairs and 20 single cattle succeeded in winning prizes.

IV. There were assembled on this occasion breeding bulls, ploughing bulls, draught bullocks, dawk bullocks in pairs, single bullocks, milking cows with calves, single cows, best calves in pairs and also in singles, buffaloes, goats and rams. The cattle consisted of Hallikar, Bettadadana, Valagra, Amrut Mahal and Gujja Madu. Their sizes varied from 2 feet to 4½ feet.

V. Thirty-five prizes for agricultural exhibits and 7 prizes for the industrial exhibits, 12 first prizes, 19 second prizes, and 3 third prizes for the best cattle exhibited and 4 prizes for the ploughing competition were awarded.

VI. The tope in front of Dandina Maramma's temple was selected for holding the Agricultural and Industrial Exhibition and two sheds were put up, one for exhibiting the industrial and agricultural exhibits and the other for exhibiting the marginally noted agricultural implements which were kindly sent here by Dr. L. C. Coleman, M.A., PH.D., Director of Agriculture in Mysore. At a small distance from the said tope to the south, cattle show was held.

(1) Kolar mission plough.
(2) Venity plough.
(3) Winnower.
(4) Chaff cutter.
(5) Lever Harrow.

This year, the collection of cattle being about 4,000, the need for the supply of water was not felt as there was a good supply of water from the talaparige leading from the Cholenahalli tank bed and from its *Kodihalla*. The channel leading from the talaparige referred to above runs in an eastern direction close to the sheds put up. In the Kodihalla of the said tank, there are two hondas dug by the public and at a little distance from these, there is a katte known as "Rangegowdankatte," and this contains a good supply of water. The construction of a permanent deep tank in the said Kodihalla near the place of cattle stand is under contemplation and may come into existence shortly.

VII. No fees were levied on cattle coming to the exhibition as the members of the Committee resolved that the levying of fees in the first year of the exhibition would not be advisable.

A sum of Rs. 213-3-0 was collected by private subscriptions and Rs. 150 was received from the President of the District Board.

VIII. A sum of Rs. 158 was awarded for the prize of cattle (including goats and sheep) and a sum of Rs. 71 was awarded as prize for the industrial and agricultural exhibits and a sum of Rs. 30-3-0 was incurred on account of sundry expenses passed by the Committee. The balance of Rs. 104 was credited to the treasury under District Funds on 5th April 1913.

IX. The following gentlemen favoured the show with their kind presence:—

(1) Mr. V. R. Thyagaraja Iyer, M.A., Deputy Commissioner.
(2) Mr. A. Chatterton, Special Adviser for Industries and Commerce.
(3) Mr. C. S. Balasundaram Iyer, B.A., Secretary to the Mysore Economic Conference.
(4) Mr. L. C. Coleman, M.A., PH.D., Director of Agriculture.
(5) Mr. Ranganatha Rao Sahib, B.A., B.L., Secretary to the Committee for Industries and Commerce.
(6) Mr. P. S. Govinda Rao, District Forest Officer, Tumkur.
(7) Mr. T. Abdul Khader, B.A., Amildar of Sira.
(8) Mr. Davies.

The show commenced from the 22nd and terminated on the 26th March 1913, and efficient police arrangements were made.

Kannada lectures were delivered in the evenings to the assembled raiyat population on the following subjects:—

(1) Insect pests and plant diseases by Mr. Ranganatha Rao, Agricultural Inspector.
(2) Object of manuring and manures by Mr. Govinda Rao, District Forest Officer.
(3) Education, Agriculture and Co-operation by Mr. Narasimhaiengar, B.A., B.L., Munsiff.
(4) Castration and cattle diseases by Mr. Krishniengar, Veterinary Inspector.
(5) Practical Agriculture in English by Dr. L. C. Coleman, M.A., PH.D., Director of Agriculture, and the same was delivered in Kannada by Mr. N. Narasimha Iyengar, B.A., B.L., Munsiff.

Mr. Ranganatha Rao, Agricultural Inspector, practically demonstrated before the assembled raiyats.

(1) Ploughing by Kolar plough with bullocks of different sizes.
(2) Chaff cutting by a Chaff cutter.
(3) Winnowing by the Winnower.

A tube well was sunk into the ground and its action was shown to the public.

Mr. Krishnaiengar, Veterinary Inspector and Mr. B. A. Rajaratnam Pillay, Sub-Assistant Surgeon, Maddagiri, practically demonstrated the scientific mode of castrating bulls and goats. This was much appreciated by the public.

It may be said in conclusion that the success of the show at Maddagiri was due to the energy, foresight, and help given by the Sub-Division Officer, Mr. A. Krishnasamy Iyengar, B.A., and the co-operation of the local authorities.

It may not be out of place to mention here that the present Deputy Commissioner Mr. V. R. Thyagaraja Iyer, M.A., and his predecessor in office, Mr. C. S. Balasundaram Iyer, B.A., evinced great zeal and sympathy towards the movement and contributed decent amounts for special prizes. This maidan success augurs well for the future and it is not far to presume that this cattle show will outbeat in the long run any other similar shows in the Tumkur District.

Letter No. 904, dated the 25th July 1913, from the Revenue Commissioner in Mysore, forwarding a copy of the Mysore Deputy Commissioner's letter No. 1022, dated the 16th June 1913, transmitting the accompanying report on the cattle show held at Chunchinkatte, Yedatore Taluk, in January 1913.

No. 1686-91—L. B. 34-13-7, DATED BANGALORE, 7TH AUGUST 1913.

ORDER THEREON.—Recorded, with the observation that the congregation of people and the collection of cattle at this show were less than in the previous year and that the decrease was partly due to the prevalence of plague and cholera in the neighbourhood and partly due to the holding of similar shows in the surrounding places.

2. The Deputy Commissioner is requested to submit definite proposals on the matters referred to in para 10 of the Amildar's report.

3. The long delay in the submission of the report should have been avoided.

REPORT OF THE CHUNCHINKATTE JATRA AND THE CATTLE SHOW FOR THE YEAR 1912-13.

The jatra began on the 10th January and continued till about the end of the month.

The congregation of people this year was not so large as that of the previous year. This is partly due to the prevalence of plague in two or three villages in the neighbourhood and partly due to the prevalence of cholera in other taluks of the district from which large gatherings of people and cattle were used to come.

The number of people assembled for the jatra this year was estimated to be 15,000 as against 20,000 in the previous year.

The number of cattle collected in the exhibition ground (Hori Mala) was according to the contractor's receipts 13,197.

2. A Committee was formed consisting of three non-officials, *viz.*, Messrs. Bale Basavanna, Halayur Venkategowda and Mavathoor Kemparaj Urs and three officers of the district and taluk, *viz.*, the Sub-Division Officer, Amildar and the Inspector of Cattle Diseases. The Sub-Division Officer Mr. K. Mylar Rao, B.A., B.L., being the President of the Committee.

3. The number of cattle brought for the exhibition was nearly 100, of which 20 were selected by the Committee.

4. The classification age, etc., of the cattle for which prizes are awarded are shown below:—

Statement showing the prizes awarded for the cattles during the Chunchinkatte Jatra in the month of January 1913.

The Sub-Division Officer Mr. K. Mylar Rao, the District Police Superintendent Mr. C. Devaraj Urs, the District Health Officer Mr. B. Krishna Rao and the District Veterinary Inspector Mr. R. N. Patankar were present and attended the cattle show.

5. Twenty prizes and certificates were awarded to the owners of these cattle.

The Deputy Commissioner Mr. K. Chandy was kind enough to take part in distributing the prizes and awarding certificates to the owners of the best cattle.

6. Arrangements made for picketing the cattle in the Hori Mala to the south of the temple of Sri Ramadevaru were such as to ensure order and convenience to the cattle owners and purchasers. This Hori Mala includes Government waste land and several holdings of the raiyats who for the sake of manure usually consent to the cattle being picketed in their fields. Several roads are laid out, stones being fixed on each side of the road. It was also arranged to remove manure every day so as to have the best possible sanitation to both the people and cattle. The site is a large plot of ground well suited from all points of view. The river is close by so that there is no difficulty for water-supply. Necessary arrangements were made for washing the cattle in the river below the temple so that people may take water higher up and uncontaminated.

7. The total realisation from all sources amounted to Rs. 4,491-7-11. The sources are fees on cattle, sale of manure, shop tax and golaka. The right of collecting tax on cattle and the ground rent on different kinds of shops, etc., were sold by auction for Rs. 4,550-0-0 and the whole amount of contract was recovered and credited to temple funds. The right of collecting manure was also sold for Rs. 360.

8. The total expenditure amounted to Rs. 165 plus 95-260, Rs. 165 being the amount of prizes awarded for the cattle and Rs. 95 for sanitation, *viz.*, constructing privies, payment to sweepers, etc. These were met from District Fund (*vide* order cheque No. 99-226—23-12-13 for Rs. 200). Out of temple funds Rs. 46-7-3 for temple road repairs, Rs. 37-2-9 for whitewashing the temple, etc., Rs. 128 for Rathotsavam were spent. The statement will give the items in detail.

Note.—Out of Rs. 200 received by District Fund cheque only Rs. 165 were spent and the balance credited to District Funds.

9. The jatra was on the whole smoothly managed without any trouble either to the cattle or to the people. The price of cattle was slightly higher this year than in the previous year owing to insufficient collection to meet the large demand of purchasers. This insufficient collection was due to (1) several cattle shows newly held in the surrounding places, *viz.*, Ramanathpur, Hassan and other places, (2) purchases made before the jatra by outsiders in several villages of the district.

The people and cattle enjoyed good health during the jatra and there was no disease of any kind.

10. It is observed that large realisations are made in favour of the temple but no proper accommodation and convenience is given either to the cattle or to the public. No shelter is available to the cattle.

It would be convenient to plant topes and construct mantaps by the road side so that both men and cattle may be protected from exposure. The present allotment for sanitation is too small to give proper convenience to the large number of people who attend the jatra.

The accompanying reports of the marginally noted officers on the cattle show held at Hemagiri in the Krishnarajpete Taluk, on the occasion of the jatra of Sri Venkataramanaswami in February 1913, received with Revenue Commissioner's letter No. 785, dated the 23rd July 1913.

The Amildar, Krishnarajpete Taluk.

No. 1680-5—L. B. 34-13-6, DATED BANGALORE, 7TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. It is satisfactory to note that the number of cattle collected at the show was nearly 25,000, being one and a half times the number for the previous year and that all the best Mysore breeds were represented.

3. A novel feature this year was the inauguration of a pony show which is reported to have evoked much interest.

4. Government are pleased to record their appreciation of the good work done by the non-official and official gentlemen who helped to make the fair a thorough success.

5. Government hope that the needful action regarding the improvement of the road from Krishnarajpete to Hemagiri and the extension of the musafirkhana at the latter place will be taken sufficiently early to be of use to the people attending the next jatra and trust that it would be desirable to give wide publicity of the holding of such shows in time to attract the best cattle in the adjoining British Districts also for competing with the Mysore cattle.

6. The photographs of the prize winners are awaited.

Letter No. 1040, dated 5th June 1913, from the President, District Board of Mysore, to the Revenue Commissioner in Mysore, Bangalore.

I have the honor to submit herewith for transmission to Government copies of the marginally noted interesting reports on the cattle show held at Hemagiri in February 1913. It will be seen from the above communications that the show was a complete success, that satisfactory sanitary arrangements had been made, that the total number of cattle collected was 25,000, that 243 cattle were exhibited at the show and that 17 cattle were selected for awarding prizes. The total receipts during the year aggregated to Rs. 2,275 as per margin as against Rs. 1,075 in the previous year, thus showing an increase of Rs. 1,200. A sum of Rs. 100 was as usual contributed from District Funds towards the cost of awarding prizes and it is reported that a sum of Rs. 54-11-0 was raised by public subscription. A sum of Rs. 127-4-0 was spent on account of sanitary arrangements and this was met from District Funds.

As regards the improvement of the road from Krishnarajpete to Hemagiri and the extension of the Hemagiri musafirkhana proposed by Sub-Division Officer, the subjects will be placed before the Board and necessary action taken in due course.

Letter No. 404, dated 5th May 1913, from the Assistant Commissioner, French Rocks Sub-Division, to the Deputy Commissioner, Mysore District.

I have the honor to submit herewith the very full and interesting report made by the Amildar of Krishnarajpete on the cattle show held at Hemagiri during the Sri Venkataramanaswami jatra this year.

The cattle fair is yearly gaining in importance and the number of cattle brought was fully 50 per cent more than in the previous year. All the best Mysore breeds were represented and the task of selecting the best in such a large number of really excellent and high class cattle was, by no means, easy. Great credit is due to the non-official gentlemen who officiated as Judges for selecting prize winners to the satisfaction of all the interests represented at the show. This result was in great measure due to the fact that the Judges chosen were in a manner representatives of the most important cattle breeding centres and were persons with an inherited expert knowlege of the subject. The Superintendent of the Civil Veterinary Department was on the spot and gave the Judges the benefit of his scientific knowledge and valuable experience.

3. The poney show which was inaugurated this year evoked much interest and competition and has evidently a future before it. It is trusted that it will give an impetus to the improvement of the class of animals maintained by subordinate executive and village officers.

4. A novel and very interesting feature of this year's function was the organisation of popular lectures bearing on all aspects of rural life by specialists in the subjects chosen.

5. The list of subjects and of speakers given by the Amildar in his report shows what a wide range was covered in these lectures; and it is with pleasure that I am able to report that all the lectures and specially those bearing on co-operation, agricultural and industrial development and the employment of machinery, were largely attended with every appearance of interest and appreciation.

6. The condition of the road from Krishnarajpete this year calls special attention to the necessity of having a good metalled approach to this important place of pilgrimage. I would also add that an extension of the musafirkhana at Hemagiri would meet the great and growing demand for accommodation.

7. The photograph of prize winners will be submitted so soon as they are received.

Report from the Amildar of Krishnarajpete on the cattle show held at Hemagiri, to the Sub-Division Officer, French Rocks Sub-Division, French Rocks, dated 16th March 1913.

I beg to submit the following report on the cattle show held at Hemagiri in connection with the car festival of Sri Venkataramanaswami temple on the 13th February 1913, and the three following days.

(2) The report is in accordance with Government Order No. 7007-24—L. F. 189-09-2, dated the 22nd February 1911.

Committee of management.—The following respectable gentlemen from this and the adjoining taluks were selected and formed into a Committee of management. Their duties were to go over the cattle show ground and issue tickets to the owners of cattle which has to be admitted into the show ground.

The show ground was situated close to a beautiful pavilion and was barricaded all round with arecanut poles and bamboos to prevent promiscuous collection of cattle. The selected cattle were led into this area and the Committee of Judges decided by votes as to the cattle which deserved recognition and the order of merit was thereupon decided.

But of the 25,000 heads of cattle collected, the Committee selected the following as deserving of examination by the Judges.

Number of cattle exhibited.—

1. Agricultural bullocks	116
2. Breeding bulls	64
3. Calves	55
4. Cows	8
Total ...	243

All the Judges then went round the special enclosure where the selected cattle were gathered and selected the prize winners as approved of by majority.

III.

Number of cattle selected.—The following table shows the name and place of exhibitor, the cattle selected and their breeds, height, etc:—

IV.

Classification of cattle according to breeds, size, age, etc.—From the above statement it will be seen that the best agricultural bullocks were from the Hallikara breed as five prizes were carried away by this class of cattle, and the next best was of Badagalu class.

Sannamallige, Doddamallige, Padavalu, Bettadapura and Gujjumavu were also represented and comprised some good pairs though these classes could not secure a prize.

In the next class of breeders, the two first prizes have been won by Gujjumavu, while the other two prizes went to the Hallikara class.

Among calves also, the majority were from Hallikara and the first prize was secured by that class.

A special prize was instituted for cows and it was a Hallikar cow that won the prize :—

VI.

Place of cattle show.—The camping ground near Hemagiri temple, which is a plateau gradually sloping away towards the river Hemavati, is a picturesque ground and is ideally suited for cattle shows. The river water is the principle temptation and source of convenience as so many heads of cattle require an incalculable quantity of water for washing and drinking. The sacred shrine of Sri Venkataramanaswami and the comparatively early season of the year for cattle shows as by this time only Chunchankatte jatra will have taken place, is gradually bringing the show to greater importance year by year.

These natural advantages coupled with the funds kindly placed at my disposal by the President for sanitary arrangements enabled the sanitation being maintained in a very efficient condition. One imported case of cholera, however, dispersed the numerous crowd in less than six hours, and the trade which would otherwise have been very flourishing, completely ceased. This scarce and the constant rapid evacuation of the jatra, was, however, a matter of congratulation as the influx of people from the distant taluks had brought cholera contacts, and the disease would have spread further and wider, had the jatra lasted longer.

VII.

Total receipts, viz., from fees, private subscriptions and contributions.—The fees levied on cattle were farmed out to a contractor and realised Rs. 1,820, while the manure was sold for Rs. 230 and the shop tax fetched Rs. 225 or a total of Rs. 2,275 as against Rs. 1,075 in the year previous. The amount thus realised is far in excess of that required for prizes and that of sanitary arrangements, and the excess is being credited to Muzrai Funds under Rule 3 of Government Notification No. 7007, dated 22nd February 1911.

The amount sanctioned from District Funds for awarding prizes was Rs. 100, while private subscriptions collected were Rs. 54-11-0.

VIII.

Total expense incurred and how met.—Statement I shows the value of prizes awarded and the names of prize winners. It is gatifying for me to be able to report that the local gentlemen, Taluk and District Board members, contributed their mite ungrudgingly to make up the amount required for special prizes, as without them the large collection of cattle would not have had an adequate recognition of their claim. The annexed table shows the expenditure incurred on account of sanitation :—

	Rs.		
Lighting	28	0	0
Watering charges	7	0	0
Conservancy charges	67	0	0
Miscellaneous	25	4	0
Total ...	127	4	0

Out of Rs. 130 sanctioned, Rs. 127-4-0 were expended and the vouchers, etc., have been submitted with a separate report.

IX REMARKS.

Concluding remarks including a comparison of the results of the show with those of the preceding year.—Compared with the previous year, the show was a grander one and more than 50 per cent cattle had collected as compared with the previous year. The feeding arrangements made at the car festival tempts large numbers of even the leisured class to visit this holy spot and to see the fair and the cattle market is steadily gaining prominence and reputation as a first class cattle mart.

A useful departure from the usual rule was made this year in inviting pony owners to exhibit their animals at the show. Being the 1st year there were about a dozen ponies at the show and a special prize worth Rs. 11-8-0 was given to the best country bred pony. The Tank Inspector got this special prize in the form of a bit bridle and reins. It is hoped that this incentive will induce others to come with their ponies in the future years.

There is but one drawback inasmuch as the road from Krishnarajpete to Hemagiri is not suited to this large and heavy traffic and a metalled road for these five miles appears to be a derideratum.

The pandal that had been put up in the centre of the show was mainly intended for delivering lectures to the assembled raiyats, and its usefulness was increased since. It also served as a place of recreation during the spare hours when the raiyats had no business on hand or during the hot hours of the day.

The invited gentlemen Messrs. N. Narasimha Iyengar, Veterinary Inspector, C. Seetharamachar, Assistant Engineer attached to Department of Industries and Commerce, M. Shamiengar of the Melkote Industrial School, Puttaswamiah, Inspector of Co-operative Societies, took great deal of interest in lecturing to the people, while the Sub-Division Officer was at the helm of management and guided the show with his advice and was not behind-hand in impressing on the raiyats the necessity of improvement in the various directions which conduce to their welfare such as (1) education, (2) sanitary knowledge, (3) improved methods of agriculture, (4) breeding better and hardier varieties of cattle, (5) conservation of manure and lastly co-operation among themselves.

The annexed table shows the details of lectures delivered and the dates:—

13th morning.—Mr. Shamiengar—Industrial Development.
Mr. Krishna Sastri—The Regeneration of raiyats.
Mr. Byrappa—Agricultural improvement.

14th morning.—Mr. Srinivasa Raghavachar—The sanctity of cows and cow breeding.
Mr. Shamiengar—Improvement of industry.
Mr. Puttaswamiah—Co-operation and its advantages.

14th afternoon.—Mr. Seetharamachar—How to improve sugar cane industry and lift irrigation.
Mr. N. Narasimha Iyengar—Prevention of cattle disease.
Mr. H. Krishnasastri—The moral progress of raiyat classes in recent years.

General Remarks.—Before closing the report, I cannot help mentioning one word about the help rendered by the official and the non-official gentlemen, in order to make the show a success. A number of pandals and booths for the comfort and convenience of the visitors had been put up with the help of these official and non-official gentlemen, and the construction of the lecture pandal was no light task as no funds were available for the purpose. My thanks are therefore due to the taluk officials and the Taluk Board members who helped in the business.

P.S.

The submission of this report was delayed with a view to get the photographs of the show cattle that were awarded prizes. But the photographer who has taken an advance and showed me some negatives has not as yet turned up. I will submit copies of photographs as soon as they are received.

REVENUE COMMISSIONER'S OFFICE,
Dated Bangalore, 3rd September 1913.

K. DORASWAMI IYER,
Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read—

Letter No. 1288, dated the 1st August 1913, from the Revenue Commissioner in Mysore, forwarding the accompanying report of the Deputy Commissioner, Chitaldrug District, on the cattle show held at Harihar on the occasion of the Sangameswara Jatra in March 1913.

No. 2013-7—L. B. 34-13-10, DATED BANGALORE 19TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Government note with pleasure that the number of cattle collected this year was far in excess of those in the previous years and that the breeds of cattle exhibited were also superior to those in the last year.

3. The interest evinced by the public in the weaving and ploughing competitions, demonstrations and lectures is an encouraging sign of the times.

4. The thanks of Government will be conveyed to the non-official gentlemen who helped to make the show a success.

5. The delay in the submission of the report should have been avoided.

K. R. SRINIVASIENGAR,
Secretary to Government,
General and Revenue Departments.

To—The Revenue Commissioner in Mysore.
The Comptroller to Government.
The Deputy Commissioner, Chitaldrug District.
The Muzrai Superintendent in Mysore.

No. 689, dated Chitaldrug, 28th June 1913, from the Officiating Deputy Commissioner and President of the District Board, Chitaldrug, to the Revenue Commissioner in Mysore, Bangalore.

I have the honour to submit the following report in connection with the cattle show held at Harihar on the occasion of Sangameswara Jatra in the month of March 1913.

2. In view of the manifold advantages which the raiyats derive from the holding of cattle shows, the President of the District Board Mr. K. Krishna Iyer submitted the needful recommendation to Government. The Government in their Order No. 5508-12—L. B. 179-12-3, dated 29th January 1913, while according sanction to the holding of the show, also approved of the utilization of the full amount of the budget provision of Rs. 200 under the head "D. 8—cattle shows and exhibitions" towards the expenditure to be incurred on the occasion of the show and also an additional sum of Rs. 100 for the same purpose to be met by reappropriation. The consent of the Board also for the holding of the show and the appropriation of Rs. 300 therefor was obtained at their meeting held on the 10th February 1913. A reference was also subsequently made to Government in this office letter No. 388, dated 13th March 1913, intimating the source from which the excess expenditure of Rs. 100 alluded to will be met with.

3. *Prospectus.*—The prospectus connected with the show which was approved of by Government was given wide publicity in and outside the Province (*vide* Appendix I).

4. *Committee of management.*—In order to manage the affairs connected with the show, a managing committee consisting of the leading and influential inhabitants of the Harihar Town, was formed with Mr. R. T. Mahadeva Rao, the retired Assistant Commissioner as its President. The names of members constituting the said committee are given as Appendix II. The members of the managing committee, the Deputy Amildar of Harihar and the non-official gentlemen of the place

including the Secretary of the District Agricultural Association, are reported to have worked hard to make the show a successful function. Mr. Krishna Iyer, the President, was present at Harihar camp for organizing the show and gave necessary suggestions from time to time.

5. *Number of cattle exhibited.*—It is gratifying to note that the number of cattle collected this year was immensely greater than in the year previous, there having been 51,257 cattle of all description collected against 38,818 of the year previous. It is reported that they were also superior to those of the year previous. They belong not only to the various districts of this Province but also to the adjoining British taluks of Harpanahalli and Ranebennur of Bellary and Dharwar Collectorates. The show was opened on the 29th of March 1913 and continued for the following two days.

6. *Number of cattle selected.*—As in the previous years an enclosure was made to admit cattle and the owners of animals were told to bring thereunto only such cattle as were intended to compete for prizes, on payment of fees prescribed by the managing committee. The number of cattle admitted to the show was 61 against 73 in the year previous, and the amount of fees realized from this source came to Rs. 12-15-0. Appendix III gives the description of cattle admitted and the rates of fees levied on them.

7. *Classification of cattle according to breeds, size, age, etc.*—The cattle collected on the occasion belonged to different breeds properly known as Korachar, Hatte, Dagina Javari, etc. They may be classified as follows :—

Draft bullocks	5,677
Plough bullocks	9,531
Single bullocks	6,230
Breeding bulls	6,456
Ram	9
Bull calf under two years	15,013
Cow calf do	8,235
Milch cows	59
Cow buffaloes	9
Ewe	1
Ponies	37
Total	51,257

8. *Number of prizes awarded.*—Prior to the distribution of prizes Mr. J. Subba Rao, the Secretary to the District Agricultural Association, made a short and impressive speech dwelling on the useful and beneficial effects of the show. He was followed by Mr. R. T. Mahadeva Rao, the retired Assistant Commissioner, who also gave a brief lecture urging the importance of paying special attention to the breeding of cattle which form the mainstay of agricultural prosperity. The President Mr. Krishna Iyer then awarded prizes to the successful winners, which consisted of gold and silver medals and cash payments. There were in all 5 gold and 6 silver medals available for being awarded. Of these, 2 gold and 4 silver medals were awarded to bullocks and breeding bulls adjudged as deserving of prize by the committee of judges. There were 37 ponies collected on the occasion against 12 in the year previous. Of these, only one pony secured a gold medal of the value of Rs. 10.

As in the year previous, the Secretary of the Economic Conference was moved to sanction a sum of Rs. 25 for awarding prizes to those who had grown Broach and Cambodia Cotton. Weaving and ploughing competitions had also been organized with a view to encourage those professions. Out of the 5 ploughs that entered for competition, 2 were awarded a cash prize of Rs. 2 each on the report of judges. The cash prizes awarded amounted to Rs. 81 in all against Rs. 58 in the year previous and included, besides the prizes awarded to animals of good breeding and the growers of Broach and Cambodia Cotton, the prizes given to those who exhibited skill in weaving and ploughing as well as to persons who displayed general efficiency in music, etc., on the occasion of the show. Particulars of prizes awarded and the names of those who secured them are given in detail in

Appendix IV. It is reported that the sum realized by the sale of cattle on the occasion amounted to more than a lakh of rupees, the selling price of animals ranging from Rs. 50 to Rs. 800 a pair against 40 to 650 as reported last year, thereby indicating that cattle collected this year were of a better quality as alluded to in para 5 *supra*.

9. *Place of cattle show and its suitability as regards water-supply and sanitary requirements.*—The place selected for the holding of the show was the maidan in front of Sangameswara temple. A decent pendal had been put up which also contributed to the grandeur of the show. The river Thungabhadra flowing close-by afforded facilities for the supply of drinking-water. It being about the middle of summer the water in the river had receded to its farthest limit and the bed thereof afforded plenty of room for the accommodation of men and cattle. The situation of the locality outside the limits of the town was also another reason for its selection for holding the show from the sanitary point of view. The town of Harihar is situated on the border of the Mysore Province. It is also traversed by railway. There is therefore every facility for tradesmen, merchants and others from various districts in the Province as well as from the bordering districts of Dharwar, etc., to visit the place without much inconvenience and expense. There were about 30,000 visitors to the place on the occasion of the show. Shops of various description had been arranged to be opened for the convenience of the assembled people. There was also plenty of fodder available for persons desirous of buying the same. Dramas and merry-go-rounds had also been arranged for the recreation of the multitude. With the previous sanction of Government small fees were levied on shops, etc., and the sum realized was Rs. 174 against Rs. 104-2-0 in last year. Necessary Police, conservancy and lighting arrangements had been made for the convenience of the visitors assembled on the occasion.

10. *Lectures.*—Dr. Coleman was kind enough to be present on the occasion. Under his personal direction Messrs. Yegnanarayana Iyer and Ranganatha Rao delivered lectures in Kanarese to the assembled raiyats about Broach and Cambodia Cotton cultivation, the transplanting of paddy and on Kambali hula and Kadige roga. The Inspector of Cattle Diseases also as usual delivered a lecture on the methods to be adopted for improving the breed of cattle and arresting the spread of the cattle diseases. One B. Murigappa, the Revenue gumasta of Harihar Sub-Taluk, delivered a long and interesting speech in Kanarese, both in prose and poetry about the advantages of the show and of the benefits derived from witnessing the show. The lectures are reported to have been well attended to and appreciated by the audience.

11. *Demonstrations.*—Dr. Coleman exhibited to the raiyats the different kinds of ploughs and other agricultural implements of modern inventions, and specimens of certain insects, etc. Jaggory boiling was also undertaken and the method of its manufacture in its purity was shown to people.

12. *Total receipts, viz., from fees, private subscriptions and contributions.*—The details of receipts and expenditure are given below:—

Receipts.

	Rs.	a.	p.
1. Government grant applied for	300	0	0
2. Private subscriptions	13	12	0
3. By sale of manure	205	0	0
4. Realizations from shops, etc.	174	0	0
5. Do of fees for selected cattle admitted to the show	12	15	0
6. Amount realized by sale of pendal materials	15	10	0
Total	721	5	0

Expenditure.

	Rs.	a.	p.
1. Cost incurred for constructing a pendal	56	0	11
2. Cash prizes given to owners of cattle and for general efficiency, etc.	56	0	0
3. Cost of photos of prize-won cattle	22	12	0
4. Cost of medals including the money order commission	122	4	0
5. Printing charges of certificate forms including money order commission	4	5	0
6. Contingencies and miscellaneous	21	9	0
Total	282	14	11
Deduct the cost of two gold medals (worth Rs. 15 and 10 respectively) and two big silver medals (worth Rs. 20) reserved for next year	45	0	0
	237	14	11

N. B.—The sum of Rs. 25 sanctioned by the Economic Conference Committee and awarded to those who had grown Broach and Cambodia Cotton has not been taken into account as it does not belong to District Funds, but in respect of which separate accounts are being maintained.

It will be seen, from a perusal of the above statements of expenditure and receipts, that the expenditure incurred on the occasion of the show was less than of the income and there has been a net savings of Rs. 483-6-1 which is more than double the amount saved in the year preceding.

13. *Photos.*—Seven photos are appended hereunto. One of which relates to the general view of the showground and another to the side of the pendal, etc. The remaining five pertain to the cattle that won the prizes on the occasion of the show.

14. *Concluding remarks.*—The large concourse of people gathering every year to witness the show and the gradual increase in the number of cattle collected, bear ample testimony to the usefulness and popularity of the show. The educative value which the show confers on the raiyat population by enabling them to attend to lectures and demonstrations of practical nature, is also a matter of utmost importance which cannot be lost sight of. The healthier spirit of emulation which the show infuses in the minds of the agriculturists witnessing the show in the matter of rearing of animals of good quality, and facility afforded to the agriculturists to buy the best animals without much trouble and cost, are also strong grounds for recommending the holding of the show.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 828, dated the 24th July 1913, from the Revenue Commissioner in Mysore, submitting the following reports on the Cattle Shows held at Ramanathpur in the Arkalgud Taluk and at Hassan in December 1912 and January 1913, respectively.

No. 2248-51—L. B. 34-13-11, DATED BANGALORE, 26TH AUGUST 1913.

ORDER THEREON.—Recorded.

2. Government note with satisfaction that the shows proved to be popular and that a greater number of cattle were exhibited in them than in the previous years.

3. The number of cattle exhibited at Hassan and Ramanathpur were 6,234 and 4,600 against 5,137 and 1,760 respectively in the previous years. While the total income from the shows (exclusive of the grant from the District Board) was Rs. 797 in the case of Ramanathpur, that of Hassan was Rs. 602-8-0 resulting in net saving to District Funds of Rs. 622 and Rs. 581-8-0 respectively.

4. The holding of the first District Co-operative Conference in connection with the show at Hassan and the forming out of the right of collecting fees for the first time at Ramanathpur were the special features of the shows in question.

5. The zeal evinced by the non-official members in contributing to the success of the shows is commendable and Government highly appreciate the good services rendered by them.

6. The approval of the Hassan Show Committee in the matter of giving full powers to it in disposing of the realizations from the shows should form the subject of a separate communication from the President.

Government note that though the reports were approved by the District Board as early as February 1913, there was a delay of over three months in its submission by the President.

K. R. SRINIVASIENGAR,
Secretary to Government,
General and Revenue Departments.

To—The Revenue Commissioner in Mysore.
The President, District Board, Hassan, returning photos.
The Comptroller to Government.
The Compiler, *Mysore Gazette*, for publication.

Report of the Cattle Show held at Ramanathpur, in connection with Subramanya Jatra, on the 16th and 17th December 1912.

The show was the second held at the place, the first one having been held in November 1911.

The management was vested in a Committee comprising the following members, with P. R. W. Wetherall, Esq., Deputy Commissioner, as President and Mr. G. S. Ramasami Iyengar, Amildar, as Vice-President.

1. Messrs. Narasimha Sastri of Mattigode, 2. B. Venkatachar, Assistant Veterinary Inspector, 3. Mallanna of Kerlapur, 4. Krishnegowda of Kalenahalli, 5. Channabasavashetty of Koteval, 6. Sannegowda of Hangal, 7. Mallaraj Urs of Gangur, 8. Sivananjegowda of Hethgodanahalli, 9. Ramasami Shetty of Arkalgud, 10. Mallarajiah of Gangur, 11. Dyavegowda of Hosahalli, 12. Basavegowda of Bannur, 13. Venkatasubbiah of Hebbale, 14. Puttasamegowda of Aladahalli and 15. Mallanna of Doramballi.

2. The number of cattle exhibited this year was 4,600 as against 1,760 in the previous year.

3. The number of cattle selected for prizes was 18 as against the same figure of last year.

4. The cattle exhibited were all Hallikar breed and of all ages and sizes. The approximate number of each class was as follows :—

1. Ploughing bullocks	...	2,500
2. Dawk bullocks	...	1,000
3. Breeding bulls	...	45
4. Calves	...	1,000
5. Cows	...	40
6. Buffaloes	...	15
Total	...	4,600

5. Seventeen prizes and one special prize offered by Mr. D. Channabasappa Shetti of Somwarpet on the exhibition ground were awarded against 16 prizes and 2 special prizes in the previous year.

6. The show was held on either side of the road leading from Ramanathpur to Basavapatna beyond the channel. The place is very well suited for a cattle show as there are a number of trees affording shelter and a channel running towards the west and south of the show ground forming a boundary to it. It is also an elevated ground far away from the village and having all the sanitary requirements.

7. Last year, tax on shops, etc., and fees on cattle admitted into the show ground, were all collected by departmental agency, but this year it was considered advisable to sell the right of collecting such fees and tax by public auction. The result was as follows :—

	1911	1912	
	Rs. a. p.	Rs. a. p.	
Fees on cattle	110 0 0	702 0 0	
Tax on shops	220 14 0		
Private subscriptions	48 8 0	.....	
For special prize	10 0 0	5 0 0	(Not credited to the treasury as it was offered at the spot and paid away as prize.)
Contributions from District Funds	120 0 0	175 0 0	
Sale of manure	50 0 0	90 0 0	
Total ...	559 6 0	972 0 0	

The total expenditure this year excluding the special prize was Rs. 170 as against Rs. 177-13-0 incurred last year as detailed below :—

	1911	1912
	Rs. a. p.	Rs. a. p.
Prizes for cattle	100 0 0	100 0 0
Special prizes	10 0 0	5 0 0
Clearing the show ground and other sundry works ...	18 8 0	20 0 0
For photos of cattle	10 0 0	20 0 0
Sports	30 0 0	30 0 0
For receipt books	9 5 0	.....
Total ...	177 13 0	175 0 0

The expenditure was all met from out of the Rs. 175 sanctioned from District Funds.

Out of the receipts of Rs. 972 Rs. 702 was credited into the treasury on 22nd November 1912 and Rs. 90 on 21st November 1912. The balance of Rs. 5, out of the grant by District Funds, will be credited into the treasury after the accounts are closed. This amount was provided for getting the receipt books printed. But as the collection of fees was given on contract, there was no necessity to incur any expenditure on this account.

9. Though this was the second show at Ramanathpur, yet it was considered a success. Besides the number of cattle that entered the show ground, several others were brought to the place for sale.

The Local Fund Dispensary at Konanur was as usual temporarily transferred to Ramanathpur during the jatra and the sanitation was well attended to. There were no epidemics either among men or cattle on the occasion.

The President opened the show on the 16th and distributed prizes among the winners in the show and the sports held in connection with it on the 17th December 1912 and explained to the raiyats the object of the show and the benefits accruing therefrom. The Assistant Veterinary Inspector delivered a lecture in Kanarese regarding cattle breeding and the management and improvement of cattle. The sales were brisk, and rather heavy prices prevailed. It was estimated that cattle worth about Rs. 50,000 were sold in the show ground and outside. The number of cattle that collected was more than double of last year and the quality was also considered better. Had it not been for the foot and mouth disease that was prevalent in some parts at the time the collection would have been more.
The net savings to the District Funds amounted to Rs. 622.

The show was better than that of last year in every respect. This being only the second year, it is anticipated that it would grow in importance every year.

The members of the Committee and the judges took good deal of interest in the organization and working. My thanks are due to the President and the members.

REPORT ON THE CATTLE SHOW HELD AT HASSAN ON THE 3RD AND 4TH OF JANUARY 1913.

1. *I. Committee of management.*—In pursuance of a resolution of the District Board of Hassan passed at their meeting on the 27th September 1912, fixing the dates of the 4th Cattle Show at Hassan for the 3rd and 4th January 1913, a preliminary General meeting was held in the Deputy Commissioner's Office on the 18th November 1912, to concert needful measures. A General Committee was then appointed consisting of 23 gentlemen as detailed in Appendix I. An Executive Committee was also appointed consisting of the marginally noted gentlemen as members with P. R. W. Wetherall, Esq., Deputy Commissioner as President, and Syed Amir Hassan, Esq., Retired Sub-Divisional Officer and Member of the Legislative Council, as Vice-President and Messrs. S. Venkatesaiya, B.A., B.L., Advocate, S. N. Appanna Iyengar, B.A., B.L., General Assistant Commissioner and V. S. Rajagopala Char, Amildar of Hassan Taluk, as Joint Honorary Secretaries. It may be observed that the non-official gentlemen formed a good number of the Executive Committee and one of the Honorary Secretaries was also a non-official gentleman.

Mr. A. Srinivasaraghavachar (Munsiff).
„ G. Asirvathum (District Medical and Sanitary Officer).
„ Mohammad Raza (Retired Assistant Commissioner).
„ A. Puttasamaiya (In charge of Executive Engineer).
„ M. Srinivasa Murti (Treasury Assistant Commissioner).

2. *II. Number of cattle exhibited.*—The number of cattle exhibited was 6,234. This is an advance over that of the previous year, and is highly encouraging.

3. *III. Number of cattle selected.*—Fifty-two head of cattle were selected by the judges appointed by the Committee. The names of the gentlemen who acted as judges are detailed in Appendix II. The thanks of the Committee are due to these gentlemen for the care with which they did their work.

4. *IV. Classification of cattle.*—The cattle were classified as shown in Appendix III. It has to be remarked that the Hallikar breed of cattle was mostly

exhibited. Private Amrut Mahal and Government Amrut Mahal cattle were also exhibited in good numbers. There was a good sale of all these cattle and the estimated value of the sale of cattle during and after the show amounts to nearly a lakh of rupees. Mr. Nanjundaraj Urs, Superintendent, Amrut Mahal Department, very kindly arranged for the exhibition of some Government Amrut Mahal cattle through his Daroga, Mr. Mahomad Abbas. Some of these cattle were also sold during the show, and they fetched very good prices. These sales were very grately appreciated by the people. Mr. Nanjundaraj Urs himself was present during the show and afforded immense help to the Committee. The Committee deem it their duty to place on record their sense of indebtedness to this gentleman for his very kind co-operation with them.

5. V. *Number of prizes awarded.*—The number and amount of prizes awarded are given in Appendix IV. It will be seen that a sum of Rs. 229 was awarded as first and second prizes as per prospectus of the District Board a copy of which is filed as Appendix V, while, a sum of Rs. 58 was awarded as special prizes offered by the several gentlemen as detailed in the margin. The Committee feel highly thankful to these gentlemen for their kind contributions which served as a great encouragement and stimulus to the show. It has to be observed that no single bullocks or ewes were awarded any prizes as there were no suitable exhibits and that there was thus a savings of Rs. 11 out of the sum of Rs. 240 provided for prizes in the prospectus referred to above.

6. *VI. Place of cattle shows and its suitability as regards extra supply and sanitary requirements.*—The show was held on the maidan adjoining the District Police Office building in close proximity to the newly constructed first class musafirkhana. It is an excellent site with convenience for water for men and cattle. There is a draw-well on the ground itself and a temporary reservoir was, as usual, constructed by damming the sluice channel of the Channapatna tank. Satisfactory sanitary arrangements had been made by the Hassan Municipality. Temporary latrines had been put up in addition to the masonry one already existing in a corner of the show ground and these latrines were being daily conserved.

7. *VII. Total receipts*, viz., *from fees, private subscriptions and contributions.*—The items of receipt are given in Appendix VI. The total income was Rs. 602-8-0 exclusive of the District Board grant of Rs. 500. Fees on cattle amounted to Rs. 389-10-0 as against Rs. 321-1-0 realized during the previous year. This total includes the sum of Rs. 58 awarded as special prizes. No subscriptions were raised for the expenses of the show as it was not found necessary to do so.

8. *VIII. Total expense incurred and how met.*—The statement of expenditure is given in Appendix VII. The total expenses amounted to Rs. 520-15-2. The initial and all expenses were met from the District Fund grant of Rs. 500 and also the sum of Rs. 58 awarded as special prizes. As these sums were received on the spot they could not be credited to the District Funds. It will be seen that the total receipts are Rs. 1,102-8-0 as against an expenditure of Rs. 520-15-2, leaving a surplus of Rs. 581-8-10 at the credit of the show Committee. The realizations of the Committee were credited to District Funds.

9. *IX. Concluding remarks including a comparison of the results of the show with those of the preceding year.*—A comparative statement of the results of the show is embodied in Appendix VIII. It will be noticed that the number of cattle exhibited during the show was 6,234 as against 5,137 during that of the previous year. The net income was Rs. 581-8-10 as shown in para 8 *supra*. Trade in cattle was more extensive than that of the previous years, and cattle fetched higher prices. A fine pair of Amrut Mahal bullocks exhibited by Mr. S. Sounderarajiengar, Deputy Amildar of Alur, was awarded a special class first prize of Rs. 15. This pair was subsequently sold for a sum of Rs. 500. The importance of the show is in every way increasing year after year. Numerous cattle buyers are attracted to the show from distant places such as Mysore, Mangalore and Haveri in the Bombay Presidency, and the show itself has been a very great incentive to cattle breeders to improve their breed of cattle. A fresh and noticeable departure was made this year by offering a special prize to the best calf born to the breeding bull maintained at

the Hassan Veterinary Dispensary at the cost of District Funds. This prize was carried off by Mr. Balakrishna Sastri of Bitagodanahalli. It is hoped that this prize will serve as an additional encouragement to the raiyats to improve their breed of cattle by using good breeding bulls and by bestowing all possible care in this most important matter.

10. There were general sports held on the show grounds in which the assembled villagers took lively interest and there were some items on the programme specially meant for them. Sports in connection with the cattle show have been a very useful adjunct in as much as they afford the people healthy amusement and recreation. The expenses of the sports were all met by private subscriptions.

11. The Agricultural Department with their usual courtesy deputed Mr. V. N. Ranganatha Rao, Agricultural Inspector, to demonstrate various agricultural implements, such as improved ploughs, a chaff-cutter and winnower and the assembled raiyats appreciated the instructive lectures delivered by this gentleman, and followed his demonstrations with interest. The thanks of the Committee are due to Mr. H. V. Krishnaiya, B.A., F.C.S., the officer in charge of this department for having kindly arranged for these demonstrations.

12. There is yet another feature which adds peculiar interest to this year's show, and that is, the first Hassan District Co-operative Conference held on the show grounds in a spacious pandal erected for the purpose. The conference was opened by P. R. W. Wetherall, Esq., Deputy Commissioner and President of the Cattle Show Committee, on the 4th January 1913. The instructive address of the several delegates and other speakers, especially with reference to the benefits of co-operation for agricultural purposes, were very highly appreciated by the numerous raiyats who attended the deliberations of the conference, and the special thanks of the Committee are due to Mr. M. A. Narayana Iyengar, B.A., B.L., Registrar of Co-operative Societies in Mysore, who conceived this idea of holding this first conference here, and to whose personal exertions and encouragement its success was mainly due. There can be no gain saying that such conferences are very beneficial on the occasions of such shows, and the great advantage and usefulness of this conference is made manifest by the request of the people that it should be made an annual function to be held at the time of the cattle show.

13. The prizes to the successful exhibitors and competitors were distributed by Mrs. R. A. Anderson at the request of the Committee. The Committee take this opportunity of thanking Mrs. Anderson for this kindness.

14. The Committee begs to record its deep sense of gratitude for the kindly interest evinced in the show by Mr. P. R. W. Wetherall, the Deputy Commissioner and Mr. Syed Amir Hassan, Retired Senior Assistant Commissioner, to whose guidance and advice the success of the show was largely due.

15. The Committee desire to draw prominent attention to the order of Government relating to the finances of the shows and their management. It appears undesirable that District Boards should convert these shows into a new source of revenue. The public do not subscribe for the expenses of the show as they feel that in any case the District Board will meet the expenses, and further because they feel that they have no voice in spending their own money. It seems to us that the remedy lies in moving the Government to so amend the rules that the Committee shall have full power of disposing of their funds at their own discretion provided that the repayment of the advances made by the District Board, is a first charge on the income of the Committee.

16. In conclusion the Committee fervently hope that under the blessings of Providence, the next year's show will be still better than this one, and that as years roll on, the cattle show of Hassan, will grow in magnitude importance and usefulness to the raiyats and cattle breeders of this and the surrounding districts of the Mysore State.

APPENDIX V.

HASSAN DISTRICT.

Notice dated 4th October 1912.

1. The public are hereby informed that it is proposed to hold a cattle show in the compound adjoining the District Police Office at Hassan. The show will commence on Friday the 3rd January 1913 and close on the evening of Saturday the 4th January 1913.

2. The cattle show is intended to give to the raiyats an idea of the several species of cattle bred in and beyond the Hassan District, and thus to promote general improvement in the breed of cattle.

3. The several classes of cattle which will be admitted to the show are given in the appendix, and they will be kept separately according to whether they are for exhibition only, or for both exhibition and sale.

4. Arrangements will be made to promote competition and to induce cattle owners to exhibit the best cattle available by awarding prizes. Those who desire to have special facilities for sale of cattle are requested to address the Honorary Secretary, Cattle Show, Hassan, before the opening of the show.

5. As per Government Proceedings No. 7007-24—L. B. 189-09-3, dated 22nd February 1911, minimum rate of fees at a uniform rate of one anna per head of cattle will be levied on all cattle admitted to the cattle show enclosure.

6. Required quantity of fodder will be made available for sale near the show enclosure.

7. Every animal admitted to the show enclosure should be accompanied by a sufficient number of men to keep it under proper control.

8. Only cattle considered suitable will be allowed to compete in the cattle show for prizes.

9. No animal which has been awarded one prize will be allowed to compete for any other prize, except for a special prize.

10. Working cattle may, at the option of the Judges, be subjected to a practical test as to their power of draught, etc.

11. Admittance of cattle into the show enclosure will be closed at noon on the 2nd January 1913.

12. All persons who become exhibitors of cattle will be held to have signified their consent and acceptance to the above conditions and to such other conditions which the Committee may hereafter prescribe.

Agricultural operations.—Weeds are being removed from ragi fields.
State of standing crops—Ragi crops are withering. Want of rain is keenly felt. Cattle are in good condition. Water and fodder are sufficiently available.

BANGALORE CITY AND TALUKS.

8. Market well supplied.
9. *Progress of agricultural operations.*—Weeding operations are being carried on in parts of the Devanhalli, Nelamangala, Kankanhalli, and Anekal Taluks; Karthika paddy was sown in parts of the Hoskote Taluk; and paddy is being transplanted in parts of the Magadi Taluk.

Standing crops.—Standing crops, such as Karthika paddy and sugar cane are reported to be in good condition. But ragi, avare and togari are reported to be in need of rain. It is reported that they are withering in parts of the Dodballapur, Bangalore, Anekal and Devanhalli Taluks.

Harvest and outturn.—Vaisakhi paddy and potatoes in parts of the Hoskote Taluk; Vaisakhi paddy in parts of the Dodballapur Taluk; gingelly in parts of the Channapatna Taluk; potatoes and gingelly in parts of the Anekal Taluk; and gingelly in parts of the Closepet Sub-Taluk, were harvested.

Yield.—Paddy—Hoskote, 8 to 12 annas.
Potatoes— Do 8 to 10 annas.
Gingelly—Channapatna, 8 annas.
Potatoes—Anekal, 8 annas.
Gingelly— Do 4 annas.

10. Rain is urgently wanted for the standing crops in all the taluks. Food stocks are available. Labour is available to the cooly classes.
11. Except for plague in Yamalur and Mangammanapalya villages of the Bangalore Taluk and cholera in Budigere village of the Devanhalli Taluk, public health is generally good.
12. Except for "Neradi roga" broken out among cattle in the Bidrakuppe village of the Anekal Taluk, cattle are healthy. Water and fodder are available at present; but if the rains hold of longer, there will be difficulty.

KOLAR.

8. Market well supplied.
9. *Agricultural operations.*—Sowing operations are being carried on in the Bowringpet and Bagepalli Taluks.

Crops sown.—Paddy and horse gram in the Bowringpet Taluk and natu ragi in the Bagepalli Taluk.

Crops harvested and their probable outturn.—Til in the Kolar and Malur Taluks, yield 6 to 8 annas and 4 annas respectively; natu ragi in the Bagepalli and Goribidnur Taluks, yield 8 annas.

Standing crops.—Ragi, avare, togari and sugar cane crops are withering for want of rain.

10. Prospects of the season are fair, but rain is urgently needed in all parts of the district. Food stuffs are available. Labour is available to the cooly classes.
11. Except for a few cases of plague in the Kolar Gold Fields and for cholera in the Malur and Goribidnur Taluks, public health is generally good.
12. Cattle are healthy. Pasture and fodder are available for the present.

M. SRINIVASA RAO,
For *Sanitary Commissioner with the Government of Mysore.*

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 659, dated 10th February 1913, from the Director of Industries and Commerce, submitting for the approval of Government a set of rules to regulate the grant of Takavi loans for agricultural and industrial purposes.

No. G. 2097-145—G. M. 55-12-239, DATED BANGALORE, 2ND SEPTEMBER 1913.

ORDER THEREON.—In Government Order No. G. 4231-78—G. M. 55-12-115, dated 30th January 1913, directing the constitution of a Department of Industries and Commerce, the subject of stimulating private enterprise and private initiative in industries and commerce was commended to the special attention of the Director, and he was requested to submit for the approval of Government a set of draft rules to regulate the grant of loans for industrial and commercial purposes.

2. The draft rules submitted by Mr. Chatterton in accordance with that direction have been carefully considered by Government and have received their approval with certain modifications. The rules as approved are appended to this order and will be published in the Gazette under a separate notification. Since these rules will apply to all kinds of power plant required for agricultural purposes, the Rules framed under the Land Improvement Loans Regulation, IV of 1890, and Section 194 of the Mysore Land Revenue Code, will be amended so as to render them inapplicable to power plant. The necessary amendments will also be notified in the Gazette.

3. The principal object of these rules is to encourage the use of machinery for agricultural and industrial purposes and to stimulate the growth and expansion of industries dealing with agricultural produce. Loans under these rules will also provide a large measure of help to small industries in general, whether carried on by individuals or on a co-operative basis in the same manner that the existing Takavi Rules stimulate agricultural improvements.

4. In order to carry out these rules, a sum of money will be set apart every year by Government to be granted as loans, and a portion of such amount will be placed at the disposal of the Director of Industries for disbursement within his powers of sanction.

5. Government trust that private enterprise will come forward to make a proper use of the facilities thus afforded and that the action now taken will give an impetus to industrial activities in the State.

C. S. BALASUNDARAM IYER,
Secretary to Government.

To—The Revenue Commissioner in Mysore.
The Director of Industries and Commerce.
The Comptroller, Mysore Government.
Other Heads of Departments and Deputy Commissioners of Districts.
The Superintendent, Government Press, for printing 2,000 copies of the forms mentioned in the Rules and supplying 20 copies to each Taluk Office and the rest to the Director of Industries and Commerce, and to have a sufficient number of copies in stock ready for supply on application.

The Mysore Gazette.

N. VENKATESA IYENGAR,
Chief Observer in charge.

KOLAR DISTRICT.

REPORT ON THE CATTLE SHOW HELD AT NANDI IN CONNECTION WITH THE JATRA THERE IN THE MONTH OF MARCH 1913.

1. *Committee of Management.*—The following members formed the Committee of Management.

1. P. F. Bowring, Esq., Deputy Commissioner and President.
2. G. B. Heblikar, Esq., Sub-Division Officer.
3. Mahomed Syed Sheriff, Esq., Amildar.
4. C. Narayanaswami Chetti, Esq., Pleader and Dharmadarsi.
5. H. Subba Rao, Esq., Pleader and Dharmadarsi.
6. K. Narasimhaiya, Esq., Sahukar and Dharmadarsi.
7. M. Subbaraya Setti, Esq., Merchant and Dharmadarsi.
8. Munibirappa, Esq., Dharmadarsi.
9. Nanjundaiya, Esq., Shanbhog and Dharmadarsi.

2. *Number of cattle exhibited.*—There were 355 pairs and 14 singles exhibited at the show.

3. *Number of cattle selected.*—The number selected for prizes was 25 pairs and 5 singles.

4. *Classification of cattle according to breed, etc.*—Of the selected number, the classification according to breed was as follows:—

No.	Class	Pairs	Singles
1	Amrut Mahal	1	...
2	Hallikar	9	2
3	Nadu	6	3
4	Betta	7	...
5	Guymanoo	2	...
	Total ...	25	5

5. *Number of prizes awarded.*—There were 30 prizes awarded, all of cash of the total value of Rs. 184.

There were three classes of prizes, the 1st prize of Rs. 10, the 2nd of Rs. 8 and the 3rd of Rs. 4.

Of the prizes awarded, 4 were 1st class, 10 were 2nd class and 16 of the 3rd class.

The prizes awarded as per breed were as follow:—

No.	Breed	1st prize No.	2nd prize No.	3rd prize No.
1	Amrut Mahal	1	...	1
2	Hallikar	...	4	6
3	Nadu	1	4	4
4	Betta	2	2	3
5	Guymanoo	...	...	2
	Total ...	4	10	16

The highest amount of prize was won by Nadu breed being Rs. 58, the next in order was Hallikar being Rs. 56 and Betta cattle won Rs. 48. Of the other cattle, Amrut Mahal got Rs. 14 and Guymanoo Rs. 8.

The subjoined statement shows the number of cattle brought from the various places and the amount of prizes won by them :—

No.	Locality	Number		Amount
		Pairs	Singles	
				Rs. a. p.
1	Chikballapur	7	...	52 0 0
2	Devanhalli	4	3	38 0 0
3	Bangalore	6	...	32 0 0
4	Hoskote	3	...	20 0 0
5	Dodballapur	1	1	14 0 0
6	Sidlaghatta	2	...	12 0 0
7	Magadi	...	1	8 0 0
8	Srinivaspur	1	...	4 0 0
9	Bangalore Civil and Military Station ...	1	...	4 0 0
	Total ...	25	5	184 0 0

It is satisfactory to note that Nandi village of Chikballapur Taluk carried two of the four 1st class prizes.

Devanhalli and Dodballapur each got a 1st prize.

6. *Place of cattle show and its suitability as regards water-supply, sanitation, etc.*—There is no place within the precincts of the temple either for the collection of cattle or for the show, as all available space is occupied by shops, etc.

As usual, the cattle were picketted mostly on Kolar-Sompur road and to a small extent on Chikballapur-Nandi road, on Hiduvali lands.

There was abundant supply of water both for cattle and men at these places which were well suited from a sanitary point of view.

This year, a small neat field on the Dodballapur Railway station road was selected for the cattle show and paths were laid out and the field was enclosed by rope fencing.

The leading gentlemen of Chikballapur and Nandi and the members of the Committee were accommodated in a large tent pitched in the middle of the field for the purpose and the prizes and certificates were granted to prize-winners in front of the tent.

7. *Total Receipts.*—

	Rs. a. p.
i Fees on cattle	1,576 13 0
ii Private subscriptions	.....
iii Contribution	200 0 0
Total Receipts ...	1,776 13 0

8. *Total expenses.*—

	Rs. a. p.
i Prizes awarded	184 0 0
ii Making up of cattle show ground	2 13 0
iii Rosetts	3 8 0
iv Charges for the taking of photos of best cattle ...	12 0 0
v Printing charges for notification and certificates ...	5 8 0
Total ...	207 13 0

Out of Rs. 207-13-0 expended, Rs. 200 were met from contribution by the District Board and the balance has to be met from fees on cattle.

9. *Concluding remarks.*—The cattle show was held on the 11th March 1913, in connection with the jatra of Sri Bhoga Nandiswaraswami at Nandi village, which commenced on the 7th and closed on the 15th March 1913.

In all, there were 11,851 bullocks, 10 bulls, 4 cows and 1,499 calves collected for the jatra. From the 9th March 1913, tickets were issued for the cattle that were selected to be brought into the show enclosure.

The Amildar and the Assistant Veterinary Inspector of Kolar with the assistance of Dharmadarsis selected the best cattle among the numbers collected for the jatra and only those that had tickets were allowed into the show enclosure. No fees were charged for the entry as the owners had already paid a fee of 4 annas per pair for the jatra.

Arrangements were made for the convenience of the cattle and the owners within the enclosure.

The Sub-Division Officer, the Amildar, and the Dharmadarsis took up the task of selecting the best among the admitted cattle for the prizes and at the suggestion of the Deputy Commissioner and President, Rosetts of different colours representing the three classes of prizes were pinned to the coats of the winners. This avoided much confusion.

Each winner was given a printed certificate and the prize won (in cash) by the Deputy Commissioner.

Next, the President selected 4 pairs from among the cattle that were awarded first prizes and had them photographed.

The proceedings then terminated with a short speech from the President about the advantages of such shows to the large gathering of the raiyats and other gentlemen that graced the occasion. The Assistant Veterinary Inspector distributed leaflets broadcast to the assembled raiyats *re* the proper breeding of cattle.

10. The average price of cattle sold at the jatra was as follows :—

Bulls	...	...	Rs. 600 each.
Bullocks	...	...	Rs. 300 to Rs. 800 a pair.
Cows	...	...	Rs. 50 each.

In conclusion, I beg to state that the cattle brought for the jatra are not collected in any definite place. The people choose some fields beside the roads mentioned above. Thus, the cattle are scattered over an extent of two miles from one end to the other.

Should some fields which are conveniently situated as regards water-supply and sanitation and in proximity to the temple (of which there are many) are acquired from the temple funds and set apart for this purpose and for the holding of the show every year it will facilitate the checking of the collection of fees on cattle. The income of the temple from manure will also increase and add to the funds of the temple.

The cattle are now collected in the Hiduvali lands and the owners of these lands refuse to pay anything to the temple for the manure they get.

P. F. BOWRING,
President, District Board.

PART III.

GENERAL NOTE.

PART I—Agricultural Statistics.

1. The total area of the State is about 19 million acres, of which for about $1\frac{1}{3}$ million acres no returns are received. Of the balance, an extent of $2\frac{1}{5}$ million acres come under "Forests," and about $6\frac{2}{3}$ million acres are not available for cultivation. An extent of nearly $8\frac{1}{2}$ million acres is therefore available for cultivation, of which about $7\frac{1}{2}$ million acres were under occupation, the extent actually cultivated being however about 6,047,000 acres.

PART IV—Rainfall.

2. There was during the year a general deficit of rainfall in almost all the districts. The decrease in the Bangalore and Kolar Districts was considerable, being 27·29 and 18·68 inches as against 47·61 and 41·64 inches in the previous year. The average for the whole Province is 33·22 inches which is less than the averages for 1910-11 and the previous 41 years by 15·07 and 3·93 inches respectively.

PART I.

3. The net area cropped during the year was 6,047,455 acres which is less than that of 1910-11 by 140,658 acres. The largest decrease occurred in the Tumkur District being nearly 85,000 acres. Next in order come Kolar, Chitaldrug and Hassan Districts.

4. There was a decrease of about 26,200 acres in the area of crops irrigated, (Col. 18, Table A 2) the major portion of which was in the Kolar District. The decrease was mainly due to the fall under "Other cereals and pulses" (Col. 15).

5. The areas under (Table A 3) cholum and sugar cane have increased by 50,124 and 4,000 acres, respectively, while those under rice and ragi have gone down very considerably, *i.e.*, by 64,327 and 77,581 acres respectively.

TABLE C.

6. The incidence of land revenue (excluding cesses) per head of the population increased by one pie, while the incidence on fully assessed area increased by 3 pies.

TABLE D.

7. The number of holdings under ryotwar tenure increased from 1,087,158 to 1,091,465, the increase in the gross area being nearly 35,400 acres. The average area per holding was 6·5 acres with an average assessment of Rs. 8·72 as against 6·49 acres and Rs. 8·73 in the previous year. There was a rise of 278 in the number of estates held wholly or partially revenue free. The average area and assessment of these estates were 18·68 acres and Rs. 5·37 as against 18·72 acres and Rs. 5·56 during the year 1910-11.

TABLE E.

8. There were during the year 668 transfers of lands by orders of Courts involving an extent of 6,598 acres as against 634 comprising 4,180 acres in the previous year. Transfers by private contract or gift numbered 16,758 involving an extent of 97,853 acres against 14,933 involving 92,377 acres in 1910-11.

PART II—Estimated outturn of selected crops.

9. During the year under report the total area under paddy was less than in 1910-11 in all the districts except Mysore and Hassan. The decrease was highly

perciptible in the Tumkur and Chitaldrug Districts being nearly 30,000 and 14,000 acres respectively.

10. There was a decrease of 72,000 acres in the total area under ragi crop the bulk of which was in the Hassan, Kolar and Chitaldrug Districts. The average estimated actual outturn of ragi was 7·4 against 9·5 annas in 1910-11.

11. The area under cholum was greater than in the previous year by 50,000 acres, but the outturn was less by 70,000 kandies.

12. The total area under sugar cane increased by about 4,000 acres. In Bangalore and Tumkur Districts there was a decrease in the actual outturn of jaggory though there was an increase in the area under the crop.

PART III—Prices of some principal articles of food.

13. Prices of important food grains, *viz.*, rice, ragi and cholum were generally higher in all the districts as compared with the previous year.

K. DORASWAMI IYER,
Revenue Commissioner.

EXPLANATORY MEMORANDUM ON THE ANNUAL AGRICULTURAL STATISTICAL RETURNS A TO E AND INSTRUCTIONS FOR COMPILING THEM.

1. The revenue year commences on 1st July and ends on 30th June. The returns are due in this office on or before the 15th August following.

2. *Table A.*—Table A consists of four sections, *viz.*, A-1, A-2, A-3 and A-4, and contains figures for districts (pages 7-15) as well as for taluks (pages 28-102).

3. *Table A-1.*—Column 2 shows the gross area as ascertained by the Survey and Settlement Department, and is subject to correction according as errors are discovered in resurvey of tracts.

(*a*) Column 3 shows the areas of alienated tracts (such as Jahgir, Jodi, Sarvamanyam and Kayamgutta villages) for which the statistics required for the other sections of the table are not at present forthcoming in whole or in part. When such statistics become available, the area in this column will be reduced and that in column 4 will correspondingly be increased.

(*b*) Column 4 gives the remainder which is dealt with in Tables A-2 and A-3.

4. *Table A-2.*—Column 2 "Forest" means any land classified or administered as forest under the Forest Rules, and includes District Forests and State Forests and Plantations separately mapped. Details of these should be invariably noted at foot of the return.

(*a*) Column 3 includes land absolutely unfit for cultivation, land reserved as pasture (gomal lands and kavals of sorts), public topes and Government plantations, and also all lands covered by buildings, roads, water, etc., or otherwise devoted to uses other than agriculture. When, with due sanction, any of these areas are made available for cultivation, they should be transferred from this column to column 5 or 6. The extent of "Pot Kharab" forming part of survey numbers should be included under this column, the same being excluded from columns 4, 5 and 6.

(*b*) Column 4 shows the area of assessed unoccupied land.

(*c*) Columns 5 and 6 show the areas of assessed occupied land not cultivated ("Kabulibanjar") and cultivated respectively as found in the abstract at foot of the Pahani Account (Village Account Form No. 3). Minor Inams in Government villages are included herein. In Mysore there is no system of fallows properly so called. Column 5 will therefore show land in occupation kept uncultivated from whatever cause.

(*d*) The total of these five columns will, of course, equal the figure shown in column 4 of Table A-1.

(*e*) Columns 8 to 12 show only the actual area of irrigated land, areas (if any) cropped more than once being reckoned but once.

(*f*) Columns 14 to 17 should contain the actual area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

5. *Table A-3.*—This is based entirely on the Pahani Account (Village Account Form No. 3), and shows the gross cultivated area under each crop irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in column 42. The area dealt with is that shown in column 6 of Table A-2. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the shanbhog on his own judgment. The areas comprised in this return are the areas actually sown, whether the crop comes to maturity or not. The failure of the crop should affect not its area but its

out-turn. Where fields, owing to the failure of the first sowings, have been devoted to other crops, the area sown by the first sowing should be omitted. The crops to be selected for inclusion in certain heads of this table are as follows :—

Column 9.—*Gram* (pulse) should include horse gram, Bengal gram, green and black grams.

Column 10.—*Other food grains including pulses.*—Same, haraka, navane, avare or ballar, tuvar or togari, tadagani or alasandi, etc.

Column 15.—*Others (oil-seeds).*—Castor, oil-seeds, inferior sesamum (hutchellu), groundnut or nelakadalekayi, honge, ippe, etc.

Column 17.—*Condiments and spices.*—Pepper, cardamom, chillies, cummin seeds, coriander seeds, ginger, mustards, turmeric, onions, garlic, menthya, etc.

Column 22.—*Others (fibres).*—Pundi, sanabu, etc.

Column 27.—*Others (dyes).*—Rangumale, etc.

Column 29.—*Coffee* should be both malnad and maidan. The area covered by both mature and immature plants should be entered.

Column 36.—*Fodder crops.* Kaki jola, etc.

Column 37.—*Orchards and garden produce.*—Mango, apples, figs, plantains, oranges, pomegranates, etc. The area of cocoanut, areca and betel-leaf gardens should also be included.

Column 38.—*Miscellaneous food crops.*—Vegetable gardens, potatoes, etc.

Column 39.—*Miscellaneous non-food crops.*—Mulberry, etc.

6. *Table A-4.*—This table deals with agricultural stock and should include live-stock in Municipalities. Oxen and buffaloes not old enough for work or to produce young should be treated as "young stock" in this return.

Until 1898-99, statistics of live-stock were collected every year by the shanbhog and patel of each village by enquiry and inspection, as a part of the year's jamabandi routine. Government directed, in their Order No. 7601—615, dated 24th April 1899, a quinquennial census to be taken and the repetition of the figures of such census as statistics for the ensuing four years. The figures contained in the statement for the two years 1910-11 and 1911-12 are those obtained at the census of January 1911.

7. *Table B.*—This is a statement showing the average for the year of the prices current of certain articles. It is printed in this collection, as Part III.

8. *Table C.*—This table indicates the relation between area, population and land revenue, or in the other words, the mean burden of the State assessment on the land assessed to it and on the community at large. The tenure to which this table (for the Mysore State) relates is entirely raiyatwari.

(*a*) Column 3 (*a*) represents the area of alienated villages, plus the area of unoccupied assessed waste land in Sirkar villages (4 of Table A-2). The area of minor inams is not, however, included in this column, as a proportionate deduction cannot be made in the corresponding population.

(*b*) Column 3 (*b*) represents the area withdrawn from cultivation and should therefore exhibit the total of the areas shown in columns 2 and 3 of Table A-2.

(*c*) Column 4 (*a*) exhibits the area of occupied lands (Sirkar and minor Inam) in Government villages and should therefore equal the sum total of the figures in column 5 and column 6 of Table A-2 (current fallows and net area cropped during the year).

(*d*) Column 4 (*b*) exhibits the area actually cultivated. The figure under column 6 of Table A-2 will therefore be repeated here.

(*e*) Column 5 should exhibit the total realizable Land Revenue including Miscellaneous Land Revenue of the whole district for the year after excluding arrears for past years. The figure to be entered here will therefore be that which represents the fixed demand under these heads *plus* Miscellaneous Land Revenue and *minus* remissions under defined rules, and *minus* also irrigation cess merged in the assessment

as shown in the list appended to Government Proceedings No. R. 212, dated 30th July 1894.

(*f*) Columns 6 and 11.—The population according to the most recent decennial census will be entered in column 6 subject to such alterations as are necessitated by any change in the constitution of the districts, and the figures in column 11 are subject to such alteration as may be necessitated by alteration in the area of "fully assessed land" by the resumption of alienated villages or other causes.

(*g*) Column 7 is arrived at by column 5 being divided by column 6.

(*h*) Column 8 does not include Miscellaneous Land Revenue and Land Revenue on alienated villages which are included in column 5.

(*i*) Column 9 is arrived at by column 8 being divided by column 4 (*a*).

Column 10 is arrived at by column 8 being divided by column 4 (*b*).

Column 12 is arrived at by column 8 being divided by column 11.

9. *Table D.*—The form prescribed by the Government of India is intended to show the principal varieties of tenure held direct from Government. For Mysore (where the prevailing tenure is raiyatwari and the accounts are kept villagewar), the first four classes and classes VII and VIII will be left blank, all raiyatwari holdings will be included in class V, the heading thereof being altered from "peasant proprietors paying separately" to "small holdings held separate and direct from Government (raiyatwari tenure)" and all inams (Jahgirs, whole Inam and Kayamgutta villages and minor inams in Sirkar villages) will be entered in class VI, Lease-holders of gold mines will be shown under class IX "others."

(*a*) Number of estates.—This represents practically the number of separate pattas issued or khates recorded in the Land Revenue Register. Two or more estates belonging to the same proprietor, if they are separately recorded in the Revenue Ledgers and form the subjects of separate pattas, will be separately reckoned for this return.

(*b*) Number of villages.—This shows the total number of villages (primary, of course) populated and unpopulated, *i.e.*, the areas constituted as villages by the Survey and Settlement Department.

(*c*) Number of holders.—One proprietor may be reckoned twice or oftener as the owner of two or more estates separately recorded according to the number of pattas held by him.

(*d*) Item 5½, gross assessment.—Between items 5 and 6 of the Government of India form, an item numbered 5½ should be opened to show "gross assessment." This, in the case of raiyatwari lands, will be the survey assessment and water-tax, and in the case of alienated lands, it will be combined quit-rent and water-rate (if any) payable to Government: in both cases without deducting remissions and other deductions, if any.

10. *Table E.*—This table is intended to show the number of voluntary and compulsory transfers of ownerships of lands and the area so transferred. By "voluntary transfers" are meant transfers made by actual contract or gift. Transfers by inheritence are not to be taken into account, nor non-permanent transfers such as leases, mortgages, etc. Only permanent transfers (for instance by sale or gift) should be included when the parties concerned apply for and obtain transfer of "Revenue Registry." These voluntary transfers will be entered in columns 4 and 5 and columns 8 and 9 (private contract or gift). On the other hand, under heading "By order of Court," columns 2 and 3 and columns 6 and 7 are included—

(1) Changes of registry under decrees of Civil and Revenue Courts whether the decrees were passed on disputes regarding title or by reason of debts incurred by the judgment-debtors, and

(2) (*a*) All cases in which lands are sold for arrears of revenue due to Government and purchased by private parties,

(*b*) Cases in which lands are sold for arrears of revenue due to Government are bought by Government will be excluded from this table.

The particulars contained in columns 2 to 21 should be entered for each district opposite to details under column 1 "Class of tenure," *viz.*, (*a*) Revenue-paying and (*b*) wholly or partially revenue-free.

The information contained in Table E will be entirely based upon that *furnished for each village* in Village Account Form No. 6 (Statement of Increase and Decrease) and its enclosure.

EXPLANATORY MEMORANDUM ON THE STATISTICS RELATING TO AREA AND YIELD OF PRINCIPAL CROPS.

The estimates of outturn of crops compiled in the following pages are based upon the Village Account Form No. 3 (Khanapuri Patrak).

2. In this account, the area, assessment and other particulars of each field are entered from the permanent Village records for each survey number, the estimated area under each crop is entered [illegible] very year. The inspection is so made [illegible] the time of sowing and cutting and crop time. An abstract is submitted [illegible] the aggregate [illegible] area under each of the thirty to forty [illegible] recorded in the village.

3. In 1905 the [illegible] were [illegible] the area [illegible] the [illegible] Bombay [illegible] [illegible] made [illegible] [illegible] [illegible]

EXPLANATORY MEMORANDUM ON THE STATISTICS RELATING TO AREA AND YIELD OF PRINCIPAL CROPS.

The estimates of out-turn of crops comprised in the following pages are based upon the Village Account Form No. 3 (Pahani Takhta).

2. In this account, the area, assessment and other particulars of each field are entered from the permanent village accounts; and for each survey number, the estimated area under each crop is entered by actual field inspection every year. The inspection is to be made twice in the year to correspond with cultivation and crop time. An abstract is subjoined to the account showing the aggregate estimated area under each of the fifteen principal crops enumerated in the prescribed form.

3. In 1897, the opportunity was taken to utilize this account for estimating the year's yield of the harvest under each of five selected crops, *viz.*, paddy, ragi, horse gram, cholum and sugar cane. It was ordered that this estimate should be made by tabulating the area under each crop in the village, in a form which was prescribed as an enclosure to the "Pahani Takhta, Village Account Form No. 3." It was directed that as a rule, that is to say, except when the Deputy Commissioner would otherwise direct under Section 10 of the Mysore Famine Code, the return should correspond with the two pahani inspections, *viz.*, once before the jamabandi about the second fortnight of October, while the crops are standing, and a second time after the cultivation season is over at the end of January following. Under these orders, the return is, in the first instance, prepared for each village by its shanbhog and submitted to the taluk office, where, after being examined, it is compiled for the entire taluk and transmitted to the Deputy Commissioner who, in his turn, submits to this office an abstract statement, talukwar, for his district before the end of April every year.

4. The out-turn is estimated for each village taken separately by the shanbhog and patel who from their intimate knowledge of the locality, may be relied upon to judge in this matter as well as possible for the purposes of a rough approximate estimate.

5. The out-turn is stated in annas, *viz.*, '20 annas,' '16 annas,' '8 annas' and '4 annas' and less which would respectively represent 'bumper,' 'average,' middling,' and 'bad harvests.'

6. The aggregate estimated area under each crop as per pahani abstract is distributed under these four classes, and arithmetically reduced to the equivalent area under a normal, that is to say, a fair average or 16 anna crop. The standard actual yield of a normal crop per acre (16 annas) in a fairly good season is fixed for the taluk as a whole, after careful local inquiry once for all, and not afterwards altered without the previous sanction of Government. The estimated out-turn for the entire taluk is calculated on this basis, and the results for the years 1910-11 and 1911-12 are exhibited in the following pages :—

(For full details of the methods, see the following standing orders on the subject :—

(1) Government Proceedings No. 6150—R. 2096, dated 9th January 1897.

(9) Government Proceedings No. 7866—R. F. 130-93, dated 10th March 1897.

READ—

The summary of discussion on Subject No. 417 of the Proceedings of the Representative Assembly of 1912, regarding the removal of the toll-gate at Yelwal and the reply of Government that the toll-gate cannot be removed but that persons living in the neighbourhood, who have to pass through it frequently, will be allowed to compound.

No. R. 3-11—L. R. 612-12-2, DATED CAMP MYSORE, 9TH OCTOBER 1913.

ORDER THEREON.—The levy on tolls on provincial roads and bridges is governed by the rules sanctioned by the Government of India and published under the Chief Commissioner's Notification No. 274, dated the 4th November 1876. But there is no provision in these rules similar to Rule 64 of the Rules under the Local Boards Regulation, authorising the Deputy Commissioner to compound with any person for payment of tolls.

2. As it is considered necessary both in the interests of Government and the public to provide for composition of tolls payable in respect of provincial roads and bridges, the Government of His Highness the Maharaja are, in exercise of the powers vested in them by Rule 11 of the Chief Commissioner's Notification cited above, pleased to issue the following subsidiary rule to be read in continuation of the rules contained in the said notification.

"The Deputy Commissioner may compound with any person for a sum to be paid annually or half-yearly in lieu of all such tolls as may, from time to time, be prescribed, to be levied either generally in respect of all provincial roads and bridges or specially in respect of any particular road or bridge, and may issue licenses to any such person in respect of his carriages, carts, or animals, provided always that such composition shall include all the carriages, carts and animals possessed by the person compounding."

3. The order will be published in the Gazette.

K. R. SRINIVASIENGAR,
Secretary to Government,
General and Revenue Departments.

To—The Deputy Commissioner, Mysore District, with a request that he will communicate this order to the members who mooted the subject and take such action as he may consider necessary in the matter of compounding the payment of tolls in respect of the Yelwal toll-gate.

The Deputy Commissioners of other Districts.

The Compiler, *Mysore Gazette*, for publication.

ADDRESS

OF THE

DEWAN OF MYSORE

TO THE

DASARA REPRESENTATIVE ASSEMBLY

11th OCTOBER 1913.

Preliminary.

GENTLEMEN,

Introduction.

I esteem it a privilege, by command of His Highness the Maharaja, to welcome you to the thirtieth session of the Dasara Representative Assembly and to place before you, in accordance with precedent, an account of the more important events of the administration of the past official year, as well as a forecast of the measures contemplated in the current and coming years.

2. As the work of the administration is growing, the subjects to be dealt with in the annual Dasara Address are increasing every year both in number and variety. I have therefore arranged to divide this year's address into two parts. Reference will be made in this, the first part of the Address, to only the salient features of the events and measures to be brought to your notice. The details of departmental work and all other matters which, whatever their intrinsic importance, do not bulk large at the present juncture, will be dealt with in Part II.

Seasonal Prospects.

3. The south-west monsoon this year was weak and there was no rain worth mentioning in the months of July and August. Considerable apprehension was felt during the time the drought lasted and prices had begun to go up. But a welcome change occurred in September and the ragi crop which was in peril has been partly saved. The rainfall in the last and the current months has been favourable, and although this year may not be considered a prosperous one, there is so far no cause for apprehending distress.

2.—Principal Events of the Year's Administration.

Finance.

4. Proceeding to the principal events of the past year's administration, I will take up the subject of finances first. It may be discussed under two heads, *viz.*, the revised estimates for 1912-13 and the budget for 1913-14. These estimates, together with the statement explaining the salient features of the financial position, were published in the *Mysore Gazette*, Extraordinary, dated the 6th August last and have been before you for two months past. An abstract of the budget estimates for 1913-14 and a statement of Assets and Liabilities as they stood on 1st July 1913, are also appended to this Address.

Revised Estimates for 1912-13.

5. The estimate for 1912-13 was a cautious one as the early rains had failed and sowings had been postponed in consequence in several parts of the State. The favourable change in the seasonal conditions that followed improved the prospects and the result is reflected in the revised estimate for the year. The revenue for 1912-13 stands, according to the revised estimate, at Rs. 272·92 lakhs and the expenditure at Rs. 248·68 lakhs. You will therefore see that instead of there being a considerable excess of expenditure over receipts as anticipated at budget time in 1912, there is a substantial surplus of 24·24 lakhs.

Analysed into ordinary and extraordinary, the figures for revenue and expenditure stand thus :—

	Lakhs		Lakhs
Gross Revenue—1912-13	*272·92*	Gross Expenditure—1912-13 ...	*248·68*
Deduct extraordinary revenue—		Deduct extraordinary expenditure—	
(1) Mining	19·20	(1) Cauvery Reservoir	17·50
(2) Cauvery Power Scheme	14·25	(2) Cauvery Power Scheme ...	·60
(3) Water-Supply to the mines ...	2·29	(3) Railway construction	·80
		(4) Tramways ...	·10
	35·74		19·00
Net ordinary revenue ...	237·18	Net ordinary expenditure	229·68
		Surplus on the ordinary Account	7·50
Total ...	**237·18**	Total ...	**237·18**

There are certain revenues of the State which cannot be reckoned as permanent and these have been shown in the above table as amounting to 35·74 lakhs. Also certain items of expenditure have to be considered

as extraordinary, because they are incurred on capital account works and may therefore be treated as an addition to the State assets. The net ordinary revenue and the ordinary expenditure show that there was a surplus of 7·50 lakhs on the ordinary account.

It must however be mentioned that these satisfactory results are due to the exceptionally favourable feature of the year's transactions in connection with sandalwood sales, railway earnings, land revenue collections and excise contracts.

The last financial year may be said to be a very prosperous one. The transactions have, on the whole, resulted in a net addition of 16·74 lakhs to the reserves which, including this addition, stood at 192·11 lakhs on the 1st July 1913.

Budget Estimates for 1913-14.

6. The budget estimates for 1913-14 framed on the expectation of a normal year, provide for a gross revenue of 257·17 lakhs and a gross expenditure of 313·55 lakhs. Analysed into ordinary and extraordinary, the figures stand thus:—

	Lakhs		Lakhs
Gross budgetted revenue	*257·17*	Gross budgetted expenditure ...	*313·55*
Deduct—		Deduct extraordinary capital expenditure—	
(1) Mining Revenue ...	19·00	(1) Cauvery Reservoir.	30·40
(2) Cauvery Power Scheme ...	14·25	(2) Cauvery Power Scheme Fourth Installation ...	13·05
(3) Water-supply to the mines ...	2·29	(3) Railway construction	15·00
		(4) Tramways ...	6·65
	35·54		65.10
Net ordinary revenue ...	221·63	Net ordinary expenditure	248·45
Deficit on the ordinary Account ...	26·82		
Total	**248·45**	Total ...	**248·45**

The ordinary estimated revenue and expenditure of the year are 221·63 lakhs and 248·45 lakhs, showing a deficit of 26·82 lakhs. This expenditure is due to special non-recurring grants to certain important departments like Public Works, Education, Agriculture and Industries. Most of these grants will, from their very nature, not be repeated. So the deficit need occasion no anxiety. The special adventitious revenue amounted to 35·54 lakhs and the special capital expenditure to 65·10 lakhs showing an excess expenditure of 29·56 lakhs. The total excess of these two accounts comes to 56·38 lakhs which will be met from the reserve in hand of 192·11 lakhs already mentioned. Government have adequate funds either in cash or in the shape of temporary

investments, for meeting this extraordinary expenditure and it will not be necessary to draw upon permanent investments for the purpose.

7. As will be explained in the sequel, certain departments which either produce revenue or which urgently needed development, like the Forest, Police, the Taluk Establishments and Account, have been reorganized recently with a view to improve their earning power or efficiency, as the case may be. A careful financial forecast of the State for the three years commencing from 1913-14 was prepared and the situation during the triennium, as it would be, on the basis of expenditure as it stood in the year 1912-13, was fully discussed and provision was made for additions to the recurring expenditure to the extent of 5 lakhs during the triennium beginning with 1913-14. A non-recurring expenditure to the extent of 18 lakhs for the same period of three years was also approved by Government. This expenditure includes a recurring annual grant of Rs. 4·10 lakhs and a non-recurring grant for three years of Rs. 7·50 lakhs on education.

8. In last year's Address, you were informed that the Government of India had been pleased to deal in a liberal and generous spirit with the question of the surplus revenues of the Civil and Military Station, Bangalore. The matter is still under the consideration of the Government of India with regard to the exact amount to be refunded to the State and the mode of calculating the surplus to be paid in future, and their final reply is awaited.

The Account Department.

9. With regard to the Account Department, it is only necessary to refer here to one or two important measures sanctioned by Government. In accordance with the views repeatedly urged in this Assembly, greater facilities have been afforded to the general public for the investment of their savings by doing away with the annual limit of Rs. 2,000 and the aggregate limit of Rs. 5,000 for deposits in the Savings Banks, with effect from October last, and providing for the receipt of deposits without any limitation as to amount.

With a view to increase the efficiency of the Comptroller's Office and to provide for the increase of work caused by the creation of new departments and the development of existing ones, Government have recently strengthened the gazetted and ministerial staff of the department. A special feature of the reorganization scheme

is the creation of the office of a Deputy Comptroller who will have direct charge of the Railway and Public Works Accounts under the supervision of the Comptroller. This measure has become absolutely necessary for a stricter control of the contemplated large expenditure of about 65 lakhs on Public Works and Railways in the current year and a similar large expenditure likely to be incurred in the coming years.

The Mysore Civil Service.

10. The rules for regulating the recruitment of officers to the Mysore Civil Service were revised in January last, which also provided for the holding of a competitive examination for the selection of officers. The first examination under these revised rules will be held next month, and 19 candidates have been approved for admission.

Land Revenue Department.

Seasonal Conditions in 1912-13.

11. The past year did not commence under very good auspices as the rainfall in April, May and June had been somewhat deficient particularly in the Bangalore, Kolar, Tumkur and Mysore Districts. But heavy rains fell over the province in July and all tanks received a good supply. Both the south-west and north-east monsoons were favourable. The average total rainfall was 46·08 inches and exceeded that of the previous year by 12·76 inches, and that of the last 42 years by 8·97 inches. The rains were abundant and well distributed.

Ragi was more extensively cultivated and its outturn was better than in the previous year. Sugar-cane and cholum yielded a good crop. The outturn of paddy was also satisfactory except in the districts of Bangalore and Tumkur where the crop suffered to some extent by disease. A marked preference to grow cotton in place of food crops was noticed in some parts of the Chitaldrug District where the area under cotton increased by 52,387 acres during the year. In spite of the favourable rainfall and better outturn of crops, there was no improvement in the prices of food grains, which continued to rule high.

Taluk Offices.

12. For various reasons such as increase of work in many directions, the necessity for greater efficiency in taluk administration, and a steady rise in the price of food grains, the scale of salaries fixed for the Taluk Office establishment so far back as the year 1897 was considered unsuitable to the conditions of the present day. The scale has accordingly been revised and provision has been made for a general increase of pay at an additional recurring expenditure of about Rs. 44,000 per annum. It is hoped that this will result in attracting to the Taluk Offices a

better class of recruits and increasing the efficiency of the taluk administration generally.

Steps are being taken to publish a Taluk Manual for regulating the work of the Taluk Offices and defining the duties and responsibilities of taluk officials, their relations to the public and rules for their personal conduct.

Excise Department.

13. The gross receipts during the year amounted to Rs. 50,94,310 against Rs. 45,45,518 in the previous year, showing an increase of Rs. 5,48,792, nearly half of the increase being due to the increased shop rental derived during the auction sales and the remainder to increased consumption during the year. The gross revenue for the year under report is the highest on record since the beginning of excise administration, and the increase in revenue is accompanied by a corresponding increase in consumption under all heads. Taking all aspects of the question into consideration, the increase is not altogether a matter for congratulation, although it doubtless means that illicit use was kept down at a minimum and the Department was efficiently administered during the year.

Forest Department.

14. Steady progress was made in the work of the Forest Department as will be explained in detail in Part II of the Address. The total revenue realised under all heads was about Rs. 33,02,920, which is a record figure. This large increase was mainly due to the unusually high rates secured for sandalwood, the total realizations from which amounted to Rs. 22,92,419.

The executive establishment of the department was reorganized at an additional cost of Rs. 65,514 and it is hoped that this will result in enhanced efficiency of the service.

The department is managed efficiently enough at present, but it is necessary that it should, in future years, devote special attention to the investigation of the commercial value of all the forest products, and it may also be necessary to employ expert establishment in order to increase the revenue from this source to the fullest extent that the local conditions admit of and may be permissible under scientific management. It cannot be considered satisfactory that fuel for local consumption and sleepers for railways should be imported from outside while a redundance of such material is rotting in our forests for lack of enterprise and adequate efforts among the local population. A scientific examination is likely to bring to light the existence of much material of great commercial value, which might, if properly worked and developed, pro-

vide new occupations to the people and bring additional revenue to Government.

Judicial Department.

15. The orders of Government in regard to the improvement of the position and prospects of the members of the Judicial service referred to in Mr. Ananda Row's Address of last year were brought into effect in November 1912.

The Additional Munsiff's Court established at Chikballapur in February 1911, was made permanent, but to promote public convenience it was removed to Dodballapur at the close of the year, with jurisdiction over the taluks of Dodballapur, Nelamangala and Goribidnur. The territorial jurisdiction of the Principal and Additional Munsiffs' Courts (now styled the First and Second Munsiffs' Courts) at Bangalore and of the Chikballapur Munsiff's Court was in consequence readjusted so as to secure a more equitable distribution of work among the said courts.

The Bench of Honorary Magistrates inaugurated in the year 1909 in each of the Cities of Bangalore and Mysore as an experimental measure, having been found to be successful, was made permanent. A temporary additional Sessions Court was established in Mysore in March 1913 to try the case of rioting which occurred in Kannegal in the Chamrajanagar Taluk. More activity was shown by the department during the year in the inspection of subordinate courts in the State than in previous years.

Police Department.

16. There has been a perceptible improvement in the investigation and detection of crime in the Police Department. The question of the reorganization of the Police Department, which was brought forward by the Dasara Representative Assembly on several occasions, has received due consideration, and you will be glad to learn that His Highness has been pleased to sanction a scheme for a revision of the several branches of this important department. The revised scheme involves an additional annual expenditure of Rs. 75,000 and its chief feature is the provision of better pay for the constabulary. The constables serving in the Cities of Bangalore and Mysore will hereafter draw Rs. 11, 10, 9 and 8 in lieu of their present pay of Rs. 9, 8 and 7. The scheme also provides for an increase of Re. 1 per head to the constables of the District and Railway Police, the strengthening of the Inspectorate and the Investigation Centre Staff, and a suitable improvement of the organization and equipment of the headquarter Training School to meet modern requirements.

The prospects of the force having been improved, it is hoped there will be no difficulty in securing capable recruits in future. The adoption of a scheme for the further improvement of the discipline and morale of the force and for more systematic and efficient inspections throughout the State is also under contemplation.

Military Department.

17. The standard of discipline and efficiency of the Military Forces of the State continued to be maintained as usual and the administration of the department was satisfactory. It is under contemplation to reorganize the Infantry Barr Forces so as to improve the pay and prospects of the officers and men with a view to secure greater efficiency.

18. The scheme for reorganizing the Transport Pony Corps into a Bullock train under the registration system did not prove satisfactory, many cases having come to notice in which the owners had sold or replaced registered bullocks without permission. It has therefore since been decided to dispense with the registration of cattle and remount the corps wholly with Amrut Mahal bullocks which are now available. It is proposed to utilise the services of the corps in ordinary times in procuring fodder for itself and the mounted corps and other departments of the State, and thus save some transit and cutting charges.

Medical and Sanitary Departments.

19. The Medical Department has continued to do good work during the year.

The construction of the new building for the Ophthalmic Hospital named after His Excellency Lord Minto was completed during the year at a cost of nearly 2¾ lakhs of rupees and was formally opened for the use of the public by His Highness the Maharaja in January last. Being equipped with the most modern appliances and provided with an expert staff having, at its head, a Superintendent and an Assistant both trained in England, the institution will no doubt prove a great boon to the suffering population.

Proposals for providing suitable buildings for the Public Health Institute, which is to include the Vaccine Institute, are under the consideration of Government.

The subject of depopulation in the malnad also received considerable attention during the year. Recently a special officer was deputed to investigate the question, and a sum of one lakh of rupees has been provided in the current year's budget to give effect to such of the suggestions as appear to the Government to be of immediate

practical value in ameliorating the condition of the malnad population.

A few complaints having been received in regard to the purity of the lymph used for vaccination, a Committee has been appointed consisting of the Sanitary Commissioner and two other high Medical Officers to conduct an inquiry into the question in detail.

The Economic Conference

20. The work of the Economic Conference has been further developed and the action taken on the recommendations of the Conference has been described under the different departments concerned. The constitution and working of the Conference has now been consolidated and placed on a satisfactory basis. A full-time officer has been appointed as Secretary to the Conference and also Secretary to Government, in order to co-ordinate the work of the Committees of the Conference and the departments of Government concerned. Several uncertainties in the matter of the constitution and work of the Conference which hitherto existed have now been removed and the Conference has started on a new career of useful work. Every effort will be made to enlist the support and co-operation of all classes, official and non-official, to promote the objects which the Conference has in view.

21. I may proceed to enumerate the more important measures in which practical action has been taken. The scheme for the establishment of a State-aided Bank in regard to which the Conference took the initiative in 1911, has now taken practical shape and the Bank has opened business from the 2nd of this month. The imposition of the income tax with a view to strengthen the financial position of the State and also to make the burden of taxation more equitable by bringing under contribution those among the richer classes who at present contribute much less than their due share to the State revenue, is engaging the attention of Government. Substantial progress has been made in the extension of primary education, and a bill for introducing compulsory education was passed last month in the Legislative Council. Investigations are in active progress for the development of sericulture, the manufacture of jaggery by improved methods and the erection of pumping machinery for irrigation. The establishment of a weaving factory with all the latest improvements, of a tile factory at Mysore, of pharmaceutical works, of oil-mills to deal with oil-seeds and particularly with cotton seed, of an industrial depôt in Bangalore, are other matters which have engaged or are engaging the

attention of the Conference. Apart from this record of work, the Conference is making the people think, investigate, organise and initiate measures of progress in a variety of matters.

22. The resolutions carried at the Fourth Session of the Conference in June last have already been published, as also the reports of the work done by the three Central Committees. I may take the opportunity here to observe that the responsibility of the members of the Central Committees and, in some measure, of those of the District Committees, is very great. Government expect that when any gentleman consents to serve on these Committees he agrees *ipso facto* to take an active interest in, and will contribute to, the constructive work of the Committees during the time he remains a member.

Education.

23. The year was one of more than usual activity in educational matters. Dealing first with the ordinary progress of education, the number of public and private institutions increased by 90 and the attendance by 7,226. The percentage of boys at school to the male population of school-age rose from 30·1 to 31·3 and that of girls at school to the female population of school-age from 6·2 to 6·8. The number of pupils under instruction in comparison with the population of the State gives a percentage of 2·9. A great deal more remains to be done to spread primary education in the State. A special grant of two lakhs and a half—one lakh for opening new Primary Schools and improving the existing ones, and a lakh and a half for the construction of Village School buildings—was sanctioned during the year, and a similar special grant of 2½ lakhs has been sanctioned in connection with the current year's budget. The Government have no doubt that the Department of Education is fully alive to the responsibility resting upon it for giving practical effect to the various important schemes that are being sanctioned from time to time.

24. With regard to higher education, further arrangements were in progress to complete the equipment and the staff required for the two First Grade Colleges to adapt them to the new University Regulations. The Central College was affiliated in Branch II (B), Chemistry, of the B. A. Pass Course. The Chemical Laboratory building is now very nearly complete and provides ample accommodation for the classes concerned.

Government have under consideration the question of opening Honors Courses for both the First Grade Colleges in certain branches in the near future.

25. A comprehensive scheme of elementary and advanced Technical and Commercial education has been approved by Government and it consists in the main of the establishment of the Chamarajendra Technical Institute at Mysore, and a Commercial and a Mechanical Engineering School at Bangalore. The present Engineering School and the Industrial School at Mysore will be combined to form the nucleus of the new Chamarajendra Technical Institute, which will be located in the spacious building specially constructed for it. The institute will consist of 5 sections, *viz.*, the Engineering Section, the Industries and Crafts Section, the Fine Arts Section, the Commercial School Section and the Workshop. **Technical and Industrial Education.**

The Commercial School at Bangalore provides for an elementary course in Commercial subjects in English and Kannada for one year and a secondary course in English for two years. Arrangements will also be made for the delivery of lectures of an advanced character by specialists on Commercial subjects, Economic science, Statistics, Public Administration, Banking and other allied subjects.

The Mechanical Engineering School will undertake to teach the management and care of steam and oil-engines, erection of machinery, working of mills, electric work, driving motor cars and other subjects. A new building is under construction for this school, but for the present it is located in the Sheshadri Memorial Hall. The school has been placed under the supervision of an Assistant Engineer of the Public Works Department who has had special training in electrical engineering at the Faraday House, England.

Responsible Committees have been appointed to administer the internal affairs of the above-named institutions and subsidiary rules have been framed for their efficient working. Facilities will be provided in these institutions for the training of men already engaged in professional or other work. The main object of Government in starting these institutions is to create an incentive to manual work in the younger generation and to enable them in after life to earn their livelihood by some independent profession.

26. The opening of a printing class in connection with the Commercial School is under consideration. The instruction imparted will be free and of an elementary character for the present. Government will be prepared to enlarge the scope of its usefulness and provide for

higher instruction in the several branches of the art of typography, if the facilities now provided are appreciated and freely taken advantage of by the public.

Religious and Moral Instruction.

27. Lessons according to the prescribed curriculum are being regularly given under the scheme of religious and moral instruction introduced in November 1908. After nearly five years' experience it is still difficult to say what real advancement has been made and whether any of the desired results have been achieved. In Colleges and High Schools where the teaching of the subject is in the hands of capable teachers the lessons are instructive, but in other schools, want of trained teachers to handle the subjects and the paucity of suitable text-books have made the teaching to lack in interest and to become more or less stereotyped. The question has to be further discussed as to whether in the long run it is not wiser to leave this branch of education to the parents and communities concerned.

28. In view of the growing educational activities of the State and the need that is felt to ensure that the increased grants given are utilized to the best advantage, the appointment of a Deputy Inspector-General of Education has been sanctioned. This officer will be entrusted with the direct charge of Vernacular education, both Elementary and Secondary, in the State.

Industries and Commerce.

29. The Department of Industries and Commerce was established in January last and it now deals with the work carried on till then by the Special Adviser for Industries and Commerce. The special function of the department will be to devise and elaborate schemes for immediate practical action, to conduct investigations likely to lead to such action and to collect statistics and serve as a bureau for industrial information. The work of the department during the year may be conveniently described under three main heads, *viz.*, experimental industries carried on at the expense of Government, industrial work for private individuals carried on at their own cost, and general industrial inquiries, including the preparation of statistical information regarding the trade and commerce of the State. The work done by the department during the year is detailed in Part II.

30. With a view to afford facilities to persons engaged in industries to obtain capital for the purchase of machinery and of raw material, Government have recently sanctioned rules for the grant of *takavi* loans similar to those in force for loans given for agricultural improvements.

31. Government have recently engaged the services of an expert on sericulture from Italy for developing this important industry in the State. It is computed that in some of the past years, the State exported silk valued at over a crore of rupees.

Agriculture.

32. The progress of work in the Agricultural department is given in Part II.

The Agricultural School.

An Agricultural School has recently been opened in Bangalore and at present fourteen students are attending it. As soon as possible, short courses in the vernacular for agriculturists will be introduced and in this way it is hoped to reach large numbers of the ryot population. The course in the school is arranged to be as practical as possible. The major portion of the students' time will be occupied in practical farm work, only the principles of elementary sciences being taught to enable the students to understand agricultural processes. Practical training will also be given in the construction and repair of implements and machines, elementary carpentry, blacksmithing and the working of oil engines.

Co-operative Societies.

33. The past year witnessed satisfactory progress in the Co-operative movement in the State. The number of societies rose from 208 to 343, one society having been wound up and 136 societies registered during the year. The membership of these institutions increased from 13,148 to 24,536, the working capital from Rs. 6,75,312 to Rs. 12,89,338, and the Reserve Fund from Rs. 18,833 to Rs. 30,600. This expansion has been general throughout the State except in the Kadur and Chitaldrug Districts where the conditions necessary for the spread of the movement are not sufficiently favourable and progress has been rather slow.

Public Works Department.

34. The total expenditure on public works from all sources including Local Funds amounted to about Rs. 51 lakhs during the year against 44½ lakhs in the preceding year, and the average of 45½ lakhs during the past ten years. Of this amount Rs. 23½ lakhs were spent on irrigation works, and 27½ lakhs on Civil Works and Military buildings.

35. *Irrigation works.*—The most important work in hand during the year was the construction of the first stage of a dam across the river Cauvery at Kannambadi which was started in November 1911. Excluding the Electrical Power Scheme, the work is estimated to cost about Rs. 91 lakhs. The operations of the year were chiefly confined to the excavation of foundation in the river bed,

which gave no inconsiderable trouble owing to the presence of water and springs and the existence of a deep mica vein close to the south bank. Nevertheless, almost the whole of the excavation for the dam in the river bed portion was completed and the foundations laid. The question of payment of compensation for lands coming under submersion and the re-settlement of the displaced population on fresh lands engaged the anxious attention of both the Revenue and the Public Works authorities during the year, and a scheme of land compensation in lieu of money compensation has been devised after a careful study of the whole question. An expenditure of Rs. 16½ lakhs was incurred during the year which brought the total outlay on the work to Rs. 23½ lakhs up to end of June 1913.

In regard to the second stage of the Reservoir project contemplated by the Durbar, the Government of India have recently appointed a Court of Arbitration presided over by Sir Harry Griffin, Judge of the High Court of Allahabad, assisted by the Hon'ble Mr. Nethersole, Inspector-General of Irrigation in India, as Assessor. The Proceedings of the Court commenced on the 18th July last. After framing the issues, the Court adjourned its sittings to the latter part of this month.

36. *Irrigation improvements.*—Rules under the Tank Panchayat Regulation have been framed and will shortly be introduced into three or four representative villages in each district with a view to observe their operation in practice. Proposals for the re-organization of the establishment under the Minor Tank Restoration Scheme are under consideration.

Steps have been taken for controlling the distribution of water below selected tanks in the districts. Proposals in this behalf for the Sowlanga and Sulekere tanks in the Shimoga District have been matured and those for the rest are in different stages of development.

The question of the constitution of an Irrigation Division is before Government. It is proposed to entrust to this division the work of the development of sugarcane cultivation under the channels fed by the Cauvery Reservoir, the scientific distribution and control of irrigation below selected tanks, the collection of hydraulic data as regards rainfall, run-off and flood discharges and the completion of tank maps and registers.

37. Chief among the miscellaneous public improvements may be mentioned the erection of a Jewell Filter

and a subsidiary pumping plant for improving the water-supply of the Mysore City. The power and plant house is approaching completion and the machinery of the Jewell Filter is being fitted up.

Electrical

38. The fourth installation of the Cauvery Power Scheme was started and orders for a major portion of material and plant required for the scheme were placed with foreign firms. Final location of the tramway line for the City of Bangalore and the construction of a car-barn and generating station are approaching completion.

Railways.

39. In consequence of the growth of work in the Railway Department, a separate Railway Secretariat was constituted with the Engineer-in-Chief, State Railway Construction Department, as *ex-officio* Secretary, and his Personal Assistant as Under-Secretary.

The gross receipts on all the open lines of the State amounted to Rs. 36,93,226 which is an increase of Rs. 4,40,477 over those of the previous year. The expenses on all the State lines during the year amounted to Rs. 21,05,637 as against Rs. 19,15,764 during 1911-12.

The total net earnings aggregated Rs. 15,87,589 or 6·24 per cent on the entire capital of Rs. 2,54,22,488. The interest on the English loan of Rs. 1,63,82,801 amounted to Rs. 7,17,377 during the year. Deducting this from the net earnings, the sum credited to the State was Rs. 8,70,212.

Although the railway receipts have improved to a certain extent within the past few years, the net result of the railway transactions has, on the whole, been one of considerable loss to the State. Taking only the interest charges paid by the State into consideration, the total loss from the open lines up to date is estimated at about 55 lakhs.

40. The Railway Construction Department was engaged during the year under review in revising old projects and preparing new ones. Sanction of the Railway Board has been applied for, for the construction of the following lines:—

(1) A line from Mysore to Arsikere *via* Yedatore, Hole-Narsipur and Hassan. The alternative chord line from Mysore to Konehalli has been given up. The final location survey is being proceeded with and construction work will be started immediately sanction is received.

(2) A line between Bangalore and Hosur. A re-survey of the line is being made.

(3) A Forest Tramway from Tarikere to Yedahalli for which preliminary investigations were carried out during the year. A communication has just been received conveying sanction to this project.

An estimate was prepared for the Chikjajur-Chitaldrug line on the metre gauge during the year and submitted to the Government of India for sanction. Estimates have also been prepared for a line of railway from Kolar to Chikballapur *via* Srinivaspur, Chintamani and Sidlaghatta connecting the Bangalore-Chikballapur and Bowringpet-Kolar Railways now under construction. The question of financing these lines is under the consideration of Government. The estimates prepared for a line between Hassan and Mangalore by Messrs. Gilchrist and Groves were examined with a view to revise and bring them up to date.

The Bowringpet-Kolar Railway is approaching completion and is expected to be open to traffic next month.

At the request of the Bangalore-Chikballapur Light Railway Company, the construction of that line has been undertaken by Government on behalf of the Company and the work is making satisfactory progress.

Geological and Mining.

41. The publication of a Geological map of the State to embody on a uniform and comprehensive plan the essential features of the survey work so far completed, was sanctioned during the year. The results of the work done by the department are embodied in some detail in the second part of the Address.

I may refer here to a very unfortunate accident which recently occurred at the Kolar Gold Fields and which resulted in the death of 42 persons on the 21st August last. In view of the magnitude of the accident, Government appointed a Committee on which there was also a Judge of the Chief Court to enquire into the matter. The report of the Committee has been received and is under consideration.

Muzrai Department.

42. An enquiry into the conditions of the Muzrai Institutions in the State and the submission of a comprehensive report regarding their administration, reorganisation and improvement, have been ordered by Government and a Committee appointed therefor have entered upon their work.

Printing Department.

43. As the condition of the private printing presses throughout the State appeared capable of much improvement and to stand in need of expert assistance and advice,

the Superintendent of the Government Press has been asked to visit such presses, on application, and help them with his advice. The remaining work of the department is dealt with in Part II.

Bangalore and Mysore City Municipalities.

44. As the Deputy Commissioners of Bangalore and Mysore had, for some time past, found themselves unable to devote the required amount of attention to the affairs of the two city municipalities in consequence of their multifarious duties, Government relieved them of their duties as *ex-officio* Councillors and Presidents of the Municipal Councils towards the latter part of the year. As the time was considered opportune for appointing a non-official President for the Bangalore City Municipality, Rajasabha Bhushana Dewan Bahadur Mr. K. P. Puttanna Chetty, Retired Councillor, was appointed President of the Bangalore City Municipal Council from the 1st February 1913. An officer of the Public Works Department was appointed as whole-time President of the Municipal Council and Chairman of the Board of Trustees in the Mysore City as a tentative measure.

Growth of Public Life.

45. Indications of co-operative effort are visible in connection with the work of the Economic Conference, although the District Committees have only just begun to apply themselves seriously to constructive work.

In another sphere there have been signs of progress. I refer to the active administration of municipal affairs by honorary workers. As stated elsewhere, Rajasabha Bhushana Dewan Bahadur Mr. K. P. Puttanna Chetty has taken up the Office of President of the Bangalore City Municipality, and Messrs. Seshadri Iyengar, S. Malhar Rao and C. Vasudeva Rao, of that of Vice-President of the headquarter municipalities of Tumkur, Kolar and Chikmagalur. The disinterested public work of Mr. K. P. Puttanna Chetty, both in connection with our premier municipality in the State and with other public undertakings since February last, has elicited warm admiration.

The progress of the co-operative movement is due to the disinterested labours of several of our public men headed by Rajamantra Pravina Mr. C. Srinivasiyengar and Mr. D. Appu Rao.

Several wealthy citizens have shown commendable liberality in building public schools and hostels to meet the educational requirements of the people.

His Highness' Government highly appreciate all these indications of public spirit and they hope that

the public will also encourage such acts by showing their appreciation of disinterested labours wherever they may be found.

3.—Measures in Progress or Projected.

46. Having now given a retrospect of the principal events of the year's administration, I shall proceed to place before you the measures in progress or under contemplation.

47. Government have embarked on an active railway policy. They are desirous, if possible, of extending the railway line from Nanjangud in the Mysore District to join the South Indian Railway on one side or the other of the Nilgiris. The question of linking up Arsikere on the Bangalore-Harihar line with the port of Mangalore is also under consideration. In regard to both these lines, Government are prepared to construct the portions of the railway within State limits, and both the questions are at present under correspondence with the Government of India.

The construction of minor feeder lines within the State will be actively proceeded with in the order of their urgency and importance.

48. The construction of productive public works is proceeding as rapidly as circumstances permit. A forward policy in this respect is subject to two essential limitations, *viz.*, (1) that the investment in each case should be remunerative and constitute a fresh asset, and (2) that, under no conceivable circumstances, should the finances of the State suffer embarrassment.

The Kannambadi Reservoir is being pushed on with the connected works. The main object of the reservoir, as you are aware, is to provide irrigation for perennial crops for which hitherto there has been no satisfactory provision in that valley and to protect the supply of electric power. That reservoir, if completed on the scale already designed, will store some of the water which is

now going to waste into the sea, and along with the canals to be completed will prove a large protective work which will materially minimise the evil effects of famine. The reservoir will also contribute to the extension of the cultivation of high class perennial crops which will be fully protected.

49. The Fourth Installation of the Cauvery Power Supply Scheme is well in hand, and we have just concluded an agreement with the Kolar Mining Companies, under which protection will be afforded to the existing power supply by the storage in the Kannambadi Reservoir, and the Mining Companies will also obtain additional power supply. You may be aware that mining is now carried on in places at a depth measuring nearly one mile below ground surface. The arrangement now come to will enable the Mining Companies to work the mines at greater depths with profit and will also bring in additional revenue to Government. We have recently reduced the rates for electric power in the City of Bangalore with a view to encouraging power consumption for industrial purposes, and Government will be prepared to further increase the power supply to the Cities of Bangalore and Mysore, should demand arise for more.

50. Special arrangements are being made at present on an experimental scale for the better supervision of the major irrigation tanks and channels with a view to the scientific control and distribution of water and the more extended cultivation of sugar-cane and other commercial crops.

The improvement of minor irrigation works, about which representations have been made so often in this Assembly, awaits the completion of the necessary village organization for developing the works with Government help. It is the hope of His Highness' Government to deal effectively with this problem of minor tanks in the coming years.

51. The town-planning schemes for Bangalore and Mysore, the water-supply and drainage projects for numerous towns in the State require systematic development, and some of these are receiving attention.

The newly started Industries and Commerce Department will be given every facility to assist private industries and enterprises.

The Agricultural Department has been strengthened by the appointment of a Director and the arrangements necessary for developing its activities and opera-

tions to promote the agricultural interests of the State are receiving attention.

Great importance will hereafter be attached to the development of the co-operative movement with a view to extend the co-operative principle to many forms of business in villages and to rural transactions generally.

A new Village Courts Act has just been passed; the establishment of Village Panchayets for the management of village sanitation, irrigation and other functions of the village communities will receive the earliest consideration of Government.

As described already, orders will issue shortly regarding the practical measures proposed for reducing the unhealthiness and arresting the decline of population in the Malnad.

Following the example of the Government of India, larger grants are being given and much attention is being paid to the development of education within the State. A scheme for establishing a University for Mysore is engaging the attention of His Highness' Government.

The above are measures in regard to which we see our way clear. There are numerous other matters under investigation or in various stages of development or study.

4.—Retrospect of Thirty Years' Administration.

52. It may also probably interest you, if I give here a short retrospect of the progress which the country has made since 1881 during the 30 years ended 1910-11. As every one of you may be aware, the Rendition of the country took place on the 25th March 1881, after a very successful administration by the British Commission for half a century. Owing, however, to the terrible effects of the great famine of 1876-78,—the severest through which the State has passed during the past fifty years,—the beneficial effects of the British administration were

not visible to their fullest advantage in 1881. In the words of Dewan Rangacharlu that famine "cost the State 160 lakhs of rupees, involved the Government in a debt of 80 lakhs and withal deprived the province of a million of its population and crippled its resources for years to come."

The population of the State which in 1871 numbered 5,055,402 souls, fell to 4,186,188 in 1881 on account of the famine of 1876-78 and rose to 5,806,193 in 1911, or an increase of 15 per cent over that of 1871.

The town population which in 1881 was computed at 13 per cent of the total population fell to 11 per cent in 1911, probably for want of sufficient occupation for the people in the towns.

The population dependent on agriculture which in 1881 was 33 lakhs rose to 42 lakhs in 1911.

As regards agriculture, the occupied area, excluding coffee, amounted to 4,213,505 acres in 1881-82 and 7,438,463 acres in 1911-12. The increase is 79 per cent. The growth of agriculture since the Rendition has been extensive but not intensive.

The total revenue of the State which amounted to about 50 lakhs at the beginning of the last century was 101 lakhs in 1880-81 and it rose to 247 lakhs in 1910-11 including what is known as "fortuitous revenue" from the Gold Mines. Land Revenue has increased from 69 to 106½ lakhs, Excise from 10 to 43·69 lakhs, and Forest from 7 to 21 lakhs.

The expenditure also has more than doubled, *viz.*, from 101 lakhs in 1880-81 to 223 lakhs in 1910-11. The charges against land revenue have increased from 14 to 21 lakhs, excise from a small sum of Rs. 18,000 to over 3 lakhs, forest from 2 lakhs to nearly 7 lakhs, law and justice including jails from 6 to 8½ lakhs, education (from provincial revenues) from 1·50 to 10·53 lakhs, medical from 1·63 to 7·20 lakhs and public works from 10 to 30 lakhs.

The railways which were only 50 miles in 1880-81 rose to 411 miles in 1910-11 and the capital outlay on them in the same period from 25 to 250 lakhs.

The mileage of provincial roads has nearly doubled since the Rendition.

Among other public works may be mentioned the extension of channel irrigation in the Cauvery and Kapani valleys, restoration and repairs to numerous tanks and the construction of two great public works, *viz.*,

the Cauvery Power Scheme and the Marikanave reservoir. The Cities of Bangalore and Mysore were extended and improved.

The expenditure on education from all sources rose from Rs. 3,91,028 in 1880-81 to Rs. 18,79,135 in 1910-11; the cost of education per head from Re. 0-1-6 to Re. 0-5-4. The school-going population has increased from 53,872 in 1,880-81 to 1,38,153 in 1910-11 or nearly three times.

A few industries, small and large, incluing the gold mines of Kolar and the manganese mines of Shimoga and a few cotton and other mills have come into existence. But most of these are unconnected with local enterprise and, in themselves, afford no evidence of the progress of the people either in technical knowledge or co-operative spirit.

53. The above retrospect shows that the high standard of efficiency reached in the days of the British Commission has been maintained unimpaired, while, at the same time, a steady and substantial progress has been made in every department of the State. It shows, too, that the administration has been carried on with close loyalty to the principles followed by the previous British administration, that the slender surpluses have been carefully husbanded from year to year, and utilized in the construction of productive public works and the country has perceptibly advanced in material prosperity. The Government and the people have been brought into closer touch by the association of the people in local and municipal administration and in the Representative Assembly and the Legislative Council.

5.—Administrative Efficiency.

54. Since this Assembly came into existence, the wants of the people are better known to the officials and the intentions of Government better understood by the people.

The question of improving the efficiency of the services, has been receiving the anxious consideration of His Highness' Government. The latest measure for such improvement, as you are aware, is the sanction

accorded by His Highness the Maharaja to the revival of the Mysore Civil Service Examination scheme, under which the best local young men have a chance of competing for appointments in the State service. His Highness' Government have also recently strengthened the staff and improved the prospects of officials in some of the departments which either yield revenue or have felt themselves starved for some time.

55. Measures are under contemplation to arrange for a system of "efficiency audit" with a view to provide for more frequent and systematic inspections, to improve the office manuals and standing orders, and to ensure that the rules and orders in force are properly worked, or if not workable, promptly modified; that beneficent activities of every kind receive stimulus, that serious irregularities receive prompt attention; that, in short, waste of power and slackness of execution in the different departments of Government are controlled and minimised.

Efficiency must be maintained if the Government is to get value for the money which it is spending on its establishments. In a country like ours where the system of Government departments is maintained on the European model and the staff employed to work them have not fully adopted European business habits, an 'efficiency audit' is as much a necessity as a 'financial audit.'

6.—Efficiency of the People.

56. A few words here about measures for improving the capacity of the people may not be out of place.

It is not difficult nowadays to construct public works, railways, tramways or other works, because skilled agencies can be imported for the purpose. Foreign capital can be obtained if we are able to guarantee a fair return on the outlay. It is also easy to man the public service with the best talent available in India or, for that matter, of the world, because there is an abundance of such talent seeking employment. The help of outside agencies which, while benefiting themselves, are also likely to benefit us, should be welcomed. But large enterprises carried out entirely with outside help will not increase the capacity

of our people or raise the status of the country. And, unless in the fiscal and geographical area known as Mysore, the intelligence of the people, the natural resources and the available capital act and re-act on one another, and with cumulative effect, the country cannot be said to be making any permanent progress.

57. There are certain features in our present condition which necessitate anxious watchfulness on our part. The country has no doubt progressed within the past 30 years. People are better housed, better clothed and normally better fed, and the average standard of living has also risen; but the advance in these directions is due to the general progress of the Indian continent, as a whole, rather than to any organized activity or design on our part.

58. Only one person in every sixteen is able to read and write. The cultivators are not fully occupied even in normal seasons; in years of scarcity, for months at a time, they are left without occupation and without hope. Three-fourths of our population are dependent on agriculture and the great bulk of them live in villages without activities or aspirations outside their individual households. Our land-owners are small men, our business is conducted by small traders and artizans, each working singly for himself. The lessons of co-operation and organization have not permeated even the top strata of society.

59. The first Dewan since the Rendition, with the experiences of the famine of 1876-78 fresh before him, drew attention to a similar state of things then. In his address to this Assembly in 1881, Mr. Rangacharlu strongly urged the need for industries and industrial development, remarking "that no country can prosper unless its agricultural and manufacturing industries were equally fostered."

He was also of opinion that "when all the world around is making marvellous progress, the 200 millions of people in this country cannot much longer continue in their long sleep, simply following the traditions of their ancestors of 2,000 years ago and earning a miserable subsistence, ready to be crushed on the first occurrence of a famine or other calamity."

These words are as true to-day as they were when they were uttered thirty years ago and, unless a change is attempted, they will continue to be true thirty years hence.

60. "It is not Governments or forms of Government," remarked His Highness the Maharaja in a speech delivered so far back as 1903, "that have made the great

industrial nations but the spirit of the people and the energy of one and all working to a common end."

Following the lead of His Highness, we must develop the life and capacity of our people by encouraging in them self-help, power of initiative, courage to change, courage to create new things, spirit of co-operation and a capacity for organization.

61. Reasonable scope for the co-operative effort of the people in the State is provided for, however imperfectly it may be at present, by the organization known as the Economic Conference; and no one who has witnessed the educational activities, the roar of industry and the keen competition in trade, that is going on in the advanced countries of the West, can fail to sympathise and co-operate with the objects of that movement.

The organization is intended to stimulate co-operative enterprise in cities and towns and gradually among the rural population; but since nine-tenths of the people live in villages, it appears to me that a special effort is necessary to stimulate economic activity in rural areas.

62. The village forms a convenient unit for purposes of economic effort, for taking stock of progress at the beginning and end of a year. If each village shows a little improvement, from year to year, the collective result will be large. No village should be considered as maintaining a fair standard of enlightenment which does not keep 5 to 10 per cent of its population under education. No village should fail to subscribe to one or two well-conducted vernacular newspapers to keep itself informed of what is going on in the outside world. Every village family should be induced to keep in reserve grain or money sufficient to tide over a famine of two years. No cultivator's family should be without a subsidiary occupation to provide the members with the means of livelihood when agricultural operations are slack, or are stopped during scarcity or famine. Every village should show some public improvement or other as the result of the collective effort of its inhabitants at the end of each year.

The villages may be called upon to publish once a year a few essential statistics of their economic growth. And as the great bulk of our population live in villages, any effective organization to improve village efficiency cannot fail to make a potent addition to the life force of the people and the productive power of the country.

7.—Reforms in the Legislative Council, &c.

63. There is one important message which I am commanded by His Highness the Maharaja to announce to this Assembly and which I may refer to at this stage. The Representative Assembly was brought into existence in 1881, that is, in the very first year after the Rendition. While there are representatives on it of the highest ability and intelligence, the Assembly is, in the main, composed of representatives from the districts and the taluks. At present, it meets once a year and, considering the size and resources of our State, it is too large a body to meet oftener. No practical scheme has yet been put forward to show in what direction and in what manner the usefulness of this Assembly can be enhanced. It may be advantageous, at this session, to consider questions pertaining to the composition of the Assembly, the methods of electing members thereto, its functions and the system of transacting business. If the members discuss these questions and make known their views, the same will be submitted to His Highness for his gracious consideration.

64. His Highness has decided to increase the number of representatives from this Assembly on the Legislative Council from two to four and also to nominate eight representatives from it on the Economic Conference.

As you are doubtless aware, our Legislative Council is based on the model of the British Indian Act of 1861 ; but, as that Act has been revised twice since that year, His Highness thinks that the representative character of our Council might be safely improved so that it may be nearer the standard of the Councils in British India.

The local Legislative Council consists of 15 to 18 members at present. This number will be increased to 24 in future. Of these, four will be nominated, as already stated, on the recommendation of this Assembly, four by territorial representation from the districts, ten will be officials and six nominated members. There will thus be eight elected representatives of the people instead of two, the present number. It is necessary that the members nominated on the recommendation of this Assembly or of the districts should possess a sufficient knowledge of the English language to be able to take part in the proceedings of the Legislative Council.

His Highness has been pleased to accord to the Council, but with definite limitations in the early stages, the privileges of Budget discussion and interpellation. The limitations are necessary because our resources and establishment are limited and the time of the officials is already much taken up by the periodical functions.

The interpellations will not exceed twelve questions at each session, and the nature of the questions to be admitted will depend, among other considerations, on the measure of support accorded to them by the members. Suitable rules will be framed for the purpose after the Legislative Council has been amended.

65. These changes, which His Highness the Maharaja has been graciously pleased to sanction, will enable the representatives of His Highness' subjects to be associated in the Councils of the administration and bring their influence to bear, for all good ends, on the policy and activities of Government.

66. I need not repeat here that on His Highness the Maharaja rests the ultimate responsibility for the good government of the country; and he trusts he may rely on the loyalty, wisdom and public spirit of his subjects, that the privileges now accorded to them will be exercised with caution and moderation for the promotion of the good government of the country and the permanent well-being of his subjects.

8.—Two Notable Events.

H. H. the Yuvaraja's European Tour.

67. One of the most hopeful signs of awakening and progress of the country is the example set to us by the visit of His Highness the Yuvaraja to Europe. The Yuvaraja, who has been travelling abroad for the past six months with a staff of three officers and a young gentleman of the Ursu community, has just been welcomed home with great warmth and enthusiasm. In his travels in Europe, the Yuvaraja spent a life of ceaseless toil,

visiting numerous institutions and studying the varied activities of the countries he passed through. From all sources we learn that he met with a cordial reception wherever he went and he has come back to us, leaving pleasant memories of his visit behind him, rich with experiences and an ardent desire to help in the uplift of the people. The people of Mysore are naturally proud of a prince who has shown such unusual enterprise at his age in travelling both East and West in search of knowledge and culture. They greatly appreciate the courtesy extended to him by the leading public men of England, and by some of the cities like Glasgow and Dublin which he visited.

The example of foreign travel set by a member of the Ruling House of Mysore will, it is hoped, be largely followed in future by His Highness' subjects with highly beneficial results.

His Excellency the Viceroy's Visit.

68. Before closing this Address, His Highness commands me to announce to you formally the pleasing news that, next month, he will have the privilege of welcoming into our State His Excellency Lord Hardinge, the Viceroy and Governor General of India. I have no doubt that the news will be hailed with rejoicings in all parts of the State and that His Highness' illustrious guest will be received with the loyalty and respect due to the representative of His Most Gracious Majesty the King-Emperor. Our pleasure in welcoming Their Excellencies Lord and Lady Hardinge, will doubtless be doubly sincere on account of the admiration which we all feel, in common with the rest of India, for the policy of good-will and high purpose pursued by His Excellency, since his advent, towards the Native States and the people of this country.

M. VISVESVARAYA,
Dewan of Mysore.

PART II.

Details of the working of Government Departments during 1912-13.

ADDRESS

OF THE

DEWAN OF MYSORE

TO THE

DASARA REPRESENTATIVE ASSEMBLY

11th OCTOBER 1913.

PART II.

Introduction.

I have referred in Part I of the Address to the working of the principal departments of the State and to the important measures which have received attention during the past year, or which are under consideration at the present time. Matters of lesser importance which are not specifically dealt with in Part I, will be referred to here.

Legislation.

2. The Legislative Council held one meeting during the year. Eleven Bills were considered, including six which were pending from the previous year. Two of these were passed into law. A Bill further to amend the Mysore Military Regulation, 1899, which, under Section 12 of the Legislative Council Regulation, is excluded from the scope of the Legislative Council, was passed by Government. The remaining nine Bills were before the Legislative Council in various stages of progress. The following Bills were passed into law :—

(1) The Mysore Emigration Bill,

(2) The Bill further to amend the Mysore Military Regulation, and

(3) The Partition Bill.

3. A Bill to further amend the Local Boards Regulation, II of 1902, so as to enable the Government to levy a cess not exceeding half an anna in the rupee on all items of revenue on which local cess is levied, to be utilized solely for the construction of tramways and railroads, is now under the consideration of the Legislative Council.

4. Rules and notifications under enactments in force were issued on a variety of subjects connected with the Government Savings Bank Act, the Opium Act, the Civil Courts Regulation, the Land Revenue Code, the Land Improvement Loans Regulation, the Mysore Arms Regulation, and several other Regulations.

Account Department.

5. The publication of a new general Treasury Manual and the revised edition of the Taluk Treasury Manual have led to some improvement in the working of the treasuries in the State. To enhance the utility of the Taluk Treasury Manual, a Kannada edition of the same was prepared during the year. A Public Works Manual has been prepared as a supplement to the Government India Code. The manual is in the press and is expected to be ready for issue early.

6. During the year, Capital and Revenue accounts for the Marikanave Project and for Government buildings, let or available for rent, were compiled and issued on the lines on which such accounts are maintained in British India. An attempt is being made to draw up similar accounts for the Public Works Workshop at Bangalore.

7. The scheme sanctioned by Government last year for affording facility to the public in purchasing and selling Mysore Government Securities through the Comptroller is working satisfactorily. Several transactions have in this manner been effected since the scheme came into operation.

The Civil Veterinary Department.

8. The number of cases treated in the eight Veterinary Hospitals and Dispensaries rose from 53,919 during the previous year to 65,836 during the year under review. Modern methods of treatment of cattle diseases are becoming popular and the demand for preventive inoculation has been increasing. During the year 2,579 head of cattle were inoculated against various contagious diseases, such as blackquarter, anthrax and rinderpest.

Cattle Shows and Exhibitions.

9. Cattle shows and exhibitions were held in 19 places and ryots and other non-official gentlemen took much interest in the carrying out of these functions and contributed towards their cost. The show at Channagiri is reported to have been financed purely by private subscriptions. The agricultural population are beginning to understand the utility of these shows and it is reported that the quality of cattle exhibited in them is improving every year. Lectures are usually given by officers of the Veterinary and Health Departments and demonstrations are arranged by officers of the Agricultural Department in

connection with these shows and it is satisfactory to note that this mode of popular instruction is gaining favour.

Forests.

10. Twelve blocks with an area of nearly 54 square miles were notified as State Forests under Section 17 of the Forest Regulation and 17 blocks with an aggregate area of 70¾ square miles were notified as "Reserved lands" under Section 4. About 382 miles of forest demarcation lines were newly cut, and about 1,914 square miles were successfully protected, out of 2,018 square miles attempted. About 6,700 acres of new area were stocked with teak, sandal and other indigenous plants and 31,452 acres were dibbled over with sandal seeds mostly, and teak in some places. About 366,778 cubic feet of timber were disposed of by departmental agency in depôts, and about 315,980 cubic feet were sold from the forests on licenses, the aggregate revenue realised being Rs. 5,20,543.

11. Depredations of standing crops by wild elephants having become somewhat frequent in the Shimoga District, Khedda operations were undertaken there on a small scale and successfully conducted by the local Forest Officer, under the supervision of the Deputy Commissioner, Mr K. Srinivasa Rao. Eighteen elephants were captured and sold for Rs. 27,575, the amount expended on the operations having been Rs. 15,277.

Stamps.

12. The revenue from Stamps has steadily risen from Rs. 8,16,000 in 1909-10 to Rs. 9,41,400, during the year under review.

Registration.

13. The number of documents registered during the year was 96,924 against 94,193 in 1911-12, showing an increase of 2,731. The income for the year, however, amounted to Rs. 1,82,534 against 1,85,946 in the previous year showing a slight fall of Rs. 3,412 which was chiefly due to the reduction sanctioned from January last in fees charged for the registration of documents relating to immovable property.

Joint-Stock Companies.

14. Three new companies were registered during the year and four were wound up, the total number working at the close of the year being 77 or one less than the number at the end of the previous year.

Survey.

15. During the year four inam villages comprising 873 fields with an area of 3,504 acres were surveyed and eight villages containing 1,225 fields measuring 4,030 acres classed. Re-survey operations were completed in 608 villages in all, consisting of 248 villages in the Hassan Taluk as it stood at the original settlement, 352 villages

of the late Kadaba Taluk (present Gubbi Taluk), one village in the Kunigal Taluk and seven villages of the Magadi Taluk. The total area re-surveyed was 432,658 acres or 676·03 square miles.

16. Revised rates of assessment were announced in the Shimoga Taluk, where the average dry rate was increased by 14·2 per cent, and the wet rate by 6 per cent, while the garden rate was reduced by 30·8 per cent. On the whole, the revision of the settlement resulted in a moderate increase of revenue on occupied lands of about 8 per cent. The new rates were received by the ryots without complaint. Proposals for the revision settlement of the late Koratagere Taluk and the Nagar Taluk were submitted to Government during the year. The revision settlement of the late Koratagere Taluk has since been sanctioned and the revised rates of assessment will be announced in the next cold weather. The proposals relating to the Nagar Taluk are under the consideration of Government.

Police.

17. The sanctioned strength of the regular Police Force was 837 officers and 5,181 men as against 831 officers and 5,049 men in the year previous. The increase is due to the augmentation of the Kolar Gold Fields Police Force and to the temporary staff of the Criminal Intelligence Department being made permanent. A temporary staff of 2 Inspectors, 1 Jamadar, 1 Duffedar and 4 constables was also sanctioned during the year for special duty at Mugur, in the T.-Narsipur Taluk, to preserve peace and order in that locality owing to the occurrence of certain serious riots at Kannegal in Chamrajnagar Taluk committed by the inhabitants of the village. The cost of Police Administration, including equipment and clothing was approximately Rs. 9,27,670 against Rs. 9,12,840 in the preceding year, the increase being chiefly due to the additional establishments entertained.

Medical.

18. Two new dispensaries were opened and the dispensary at Marikanave was closed during the year, so that there were 153 hospitals and dispensaries at the close of the year. The number of patients treated in them was 1,438,947 against 1,367,543, showing an increase of over 71,000. The Special Hospitals of the State, viz., the Lunatic and Leper Asylums, the Maternity Hospitals the Epidemic Diseases Hospitals and the Minto Ophthalmic Hospital continued to do good work. The last-named hospital, which is equipped with the most up-to-date appliances, was opened by His Highness the Maharaja in

January last and is doing excellent work, over eleven thousand persons having been treated there during the year.

Public Health Departmen

19. Fever and plague prevailed to a less extent than in the previous year but the mortality under cholera and small-pox was higher. The total number of deaths from all causes recorded was less, the ratio per mille of population having been 18·05 as against 20·24. The number of births was also smaller, the ratio being 18·52 against 19·65 in the previous year.

20. The total number of vaccinations performed in the State during the year was 93,039 as against 80,143 in the preceding year, showing an increase of 12,596 cases. On certain complaints brought to the notice of Government through the public press and other channels about the bad effects of vaccination, a careful enquiry into the several cases reported was made; but the allegations were not substantiated and in none of the cases were the untoward results complained of proved to be due to either the impurity of the lymph or other preventible causes.

Education.

21. From the special grants of the year, 141 new primary schools were started in the different districts of the State, of which 132 were in rural areas and 9 in taluk stations. A central Boarding School in Mysore for the benefit of the Panchama boys of the State has been started and is availed of by many Panchama boys who are given free boarding and lodging in the Home attached to the school. The boys will be given the benefit of general education combined with elementary agricultural and industrial education. This important step augurs well for the advancement of a community which now occupies the lowest rank of social life. A scheme for the revision of the scales of pay of teachers in Anglo-Vernacular and Vernacular Schools is under the consideration of Government. Suitable sites were selected for Village School buildings and handed over to the Public Works Department for the construction of school houses according to type designs approved by Government. It was originally intended to construct 105 new buildings, but as suitable sites were not readily available in some villages, it was ultimately arranged to construct 76 buildings and the necessary plans and estimates are before the Public Works Department for execution.

22. The number of industrial and weaving schools increased from 22 to 23, but their attendance fell slightly from 1,256 to 1,178. All the Government and aided

institutions did satisfactory work during the year and the unaided schools are also reported to have shown a fair amount of progress.

Female Education.

23. Female education is making slow but steady progress. The number of public institutions for girls increased from 305 to 360, of which one was an English College, one an Oriental College and two were English High Schools. Altogether 7 girls passed the Matriculation or the School-Leaving Certificate Examination, 60 the Lower Secondary Examination in English and Kannada, 19 the Teachers' Certificate Examination of the Upper and Lower Secondary grades and 11 the examination for proficiency in sewing.

24. Among other matters of importance in the Educational Department may be mentioned the sanction accorded to an annual grant of Rs. 3,000 for the preparation and supply of suitable text-books in the manner best calculated to stimulate the production of such books, the institution of two special scholarships of the value of Rs. 20 each to enable Mysore students to study Logic, Psychology and Ethics of the B.A. Degree Pass Course in any Indian University, as no provision exists at present for teaching the subjects in any of the State Colleges, the consideration of a scheme of reorganization of the grades of the tutorial and inspection branches and the holding of the first Public Examination under the Secondary School-Leaving Certificate Scheme.

Industries and Commerce.

25. The following is a brief account of the work done under the different heads in this department.

Hand-loom Weaving:—

With a view to popularise the use of fly-shuttle looms throughout the State and to introduce jacquard machines for ornamental weaving, a workshop has been opened in Bangalore which is run on commercial lines as far as possible. Only persons who have already acquired a knowledge of handloom weaving are admitted to the workshop, the object being to improve the condition of the existing weavers rather than to introduce further competition in a trade which already suffers severely from the competition of imported piece-goods. A consignment of wool from Europe was obtained in June last suitable for weaving woollen shawls of a kind which, it is thought, will be largely in demand in the State. Indian wool is not suitable for the manufacture of these shawls, and the wool itself will always have to be imported; but it is hoped that ultimately we may be able to import grey

yarn, dye it locally, and weave into shawls. So far as can be judged at present, this new development is likely to prove a success; and it is hoped that in course of time it will give employment to many hundreds of hand-loom weavers. In regard to the general introduction of the fly shuttle slay for plain weaving, considerable progress has been made, and a large number of them are in use in Hole-Narsipur. A special weaver has been at work for a short time in Komarahalli, and it is contemplated to send another man to Kankanhalli. There is every reason to hope that, in a year or two, fly shuttle looms for plain weaving will be as common in the Mysore State as they are in the Northern Circars of the Madras Presidency, where, it is reported, they have been almost universally adopted with extremely satisfactory results.

Sugar-cane.—In October last, Government placed at the disposal of the Special Adviser, a sum of Rs. 25,000 for the purpose of establishing three sugar-cane crushing plants to demonstrate the advantages of using power in place of cattle labour. Three places were selected, one at Saggare under the Mavattur tank, one at Malikattammanagudi under the Kunigal tank and a third at Haravu, where there is a large area of land irrigated by the Cauvery channels. At Saggare during the three months that sugar-cane was delivered at the mill, 5,665 maunds of jaggery were manufactured. At the end of June, the plant was shut down as all the cane in the locality had been crushed. At Kunigal and Haravu at the outset there was great difficulty owing to the fact that the raiyats brought to the mill over-ripe, diseased, and inferior cane, and the initial attempts to make it into jaggery failed. These difficulties retarded progress very considerably and till the end of June only 2,644 maunds of jaggery were made at Kunigal and 1,295 at Haravu.

Silk reeling.—Measured by the value of its outturn, sericulture is, next to agriculture, the most important industry carried on in the State. But during the past two or three years, it has been declining rapidly, owing to the spread of disease amongst the worms. The question of introducing remedial measures was discussed by both the Agricultural and the Industries and Commerce Committees of the Economic Conference and it was finally decided that the Agricultural Committee should deal with the problems of rearing, whilst the Industries and Commerce Committee and the Department of Industries and Commerce should deal with the improvements

in the methods of reeling and converting the raw silk into a marketable commodity. With the assistance of the Manager of the Tata Silk farm at Bangalore, now controlled by the Salvation Army, preliminary experiments have been conducted to ascertain whether improvements could be profitably introduced into the reeling of silk for the local market. A considerable quantity of cocoons was purchased at different times in Channapatna some of which was reeled locally, and the balance sent to the Silk Farm, where the reeling was done on the system introduced by the Japanese experts imported by the late Mr. J. N. Tata. Sanction has been accorded to the establishment of a silk filature in Channapatna and the reeling machinery is now being constructed in the Industrial School in that place.

Wood-turning.—At Channapatna there are a number of skilled wood-turners who work with very primitive appliances, and the trade is mostly controlled by a local Co-operative Society. In order to demonstrate the use of improved lathes to the members of this society, a small oil-engine and 24 lathes were set up at a cost of Rs. 4,C00, in the Channapatna Industrial School. The machinery started working at the beginning of April and the results are being carefully watched.

Passing on to the assistance rendered by the department to private individuals carrying on industrial work at their own expense (which, I may observe by the way, is one of the most important branches of the work of the Industries and Commerce Department), three engines and pumps for purposes of irrigation were under erection during the year under supervision of the officers of the department. Two of these were helped with takavi loans by Government while the third was financed entirely from private funds. The last-mentioned enterprise, *viz.*, the installation at Harihar has, as you are probably aware, since been successfully launched and it may be confidently expected to be the forerunner of many similar enterprises. The department has assisted in the installation of two rice-hulling plants, two saw-mills and one coffee-roasting factory, and it is hoped that activities in this direction will grow largely and that full advantage will be taken of the expert assistance and guidance thus placed by Government at the disposal of the public.

General industrial enquiries.—The Office of the Director of Industries and Commerce constitutes in itself

a bureau of industrial information and all private enquiries are attended to. So far, most of them have been of a very elementary character and no difficulty has been experienced in dealing with them. Later on, as complex questions come up for investigation and solution, arrangements will be made to obtain expert advice outside the department whenever it is necessary. It may also be added in this connection, that this work is intimately connected with the work of the Industries and Commerce Committee of the Economic Conference and the results of enquiries are published in bulletins issued by the Economic Conference. The department itself is at present considering the question of wood-distillation and the manufacture of edible products from vegetable oils. Necessary inquiries are in progress and the department hopes to submit ere long definite proposals for practical action.

Agricultural Department.

26. Much attention continues to be paid to the demonstration of improved agricultural methods and the introduction of improved agricultural implements. The work on the Hebbal farm was continued with regard to ragi, paddy, sugar-cane and cottons and interesting results were recorded. The system of green manuring for paddy and sugar-cane, which was commenced about two years ago in the Kadur and Shimoga Districts, is beginning to have effect. During the first two years, green manure seed was supplied free of charge, but in the spring of 1913, the seed was offered for sale and readily purchased by the people. The extent of land treated with green manure during the year was about six times that in the previous season. Single seedling transplantation of paddy was demonstrated along with green manuring in the western parts of the State and the results have been highly satisfactory. About 100 ryots are said to have taken up the practice on their own account. Broach cotton, the seed of which was distributed last year, proved a success. It gave a better yield and at the same time fetched a higher price by about 12 annas a maund than *Sannhatti*. Cambodia cotton did not do well, on the whole, on unirrigated soils but was generally successful on irrigable land. The introduction of these new varieties even on the small scale that was possible during the year, is believed to have led to an increase of from Rs. 6,000 to Rs. 10,000 in the value of the cotton crop. During the present season, between sixteen and seventeen thousand lbs. of first-class seed of these cottons have been distributed, or over three times as much as last season.

Much of this has been sold in areas untouched last year. In addition, a good deal of seed of both Broach and Cambodia has been sold by the brokers at Davangere, while many ryots have preserved seed from their crop last year. On the whole, about 3,000 acres have been sown with these two varieties of cotton this season which, in a normal year, should represent an increase of Rs. 25,000 to Rs. 30,000 in the value of the cotton crop next harvest. Attention is being given to the introduction of improved agricultural implements. During the year over 200 ploughs, 400 shares and points and 30 other implements of various types, including harrows, cultivators and fodder-cutters were sold. A beginning has been made in stocking ploughs in Taluk Offices, and District Associations are also making purchases of ploughs for purposes of demonstration and sale.

Mycology and Entomology.

27. The work in connection with the suppression of Koleroga is progressing steadily and the actual combative work is being gradually handed over to the garden owners. Over seventy sprayers have been sold during the last two years. During the present season, commencing with the first of June last, material sufficient to treat approximately 150 acres has been sold to private owners. In addition, demonstration of spraying has been made in 56 gardens, chiefly those where such work had not previously been done. The demonstrations now extend over six taluks; *viz.*, Shikarpur Sorab, Sagar, Nagar, Thirthahalli and Koppa. In this connection it may be noted that the Bombay and the Madras Departments of Agriculture are now carrying out combative measures in North Canara and South Canara, respectively, along the lines worked out here.

28. The two serious grasshopper pests, the Rice Grasshopper and the Jola Grasshopper, were much less serious than in the previous year. Handpicking of moths was demonstrated at Kachegatte near Banavar over 114 acres, and demonstrations of the life history of the insect were given in all the villages of the neighbourhood and wherever possible also in the schools. Ploughing operations to control the pest could not be carried out as cholera broke out in the village where it has been planned to carry them out. The serious pest of green bug on coffee has lately appeared in Mysore. A short tour was made by the Assistant Entomologist to ascertain the severity of the attack. An illustrated Kannada circular has been published and distributed in the coffee-growing districts and plans for a thorough campaign against the

pest are being arranged. Work will be commenced as soon as the monsoon subsides.

Co-operative Societies.

29. To emphasise the co-operative character of Central Banks, two co-operative Unions were started during the year, one at Hassan and the other at Tumkur. These Unions consist of about ten societies which have banded together to form a federal Union undertaking and organizing supervisory and financial functions. The Unions are still in an infant stage and have not seriously commenced work.

30. As in the previous year, a Provincial Co-operative Conference was held at Mysore in October last and was attended by about 350 delegates. His Highness the Yuvaraja opened the Conference and its deliberations were conducted under the presidency of Mr. H. V. Nanjundayya, First Councillor. This provincial Conference owed its initiative to the efforts of the Registrar, but Conferences organized on similar lines by members of Co-operative Societies and confined to the societies in the districts concerned, were held during the year at Hassan, Chennagiri, Yedarur (in the Kolar District) and Tumkur.

31. A Kannada monthly publication, called the Mysore Co-operative Bulletin, is being published under official patronage and supervision from January last.

Agricultural Banks.

32. The policy now adopted for some years with respect to Agricultural Banks was continued during the year under review. Banks which showed no signs of activity were wound up and, wherever conditions were favourable, Co-operative Societies were formed so as to provide credit facilities to the members of the defunct Agricultural Banks. It was mentioned in the Address of last year that 18 Co-operative Societies had been formed in localities where Agricultural Banks had previously been in existence. During the past year, five such societies were started, four in the Shimoga District and one in the Bangalore District. Many of the members of the defunct Agricultural Banks are now members of these co-operative institutions to which they have contributed small sums as share capital and from which they have borrowed for their requirements.

Public Works.

33. In connection with the Marikanave project in the Chitaldrug District, the details of the *Block System* of irrigation under the canals were revised and completed so that the system might be brought into force from the 1st July 1913. The change from the old system to the

new is being gradually effected. The colonization of the canal area and the improvement of the means of communication therein is also engaging the attention of Government. Arrangements were in progress to shift some of the unhealthy villages in the canal area to better sites. The actual area irrigated during the year was 3,904 acres against 10,644 acres in holding. The gross value of the crops grown is estimated at about 4 lakhs of rupees. The gross revenue realised was Rs. 50,330.

34. Among the large irrigation works undertaken during the year, were the construction of a new tank across the Maralwady stream at Mavattur in the Kankanhalli Taluk of the Bangalore District and of a feeder from the Nagannana Anikat to the tanks in the Tarikere valley in the Kadur District. Of those started during the previous year, the principal works in progress were the construction of a new tank across the Vadly stream near Hairegai in the Mysore District, the extension and the improvement of the Sri Ramadevaru South Channel in the Hassan District and the restoration of the Bolappanahalli tank in the Closepet Sub-Taluk and Mellur tank in the Hunsur Taluk.

35. The repairs to the breach in the Madhavamantri Anikat on the river Cauvery which had sustained serious damage during the heavy rains of August 1912, were also in progress, but owing to sudden and unexpected floods in the river in May 1913, the anikat which is constructed of rough stone boulders closely packed together was again partially damaged. It is hoped that there will be no serious difficulty in passing down the usual irrigation supply this season. This anikat has been causing frequent trouble and the question of replacing it by one of solid masonry is under consideration. About a lakh of rupees was spent during the year on the restoration of the minor tanks in the State.

36. *Civil Buildings.*—The principal civil buildings in progress during the year were the new Palace and the Chamarajendra Technical Institute at Mysore, the Central College Chemical Laboratory, the new High School and the Minto Ophthalmic Hospital at Bangalore, the Maternity Hospital at Robertsonpet, and the new Sandal Koti at Shimoga.

37. *Communications.*—Under communications, the construction and improvement of certain malnad and forest roads in the Shimoga, Hassan and Mysore Districts were in progress; also the construction of large bridges

across the river Tungabhadra at Honnali in the Shimoga District and across the Bhrugu on the Hunsur-Begur road in the Mysore District.

38. *Miscellaneous Public Improvements.*—Among the miscellaneous public improvements in progress may be mentioned the construction of certain roads and drains in the different extensions of the Bangalore City and a Jewell Filter and a subsidiary pumping plant which were in course of erection during the year for improving the water supply to the Mysore City. Investigations and surveys for the drainage of the Hole-Narsipur and Nanjangud towns were completed.

39. *Electrical Works.*—To minimise interruptions in service caused by lightning, the high tension transmission circuits for Bangalore service were provided with overhead supports and ground wires for a length of about 30 miles and ground wire supports were also erected for an additional length of about 15 miles. The number of interior lighting installations in the Cities of Bangalore and Mysore and the Civil and Military Station at the close of the year were respectively, 421, 204 and 499, or a total of 1,124 as against 337, 143 and 367 or a total of 847 at the close of the previous year, showing an increase of 32·8 per cent in the number of consumers. Arrangements are being made for supplying electric power at cheap rates for small household appliances and industrial concerns.

Geology and Mining.

40. Mining operations were in progress on 16 mining and prospecting blocks as against 15 during the previous year.

Gold.

41. The number of mines producing gold, remains the same as before, viz., five, all being situated on the Kolar Gold Field. The satisfactory position of these mines was on the whole well maintained. Champion Reef and Ooregum have both shown distinct signs of improvement and afford further illustrations of the wonderful recuperative power of the mines of the Kolar Gold Field. In other parts of the State work has been in progress at the Siddarhalli Block, Shimoga District and the Nandi Hosahalli Block, Kadur District; and towards the close of the year work was re-started at the Woolgiri Mine in the Mysore District.

Magnesite.

42. Some interest was taken in the magnesite deposits of the Mysore District owing to certain proposals which were put forward in connection with the manufacture of the magnesite cements. But before these

proposals could be matured into effect, applications were received from the Tata Iron and Steel Company for licenses to work the deposits for the production of refractory materials for the iron and steel industry. Five blocks were selected and licenses were granted to the Company and preliminary operations have been started.

Iron Ore.

43. The valuable deposits of iron ore on the Babadudan Hills which were discovered and reported upon departmentally a few years ago have now attracted some attention and six prospecting licenses and one exploring license have been granted in this area for the purpose of examining the areas on a commercial basis. Practically no work has been done at present owing to the advent of the monsoon shortly after the issue of the licenses, but it is expected to be taken up vigorously during the ensuing dry season.

44. 27,088 persons were employed in the mining industry and there were 66 fatal accidents involving the death of 90 persons, the rate of mortality being 3·32 per 1,000 persons employed, which is the same as during the previous year. Air blasts in the Kolar mines accounted for 11 fatal accidents involving the loss of 29 lives. For a number of years past these air blasts have engaged the most serious attention of the Mining Department and of the Managers and Superintendents of the Mining Companies, and unremitting efforts, involving a large expenditure of time and money, have been made to investigate and comprehend their nature and devise methods of work which will help to guard the workers against their effects. How far these efforts have or have not been successful is still a matter of conjecture, as changes in methods of work and the precautionary measures which are adopted most probably require a considerable period in which to make themselves felt and to permit of sound deductions as to their utility or otherwise. In the opinion of those competent to judge who have studied these phenomena and who have to work amongst them, there is no justification for either panic or despair however regrettable the present loss of life may be. In spite of the natural anxiety which these air blasts cause to those responsible for the safety of the mine and the workers, there is a general feeling of hopefulness that the dangers associated with them will be materially avoided or reduced with the determined efforts that are being made to combat them.

District Funds.

45. The receipts under all heads of District Funds during the year were approximately Rs. 12,26,313, and

including the opening balance of Rs. 4,75,024, amounted to Rs. 17,01,337. The total expenditure was nearly Rs. 11,54,547, leaving a balance of Rs. 5,46,790 at the close of the year. A sum of Rs. 5,21,021 was spent on Public Works, Rs. 2,64,322 on public health, safety and convenience which included medical relief and sanitation, and the balance towards establishment and other charges.

Local Funds General.

46. The income under this head amounted to Rs. 1,77,233 approximately and, including the opening balance of Rs. 1,74,241, the total receipts amounted to Rs. 3,51,474. The expenditure amounted to Rs. 1,36,764. There thus remained to the credit of the funds at the close of the year a balance of Rs. 2,14,710.

Municipal Boards.

47. The receipts under Municipal Funds during the year amounted to Rs. 10,17,540 and the expenditure to Rs. 8,98,190, of which Rs. 2,10,505 was spent on Public Works, Rs. 2,10,144 on Conservancy, and the remainder under other heads.

48. The towns of Birur and Chintamani were notified as permanent municipalities under the Municipal Regulation, the number of local areas so notified being 34 up to the end of the year 1912-13. The constitution of the Municipal Councils for Channapatna, Siddlaghatta, Chikballapur and Chintamani newly brought under the Municipal Regulation, was sanctioned during the year. Out of 89 municipalities in the State, 33 had Municipal Councils constituted under the Regulation at the end of the year. General elections were held in 11 municipalities and 69 Municipal Councillors were elected.

49. The draft Municipal Account Manual, prepared under the supervision of the Comptroller, has been approved by Government. Such of the rules and forms in the Manual as are of general applicability have been ordered to be translated into Kannada and printed as a separate Manual.

Muzrai.

50. Seventy-two buildings connected with Muzrai Institutions were repaired during the year at a cost of Rs. 39,577, of which Rs. 25,057 came from the surplus funds of the institutions concerned and contributions from the devotees interested, and the balance of Rs. 14,520 was contributed by the State. A sum of Rs. 4,500 was invested during the year by a private individual at the favourable rate of 4% interest allowed for charitable purposes, thus bringing the total of such deposits to Rs. 2,49,600.

The Government Press and Stationery Departments.

51. The Press and Stationery Departments continued to be efficiently managed. There was a small decrease of about Rs. 8,000 in expenditure in the Press as compared with the previous year, the figures having been a lakh and sixteen thousand as against a lakh and twenty-four thousand. In the Stationery Department, the purchases for the year amounted to Rs. 1,02,000 including English and Indian papers and other articles, this amount being Rs. 8,000 in excess of the previous year. The additional cost was necessitated by the supply which had to be made to the newly created departments and to the increased demands of existing departments.

52. With a view to meet the growing requirements of the Press, and to provide suitable accommodation for the Stamp Manufactory which is in the charge of the Superintendent of the Press, the construction of an additional block of buildings to adjoin the present Press and Stationery buildings has been sanctioned at a cost of nearly Rs. 20,000. The buildings are approaching completion.

Government Gardens and Horticulture.

53. The Government Gardens in the State were maintained in an efficient condition during the year. A scheme for the extension and improvement of the Cubbon Park has been sanctioned, and work has been taken in hand. The seed depôt and the newly-opened fumigatorium in the Lal-Bagh did useful work. The introduction and cultivation of industrial plants, such as camphor, rubber, tan-oil and dye-yielding plants, and fibres continued to receive attention.

Archæology.

54. The number of new records copied during the year was 290, excluding inscriptions on temple bells, vessels, etc., which numbered 74. Among the epigraphical discoveries of the year, the inscriptions found on the rock to the west of Lakkidone at Sravanabelagola which go back to the 9th and 10th centuries are of some interest and importance. The Jaina epitaphs found at Ankanatapura near Hole-Narsipur, which may be assigned to the 10th century, afford evidence of the place having once been a great Jain Settlement.

55. Among the important manuscripts examined during the year were (1) Jinendra Kalyanabhyudaya by Ayyapparaya, a Sanskrit work treating of the mode of worshipping Jina and completed in A. D. 1319 at Ekasilanagara (*i.e.*, Warangal), in Rudrakumara's kingdom (2) Ramanujasidharta Vijaya, a philosophical work in Sanskrit criticising Vyasathirtha's Chandrika and written in the

17th century by a Swami of the Alagiyamanavalamatha of Kanchi known as Ramayajamatri Ramanujamuni and (3) Chandraprabha Charitre, a Kannada work in the Sangatya metre, giving an account of Chandraprabha, one of the Thirthankaras and written in 1578 A.D. by Doddanna, who belonged to Nittur in the Hoyasala country.

Meteorology.

56. The four Meteorological Observatories in Bangalore, Mysore, Hassan and Chitaldrug continued to maintain accurate records of observations. For the measurement of rainfall, 220 rain-gauge stations were maintained and properly worked in the State. It will be one of the duties of the Meteorological Observer in future to make a more detailed study of the Meteorological conditions of the State and keep Government informed of the seasonal conditions, by means of periodical reports.

Ethnographic Survey.

57. Out of about 50 monographs, in all, on the several castes in Mysore which were intended to be published, 30 have up to now been printed and published, of which 5 were done during the year under review. It is intended to publish all the monographs in a final volume, with illustrations and an introduction bearing on the ethnography of the State. A sum of Rs. 2,000 has been sanctioned towards the cost of illustrations in the volume.

Museum.

58. The Museum continued to maintain its popularity during the year. 385,521 persons visited the institutions, being an increase of 43,175 over the number of the previous year.

Census.

59. The work connected with the Census of 1911 is almost completed, only the printing of a small portion of the village Population Tables remaining to be done. With a view to direct attention to the more salient features of the recent Census and to enable the ordinary reader to readily obtain information relating to vital statistics without recourse to the bulky volumes of the Census Report, "A Brief Summary of the Mysore Census, 1911" has been published.

9. *Promulgation.*—With a view to disseminate widely and effectively the aim and scope of the Exhibition within the State, it is hereby directed that the Tahsildars and Inspectors of the Revenue Department, and the Deputy Inspectors of the General Education Department shall convene meetings of leading citizens, artisans, ryots, teachers, and other interested parties within their jurisdiction or range, and explain to them the value of the Exhibition. A full report of such meetings held shall be submitted to the Darbar through the respective Heads of Departments, and a copy thereof forwarded to the Committee for their information. The village officers shall announce the date and objects of the Exhibition by beat of tom tom and make a report thereof to their immediate superiors.

10. *An appeal.*—The Darbar further appeal to the non-official members of the Pudukkottai Representative Assembly, the Pudukkottai Agricultural Association and public Associations, Corporations, Committees, etc., outside the State formed for promoting Arts, Agriculture, Education and Industries, to co-operate with the Exhibition Committee to make the Exhibition a success.

11. *Permission to exhibit.*—Application from intending exhibitors for permission to exhibit shall reach the Secretary in the Form A, annexed, not later than the 1st of December, 1913. Each application, if from outside the State, should enclose a post card bearing the address, in full, of the exhibitor, and the receipt of the application, with any additional information that may be required, will be communicated by return of the same card.

12. *Special arrangements.*—Exhibitors who are in need of special accommodation for their articles or require special arrangements for their proper display should communicate early to the Secretary. In cases where such special arrangements have not been made already in the usual nature of things, the Committee will, at the request of the exhibitors make those arrangements, and recover the cost from the exhibitors. No fee shall be otherwise charged for accommodation.

13. *Demonstration facilities.*—Where the exhibitor wishes to exhibit any process of the working of any implement or machinery he should apply in time to the Secretary, and the Committee will then arrange to provide the required facili-

ties, either in the shape of skilled and unskilled labour or otherwise at the demonstrator's expense. Application for any relaxation of this Regulation will be considered by the Darbar on the recommendation of the Committee.

14. (*a*) *How to exhibit.*—Every exhibit should be forwarded bearing a ticket as per Form B, annexed, showing legibly the name of the sender, his address, and the price fixed for it, if for sale. A consolidated list of articles showing the number and description of articles should be sent along with each consignment, as per Form C, subjoined, in duplicate, one of which may be checked, receipted and returned by the Secretary.

(*b*) All exhibits coming under A, of the Agricultural section, should bear tickets giving information on the following particulars:—

(*b*) Works of art and articles of special merit including those of historical or scientific value will be thankfully accepted. Gentlemen who are willing to lend them are requested to place themselves in communication with the Secretary who will inform them of their acceptance, and make the necessary arrangements for their proper display.

22. *Non-descript exhibits.*—In cases where an application is made for exhibiting any article not included in the sub-joined list, the Committee may submit a recommendation to the Darbar with a request for permission to exhibit and award prizes, and the recommendation will be considered on its merits.

23. *Offer of special awards.*—The Committee will submit to the Darbar for their consideration, any offer of special prizes, medals or donations from private individuals or Associations made with a view to promote any branch of art or industry, and such offers, if permitted by the Darbar, will be thankfully accepted. Proposals for the offer of any of these special awards should reach the Secretary before the 15th of November, 1913 in the Form E, annexed.

24. *Classification of exhibits.*—The exhibits will be classified according to the prize list appended to this prospectus, and the exhibitors should quote on each article the group section and sub-section to which each belongs.

25. *Sale of exhibits.*—All sales shall be effected through the Exhibition Office.

26. *No admission fee.*—No fee shall be demanded for admission to visitors. However, no one will be admitted without a ticket which will be issued at stated hours at the gate. Passes will be granted on application to exhibitors or their agents who desire frequent ingress in the interests of their exhibits.

27. (*a*) *Removal of exhibits.*—No article, whether purchased, owned, or in the custody of any person, shall be removed from its place in the stalls or out of the Exhibition compound without a permit from the Secretary.

(*b*) Exhibitors will make their own arrangements for the prompt removal of their articles within two days after the closing of the Exhibition. Exhibits remaining after that time will be disposed of as the Committee deem fit as indicated in Regulation 17. Perishable articles will be allowed to be removed at the option of the owners after 24 hours of the opening of the Exhibition.

28. *Custody of exhibits.*—All valuable exhibits must invariably be forwarded and kept under the charge of an agent or attender of the owner.

29. Generally, arrangements will be made for posting responsible men to be in charge of the exhibits.

30. *Committee accept no responsibility.*—Though the Committee shall make necessary arrangements for their safe custody, no responsibility shall be accepted by the Committee for any damage to, or loss of, exhibits however occurring.

31. *Lectures.*—The Committee shall arrange for a series of addresses and lantern lectures possessing instructional and educational value, on Education, Arts and Agriculture. They shall invite or otherwise arrange for experts and specialists to deliver lectures on these subjects. Special arrangements will be made for accommodating and providing other facilities to lecturers, and distinguished visitors.

32. *Demonstrations and model lessons.*—The Committee shall also provide for an adequate number of demonstrations and model lessons.

33. *Conferences.*—There shall be three conferences respectively of Elementary Masters, High School Teachers, and leading ryots, and the deliberations of the conferences shall be embodied in the Committee's final report.

The Revenue Inspectors and Vattam officials are hereby directed to use all their influence for ensuring a full representation of the leading ryots in the State at the agricultural conference.

34. *Pamphlets.*—Short monographs on industrial, agricultural and educational topics will be thankfully accepted by the Committee and printed in pamphlet form for free distribution at the time of the Exhibition. The manuscripts should reach the Secretary before the 15th October 1913.

35. *Allowance to rural teachers.*—The Darbar will bear the travelling and halting allowances of all rural teachers of State and other recognised institutions situated beyond five miles from the Municipal limits, at the rate of one rupee per head: provided they have attended all the sessions. A reduction at the rate of four annas will be made for absence from every session, and absence from three sessions will entail forfeiture of the whole allowance.

36. *Allowance to ryots and artisans.*—Ryots and artisans of rural parts dwelling beyond five miles off the Municipal limits who wish to take part in the Agricultural and Industrial competitions will be granted a consolidated allowance of one rupee per head for travelling and halting charges on production of a certificate in the Form F, subjoined, signed by the Tahsildar of the Taluk testifying to the

fact that the certificate-holder is a *bona-fide* ryot or artisan and is qualified by skill and experience to take part in the competition for which he has entered his name, as also on the production of another certificate signed by the Secretary to the Exhibition Committee, declaring the fact of his having taken part in the said competition, and attended the agricultural lectures and conference.

37. *Appointment of Exhibition officers.*—The Committee will, before the 1st December 1913, submit a list of persons in State service or otherwise competent and qualified to explain the value and utility of exhibits of the various sections. They will, on approval, be so appointed, and enter on their duties a day before the opening of the Exhibition, and continue in office till the Exhibition closes, their duties being to afford all possible facilities to the visitors in the way of explanation and enlightenment.

38. *Appointment of judges.*—The Committee shall apply to the Darbar not later than a fortnight before the opening date for the appointment of competent persons to help them in judging the various sections of the exhibits and the several branches of the competition to be held in connection with the Exhibition. The judges so appointed shall enter on their duties on the 1st day of the Exhibition, and make a formal report to the Committee a week before the closing of the Exhibition, of the awards proposed and their opinions on the points desired by the Committee.

39. (*a*) *Judging.*—No exhibitor shall judge exhibits in the section in which he happens to be a competitor.

(*b*) No prizes shall be awarded unless in the opinion of the judges the exhibits merit encouragement.

40. *Closing day of Exhibition.*—The awards will be given away on the day of the closing of the Exhibition, and may take the shape of books, articles, or money in the case of inter-school competitions between pupils. The Secretary shall on that occasion read the report of the Committee on the working of the Exhibition, as also on the opening day the address of welcome.

41. *Final report.*—The Committee shall, within three months of the closing date, submit to the Darbar a full report of the Exhibition together with the accounts relating to the expenditure of the sum drawn by them. They shall then hand over charge of articles and records in their possession to the custody of the Superintendent of Schools. The Committee shall then be dissolved.

42. *Publication of final report.*—The report of the Committee together with the orders of the Darbar shall be published in the State Gazette and in separate book form for the information of the public.

43. *How to address communications* re *Exhibition.*—All communications relating to the Exhibition shall be addressed to the Secretary.

11—9—1913.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be the *bonâ fide* produce of, or have been raised by the exhibitors; and unless otherwise specified, must have been grown in Bangalore and in case of perennial plants the exhibitor must certify that plants have been in his possession for at least six months.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor acting contrary is liable to have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists' cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the same will be his or her property for good.

7. Out of the money prizes won with the cups, a sum of rupees 20, 15 respectively will be deducted to defray cost of a miniature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze Medals will be available for all classes and awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the Prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

COMMENCES AT 5-30 P.M.

	Rs.	Rs.	Rs.
Ladies' Decorated Bicycles ...	15	10	5

Grand Total ... Rs. 1,089

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be the *bonâ fide* produce of, or have been raised by the exhibitors; and unless otherwise specified, must have been grown in Bangalore and in case of perennial plants the exhibitor must certify that plants have been in his possession for at least six months.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor acting contrary is liable to have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists' cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the same will be his or her property for good.

7. Out of the money prizes won with the cups, a sum of rupees 20, 15 respectively will be deducted to defray cost of a miniature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze Medals will be available for all classes and awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the Prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

GENERAL CONDITIONS.

1. In view to arrangements being made for staging plants, it is requested that exhibitors will notify to the undersigned, at least four days prior to the Show, what number of pots they intend to enter and for what prize they intend to compete. Entry forms are supplied on application to the Superintendent, and exhibitors are requested to use these.

2. The large foliage groups should be ready arranged two days before the Show.

3. Plants intended for competition should be delivered in the Conservatory before 4 P.M. on the day previous to the Show.

4. Cut flowers may be delivered up till 2 P.M. on the day of the Show, but not later, if intended for competition.

5. No prize shall be awarded unless there are at least two competitors for it, except in cases of rare excellence, when the Judges will use their own discretion.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

7. Obtrusive staging, overcrowding, packing to conceal blemishes, artificial support to blooms, etc., will be judged as defects to an exhibit, preference being given to natural growth and artistic arrangement.

8. Where a number limit is laid down, any exhibit exceeding that number shall be disqualified.

9. Where one plant of each kind or variety is specified as a condition, any exhibit containing duplicates shall be disqualified.

NOTE.—For the purpose of the exhibition the words *kinds* and *varieties* may be illustrated as under:—Apples, oranges, figs, grapes, etc., are distinct *kinds* of fruits. Ribston Pippin, Blenheim Orange, Golden Reinette, etc., are distinct *varieties* of apples. Roses, Chrysanthemums, Dahlias, etc., are distinct *kinds* of flowers. Marechal Niel, Crimson Rambler, La France, etc., are distinct *varieties* of roses. Cabbage, Beans, Beet, Carrot, etc., are distinct *kinds* of vegetables. Sugar Loaf, Early Drumhead, Enfield Market, etc., are distinct *varieties* of cabbages.

10. Two or more persons may not compete for prizes separately with plants, etc., from the same garden.

11. If funds are available, the Judges may award special extra prizes in cases of exceptional merit.

12. All exhibits sent for competition must be the *bonâ fide* produce of, or have been raised by the exhibitors; and unless otherwise specified, must have been grown in Bangalore and in case of perennial plants the exhibitor must certify that plants have been in his possession for at least six months.

The Judges may withhold any prize until proof of these conditions be produced. Contractors bringing up fruit and vegetables for competition in their own name can compete for prizes but not for medals.

13. Exhibitors will not be permitted to remove their exhibits until the Show is closed, and gardeners and others found offering articles for sale before 6 P.M. on the day of the Show shall be summarily ejected.

14. No one can be a Judge in any class in which he may be an exhibitor.

15. Similarly, while judging is going on, no exhibitor is permitted to be in the Exhibition buildings and any exhibitor acting contrary is liable to have his exhibits disqualified.

16. The names of exhibitors can only be attached to exhibits when the judging has been completed.

The following Rules for awarding cups and medals at the Horticultural Shows are hereby notified to the public:—

1. His Highness the Maharaja has graciously presented three cups for competition at the Flower Shows.

(i) The Horticulturists' cup:—This will be competed for by Nurserymen and Horticulturists.

(ii) The amateur cup:—This will be competed for by private Gardeners.

These cups will be awarded to the Exhibitor who has obtained the highest aggregate in prizes won in all classes during the current Show.

(iii) The Floral Parade cup:—This cup will be awarded to the competitor who wins the first prize for the best florally decorated Bicycle at the current Show.

2. The money value of the prizes will be taken in calculating the aggregate.

3. A gold medal will, for purposes of the calculation, count 50% over the first prize, a silver medal equal to the first prize, and a bronze medal and "Highly commended" equal to the lowest prize in the respective group.

4. The cups will be held by the winners for the next six months under satisfactory arrangement for their safe custody.

5. Ten days before the following show the cups must be returned to the Superintendent, Lal-Bagh, for being again put up for competition at the Show.

6. Should a competitor win the cup at any two successive Shows, the same will be his or her property for good.

7. Out of the money prizes won with the cups, a sum of rupees 20, 15 respectively will be deducted to defray cost of a miniature facsimile cups to be given as a souvenir to the last winner, except, of course, when the cup is won outright.

8. Gold, Silver and Bronze Medals will be available for all classes and awarded at both the Summer and Winter Shows.

9. The following exhibitors will be qualified for the award of a medal:—

(*a*) The exhibitor of the best all-round exhibit in the appropriate class or classes.

(*b*) The exhibitor of an exhibit of more than ordinary excellence in any group.

(*c*) The exhibitor of any specially meritorious novelty.

10. Medals where awarded will be in place of the money prizes shown in the Prospectus against the respective items.

11. No exhibitor who has been awarded a medal in any group will be qualified to receive another medal in that group during the two calendar years succeeding that in which he has received the medal.

12. No exhibitor will be qualified to receive a medal who is not the *bonâ fide* cultivator of his exhibit or the actual occupant of the garden in which the exhibit was raised, *e.g.*, no contractor who has merely purchased fruit or vegetable exhibited will be eligible.

13. It will be open to the Judges to withhold any or all the medals in any Show on the ground of deficiency of merit in the exhibits.

The Flower Show opens on Saturday the 7th February 1914 at 3-30 P.M.
The Floral Parade takes place at 5-30 P.M.
